Schedule 1 The Specification

1 Background

1.1. We want all phases and types of schools to be able to identify special educational needs and promptly make suitable provision to meet those needs. This is just as important for children and young people in receipt of SEN support as it is for those who have an EHC plan. Meeting children's special educational needs includes having a strong focus on outcomes and preparing them for adulthood, and should be informed by a clear understanding of effective practice.

Schools have become increasingly autonomous and the system for supporting improvement is increasingly led by schools themselves. To improve in this changing system, schools need to be able to access school-to-school support and tap into sources of SEND sector expertise and system leadership. An effective approach in the classroom depends on effective systems across the school, and on strong and inclusive leadership. Schools need to share innovation and ensure they embed good SEND practice across all elements of school practice and policy – creating a truly inclusive environment. They also need to be able to access good quality and robust evidence about what works for all children with SEND and for particular groups.

2 Aims

2.1 The Contractor shall use all reasonable endeavours to achieve the following aims:

- Help teachers access the practical support they need to identify triggers that constitute SEN, and deliver effective SEN Support through the graduated response.
- Help schools to more effectively appraise approaches to pupils with SEND and how effectively they improve pupil outcomes.
- Enable schools to more effectively commission external expertise where needed, especially in relation to professional development in regard to specific types of SEND.
- Help schools embed good SEND practice within schools implementation of wider education reform (new curriculum, assessment, and professional development).
- Assess the extent to which schools usefully cover the PfA outcomes in Y9 reviews and how these are embedded in the EHC plan going forward; and building knowledge of how careers advice is given to pupils with SEND.

The whole contract will be underpinned by a model which centers around a school-to-school approach, and which hinges on the existing networks of teaching schools, National, Local and Specialist Leaders of Education (especially those with an SEN designation), as well as working with Academy Trusts and other umbrella bodies. We expect contractors to develop the market for school-to-school support in improving provision for pupils with SEND, creating a sustainable model which has a legacy beyond the lifetime of the contract. We also expect contractors to work openly

with other organisations supporting the school workforce, and make any products developed as part of the contract publically and freely available to all.

3 Objectives

3.1 The Contractor shall use all reasonable endeavours to achieve the following objectives:

- Use the SEND Review – including within it an audit framework that builds on best practice in school improvement – as a frame that can:
 - a. help schools and clusters of schools identify areas for development in support for children with SEND at a strategic level (at school and cluster level)
 - b. raise the profile of SEND as a school improvement and priority area for schools.
 - c. organise existing resources (which have been a considerable investment in the system) in a way that helps schools access them
 - d. provide the basis of school to school support and challenge – identifying and profiling schools that have excellent practice in supporting learners with SEND and building the capacity of these schools to support their peers
- Develop, test and take to scale approaches that:
 - a. motivates schools to use the SEND Review
 - b. supports school leaders to use the audit in an effective and efficient manner that includes challenge and support from peers
 - c. provides support and guidance that helps school leaders prioritise activities and implement recommendations guiding them to existing resource in the system for support
 - d. develops resource to meet already identified gaps in support; around supporting classroom teachers (SEND Teacher), deploying TAs and Preparing for Adulthood
 - e. identifies other potential areas where resources may need to be developed e.g. helping schools analyse data
- Refine and develop current SEND resources to help leaders and teachers develop a whole school SEN approach.
- Build models of school-to-school support and a school led system around SEND enabling the movement of SEND to the mainstream agenda.

4 Methodology

The Contractor shall perform the tasks detailed in the Schedule of Work.

- 4 If, during a Service Period, the Contractor:
 - 4.1 achieves a Service Level no Service Credits will accrue to the Contractor in respect of that Service Level;
 - 4.2 is below a Service Level the appropriate number of Service Points will accrue to the Contractor in respect of that Service Level; or
 - 4.3 fails to meet 4 or more Service Levels in any consecutive 3 months, the DFE may terminate the Contract and/or seek damages in addition to any Service Credits which have already been accrued by the Contractor and are payable by the Contractor to the DFE.

SERVICE CREDITS

- 5 Accrual of Service Credits shall entitle the DFE to a reduction in the Charges. The Contractor shall set-off the value of any Service Credits against the appropriate invoice in accordance with schedule 3. The mechanism for recovery of any Service Credits will be developed and agreed with the Contractor within the first 3 months of the Contract.
