STATEMENT OF REQUIREMENTS

The provision to support the alignment of the L5 Computer Network Management Foundation Degree to the Petty Officer Engineering Technician Communications Information Systems (POET(CIS)) WE305 Course.

Introduction

The current Royal Navy (RN) Engineering Technician (Weapons Engineering) (Communications and Informations Systems) Specialist (ET(WE)(CIS) Spec) training is made up of legacy Warfare training, that is not fit for purpose and does not support the future vision for a digitised Navy. RN training packages have now been redesigned to support the current information environment, but accreditation is required to support this vision. The inclusion of L5 Computer Network Management Foundation Degree for our POET(CIS) is considered beneficial to the RN, the individual and wider UK industry.

Governance

1. Accreditation within the RN is governed by the Learning & Development Organisation (LDO) based in HMS Collingwood, Fareham, Hampshire.

Detailed SOR

2. This SOR comprises 4 further elements:
- a. Section 1A – Scope of Work
 - b. Section 1A – Specific Delivery Requirements to the Royal Navy.
 - c. Section 2 – Specific Programme Information.

SECTION 1A – SCOPE OF WORK

Requirements include, but are not limited to:

Ser	Requirement
1.	Accredit the L5 Computer Network Management Foundation Degree to the Petty Officer Engineering Technician Communications Information Systems (POET(CIS)) WE305 Course, with appropriate recognition of prior learning and experience
2.	Review course content, teaching processes, assessment methodologies and validation [this would be a light-touch approach unless there are issues that arise as time goes on]
3.	Although the FdSc on its own would not lead to professional registration, we expect that there is a Special Registration Agreement (SRA) in place between the CIS branch and the likes of IET? If not and if the FdSc needs to be accredited in its own right, that would take some time but we'd support the RN to achieve that.
4.	Attend regular meetings in order to provide feedback to the School on the progress of students and the working of the Contract.
5.	Ability to work with the school staff; a mixture of military, civil servant and MOD Contractors and to be flexible enough to deal with the way in which the training is already being delivered and assessed.
