

Victory Recreational Grounds - Skate Park Light Column Cable Guide

It has been noted that our line searches do not include the current electric cables that run to the two lighting columns at the current skate park. The current lighting columns are looked after by Suffolk County Council – Highways, who we will be working with the Town Council for the new lighting within the new skate park area.

Suffolk County Council have provided us with the below map as a rough guide to where the cabling for the lighting columns run.
