

TENDER DOCUMENT

LIGHTING CONTROL – PROVISIONAL SUM

25 September 2023

Dear Tenderer

In section 3.3.2 of the electrical specification the gallery lighting control is required to be replaced with an open protocol system such as Casambi.

Some tenderers have tried to contact Casambi and been unable to get a response. Whilst the control system does not have to be supplied by Casambi the most equitable approach is to introduce this as a provisional sum.

Please include for the gallery lighting control as a provisional sum of £15,000.00 and identify it clearly in your tender price.

Thank you

Tim Wood

Project Manager.
