Annex A to Schedule 1: Statement of Work

The Digital Academy team are responsible for Digital learning as a service for MOD and they have approached The Inform Team to submit a proposal for a variety of learning activities.

The request includes the development and delivery of SNAK (Sharing New and Acquired Knowledge) sessions on the Microsoft 365 apps; storyboard for a module on designing effective eLearning courses; and an eLearning Induction course for MODnet users.

Before the activities commence there will be a discovery briefing to understand preferred creative styles, learning styles, promotional activities and to confirm scope and content of the different courses.

The three activities are as follows:

Activity one:

- run a series of instructor-led SNAK (Sharing New and Acquired Knowledge) style sessions on the Microsoft 365 apps, e.g. Excel, Sharepoint, Word and Teams, concentrating on their basic use on MODnet.
- scope and content to be agreed by both parties once the contract is awarded.

Deliverables to include:

- associated collateral to support the sessions, e.g. lesson plans, slide decks, evaluation forms, post course emails.
- recorded version of each session to be used as eLearning (learning in the flow of work).
- use of the MODNET made easy booking tool and associated admin
- reporting on attendance
- promotional activities to market the sessions and raise awareness across MOD.

Activity two:

Deliverables to include:

- establish and agree the learning goals of the module
- pull together the content and turn it into a storyboard, likely in PowerPoint format, to be converted to eLearning
- support the Digital Academy team in testing the course material, allowing for adjustments and modifications to the course content if necessary.

- creative resource to support Digital Academy staff to create a professional, engaging, eLearning module (if required).
- promotional activities to market the sessions and raise awareness across MOD.

Activity three:

- Using the content from the instructor-led, MODNET made easy 'MODNET Official Induction' courses (created and delivered by The Inform Team), create an eLearning induction course for MODnet users. This would make up the first part of a wider Induction suite for using ICT in the workplace.

Deliverables to include:

- establish and agree the learning goals of the module
- research the tools being used to benchmark digital skills by Digital Academy and the TLBs and ensure the induction training supplements where possible.
- pull together the content and turn it into a storyboard, likely in PowerPoint format, to be converted to eLearning
- support the Digital Academy team in testing the course material, allowing for adjustments and modifications to the course content if necessary.
- creative resource to support Digital Academy staff to create a professional, engaging, eLearning module (if required).
