 - (i) instruct the Supplier to comply with the Rectification Plan Process;
 - (ii) suspend this Contract (whereupon the relevant provisions of Clause 43 (Partial Termination, Suspension and Partial Suspension) shall apply) and step-in to itself supply or procure a third party to supply (in whole or in part) the Services;
 - (iii) without terminating or suspending the whole of this Contract, terminate or suspend this Contract in respect of part of the provision of the Services only (whereupon the relevant provisions of Clause 43 (Partial Termination, Suspension and Partial Suspension) shall apply) and step-in to itself supply or procure a third party to supply (in whole or in part) such part of the Services.

If the Parties do not agree on the root cause set out in the draft Rectification Plan, either Party may refer the matter to be determined by an expert in accordance with Dispute Resolution Procedure.

 - (d) will rectify the Default but in a manner which is unacceptable to DFID.

- 39.2.4 DFID shall notify the Supplier whether it consents to the draft Rectification Plan as soon as reasonably practicable. If DFID rejects the draft Rectification Plan, DFID shall give reasons for its decision and the Supplier shall take the reasons into account in the preparation of a revised Rectification Plan. The Supplier shall submit the revised draft of the Rectification Plan to DFID for review within five (5) Working Days (or such other period as agreed between the Parties) of the DFID's notice rejecting the first draft.

Any failure or delay by the Supplier in performing its obligations under this Contract which results from a failure or delay by an agent, Sub-Contractor or supplier shall be regarded as due to a Force Majeure Event only if that agent, Sub-Contractor or supplier is itself impeded by a Force Majeure Event from complying with an obligation to the Supplier.

- 40.4 Subject to DFID's right to terminate set out in Clause 40.5, the Parties shall at all times following the occurrence of a Force Majeure Event and during its subsistence use their respective reasonable endeavours to prevent and mitigate the effects of the Force Majeure Event. The Supplier shall ensure that each of the Insurances is effective no later than the Commencement Date.
- 1.2 The Insurances shall be maintained in accordance with Good Industry Practice and (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent Contractor in respect of risks insured in the international insurance market from time to time.
- 1.3 The Insurances shall be taken out and maintained with insurers who are of good financial standing and of good repute in the international insurance market.
- 1.4 The Supplier shall ensure that the public and products liability policy shall contain an indemnity to principals clause under which DFID shall be indemnified in respect of claims made against DFID in respect of death or bodily injury or third party property damage arising out of or in connection with the Services and for which the Supplier is legally liable.

2.GENERAL OBLIGATIONS

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to the Services as it would be reasonable to expect of a prudent Contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;

Receipt of such evidence by DFID shall not in itself constitute acceptance by DFID or relieve the Supplier of any of its liabilities and obligations under this Agreement.

5.AGGREGATE LIMIT OF INDEMNITY

- 5.1 Where the minimum limit of indemnity required in relation to any of the Insurances is specified as being "in the aggregate":
 - 5.1.1 if a claim or claims which do not relate to this Contract are notified to the insurers which, given the nature of the allegations and/or the quantum claimed by the third party(ies), is likely to result in a claim or claims being paid by the insurers which could reduce the level of cover available below that minimum, the Supplier shall immediately submit to DFID:
 - (a) details of the policy concerned; and

- (b) its proposed solution for maintaining the minimum limit of indemnity specified; and
- 5.1.2 if and to the extent that the level of insurance cover available falls below that minimum because a claim or claims which do not relate to this Contract are paid by insurers, the Supplier shall:
 - (a) ensure that the insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified for claims relating to this Contract; or
 - (b) if the Supplier is or has reason to believe that it will be unable to ensure that insurance cover is reinstated to maintain at all times the minimum limit of indemnity specified, immediately submit to DFID full details of the policy concerned and its proposed solution for maintaining the minimum limit of indemnity specified.

6. CANCELLATION

In the event that DFID receives a claim relating to or arising out of the Services or this Contract, the Supplier shall co-operate with DFID and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.
- 7.2 Except where DFID is the claimant party, the Supplier shall give DFID notice within twenty (20) Working Days after any insurance claim in excess of £100,000 relating to or arising out of the provision of the Services or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by DFID) full details of the incident giving rise to the claim.
- 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. DFID Supply Partner Code of Conduct

Principles

DFID aims to create an inclusive culture of best practice with the delivery partners with whom it engages and which receive UK taxpayers' funds. All supply partners should adhere to the overarching principles of the Supply Partner Code of Conduct (Code).

Overarching Principles for Supply Partners

- ✓ **Act responsibly and with integrity**
- ✓ **Demonstrate commitment to poverty reduction and DFID priorities¹**, including work in fragile and conflict affected states, recognition of human rights, focus on girls and women, youth engagement, climate change and wealth creation
- ✓ **Demonstrate commitment to wider HMG priorities²**
- ✓ **Seek to improve value for money**
- ✓ **Be transparent and accountable**

DFID Supply Partner responsibilities

Supply partners and their Sub-Contractors should ensure they have read and understood the Code and their required compliance level and seek clarification from DFID where necessary. In particular, it is important that the supply partners and their Sub-Contractors understand any risks and have systems in place to manage them. The 3 compliance levels are:

Compliance Level 1 - Supply partners with an individual contract value of £1m or above, or two or more contracts with DFID with a combined value of £5m or above

Compliance Level 2 - Supply partners with an individual contract value below £1m, or two or more contracts with DFID with a value of less than £5m

¹ <https://www.gov.uk/government/organisations/department-for-international-development/about#priorities>

² <https://www.gov.uk/government/organisations/hm-treasury/about#priorities>

Compliance Level 3 – Supply partners with an individual contract value, or component of a Contract, with a value below the EU Threshold. At this level supply partners are required to adhere to the overarching Code principles and recognise, mitigate and manage risks. These supply partners will not be monitored against the contractual KPIs.

Scope

This Code forms part of DFID’s standard contractual terms and conditions and full compliance and annual verification via a signed declaration, to be found at Annex 1b, is mandatory for supply partners. DFID will monitor supply partners in six priority areas as set out below using a set of Key Performance Indicators (KPIs) referenced in Annex 1a and 1b.

1. Value for Money and Governance Key Performance Indicators KPI 1 a - c

Value for Money is an essential requirement of all DFID commissioned work. All supply partners must seek to maximise development results, whilst driving cost efficiency, throughout the life of commissioned programmes. This includes budgeting and pricing realistically and appropriately to reflect delivery requirements and levels of risk over the life of the programme. It also includes managing uncertainty and change to protect value in the often challenging environments that we work in.

Supply partners must demonstrate that they are pursuing continuous improvement to reduce waste and improve efficiency in their internal operations and within the delivery chain. DFID expects supply partners to demonstrate openness and honesty and to be realistic about capacity and capability at all times, accepting accountability and responsibility for performance along the full delivery chain, in both every-day and exceptional circumstances.

Specific requirements include:

- ✓ Provision of relevant VfM and governance policies and a description of how these are put into practice to meet DFID requirements (e.g. codes on fraud and corruption, due diligence);
- ✓ A transparent, open book approach, which enables scrutiny of value for money choices, applies pricing structures that align payments to results and reflects an appropriate balance of performance risk;
- ✓ Processes for timely identification and resolution of issues and for sharing lessons learned.

2. Ethical Behaviour Key Performance Indicators KPI 2 a- f

DFID supply partners and their Sub-Contractors act on behalf of government and interact with citizens, public sector/third sector organisations and the private sector. These interactions must therefore meet the highest standards of ethical and professional behaviour that upholds the reputation of government.

Arrangements and relationships entered into, whether with or on behalf of DFID, must be free from bias, conflict of interest or the undue influence of others. Particular care must be taken by staff who are directly involved in the management of a programme, procurement, contract or relationship with DFID, where key stages may be susceptible to undue influence. In addition, supply partners and their Sub-Contractors must not attempt to influence a DFID staff to manipulate programme monitoring and management to cover up poor performance.

Supply partners and their Sub-Contractors must declare to DFID any instances where it is intended that any direct or delivery chain staff members will work on DFID funded business where those staff members have any known conflict of interest or where those staff members have been employed by DFID or the Crown in the preceding two

years. Supply partners and their Sub-Contractors must provide proof of compliance with the HMG approval requirements under the Business Appointment Rules.

Supply partners and their Sub-Contractors must have the following policies and procedures in place:

- ✓ Recruitment policy (which must address circumstances where there may be potential or actual conflict of interest)
- ✓ Ongoing conflict of interest, mitigation and management
- ✓ Refresher ethical training and staff updates (including awareness of modern day slavery and human rights abuses)
- ✓ A workforce whistleblowing policy
- ✓ Procedures setting out how, staff involved in DFID funded business, can immediately report all suspicions or allegations of aid diversion, fraud, money laundering or counter terrorism finance to the Counter Fraud and Whistleblowing Unit (CFWU) at fraud@dfid.gov.uk or on +44(0)1355 843747

3. Transparency and Delivery Chain Management

Key Performance Indicators KPI 3 a – f

DFID requires full delivery chain transparency from all supply partners. All delivery chain partners must adhere to wider HMG policy initiatives including the support of micro, small and medium sized enterprises (MSMEs), prompt payment, adherence to human rights and modern slavery policies and support for economic growth in developing countries.

DFID's direct/prime supply partners (tier 1) must engage their delivery chain supply partners in a manner that is consistent with DFID's treatment of its prime supply partners. This includes, but is not limited to: pricing; application of delivery chain risk management processes; and taking a zero tolerance approach to tax evasion, corruption, bribery and fraud in subsequent service delivery or in partnership agreements.

Specific requirements for prime supply partners include:

- ✓ Provide assurance to DFID that the policies and practices of their delivery chain supply partners and affiliates are aligned to this Code;
- ✓ Maintaining and sharing with DFID up-to-date and accurate records of all downstream partners in receipt of DFID funds and/or DFID funded inventory or assets. This should map how funds flow from them to end beneficiaries and identify risks and potential risks along the delivery chain;
- ✓ Ensuring delivery chain partner employees are aware of the DFID fraud mail box³ found on DFID's external website and of the circumstances in which this should be used;
- ✓ Publication of DFID funding data in accordance with the International Aid Transparency Initiative (IATI)⁴
- ✓ Supply partners shall adhere to HMG prompt payment policy not use restrictive exclusivity agreements with sub-partners.

4. Environmental issues

Key Performance Indicators KPI 4 a – b

DFID supply partners must be committed to high environmental standards, recognising that DFID's activities may change the way people use and rely on the environment, or may affect or be affected by environmental conditions. Supply partners must demonstrate they have taken sufficient steps to protect the local environment and

³ <https://www.gov.uk/government/organisations/departments-for-international-development/about#reporting-fraud>

⁴ <http://www.aidtransparency.net/>

community they work in, and to identify environmental risks that are imminent, significant or could cause harm or reputational damage to DFID.

Commitment to environmental sustainability may be demonstrated by:

- ✓ Formal environmental safeguard policies in place;
- ✓ Publication of environmental performance reports on a regular basis
- ✓ Membership or signature of relevant Codes, both directly and within the delivery chain such as conventions, standards or certification bodies (eg the Extractive Industries Transparency Initiative⁵).

5. Terrorism and Security

Key Performance Indicators KPI 5 a – d

DFID supply partners must implement due diligence processes to provide assurance that UK Government funding is not used in any way that contravenes the provisions of applicable terrorism legislation.

Specific requirements:

- ✓ DFID suppliers must safeguard the integrity and security of their IT and mobile communications systems in line with the HMG Cyber Essentials Scheme⁶. Award of the Cyber Essentials or Cyber Essential Plus badges would provide organisational evidence of meeting the UK Government-endorsed standard;
- ✓ All DFID supply partners who manage aid programmes with a digital element must adhere to the global Principles for Digital Development⁷, which sets out best practice in technology-enabled programmes
- ✓ Ensure that DFID funding is not linked to terrorist offences, terrorist activities or financing

6. Social Responsibility and Human Rights

Key Performance Indicators: KPI 6 a – d

Social responsibility and respect for human rights are central to DFID's expectations of its Supply Partners. We will ensure that robust procedures are adopted and maintained to eliminate the risk of poor human rights practices within the complex delivery chain environments funded by DFID. These include unethical and illegal employment practices, such as modern day slavery, forced and child labour and other forms of exploitative and unethical treatment of workers. DFID will expect a particular emphasis on management of these issues in high risk fragile and conflict affected states (FCAS), with a focus on ensuring remedy and redress if things go wrong.

Specific requirements:

- ✓ All Supply Partners must be fully signed up to the UN Global Compact⁸;
- ✓ Practices in line with the International Labour Organisation (ILO) 138⁹ and the Ethical Trading Initiative (ETI) Base Code¹⁰ are encouraged;

¹⁰ <http://www.ethicaltrade.org/eti-base-code>

- ✓ Policies to embed good practice in line with the UN Global Compact Guiding Principles 1 & 2 on business and human rights, as detailed in Annex 2;
- ✓ A Statement of Compliance outlining how the organisation's business activities help to develop local markets and institutions and contribute to social and environmental sustainability, whilst complying with international principles on labour and ethical employment, social inclusion and environmental protection.
- ✓ Overarching consideration given to building local capacity and promoting the involvement of people whose lives are affected by business decisions;

Compliance KPIs and contractual checking mechanisms

Maintaining standards of assurance and driving sustainable improvements, in connection with the Code's principles through partner relationships is a key focus for DFID.

Supply partner and delivery chain compliance checking processes will take place in accordance with the agreed compliance levels and the specific contractual clauses down the delivery chain, DFID shall undertake compliance spot checks.

Where appropriate, a progress review plan setting out the Code of Conduct delivery methodology for the supply partner arrangements during the contract term may be jointly developed during Contract mobilisation.

Annex 2

UN Global Compact – Human Rights

Principle 1: businesses should support and respect the protection of internationally proclaimed Human Rights

Principle 2: businesses should ensure they are not complicit in Human Rights abuse

Organisations should do this by giving attention to vulnerable groups including women, children, people with disabilities, indigenous groups, migrant workers and older people.

Organisations should comply with all laws, honouring international standards and giving particular consideration to high risk areas with weak governance.

Examples of how suppliers and partners should do this are set out below:

In the workplace	
•	by providing safe and healthy working conditions
•	by guaranteeing freedom of association
•	by ensuring non-discrimination in personnel practices
•	by ensuring that they do not use directly or indirectly forced labour or child labour
•	by providing access to basic health, education and housing for the workers and their families, if these are not provided elsewhere
•	by having an affirmative action programme to hire victims of domestic violence

- by making reasonable accommodations for all employees' religious observance and practices

In the community

- by preventing the forcible displacement of individuals, groups or communities
- by working to protect the economic livelihood of local communities
- by contributing to the public debate. Companies interact with all levels of government in the countries where they operate. They therefore have the right and responsibility to express their views on matters that affect their operations, employees, customers and the communities of which they are a part
- through differential pricing or small product packages create new markets that also enable the poor to gain access to goods and services that they otherwise could not afford
- by fostering opportunities for girls to be educated to empower them and also helps a company to have a broader and more skilled pool of workers in the future, and
- perhaps most importantly, a successful business which provides decent work, produces quality goods or services that improve lives, especially for the poor or other vulnerable groups, is an important contribution to sustainable development, including human rights
- If companies use security services to protect their operations, they must ensure that existing international guidelines and standards for the use of force are respected

Section 3

TERMS OF REFERENCE

Support for the Federal Government of Somalia to strengthen domestic revenue generation and macroeconomic management

Background

1. The Federal Government of Somalia (FGS) faces a significant budget constraint. Domestic revenue of \$113m in 2016 represents less than 3% of GDP, which is among the lowest in the world. External dependence on grants undermines the ability of the Government to set and execute a credible budget, as external resources have proven unreliable. The situation also prevents the Government from delivering core State functions such as paying for basic security.
2. International trade taxes contribute roughly 70% of FGS domestic revenue and are collected predominantly at the Port and Airport of Mogadishu. The tax base remains very narrow with other sources largely emanating from (narrow based) personal income tax and administrative charges¹.
3. Increasing domestic revenue mobilisation is a top priority for the FGS as stated in public statements by Pres. Farmajo; the PFM Action Plan (2016-20) and recently the devised Domestic Revenue Mobilisation Strategy. The latter aims to raise more revenue through broadening the tax base, strengthening tax and customs administrations, as well as targeting some larger sectors of the economy. In a fragile context such as Somalia, tax reform is highly challenging and likely to face political barriers. Results will only be delivered with consistent high-level political commitment and support, adaptive and responsive approach to programming and constant analysis of the political economy. These World Bank (2017), Somalia Economic Update – Mobilising Domestic Revenue to Rebuild Somalia
4. This UK investment will be drawn from a component of the Public Resource Management in Somalia programme (PREMIS), which was designed to address domestic revenue mobilisation.

Objective

5. DFID seeks to procure a Supplier to provide Technical Assistance (TA) and wider institutional capacity development in support of ongoing FGS efforts to strengthen domestic revenue generation and macroeconomic management. This project will deliver improved customs policy and administration and facilitate in-country missions by IMF-accredited experts, in support of the IMF Somalia Trust Fund for Capacity Development work-streams.

Timeframe and Value

6. The contract is expected to commence no later than 1 April 2018 and will have a duration of four years. DFID may, in agreement with the supplier, extend the contract beyond the 2022 end date for up to 12 months, with a value up to £2.5m. This would be subject to agreement through a contract amendment between DFID and the supplier and subject to good performance by the supplier over the course of the contract. Any extension would be based on a needs assessment by DFID. The value of this programme is GB£10.2m, of which a minimum of GB£0.75m will be ring-fenced for Outcome 2. GB£2m will indicatively also be set aside for possible capital spending.
7. The programme is co-funded by USAID and the EU Delegation to Somalia. DFID contribution is GB£4.75m
8. There will be a mobilisation phase of 3 months to assess progress and the continued relevance and focus of the project since the issuing of these ToR, and determine whether to continue with implementation. This will be followed by DFID Annual Reviews to assess progress against overall objectives and realign the programme if required; close stakeholder and beneficiary engagement will strengthen this process.

¹ For more details see the recently published “Somalia Economic Update – Mobilising Domestic Revenue to Rebuild Somalia”, World Bank (2017)

Recipient

9. The recipients of this service are FGS's Ministry of Finance (MoF) and the Central Bank of Somalia (for part of Output 2). The Mogadishu Port/Airport Authorities and potentially other port/airport authorities across Somalia will also be indirect beneficiaries of the project.

Scope

10. The project will focus on strengthening customs operations and revenue collection in Somalia. The supplier will support the gradual implementation of a modern customs regime throughout Somalia. The supplier will work closely with authorities to improve customs procedures and operations, provide technical assistance to strengthen state capacity and where necessary invest in equipment.
11. A second element of the project involves partnering with the International Monetary Fund in support of the Somalia Trust Fund for Capacity Development in Macroeconomic Policies and Statistics. The supplier will be facilitating in-country missions of IMF-accredited experts in the areas covered by the Trust Fund, which will provide implementation support and follow up to the IMF training missions taking place outside of Somalia.
12. The key counterpart will be the Revenue Department at the Ministry of Finance, the port and airport in Mogadishu. If and when an agreement is reached on revenue assignments/sharing between the FMS, the project will adapt to strengthen customs operations beyond Mogadishu, to extend support (as required) to FMS that also perform customs functions (e.g. the ports/airports in Jubbaland and Puntland).
13. The supplier will also engage with the private sector to ensure their needs and incentives are understood, and other development partners working within the PFM sector. This includes the IMF, World Bank, African Development Bank, USAID and EU amongst others.
14. The supplier is expected to understand and proactively navigate the political economy of revenue generation, throughout the duration of the project. The supplier will also have to show flexibility and an ability to respond to policy and reform needs as they arise, for example pressing gaps in TA to Internal tax policy/administration. In close consultation with the MoF and other stakeholders (IFIs and Development Partners engaged in this area), the project should demonstrate an ability to flexibly shift resources between revenue reform areas as blockages and/or opportunities arise.
15. The Mobilisation Phase will be used to agree the exact scope of this engagement with the Ministry of Finance and within what is politically possible. This will also include coordination mechanisms with the existing PPD (Public Private Dialogue) forum, and planned support from the IFC in this area. Similarly, engagement with/technical support to relevant parliamentary committees on proposed legislation might also be required.
- 16.

Institutional focus

17. The focus of the project will include the Ministry of Finance of the FGS, in particular Customs Department and policy and planning, as well as the Customs outposts at the Mogadishu Port and Airport. Over the duration of the project, the supplier may also have to include Customs outposts in other FMS, in close coordination and collaboration with sub-national authorities and existing TA initiatives at that level.
18. The Supplier should expect to engage with the private operators of Mogadishu Port (Albayrak) and Airport (Favori) given their involvement in operations and data collection. As well as the Central Bank of Somalia (for the IMF support work in particular) and private sector bodies such as the Chamber of Commerce, by engagement in the existing Public Private Dialogue.

Geographic focus

19. Somalia has adopted a federal model of government, through the Provisional Federal Constitution, comprising the recently formed FMS of Jubbaland, South-West, Irshabelle and Galmudug. These new FMS have been formed to join the Puntland State, which was created in 1998. The status of Benadir Region (which includes Mogadishu, the capital city) and Somaliland (self-declared independent state), remains to be resolved.
20. While there is a broad recognition at a technical level that the customs function should be a federal jurisdiction, it is yet to be determined how the FGS and FMS will work together in a cohesive federal system

of government. This will require negotiation of a framework to govern intergovernmental fiscal relations and agreement on functional and revenue assignments. To date the FMS have been managing their economic/fiscal affairs largely independently of the FGS. The FMS collect and retain all the revenues (including customs) from their territory. FGS's reach is currently limited to Mogadishu, as is the revenue that is collected.

21. In this context, the project will initially focus on Mogadishu. The Ministry of Finance of the FGS is located within Villa Somalia in Mogadishu; this also includes the Revenue Department and the Customs Headquarters. Customs also has a presence at the Port of Mogadishu and Aden Adde Airport and work is expected to include these locations. The Central Bank of Somalia (to be supported under Output 2) is also located in Mogadishu.
22. In the event that there is progress in reaching a political agreement on intergovernmental fiscal relations, the project should not preclude engaging with, and providing support on customs reform to FMS (as required). For instance, the Supplier will be expected to support the FGS convene the FMSs for consultations on the development of federal customs legislation and accompanying regulations, and provide capacity development for implementation by FMS Officials. The Supplier will be expected to coordinate and collaborate closely with other existing initiatives at FGS and FMS level (see below), to ensure linkages and complementarities across TA projects are maximized.

Existing support

23. Support to revenue mobilization at FMS level is being provided by another component of the PREMIS programme focusing on sub-national public financial management support in the new FMS of Galmudug, South West, Jubbaland and Hirshabelle. Support to Somaliland revenue mobilisation is being provided under a separate component of PREMIS, and support to revenue in Puntland is part of the World Bank Multi Partner Fund's Public Financial Management Programme.
24. The World Bank also facilitates the Intergovernmental Fiscal Forum (Ministerial level) and Intergovernmental Fiscal Federalism Technical Committee, which aims to clarify roles and responsibility for revenue collection, sharing and expenditure.

Project Outcomes

25. Domestic revenue reforms are a priority of the FGS and a number of international partners are at different stages of programme preparation, coordinated through a FGS/Development Partner revenue coordination group. Based on the current situation, and donor support known to be in place, the project is envisaged to make significant contributions to the achievement of the following outcomes:

- I. Improved Customs Policy and Administration
- II. FGS macroeconomic management is more effective as a result of in-country missions by IMF experts in support of the IMF Somalia Trust Fund for Capacity Development work-streams. Note that the budget allocated by DFID for this output will be ring-fenced (as a minimum of £0.75m).

Outcome 1: Improved customs policy and administration [as evidenced by year-on-year increase in reported revenue and decreasing cost of trade through major ports/airports]

26. This outcome will focus on customs policy and administration. The TA and institutional development work will focus on supporting the Customs Department increase revenue collection in a cost-effective, transparent and sustainable manner. This requires a comprehensive approach to organisational development, including instituting more efficient and effective procedures and operations (aligned to World Customs Organisation standards) and associated capacity-building.
27. The supplier will set out how it would go about building capability to move towards a modern automated customs environment in the long term, by initially undertaking a feasibility study (inc. ICT maturity level), appraising various options and designing a roadmap towards implementation across Somalia (if deemed appropriate to Somalia's customs management environment and cost-effective in the medium to long term).
28. Customs reform is a highly political and sensitive area, and as such the project must be realistic in its approach. The specific activities under this output should be agreed at a detailed level in work plans developed in partnership with the Ministry of Finance. Proposed reforms must have genuine ownership by

the Ministry, and be both politically and practically realistic. The Supplier will focus in the first instance on reviewing customs data (official data as well as that collected by private operators), current policy, procedures and legislation, administrative organization and capacity, as well as a detailed analysis of the political economy of the main players – particularly those involved in Airport and Port transactions.

29. It will also be important to identify at an early stage reforms/activities that will demonstrate the value of the reform process by, for example, quickly impacting the level of revenues collected by the FGS, or simplifying procedures and speeding up customs times demonstrating service improvements to the private sector. The Supplier is required to provide all relevant training activities and procure accompanying equipment that will be required to deliver against work-plans
30. Given the time lag between preparation of this ToR and the project becoming effective, it will be important for this focus to be reassessed during the mobilisation phase to ensure its continued relevance and focus. The Supplier should be prepared to adapt the focus of the output according to the situation and needs at the time of the mobilisation period.
31. Overall, payment of fees will be linked to performance against annual outcome milestones, in turn contributing to the high-level outputs specified in the table below. Yearly baselines and targets, in turn linked to quarterly milestones will be specified in Q1 of each year of the project (corresponding to the Mobilisation Phase for Yr. 1). A proportion of fee payments linked to long-term TA (i.e. the core project implementation Team) will be attached to the attainment of quarterly milestones.
32. Detailed performance measures will encompass both technical delivery and wider quality of contract implementation, in line with the principles set out in Annex 2 (Supplier Performance Scorecard).
33. Whilst the focus and outputs of the project are clear, the Mobilisation Phase will be used to refine the TA approach illustrated in the technical proposal, and carry out any additional diagnostic work required to inform the sequencing and prioritization of implementation strategies and the design of quarterly work-plans.
34. It is envisaged that a proportion of the budget will be allocated to capital spending (e.g. IT equipment and other non-fixed assets, light rehabilitations of facilities etc.), as driven by programme demand. Costing and process for mobilizing this budget line will be agreed as part of Mobilisation. For the purpose of bidding the SP should set aside an indicative amount of £2m for this purpose, to be revisited during Mobilisation following a detailed needs assessment. The supplier should also ensure that appropriate funding is also set aside for technical trainings and other skills-transfer activities (in Mogadishu or regionally).

Project Outputs / indicative work-streams	Indicative output targets / yearly milestones

Output 3 - Strengthened organizational capability for more effective, efficient and accountable customs administration (inc. enforcement of compliance)	<ul style="list-style-type: none"> - Perception surveys indicate improvements in public perception of customs officials

Outcome 2: FGS macroeconomic management is more effective as a result of in-country missions by IMF experts in support of the IMF Somalia Trust Fund for Capacity Development work-streams

35. The activities under this output will be carried out in partnership with the IMF. The Somalia Trust Fund for Capacity Development is working to strengthen the capacity of the FGS in a number of areas to do with macroeconomic policy and legislation in support of the IMF policy dialogue with the FGS, including on the Staff Monitored Programme. The Trust Fund undertakes missions each month but because of travel policy restrictions cannot deploy IMF staff or experts into Somalia. The Trust Fund is therefore not able to follow up its training activities (which take place in third countries) back in Mogadishu, or carry out any Mogadishu based mentoring or implementation support for the policies and legislation it is supporting.
36. In close collaboration with the IMF therefore, this output should assist and further the work programme of the Trust Fund. In a number of areas, the experts who would be deployed into Mogadishu are already identified but where they are not, the individuals should be agreed jointly in partnership with the IMF and should be accredited IMF experts. The Supplier will be responsible for the duty of care of these individuals. The terms of reference for each mission will be agreed on a case-by-case basis according to the training it is accompanying but in general should focus on hands-on implementation support, translating training or new policies into practice; and the possible adaptation to the Somali context of tools and instruments proposed by the IMF for implementation. In addition, input should be provided by the experts back to the IMF on particular areas of focus for further intervention. The Supplier will have no involvement in trust fund management and will not need to commit any of its own technical assistance to this output; the requirement is purely logistical and duty of care in nature. Costs associated with this component of the contract should be budgeted as reimbursable expenses
37. The budget for this output will be ring-fenced. All work-streams in the IMF Trust Fund are eligible for support but the project should prioritise work-streams in tax policy and legislation, revenue administration and currency reform.

Approach

38. The Supplier should ensure that throughout the project government counterparts are placed in the lead of the reforms and that the project is demand driven. The Supplier will need to manage any risks associated with this requirement. It will be vital to carry out thorough technical and political economy analysis and properly understand the Somali context. However, the project should focus as soon as possible on practical capacity building and hands-on implementation support to put recommendations into practice.
39. Although the supplier is not expected to play a direct/managerial role in tax and customs operations, advisers may be called upon to provide regular, hands-on assistance/solutions of an operational nature (including day-to-day “trouble-shooting”).
40. Taxation, by its very nature, is highly political and the project is likely to encounter many challenges, both from an internal organisational change perspective but also because of political constraints. This calls for an adaptive way of working. The Supplier must explain how they will approach this in a low capacity Ministry.
41. DFID considers overall success of the project to be about the delivery of outcome-level results – and whatever the downstream activities, this is the spirit in which we expect the contract to be implemented. KPIs for tracking progress against yearly outcomes will be specified in detail as part of the Mobilisation Phase but will be centered on enabling a steady increase in revenues derived from trade taxes, whilst contributing to a reduction in the cost of trade through major ports.
42. The proposal should clearly set-out the approach the project will take to skills transfers, especially how the supplier will pair with Somali technical counterparts to build sustainable capacity in tax administration
43. While quality, experience and technical expertise will be key considerations in selection of the Supplier, DFID will also give high priority to efficiency and the ability to deliver Value for Money. The preferred supplier will be expected to continually demonstrate how value for money will be driven and monitored through the project, by means of jointly agreed VfM KPIs.

Reporting and key contacts

44. Over the course of the contract the Supplier is expected to directly engage with the Minister of Finance, the Director General (Revenue), Directors of Customs and Inland Revenue, with the PFM Coordinator at the PFM Reform Unit (PFMRUCU) and with the IMF. Within DFID, the Supplier will report to the Economic Adviser.
45. At the start of the contract, the Supplier will maintain weekly phone, email or in person contact with both the Minister of Finance or DG Revenue and the DFID Economic Adviser to inform them of pertinent issues as they arise. As the project progresses this may be reduced to less frequent contact but will be no less than monthly. Whilst exact reporting requirements/formats will be agreed during Mobilisation, light-touch monthly updates and quarterly reporting against agreed work-plans will likely be expected. A dedicated and authorised Official will also be designated by the DG to act as the Supplier’s focal point on the project, in case the DG or Minister are not available.
46. The supplier will report on Output 1 implementation to both the Economic Adviser in DFID and the Steering Committee for Revenue, chaired by the DG Revenue. The frequency of meetings is expected to be monthly at first but may reduce to quarterly once the contract is established and underway.
47. For Output 2, the Supplier is expected to report to directly to both the IMF Resident Representative and the DFID Economic Adviser, according to arrangements to be agreed during the mobilisation phase (see below).
48. The Supplier should report when required to the overall FGS/Development Partner Revenue sub-working group, set up within the remit of the PFM Working Group which oversees reforms in all areas of public finance, including those supported by the World Bank, IMF, AfDB and bilateral donors.
49. The following reporting is expected to be issued to both DFID Somalia and the Steering Committee for Revenue:

Mobilisation phase:

- Mobilisation Report following a 3 month mobilisation period (a Break Point is to be included at the end of the mobilisation phase)
- Validation workshop at the end of the mobilisation phase enabling a decision to move to the implementation phase

50. Note that the Supplier should be prepared to provide implementation support on Output 2 during the mobilisation phase.

Implementation phase:

- Quarterly, Annual and Final Reports. These should be strategic reports focusing on key achievements, challenges and any proposed adjustments or solutions to address challenges or changes in context. They should also include an annex with an assessment of progress against work-plans (including updates on fraud and corruption issues, risk mitigation, communications, and gender).
- The Supplier should also provide progress updates in advance of Annual Reviews of the DFID PREMIS programme, focused on logframe indicators.

51. These reports will feed into more comprehensive reporting on the overall PFM Reform Process in Somalia, which is prepared by the FGS PFM Reform Unit (PFMRCU).

Key requirements

Mobilisation Period

52. The Mobilisation Period of the project will be three months. During the Mobilisation Period the Supplier shall identify:

- The proposed work-plan – detailed activities/work-streams (including any additional diagnostic work) required to attain the project's objectives will be submitted following close engagement with FGS.
- A proposed approach to integrating political economy analysis and thinking into the programme on an ongoing basis.
- A fully-costed budget for the Implementation Period taking into account the security environment including and plans for capital spending.
- Governance arrangements (see above section on reporting), which dovetail with the governance arrangements agreed for monitoring the overall PFM Reform programme under the umbrella of the Somalia Development and Reconstruction Steering Committee; Proposed working arrangements with the IMF for Output 2 which will include reporting to the bi-annual Capacity Building Trust Fund Steering Committee, and sharing of reports; and co-ordination arrangements with other donor programmes operating in support of the PFM Strategy.
- A risk assessment matrix with mitigation measures.
- Monitoring and Evaluation framework (inc. yearly KPIs and quarterly milestones to trigger payments) consistent with output areas and associated indicative targets set out above. Fewer indicators focusing on relative progress against the outputs can be selected (rather than a larger number of specific activity-level milestones). Proxy indicators can also be used to capture progress (e.g. 1-5 with definitions of assessors/verification protocols and success criteria) or achieving x out of y possible signs of progress.
- Proposed payment plan and audit plan.
- Outline VFM Actions template and VFM Budget template, to include proposals for measuring VFM of capacity building and training.

53. A validation workshop will take place at the end of the Mobilisation Period. At the validation workshop the proposed work-plan, governance arrangements, risk matrix, M&E and milestones will be agreed.

Implementation Period

54. Following acceptance of the Mobilisation Report by the Ministry of Finance, DFID and the IMF (for Output 2), the Supplier will implement the agreed programme with responsibility for timely and effective management and implementation of the project. In doing so, the Supplier should be mindful of DFID's focus on results and strategy, meaning that the Supplier should demonstrate flexibility and proactivity according to changes in the context, and what is found to be delivering results. There should not be a mechanistic focus on compliance with activity level milestones/outputs in the workplans alone, rather the Supplier should constantly and

proactively gauge, analyse and propose any necessary adjustments, solutions and options as the contract progresses.

55. As part of the procurement process, be responsible for carrying out due diligence checks on any sub-contracted implementing partners before the award of contract to ensure close fiduciary control. The Supplier will be responsible for satisfying itself that the risk of financing the sub-contractor is sufficiently low or manageable and submit this in writing to DFID prior to contract award. This will include setting out a delivery chain map and proactively identify and manage associated risks (and providing regular updates to DFID)

Conflict Sensitivity

56. The Supplier will adopt a conflict-sensitive approach including by understanding the Somalia conflict dynamics, political economy, the nature of the political settlement and the payment of tax. This contextual understanding should inform the design of the intervention including by monitoring the impact of the reforms on different interest groups. The Supplier will use its understanding to ensure the intervention does no harm and avoids negative impacts and maximises positive impacts.

Managing the risk of fraud and corruption

57. Fraud and corruption risk is very high in revenue and customs systems. The project should explicitly address this risk through a range of measures which could include but are not limited to: clear and transparent communication of tax/customs rates; predictable tax/customs rates that remove the negotiation element as the customs regime is gradually strengthened and regulations enforced; rationalising the number of deductions, exemptions and concessions granted by tax/customs law; automated payments rather than face-to-face transactions with tax officials; and codes of ethics.

Personnel and Expertise

58. The Supplier will need to field a team of international and national experts, using a model based on the likelihood that security concerns will make long-term deployment of international experts in Mogadishu difficult. The team will need to include a permanent coordinator or regional team leader based full-time in Mogadishu. Sub-contracting of local or regional firms may well be part of a bidder's proposed solution, although DFID would expect to see a senior figure in the lead firm taking overall responsibility for contract delivery.
59. Given the political nature of these reforms and the need to maintain strong relationships with the partner government, bidders will need to demonstrate that their senior team members(s) have the necessary skills and experience to manage this. It is expected that the team would include (but not be limited to) the following expertise:
- A Team Leader with experience undertaking revenue reform programmes in fragile states;
 - Somali nationals with revenue/ PFM reform experience and significant knowledge of the Local political economy;
 - Expertise in political economy analysis within Somalia;
 - Expertise in tax and customs policies and administration and in public sector reform;
 - Tax law and legal drafting expertise;
 - Expertise in fragile and conflict affected states; and
 - Technical backup support and facility to draw down ad hoc technical assistance.
60. Bids do not necessarily need to name every team member, nor must each team member be exclusive to one particular bid. However, bidders should name key team members and ensure named individuals are available, as they will be evaluated on the basis of confidence that they are able to field a high quality team for implementation within a short period of time from contract signature.

Payment

61. It is expected that the payment approach for both stages will be defined by the Supplier during their bid and confirmed at Mobilisation. Bidders will be expected to profile their payment mechanism to maximise the achievement of both contract outputs and milestones to support DFID's Payment by Results aspirations, proportionate to each output. The payment profile will be reviewed and agreed annually.

62. All fees proposed should cover the cost of salary, overseas inducements, leave allowances, bonuses, profit, taxes, insurances, superannuation, non-working days and all other costs including, but not limited to, passports, visas and vaccinations, overheads and expenses of whatsoever nature that may be incurred.

DFID coordination

63. The Supplier will work closely and co-ordinate with the DFID Somalia Economic Adviser, and liaise as required with focal points the project's co-funding agencies (USAID and EU Delegation).

UK Aid branding

64. UK Aid Branding suppliers that receive funding from DFID must use the UK aid logo on their development and humanitarian programmes to be transparent and acknowledge that they are funded by UK taxpayers. Suppliers should also acknowledge funding from the UK government in broader communications but no publicity is to be given without the prior written consent of DFID. A branding discussion will be held with the Supplier and the Implementing Partners. Given the sensitive nature of the study and work, the supplier should seek prior consent from DFID before using the logo or acknowledging funding. This will also be captured on the visibility statement and agreed prior to contract signature.

65. 65. Digital Spend

The UK government defines digital spend as 'any external-facing service provided through the internet to citizens, businesses, civil society or non-governmental organisations. The Government Digital Service (GDS), on behalf of the Cabinet Office, monitors all digital spend across government and DFID is required to report all spend and show that what we have approved meets with GDS Digital Service Standard. In DFID, this applies to any spend on web-based or mobile information services, websites, knowledge or open data portals, transactional services such as cash transfers, web applications and mobile phone apps. Plans to spend programme funds on any form of digital service must be cleared with DFID in advance and must adhere to the following principles:

1. Design with the user
2. Understand the existing ecosystem
3. Design for scale
4. Build for sustainability
5. Be data driven
6. Use open standards, open data, open source & open innovation
7. Reuse & improve
8. Address privacy & security

Transparency

66. DFID has transformed its approach to transparency, reshaping our own working practices and pressuring others across the world to do the same. DFID requires Suppliers receiving and managing funds, to release open data on how this money is spent, in a common, standard, re-usable format and to require this level of information from immediate sub-contractors, sub-agencies and partners. It is a contractual requirement for all Suppliers to comply with this, and to ensure they have the appropriate tools to enable routine financial reporting, publishing of accurate data and providing evidence of this DFID – further IATI information is available from <http://www.aidtransparency.net/>.

67. DFID Somalia will instruct the Supplier to publish and disseminate in appropriate forms all knowledge material and reporting produced by or with support from the programme. Exceptions to this requirement include cases of confidential or sensitive information (e.g. analysis from stakeholder maps, financial reports, commercial sensitive data, etc.) will need to be agreed on a case by case basis with DFID. The Supplier will take all necessary steps with the programme counterparts and direct beneficiaries to make sure they provide their consent to this publication and dissemination policy, or have the opportunity to recommend withholding when appropriate.

Supply chain mapping

68. DFID is expected to report to central government on the levels of contracted work being allocated to SME and other sub-contracted organisations. It is now a requirement to provide details regarding the levels of direct and indirect departmental SME spend with major suppliers to the cross-government SME Small Business Policy team working on this initiative. DFID is also interested in gathering details of the organisations working within the supply chains of directly contracted partners. As part of the contractual compliance checking process, Contractors should be required to submit returns providing these details, as a minimum on an annual basis.

Contract management

69. The supplier will report to the DFID Economic Adviser and will have regular engagement with other relevant advisers and programme management staff from DFID Somalia. The supplier must identify in the tender a senior representative with whom any contract management issues may be escalated.

70. Please see the attached Commercial KPI and Supplier Performance Scorecard (Annex 2) which will be tailored to, and utilised to assist and support monitoring. Using this as a starting point, final contract management KPIs will be agreed during the Mobilisation Phase with the selected Supplier.

71. Suppliers must include Key Performance Indicators (KPIs) in their proposal on how outputs will be achieved (indicative, not fixed). Suppliers will also be expected to work to jointly agreed contract management KPIs with DFID.

72. Continuation to the Implementation Phase will be subject to DFID approval of the Mobilisation Phase deliverables. There will be a break point in the contract after the Mobilisation Phase (including successful completion of validation workshop) and after each Annual Review.

73. The contract for the Implementation Phase will only be confirmed following the successful completion by the Supplier of the Mobilisation Phase.

74. Contract Variation

DFID will have the right to request changes to the contract, including services, the ToRs and the contract cost to reflect lessons learned, or change in circumstances, policies or objectives relating to or affecting the programme. To support this, there will be break points in the programme, one at the end of the mobilisation period and at the end of each subsequent year. Continuation will be dependent on satisfactory performance and continued funding (both internal and external). The contract will have adequate provision for variation to adapt to changes that occur during the life of the programme that require the work to be either scaled up or down. The supplier shall commit to being fully prepared in the event any decision is made to scale up (increase) or scale down (decrease) the scope of the programme. DFID will also have the right to terminate the contract at any point where it has strong justification that the programme is not delivering the intended results and/ or does not offer value for money to DFID.

75. The supplier, in consultation with the Government and DFID may be requested for changes in the deployment of its team at relatively short notice, and a surge or reduction in specific outputs based on the impact observed by the oversight Revenue Committee.

Annex 1

DUTY OF CARE

The Supplier is responsible for the safety and well-being of their personnel and third parties affected by their activities detailed in this TOR, including appropriate security arrangements. They will also be responsible for the provision of suitable security arrangements for their domestic and business property.

The supplier is responsible for ensuring appropriate safety and security briefings for all of their short-term personnel delivering work as defined in these TOR and ensuring, where appropriate that their long-term personnel register and receive briefing as outlined above. Travel advice is also available on the FCO website and the Supplier must ensure it (and its personnel) are aware of this. The Supplier is responsible for ensuring appropriate safety and security briefings for all of its personnel working under this contract.

DFID will share available information with the supplier on security status and developments in country where appropriate. DFID will provide a copy of the DFID visitor notes (and a further copy each time these are updated), which the supplier may use to brief their personnel on arrival. A named person from the contracted organisation should be responsible for being in contact with DFID to ensure information updates are obtained. There should be a process of regular updates so that information can be passed on (if necessary). This named individual should be responsible for monitoring the situation in conjunction with DFID.

The Supplier is responsible for ensuring that appropriate arrangements, processes and procedures are in place for its personnel, taking into account the environment they will be working in and the level of risk involved in delivery of the contract (such as working in dangerous, fragile and hostile environments etc.). The Supplier must ensure its personnel receive the required level of appropriate training prior to deployment.

The Supplier must develop its tender on the basis of being fully responsible for Duty of Care in line with the details provided above and the initial risk assessment matrix prepared by DFID (see below).

The Supplier must confirm in the tender that:

- They fully accept responsibility for security and Duty of Care.
- They understand the potential risks and have the knowledge and experience to develop an effective risk plan.
- They have the capability to manage their Duty of Care responsibilities throughout the life of the contract.
- They will give responsibility to a named person in their organisation to liaise with DFID and work with DFID to monitor the security context for the evaluation.

If you are unwilling or unable to accept responsibility for security and Duty of Care as detailed above, your tender will be viewed as non-compliant and excluded from further evaluation.

Acceptance of responsibility must be supported with evidence of capability (no more than 2 A4 pages) and DFID reserves the right to clarify any aspect of this evidence. In providing evidence tenderers should consider and answer yes or no (with supporting evidence) to the following questions:

1. Have you completed an initial assessment of potential risks that demonstrates your knowledge and understanding, and are you satisfied that you understand the risk management implications (not solely relying on information provided by DFID)?
2. Have you prepared an outline plan that you consider appropriate to manage these risks at this stage (or will you do so if you are awarded the contract) and are you confident/comfortable that you can implement this effectively?
3. Have you ensured or will you ensure that your staff are appropriately trained (including specialist training where required) before they are deployed and will you ensure that on-going training is provided where necessary?
4. Have you an appropriate mechanism in place to monitor risk on a live / on-going basis (or will you put one in place if you are awarded the contract)?

5. Have you ensured or will you ensure that your staff are provided with and have access to suitable equipment and will you ensure that this is reviewed and provided on an on-going basis?
6. Have you appropriate systems in place to manage an emergency / incident if one arises?
