The intention is to transform the old tennis courts into a modern multi-functional space for a range of ball sport activities including football, cricket, netball and basketball and to retain an area for tennis. This will be done through the provision of a 30m x 18m MUGA system (installed by others). A single tennis court will be provided with new all year round nets and new 2m high fencing. The tennis playing surface will be refurbished and line makings provided.

Steps bad!

The steps to the tennis courts will be removed and replaced with a gentle sloping path to allow access for all to the new facility.

New gentle path good!

Right: New park entrance to be formed to allow all ability access to the MUGA/tennis courts.
