## **INVITATION TO TENDER**

For the Design, Supply and Build of a Halfpipe,  
King George V Playing Field, St Ann's Chapel, nr Gunnislake, Cornwall

Published: 27-11-2024

## **1. Project Overview**

### **1.1 Introduction**

Calstock Parish Council is seeking to replace skate park equipment in the King George V Playing Field, St Ann's Chapel, Cornwall.

The original half pipe was installed in 2000 but removed for safety reasons in 2018.

Following community engagement and consultation with skaters, BMX users and scooter users a similar structure to that which was removed is being sought.

The successful bidder will need to work closely with members of the wheeled sports community, councillors and council staff.

### **1.2 Location/site**

The site is owned by Calstock Parish Council under title number CL249858 and is accessible to the public, should they so wish, through the day and night.

The area is adjacent to a car parking area and has some scrubland behind it - The submitted design must be within the footprint specified in the drawing overleaf. The area shown is the maximum footprint, however if the Tenderer wishes to submit a design which has a smaller footprint then this is acceptable.

The proposal should not impact on any ditch or drainage feature of the wider site. The location of the skate park is an area that may in extreme events be subject to flooding. The Tenderer must ensure that all required investigations are made prior to submission of the Tender and that the tender submitted is done so with full consideration of all the work required to ensure that land is suitable for development with appropriate costings reflecting these aspects

### 1.3 Design

Contractors are invited to consider the requirements of this project brief and submit a design and a fully costed tender specification for the delivery of a timber construction on an existing concrete pad, to replicate the previous facility (please see design below):

- 10x6m footprint
- 1.7m high transition to deck
- To include a 1.8m wide, 1.2m high transition to deck section – transition height and radii critical to design – long deck/platform to be 1.8m deep and full height handrail across and above 1.2 section to allow addition of a sub box.

Frame:

- 4"x4"/95mm x 95mm treated posts
- 4"x2"/95mmx47mm treated joists @ 8"-10" intervals

Sheet materials:

- 2 layers of 9mm structural plywood undersheeting
- 1 layer of 9mm birch faced plywood for finished riding surface
- 18mm Marine grade plywood decks (braced with extra 4"x2" in 'high traffic' areas)
- 12mm marine grade plywood exterior (structural) cladding

Supply rails:

- Frames between 4"x4" posts with 4"x2" treated timber
- 6"x1" treated open board cladding (or similar to satisfy safety regs).

Copings:

- Galvanised steel copings drilled or tab fixed 1"1/2 /48.3mm
- Coping reveal 5mm up and out

Noise reduction:

- To include internal baffles, reducing cavity size to limit resonance.

Additional:

- Safety signage and build insurance to be included in quotations.

The design should indicate how noise emissions will be limited, and any the quote should reflect any financial costs regarding this.

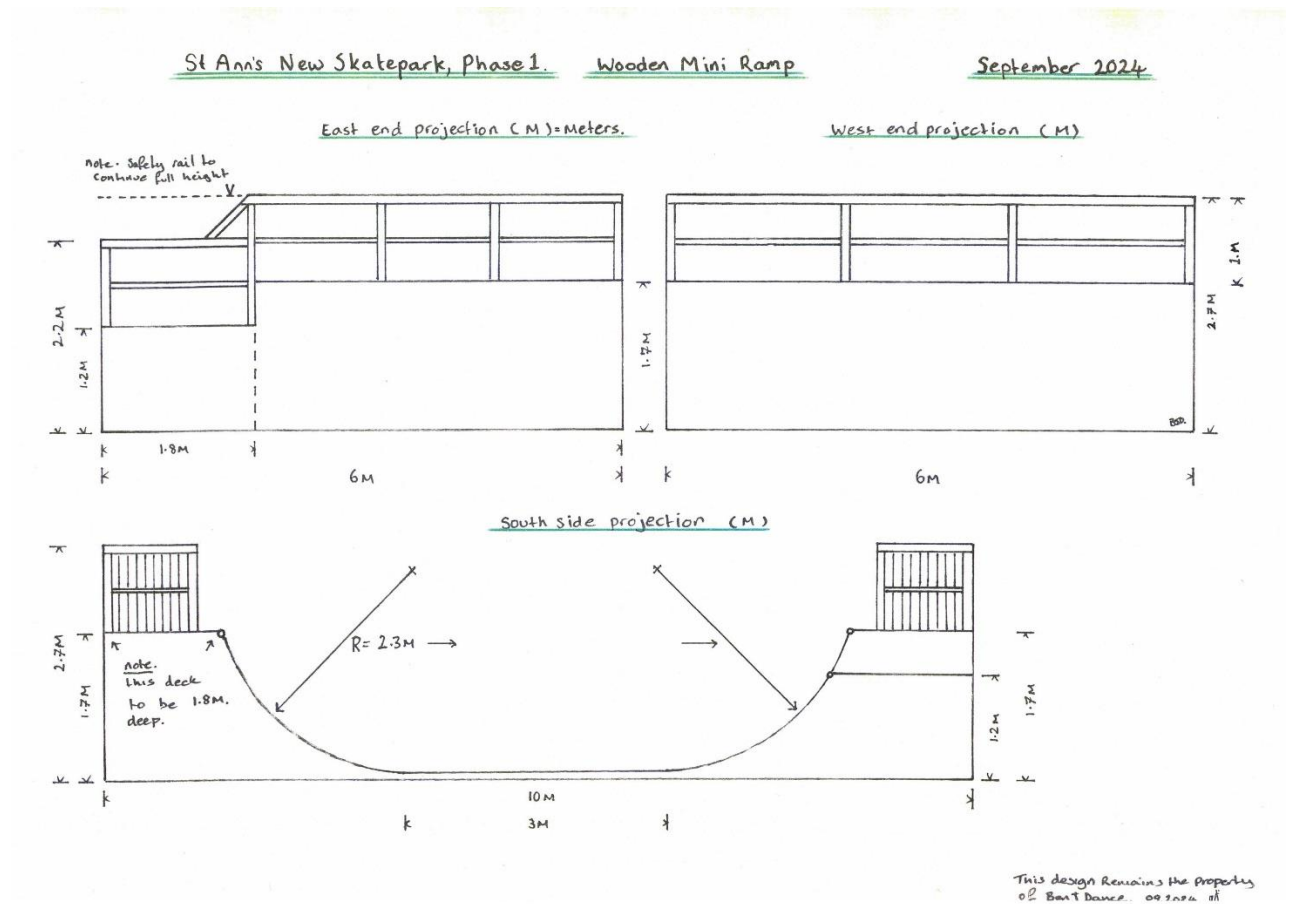

The facility should cater for skateboards, wheels (BMX and scooters) and blades. It should be accessible to all age ranges and levels – the design should indicate details on maximum user numbers.

Any ground water around and/or within the site must be intercepted and properly dealt with. Surface water must not pool or remain on the skatepark surface.

All aspects of the design must conform to the British safety standards, as outlined in the British Standards Institution specification EN 14974 and satisfy the recommendations of RoSPA's

"Prevention of Skateboarding Accidents and Litigation Management.

Tenders received will be considered by Council members, staff and community members.

#### **1.4 Budget**

The Council has agreed a budget of up to £30,000 ex VAT for the project. All pricing should be in GBP (£). Pricing should be valid for a minimum of 12 months from the date of the tender deadline. Prices will be fixed for the duration of the contract.

Following completion, all grass areas damaged in the construction period are to be reinstated using topsoil and good quality cultivated turf. All levels of surrounding land must be flush with levels of edging kerbs and/or surface. All hard surfaces must be washed clean and ready for use – these costs to be included in the price.

Tender prices must include an independent post installation inspection by an RPII certified inspector and the report to be issued to the Council as part of the completion process – any remedial tasks identified are the responsibility of the contractor and must be carried out and signed off before final payment is made by the Council.

All elements of the submitted design are subject to planning approval and approval by Calstock Parish Council.

Interim payments may be paid following agreement between the Council and the Contractor.

## 4.7 Exclusions

### Exclusion Grounds: Part 1 and Part 2.

This questionnaire is a self-declaration, made by you (the potential Tenderer), that you do not meet any of the grounds for exclusion<sup>1</sup>. If there are grounds for exclusion, there is an opportunity to explain the background and any measures you have taken to rectify the situation (we call this self-cleaning).

A completed declaration of Part 1 and Part 2 provides a formal statement that the organisation making the declaration has not breached any of the exclusion grounds. Consequently, we require all the organisations that you will rely on to meet the selection criteria to provide a completed Part 1 and Part 2. For example, these could be parent companies, affiliates, associates, or essential sub-contractors, if they are relied upon to meet the selection criteria. This means that where you are joining in a group of organisations, including joint ventures and partnerships, each organisation in that group must complete one of these self-declarations. Sub-contractors that you rely on to meet the selection criteria must also complete a self-declaration (although sub-contractors that are not relied upon do not need to complete the self-declaration).

When completed, this form is to be sent back to the contact point given in the procurement documents along with the selection information requested in the procurement documentation.
