FRAMEWORK AGREEMENT SCHEDULE 2

SPECIFICATION

PART 1: THE FRAMEWORK PROVIDER'S LOTS

The Framework Provider has been awarded the Lots below;

LOT 1: Animal Health Modelling Services	✓
LOT 2: Plant Health Modelling Services	

PART 2: SPECIFIED REQUIREMENTS

1. Background

- 1.1. The Authority is the United Kingdom (UK) Government Department responsible for the environment, food and farming and rural affairs. The Authority's priorities are to secure a healthy natural environment; a sustainable, low-carbon economy; a thriving farming sector and a sustainable, healthy and secure food supply.
- 1.2. The Authority is committed to ensuring the UK remains a world-leading food and farming nation based on high standards of animal and plant health and animal welfare. As a part of this, one of the Authority's key objectives is to ensure our country is well protected against natural threats and hazards.
- 1.3. As pests and pathogens can spread throughout GB irrespective of regional and political boundaries, the approach to managing an outbreak seeks complementary, consistent and co-ordinated measures in all regions. Responsibility for planning for and managing outbreaks of notifiable pests and pathogens in the different countries of GB falls to the respective Governments. Northern Ireland is recognised as a separate epidemiological unit and would expect to operate separate but similar controls in the event of an incident or outbreak.
- 1.4. Exotic diseases are pests and pathogens which are not normally present in the UK and are constantly present in various countries worldwide and becoming newly established in others. The risk of these diseases infecting animals and plants in the UK is usually low, but the threat continues and cannot be eliminated.
- 1.5. Endemic diseases are those pests and pathogens already present within the UK. Endemic diseases have the potential to result in substantial economic loss to industry and can have a significant impact upon animal and plant health and welfare.
- 1.6. The Authority takes lead on planning and responding to outbreaks of notifiable exotic diseases of animals such as Foot and Mouth Disease, African swine fever and Rabies. Outbreaks of these diseases cause animals to suffer, damage businesses, jeopardise international trade and cost the UK taxpayer significant sums of money. Some zoonotic diseases also pose risks to human health and food safety.
- 1.7. There are many plant pests and diseases which if they were to become established in the UK could cause serious damage to our crops, forestry and the wider environment. Such outbreaks could also jeopardise trade and may have extensive cost implications

for UK businesses and taxpayers. Official controls and restrictions on the import, movement and keeping of plants, plant pests and other material (e.g. soil) are vital to help prevent the introduction and spread of harmful organisms.

- 1.8. Quantitative modelling enhances the Authority's evidence base and provides additional specialist advice upon which policy decisions are taken. The main contribution of models to date has been towards the development and modification of disease prevention and control policy, proactively as well as in response to outbreaks. In doing so, quantitative modelling informs policies that support the protection of public health, the environment and the economy from animal and plant pests and diseases which in turn enables a sustainable, secure and healthy food supply. It also ensures that the Authority is better prepared to deal swiftly and efficiently with emergencies in its areas of responsibility.

2. Scope

- 2.1. The Framework Provider is appointed to the Animal and Plant Health Modelling Services Framework to supply animal and plant health modelling expertise and services via:
 - 2.1.1. **Lot 1 – Animal Health Modelling Services**
 - 2.1.2. **Lot 2 – Plant Health Modelling Services**
- 2.2. Both Lots are intended to be used in both emergency and non-emergency situations. The relevant call-off processes which will apply are described in section 11 of this Specification of Requirements.
- 2.3. Modelling and analytical requirements are for the whole of the UK. The Framework Provider may be required to perform analysis at a country level, government level, regional level, county level or other geographic level.
- 2.4. This Framework replaces the previous Animal and Plant Health Modelling Framework, reference 25333. This was the Authority's previous framework for animal and plant health modelling services which will expire in April 2024.

3. General Service Requirements

- 3.1. The Framework will give the Authority access to quantitative modelling capability and tools for animal and plant pest and disease modelling and expert analysis to meet occasional ad hoc policy requests. The Authority requires the Framework Provider to be available to respond to emergency situations in the form of expert consultation and/or input to modelling exercises. The purpose of carrying out this analysis is to inform policy decisions which may need to be made quickly, often based on evidence that is not complete.
- 3.2. In an outbreak, Lot 1 (Animal Health) Services may be required at short notice (within 48 hours).
- 3.3. Outlined below is a list of potential uses of the Framework:
 - 3.3.1. *Expert advice* – Provision of veterinary technical and scientific evidence in relation to epidemiological, pest and disease spread and other forms of dispersion, economic and wildlife population modelling and in response to specific questions on a developing policy in peacetime and outbreaks. Provision of advice and evidence will be used to support a policy team in identifying options.
 - 3.3.2. *Policy development and review* – For example testing specific policy options, such as Foot and Mouth Disease (FMD) or Bluetongue vaccination strategies or sheep identification and cost/benefit analysis of disease control strategies for established pests. For plant health this may include cost/benefit of control strategies such as *Phytophthora ramorum* or for the development of policy options for exotic pests - such as, Emerald Ash Borer.

- 3.3.3. *Impact assessments* – For example, the exploration of the impact of different sheep identification and movement systems or standstill regimes on disease control, in order to estimate the expected benefits as part of the assessment of options for implementing new legislation.
- 3.3.4. *Lessons identified/Contingency planning* – Based on the modelling of past epidemics, models can be used to answer questions of the type “what if this had been done differently?”. The answers to these questions may inform adjustment of control policies and/or contingency plans for tackling future outbreaks (a model which reproduces a range of possible scenarios can be used).
- 3.3.5. *Resource planning* – models of epidemics and their control can be used to estimate resource requirements so that these may be planned for. Resource planning is part of contingency planning, but models may also be useful real-time tools and may be used to predict the scale of increase in resource requirements in specific situations.
- 3.3.6. *Economic impact assessment* – Economic impact assessment of animal and plant diseases must be based on quantitative information about the impact of the disease. Such physical information might be data reported from an actual past outbreak but to contribute to future policy decisions and disease management planning it is likely to arise from a combination of expert opinion and epidemiological modelling. Diseases could be exotic such as FMD or African Swine Fever (ASF) or endemic such as Salmonella or Porcine Reproductive and Respiratory Syndrome (PRRS). For plant health this could cover diseases such as those caused by Phytophthora species or Sweet Chestnut Blight.
- 3.3.7. *Training and exercises* – models can be used as “virtual outbreak simulators” for training purposes.
- 3.3.8. *Surveillance targeting* – models can be used to indicate where it is most beneficial to target surveillance efforts. This is particularly important where resources are limited.
- 3.3.9. *Retrospective analysis* – where good data is available from past epidemics, models can be constructed as an aid to understanding the dynamics of the epidemic (requires a model to mimic a specific real-life epidemic).
- 3.3.10. *Emergency response* – models can be used to investigate recent past and short-term future pathogen spread in cases where a disease incident or an outbreak is in progress, to allow better targeting of mitigation measures.
- 3.3.11. *Risk quantification* – models can be used to quantify the risk of a pathogen entering and/or spreading within an area of interest. This may require the use of models of the distribution of susceptible domestic and wild hosts (and/or vectors), and can be used to identify data gaps and to inform mitigation measures.

Lot Specific Requirements: Lot 1 – Animal Health Modelling Services

4. Lot 1 Overview

- 4.1. Lot 1 covers the provision of modelling services and expertise for animal health. This may include expertise in areas such as species distribution, movement dynamics and host interaction. The Authority and/or Contracting Bodies may require some or all of the Services outlined in relation to government’s current or future policy interests in animal health. Current exotic diseases of interest include, but are not limited to, FMD, Swine Vesicular Disease, ASF, Classical Swine Fever, Avian Influenza, Newcastle Disease, and Vector Borne diseases including Bluetongue, Epizootic Haemorrhagic Disease and African Horse Sickness. Modelling of endemic diseases such as

Salmonella, Swine Influenza or Porcine Reproductive and Respiratory Syndrome may also be required.

- 4.2. The purpose of Lot 1 of this Framework is to provide access to quantitative animal health modelling capability and expert advice for domestic animals and wildlife hosts in the form of a pool of modelling expertise. This will provide quantitative modelling knowledge, tools and techniques which are available to be applied potentially at short notice, for example, to respond in an emergency or to answer an ad hoc policy request.
- 4.3. A secondary purpose of Lot 1 is to bring modelling groups and analysts closer to government for the purposes of sharing data and improving the modellers' understanding of data, in both cases to enhance the quality of model outputs. The purpose of this is to avoid situations where modellers publish misleading outputs based on unrealistic assumptions or a misunderstanding of the data used.
- 4.4. The Framework Provider shall, as a minimum, be expected to provide modelling expertise and consultancy to be coordinated by the Animal and Plant Health Agency (APHA).
- 4.5. Although the primary contact will be with APHA, the Framework Provider will have opportunities to regularly engage with the Authority and Devolved Administration policy and evidence teams on relevant modelling work and current disease priorities. The Framework Provider will also have the opportunity to work with APHA Epidemiology and Risk Policy Advice team (ERPA); the APHA, Biomathematics and Risk Research (BRR) group within the Department for Epidemiological Sciences (DES); the APHA Wildlife epidemiology and modelling group in the Wildlife Management Centre, the National Emergency Epidemiology Group (NEEG); and the APHA Field Epidemiology team.
- 4.6. The Contracting Body/APHA will, where possible, provide information on the datasets available and the information contained within these and will work with the data owner and the Framework Provider to facilitate the release of relevant datasets where possible and as required. These will be subject to appropriate Confidentiality Agreements, Data Sharing Protocols being set-up and in accordance with GDPR, and as determined by APHA.
- 4.7. There will be opportunities for engagement between the Framework Provider and Defra Economists as necessary so that modelling takes consideration of, and (where relevant), includes assessment of economic impacts.
- 4.8. The Contracting Body/APHA aim to host engagement meetings (up to four per annum), during which current issues will be discussed and collaborative opportunities identified. Attendance at these meetings is voluntary and at the Framework Provider's cost.
- 4.9. The Framework Provider may have the opportunity to collaborate in ad-hoc modelling and engagement exercises for policy development and/or outbreak preparedness and response purposes.

- 5.1.5. Where applicable, provide some or all of the Services outlined in relation to government's current or future policy interests in animal health and welfare.
- 5.2. When undertaking modelling work for the Authority, whether called-off in peacetime (i.e. not related to an emergency or outbreak) or an outbreak the Framework Provider shall:
 - 5.2.1. Confirm that the disease simulation model(s) is/are fit for purpose and appropriate for use for the specific request being commissioned. If models require work in order make them fit for purpose for a specific request, this ought to be communicated to the Authority as part of the bidding process, and an indication of the length of time it will take to update the model provided.
 - 5.2.2. Provide a summary document setting out model limitations, strengths, and appropriateness of use. The Framework Provider shall be responsible for updating the summary document as necessary;
 - 5.2.3. Provide evidence of quality assurance activities (for example but not limited to peer reviews, and workshops with experts) to ensure that the models meet the Contracting Body's quality assurance requirements; Quality assurance must be in line with relevant guidance from, but not limited to, the [AQUA book](#) and the [Code of Practice for Official Statistics](#). Quality assurance must also be in line with any relevant academic principles of quality.
 - 5.2.4. Populate and maintain their model(s) with relevant data and be able to accept disease outbreak reporting data so that outputs can be rapidly generated;
 - 5.2.5. Ensure that they access and use the datasets in accordance with GDPR guidelines and data sharing protocols set by the data owners.
- 5.3. In the event of an outbreak:
 - 5.3.1. The Contracting Body will make contact with all Framework Providers (regardless of whether Services are required to support an outbreak response) to alert them of the outbreak, thereby allowing for a more timely response if Services are subsequently required.

 - 5.3.2.3. Be willing to analyse models to generate recommendations for the control of current outbreaks. For example, the Framework Provider may be required to identify situations when vaccination would or would not be recommended, or identify optimum policies for the deployment of vaccination;
 - 5.3.2.4. Be willing to provide scientific advice and reporting to the NEEG.

- 5.3.2.5. Be willing to make representatives available to attend relevant Authority outbreak related meetings if required.
- 5.3.3. The Framework Provider may be invited to participate in an expert consultative forum for modelling convened on an ad-hoc basis during an outbreak. The Framework Provider's role in this instance will be to provide expertise on modelling including; how modelling may assist the outbreak response; interpretation of modelling results for a policy context which may include results from more than one model; and a challenge function to modelling procured.
- 5.3.4. If a Call-off Contract for Modelling Services is awarded to the Framework Provider and the requirement relates to supporting an outbreak response, the Framework Provider shall:
 - 5.3.4.1. Report model outputs in a wide variety of formats, and to different timescales (to be specified by the Contracting Body at the time of Call-off). During an outbreak, reporting may be required in a wide variety of formats depending on the nature of the work undertaken, for example; emails, short briefing papers or longer and more detailed reports with data analysis supported by tables and graphical outputs. In addition to this, verbal reporting and progress updates may be requested to be provided via teleconference. If a specific piece of modelling work is commissioned during an outbreak, the Framework Provider is not required to work at the location of the NDCC unless it is mutually beneficial to both parties.
 - 5.3.4.2. Communicate model assumptions and limitations clearly.
 - 5.3.4.3. Maintain regular contact with the Contracting Body, via defined and agreed routes of communication (normally via the NEEG). The Contracting Body will maintain regular contact with the Framework Provider regarding the evolving situation in relation to an outbreak.
- 5.3.5. The Framework Provider will also be required to participate in lessons learned sessions and any other close-down activities at the end of the outbreak.
- 5.4. Outside of an outbreak:

- 5.4.2.3. Engage with other organisations to ensure specialist input from other disciplines, including other institutions. This will require the Framework Provider to seek advice/involvement of others and communicate clearly and effectively with them to develop more useful scenarios.

6. Performance Management Framework

- 6.1. As part of the Authority's continuous drive to improve the performance of all contracts, this Performance Management Framework will be used to monitor, measure and control all aspects of the Framework Provider's performance of contract responsibilities under the Call-Off Contract.
- 6.2. The purpose of this Performance Management Framework is to set out the obligations on the Framework Provider, to outline how the Framework Provider's performance will be evaluated and to detail the sanctions for performance failure. The Framework Provider is responsible for the performance of any sub-contractors.
- 6.3. The use of a strong service credit regime accompanied by a proactive approach to correcting failures and addressing their cause improves the relationship and enables a partnership rather than a confrontational style of working. Its focus is on managing and improving service. It is not about taking cost out of the service.
- 6.4. Key Performance Indicators (KPIs) are set out at Table A below. They will be monitored on a monthly, quarterly or annual basis as appropriate to the Service and will form part of the Contract Performance Review.
- 6.5. The Authority will be entitled to refine, vary or modify the KPIs, performance standards and service credits from time to time during the Contract Period through a variation to be agreed with the Framework Provider using a Contract Change Note (CCN).
- 6.6. Where a KPI has a percentage measure, the Framework Provider's performance will be rounded to the nearest whole number.
- 6.7. The Authority will produce an annual Performance Management report, to be sent to the Framework Provider, detailing the Framework Provider's performance against KPIs. This will cover any training or deployment call-offs which have taken place during the period.
- 6.8. The Framework Provider will maintain their own management reports, including Issues Log, which will include detail on periodic checks to ensure quality.
- 6.9. Any performance issues highlighted in the reports will be addressed by the Framework Provider, who may be required to provide an improvement plan to address all issues highlighted within a week of receipt of the report. Performance management reports and KPI performance will be a key feature of any Contract Review meetings.
- 6.10. Where performance failure attributable to the Framework Provider is identified in the Performance Management report and relates to the KPIs then the service credit regime may apply, at the sole discretion of the Authority.

7. Service Credits

- 7.1. The use of service credits is governed by the following principles:
- 7.2. Service credits sit within the wider service management approach being pursued by the Framework Provider and the Contracting Body. Use of service credits does not preclude any other remedy for failure of performance available to the Contracting Body under the terms and conditions of the Call-Off Contract.

- 7.3. The service credit regime will be instigated on each occasion when there is a service failure within the performance monitoring period. Failure to meet a KPI may also give rise to a remediation plan.
- KPIs with a service credit rating of 0 will have no associated service credit.
 - KPIs with a service credit rating of 1 will have a service credit of 3% of the invoice amount for the associated Call-off Contract value applied for each KPI failure.
 - KPIs with a service credit rating of 2 will have a service credit of 5% of the invoice amount for the Call-off Contract value (the applicable quarterly period), applied for each KPI failure.
 - The maximum annual service credit to be applied will be no more than 10% of the total Call-off Contract value.
- 7.4. The Framework Provider will provide the Authority with the information listed in the Specification and such other supporting information as the Authority may reasonably request in order to determine the proper application of any service credits due.
- 7.5. For services where the Framework Provider is paid by the Authority, service credits will be paid to the Authority as a credit note to the next invoice, or if no invoice is due within 30 days of a performance report, then the Framework Provider will issue a bespoke credit note to the Authority.
- 7.6. For services where the Framework Provider recovers costs directly, service credits will be paid to individual users of the service as a credit note to their next invoice. The Framework Provider will propose how the service credit amounts will be applied to each user of the service.
- 7.7. The full, agreed service credit regime will operate from the initial delivery date until the end of the Contract Period. At the end of the first complete performance monitoring period, the Authority and the Framework Provider will enter into good faith discussions to review the KPIs and assess their effectiveness. The KPIs may be adjusted to ensure that they are appropriate and achievable.

8. Governance and Contract Management

- 8.1. The Framework Provider shall appoint a nominated person of appropriate grade to be the Framework Provider's Authorised Representative to manage the provision of the Service and to liaise with the Authority as required. At any meeting it will be assumed the Framework Provider's Authorised Representative will be authorised to make critical decisions.
- 8.2. The Framework Provider shall appoint a named individual as the Framework Provider's Authorised Representative who shall be responsible for the overall quality and timeliness of the Services to be provided.
- 8.3. An annual Framework Capability Review Meeting will be held between the Authority and the Framework Provider.
- 8.4. The Framework Provider may also be required to attend a Contract Performance Review Meeting in respect of any Call-off Contracts awarded to the Framework Provider. These may be held monthly or quarterly as appropriate to the Service requirements. Details of the governance requirements will be specified at the point of call-off.
- 8.5. The Framework Provider shall be responsible for any travel and subsistence costs incurred because of attendance at any Review Meeting. Meetings may also be held by teleconference with the agreement of all parties.

- 8.6. The Framework Provider shall be appropriately represented in person at all Review Meetings by an appointed Framework Provider's Authorised Representative that will be authorised to make critical decisions.

A3 Framework Provider's Status

A3.1 At all times during the Contract Period the Framework Provider shall be an independent Framework Provider and nothing in the Call-Off Contract shall create a contract of employment, a relationship of agency or partnership or a joint venture between the Parties and accordingly neither Party shall be authorised to act in the name of, or on behalf of, or otherwise bind the other Party save as expressly permitted by the terms of the Call-Off Contract.

A3.2 The Framework Provider shall not (and shall ensure that any other person engaged in relation to the Call-Off Contract shall not) say or do anything that might lead any other person to believe that the Framework Provider is acting as the agent or employee of the Customer.

A7.1 The Framework Provider shall take appropriate steps to ensure that neither the Framework Provider nor any Staff is placed in a position where, in the reasonable opinion of the Customer, there is or may be an actual conflict, or a potential conflict, between the pecuniary or personal interests of the Framework Provider and the duties owed to the Customer under the provisions of the Call-Off Contract. The Framework Provider will notify the Customer without delay giving full particulars of any such conflict of interest which may arise.

A7.2 The Customer reserves the right to terminate the Call-Off Contract immediately by notice in writing and/or to take or require the Framework Provider to take such other steps it deems necessary where, in the reasonable opinion of the Customer, there is or may be an actual conflict, or a potential conflict, between the pecuniary or personal interests of the Framework Provider and the duties owed to the Customer under the provisions of the Call-Off Contract. The Framework Provider is solely responsible for making good any damage to those Premises or any objects contained thereon, other than fair wear and tear, which is caused by the Framework Provider or any Staff, unless such damage is a result of the Services as agreed by the Parties.

B4 Manner of Carrying Out the Services

- B4.1 The Framework Provider shall at all times comply with the Quality Standards, and where applicable shall maintain accreditation with the relevant Quality Standards authorisation body. To the extent that the standard of Services has not been specified in the Call-Off Contract, the Framework Provider shall agree the relevant standard of the Services with the Customer prior to the supply of the Services and, in any event, the Framework Provider shall perform its obligations under the Call-Off Contract in accordance with the Law and Good Industry Practice.

- B5.2 The Customer may, by written notice to the Framework Provider, refuse to admit onto, or withdraw permission to remain on, the Premises:
 - B5.2.1 any member of the Staff; or
 - B5.2.2 any person employed or engaged by any member of the Staff,

- B5.4 If the Framework Provider fails to comply with clause B5.2 immediately upon request and in the reasonable opinion of the Customer, such failure may be prejudicial to the interests of the Customer, the Authority and/or the Crown, then the Customer may terminate the Call-Off Contract, provided always that such termination shall not prejudice or affect any right of action or remedy which shall have accrued or shall thereafter accrue to the Customer.
- B5.5 The decision of the Customer as to whether any person is to be refused access to the Customer's Premises and as to whether the Framework Provider has failed to comply with clause B5.4 shall be final and conclusive.
- B5.6 This Call-Off Contract constitutes a contract for the provision of services and not a contract of employment and accordingly, the Framework Provider shall be fully responsible for and shall indemnify the Customer for and in respect of any liability arising from any employment-related claim or any claim based on worker status (including reasonable costs and

F4.7 In the event that the Framework Provider assigns the right to receive the Contract Price under clause F4.6, the Framework Provider or the Assignee shall notify the Customer in writing of the assignment and the date upon which the assignment becomes effective.

F4.8 The Framework Provider shall ensure that the Assignee notifies the Customer of the Assignee’s contact information and bank account details to which the Customer shall make payment.

F4.9 The provisions of clause C2 (Payment and VAT) shall continue to apply in all other respects after the assignment and shall not be amended without Approval.

F4.10 Subject to clause F4.11, the Customer may assign, novate or otherwise dispose of its rights and obligations under the Call-Off Contract or any part thereof to:

F4.10.1 any Contracting Body; or

F4.10.2 any other body established by the Crown or under statute in order substantially to perform any of the functions that had previously been performed by the Customer; or

F4.10.3 any private sector body which substantially performs the functions of the Customer,

provided that any such assignment, novation or other disposal shall not unreasonably increase the burden of the Framework Provider’s obligations under the Call-Off Contract.

F4.11 Any change in the legal status of the Customer such that it ceases to be a Contracting Body shall not, subject to clause F4.12, affect the validity of the Call-Off Contract. In such

circumstances the Call-Off Contract shall bind and inure to the benefit of any successor body to the Customer.

F4.12 If the rights and obligations under the Call-Off Contract are assigned, novated or otherwise disposed of pursuant to clause F4.10 to a body which is not a Contracting Body or if there is a change in the legal status of the Customer such that it ceases to be a Contracting Body (in the remainder of this clause both such bodies being referred to as the “**Transferee**”):

F4.12.1 the rights of termination of the Customer in clauses H1 (Termination on Insolvency and Change of Control) and H2 (Termination on Default) shall be available to the Framework Provider in the event of respectively, the bankruptcy or insolvency, or Default of the Transferee; and

F4.13 The Customer may disclose to any Transferee any Confidential Information of the Framework Provider which relates to the performance of the Framework Provider’s obligations under the Call-Off Contract. In such circumstances the Customer shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Framework Provider’s obligations under the Call-Off Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.

F4.14 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the provisions of the Call-Off Contract.

F5 Waiver

F5.1 The failure of either Party to insist upon strict performance of any provision of the Call-Off Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Call-Off Contract.

F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause A5.2 (Notices).

F5.3 A waiver of any right or remedy arising from a breach of the Call-Off Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Call-Off Contract.

F6 Variation

F6.1 If, after the Commencement Date, the Customer’s requirements change, the Customer may request a Variation subject to the terms of this clause F6.

F6.2 The Customer may request a Variation by notifying the Framework Provider in writing of the Variation and giving the Framework Provider sufficient information to assess the extent of the Variation and consider whether any change to the Contract Price is required in order to implement the Variation within a reasonable time limit specified by the Customer. If the Framework Provider accepts the Variation it shall confirm it in writing.

F6.3 If the Framework Provider is unable to accept the Variation or where the Parties are unable to agree a change to the Contract Price, the Customer may:

F6.3.1 allow the Framework Provider to fulfil its obligations under the Call-Off Contract without the Variation; or

F6.3.2 terminate the Call-Off Contract immediately except where the Framework Provider has already delivered all or part of the Services or where the Framework Provider can show evidence of substantial work being carried out to fulfil the requirements of the Call-Off Contract; and in such case the Parties shall attempt to agree upon a resolution to the matter. If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).

F6.4 No Variation will take effect unless and until it is recorded in a validly executed CCN.

F6.6 The provisions of this clause F6 may be varied in an emergency if it is not practicable to obtain the Approvals within the time necessary to make the Variation in order to address the emergency. In an emergency, Variations may be approved by a different representative of the Customer. However, the Customer's Contract Manager shall have the right to review such a Variation and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Variation.

F7 Severability

F7.1 If any provision of the Call-Off Contract which is not of a fundamental nature is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision shall be severed and the remainder of the provisions of the Call-Off Contract shall continue in full force and effect as if the Call-Off Contract had been executed with the invalid, illegal or unenforceable provision eliminated.

F8 Extension of Contract Period

F8.1 The Customer may, by giving written notice to the Framework Provider, extend the Call-Off Contract for a further period up to the date set out in the Order Form, provided that the maximum Contract Period does not exceed two (2) years. F9 Remedies Cumulative

F9.1 Except as otherwise expressly provided by the Call-Off Contract, all remedies available to either Party for breach of the Call-Off Contract are cumulative and may be exercised concurrently or separately, and the exercise of any one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.

F10 Entire Agreement

F10.1 The Call-Off Contract constitutes the entire agreement between the Parties in respect of the matters dealt with therein. The Call-Off Contract supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any Fraud or fraudulent misrepresentation.

F11 Execution of the Call-Off Contract

- F11.1 This Call-Off Contract shall be formed on acceptance by the Framework Provider of the Order Form in accordance with clause 6.4 of the Framework Agreement. H3.1.1 by giving not less than twenty-four (24) hours' written notice to the Framework Provider; or

H5.4 Save as otherwise expressly provided in the Call-Off Contract:

H5.4.1 termination or expiry of the Call-Off Contract shall be without prejudice to any rights, remedies or obligations accrued under the Call-Off Contract prior to termination or expiration and nothing in the Call-Off Contract shall prejudice the right of either Party to recover any amount outstanding at such termination or expiry; and

H5.4.2 termination or expiry of the Call-Off Contract shall not affect the continuing rights, remedies or obligations of the Customer or the Framework Provider under clauses C2 (Payment and VAT), C3 (Recovery of Sums Due), D1 (Prevention of Bribery), E2 (Data Protection), E4 (Confidential Information), E5 (Freedom of Information), E7 (Intellectual Property Rights), E8 (Audit), E9 (Official Secrets Acts and Finance Act), F9 (Remedies Cumulative), G1 (Liability, Indemnity and Insurance), H6 (Consequences of Expiry or Termination), H7 (Recovery upon Termination) and I1 (Governing Law and Jurisdiction).

- H8.7 The Framework Provider shall co-operate fully with the Customer during the handover arising from the completion or earlier termination of the Call-Off Contract. This co-operation, during the period of the new Framework Provider setting up operations, shall extend to allowing full access to, and providing copies of, all documents, reports, summaries and any other information necessary in order to achieve an effective transition without disruption to routine operational requirements.
- H8.8 Within ten (10) Working Days of being so requested by the Customer, the Framework Provider shall transfer to the Customer, or any person designated by the Customer, free of charge, all computerised filing, recording, documentation, planning and drawing held on software and utilised in the provision of the Services. H10.1 The Framework Provider shall co-operate fully with the Customer in order to enable an efficient and detailed knowledge transfer from the Framework Provider to the Customer on the completion or earlier termination of the Call-Off Contract and in addition, to minimise any disruption to routine operational requirements. To facilitate this transfer, the Framework Provider shall provide the Customer free of charge with full access to its Staff, and in addition, copies of all documents, reports, summaries and any other information requested by the Customer. The Framework Provider shall comply with the Customer's request for information no later than fifteen (15) Working Days from the date that that request was made.

I1.1 Subject to the provisions of clause I2 (Dispute Resolution), the Call-Off Contract and any dispute or claim arising out of or in connection with it or its subject matter or formation (including non-contractual disputes or claims) shall be governed by and interpreted in accordance with the law of England and Wales and shall be subject to the jurisdiction of the Courts of England and Wales. The submission to such jurisdiction shall not (and shall not be construed so as to) limit the right of the Customer to take proceedings against the Framework Provider in any other court of competent jurisdiction, nor shall the taking of proceedings in any other court of competent jurisdiction preclude the taking of proceedings in any other jurisdiction whether concurrently or not.

I2 Dispute Resolution

I2.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Call-Off Contract within twenty (20) Working Days of either Party notifying the other of the dispute and such efforts shall involve the escalation of the dispute to the finance director (or similar) of the Framework Provider and the commercial director of the Customer.

- 12.2 Nothing in this dispute resolution procedure shall prevent the Customer from seeking from any court of competent jurisdiction an interim order restraining the Framework Provider from doing any act or compelling the Framework Provider to do any act.
- 12.3 If the dispute cannot be resolved by the Parties pursuant to clause 12.1 either Party may refer it to mediation pursuant to the procedure set out in clause 12.5 in accordance with the Centre for Effective Dispute Resolution (CEDR) Model Mediation Procedure.

8.3 The rights, powers and remedies provided in this Agreement are cumulative and not exclusive of any rights, powers or remedies provided by law. No failure or delay by either Party to exercise any right, power or remedy will operate as a waiver of it nor will any partial exercise preclude any further exercise of the same, or of some other right, power or remedy.

- 8.4 Without prejudice to any other rights or remedies that either Party may have, each Party acknowledges and agrees that damages alone may not be an adequate remedy for any breach by a Receiving Party of the provisions of this Agreement. Accordingly, each Party acknowledges that the Authority shall be entitled to the remedies of injunction and specific performance as well as any other equitable relief for any threatened or actual breach of this Agreement and/or breach of confidence and that no proof of special damages shall be necessary for the enforcement of such remedies.
- 8.5 Each Party will be responsible for all costs incurred by it or on its behalf in connection with this Agreement.
- 8.6 This Agreement may be executed in any number of counterparts and by the Parties on separate counterparts, but shall not be effective until each Party has executed at least one counterpart. Each counterpart shall constitute an original of this Agreement, but all the counterparts shall together constitute but one and the same instrument.

9 SEVERANCE

- 9.1 If any provision of this Agreement (or part of any provision) is or becomes illegal, invalid or unenforceable, the legality, validity and enforceability of any other provision of this Agreement shall not be affected.
- 9.2 If any provision of this Agreement (or part of any provision) is or becomes illegal, invalid or unenforceable but would be legal, valid and enforceable if some part of it was deleted or modified, the provision or part-provision in question shall apply with such deletions or modifications as may be necessary to make the provision legal, valid and enforceable. In the event of such deletion or modification, the parties shall negotiate in good faith in order to agree the terms of a mutually acceptable alternative provision.

10 THIRD PARTY RIGHTS

- 10.1 A person who is not a Party to this Agreement has no right under the Contracts (Rights of Third Parties) Act 1999 (as amended, updated, or replaced from time to time) to enforce any term of this Agreement but this does not affect any right or remedy of any person which exists or is available otherwise than pursuant to that Act.

FRAMEWORK AGREEMENT SCHEDULE 14

SECURITY REQUIREMENTS

INTERPRETATION AND DEFINITION

For the purposes of this Schedule 14, unless the context otherwise requires the following provisions shall have the meanings given to them below:

“Breach of Security” means the occurrence of unauthorised access to or use of the Premises, the Premises, the Services, the Contractor System, or any ICT or data (including Customer Data) used by the Customer or the Contractor in connection with the Call-Off Contract.

“Contractor Equipment” means the hardware, computer and telecoms devices and equipment supplied by the Contractor or its Sub-Contractor (but not hired, leased or loaned from the Customer) for the provision of the Services;

“Contractor Software” means software which is proprietary to the Contractor, including software which is or will be used by the Contractor for the purposes of providing the Services and which is specified as such in the Order Form.

“ICT” means Information Communications Technology and includes a diverse set of technological tools and resources used to communicate, and to create, disseminate, store and manage information, including computers, the Internet, broadcasting technologies (radio and television), and telephony.

“Protectively Marked” shall have the meaning as set out in the Security Policy Framework.

“Security Plan” means the Contractor’s security plan prepared pursuant to paragraph 3 an outline of which is set out in an Appendix to this Schedule 14.

“Software” means Specially Written Software, Contractor Software and Third Party Software.

“Specially Written Software” means any software created by the Contractor (or by a third party on behalf of the Contractor) specifically for the purposes of the Call-Off Contract.

“Third Party Software” means software which is proprietary to any third party which is or will be used by the Contractor for the purposes of providing the Services including the software and which is specified as such in the Order Form.

1. PRINCIPLES OF SECURITY

1.1 The Contractor acknowledges that the Customer places great emphasis on confidentiality, integrity and availability of information and consequently on the security of the Premises and the security for the Contractor System. The Contractor also acknowledges the confidentiality of Customer Data.

1.2 The Contractor shall be responsible for the security of the Contractor System and shall at all times provide a level of security which:

1.2.1 is in accordance with Good Industry Practice and Law;

1.2.2 complies with Security Policy Framework; and

1.2.3 meets any specific security threats to the Contractor System.

1.3 Without limiting paragraph 1.2, the Contractor shall at all times ensure that the level of security employed in the provision of the Services is appropriate to maintain the following at acceptable risk levels (to be defined by the Customer):

1.3.1 loss of integrity of Customer Data;

1.3.2 loss of confidentiality of Customer Data;

1.3.3 unauthorised access to, use of, or interference with Customer Data by any person or organisation;

1.3.4 unauthorised access to network elements, buildings, the Premises, and tools used by the Contractor in the provision of the Services;

1.3.5 use of the Contractor System or Services by any third party in order to gain unauthorised access to any computer resource or Customer Data; and

1.3.6 loss of availability of Customer Data due to any failure or compromise of the Services.

2. SECURITY PLAN

2.1 The Contractor shall develop, implement and maintain a Security Plan to apply during the Contract Period (and after the end of the term as applicable) which will be approved by the Customer, tested, periodically updated and audited in accordance with this Schedule 14.

2.2 A draft Security Plan provided by the Contractor as part of its bid is set out herein.

2.3 Prior to the Commencement Date the Contractor will deliver to the Customer for approval the final Security Plan which will be based on the draft Security Plan set out herein.

2.4 If the Security Plan is approved by the Customer it will be adopted immediately. If the Security Plan is not approved by the Customer the Contractor shall amend it within 10 Working Days of a notice of non-approval from the Customer and re-submit to the Customer for approval. The Parties will use all reasonable endeavours to ensure that the approval process takes as little time as possible and in any event no longer than 15 Working Days (or such other period as the Parties may agree in writing) from the date of its first submission to the Customer. If the Customer does not approve the Security Plan following its resubmission, the matter will be resolved in accordance with clause I2 (Dispute Resolution). No approval to be given by the Customer pursuant to this paragraph 3.4 may be unreasonably withheld or delayed. However any failure to approve the Security Plan on the grounds that it does not comply with the requirements set out in paragraphs 2.1 to 2.4 shall be deemed to be reasonable.

2.5 The Security Plan will set out the security measures to be implemented and maintained by the Contractor in relation to all aspects of the Services and all processes associated with the delivery of the Services and shall at all times comply with and specify security measures and procedures which are sufficient to ensure that the Services comply with:

- 2.5.1 the provisions of this Schedule 14;
 - 2.5.2 the provisions of the Services relating to security;
 - 2.5.3 the Information Assurance Standards;
 - 2.5.4 the data protection compliance guidance produced by the Customer;
 - 2.5.5 the minimum set of security measures and standards required where the system will be handling Protectively Marked or sensitive information, as determined by the Security Policy Framework;
 - 2.5.6 any other extant national information security requirements and guidance, as provided by the Customer's IT security officers; and
 - 2.5.7 appropriate ICT standards for technical countermeasures which are included in the Contractor System.
- 2.6 The references to Quality Standards, guidance and policies set out in this Schedule 14 shall be deemed to be references to such items as developed and updated and to any successor to or replacement for such Quality Standards, guidance and policies, from time to time.
- 2.7 If there is any inconsistency in the provisions of the above standards, guidance and policies, the Contractor should notify the Authorised Representative of such inconsistency immediately upon becoming aware of the same, and the Authorised Representative shall, as soon as practicable, advise the Contractor which provision the Contractor shall be required to comply with.
- 2.8 The Security Plan will be structured in accordance with ISO/IEC27002 and ISO/IEC27001 or other equivalent policy or procedure, cross-referencing if necessary to other schedules of the Call-Off Contract which cover specific areas included within that standard.
- 2.9 The Security Plan shall not reference any other documents which are not either in the possession of the Customer or otherwise specified in this Schedule 14.

3. AMENDMENT AND REVISION

- 3.1 The Security Plan will be fully reviewed and updated by the Contractor annually or from time to time to reflect:
- 3.1.1 emerging changes in Good Industry Practice;
 - 3.1.2 any change or proposed change to the Contractor System, the Services and/or associated processes;
 - 3.1.3 any new perceived or changed threats to the Contractor System;
 - 3.1.4 changes to security policies introduced Government-wide or by the Customer; and/or
 - 3.1.5 a reasonable request by the Customer.

3.2 The Contractor will provide the Customer with the results of such reviews as soon as reasonably practicable after their completion and amend the Security Plan at no additional cost to the Customer.

3.3 Any change or amendment which the Contractor proposes to make to the Security Plan (as a result of a Customer request or change to the Services or otherwise) shall be subject to a CCN and shall not be implemented until Approved.

4. AUDIT AND TESTING

4.1 The Contractor shall conduct tests of the processes and countermeasures contained in the Security Plan ("Security Tests") on an annual basis or as otherwise agreed by the Parties. The date, timing, content and conduct of such Security Tests shall be agreed in advance with the Customer.

4.2 The Customer shall be entitled to send a representative to witness the conduct of the Security Tests. The Contractor shall provide the Customer with the results of such tests (in an Approved form) as soon as practicable after completion of each Security Test.

4.3 Without prejudice to any other right of audit or access granted to the Customer pursuant to the Call-Off Contract, the Customer shall be entitled at any time and without giving notice to the Contractor to carry out such tests (including penetration tests) as it may deem necessary in relation to the Security Plan and the Contractor's compliance with and implementation of the Security Plan. The Customer may notify the Contractor of the results of such tests after completion of each such test. Security Tests shall be designed and implemented so as to minimise the impact on the delivery of the Services.

4.4 Where any Security Test carried out pursuant to paragraphs 4.2 or 4.3 reveals any actual or potential security failure or weaknesses, the Contractor shall promptly notify the Customer of any changes to the Security Plan (and the implementation thereof) which the Contractor proposes to make in order to correct such failure or weakness. Subject to Approval in accordance with paragraph 3.3, the Contractor shall implement such changes to the Security Plan in accordance with the timetable agreed with the Customer or, otherwise, as soon as reasonably possible. For the avoidance of doubt, where the change to the Security Plan to address a non-compliance with the Security Policy Framework or security requirements, the change to the Security Plan shall be at no additional cost to the Customer. For the purposes of this paragraph, a weakness means a vulnerability in security and a potential security failure means a possible breach of the Security Plan or security requirements.

5. BREACH OF SECURITY

5.1 Either Party shall notify the other immediately upon becoming aware of any Breach of Security including, but not limited to an actual, potential or attempted breach, or threat to, the Security Plan.

5.2 Upon becoming aware of any of the circumstances referred to in paragraph 5.1, the Contractor shall immediately take all reasonable steps necessary to:

5.2.1 remedy such breach or protect the Contractor System against any such potential or attempted breach or threat; and

5.2.2 prevent an equivalent breach in the future.

5.3 Such steps shall include any action or changes reasonably required by the Customer. If such action is taken in response to a breach that is determined by the Customer acting reasonably not to be covered by the obligations of the Contractor under the Call-Off Contract, then the Contractor shall be entitled to refer the matter to the CCN procedure set out in Schedule 1.

5.4 The Contractor shall as soon as reasonably practicable provide to the Customer full details (using such reporting mechanism as may be specified by the Customer from time to time) of such actual, potential or attempted breach and of the steps taken in respect thereof.
