SECTION 2 - SCOPE OF WORKS

DESCRIPTION OF THE WORKS

The Salhouse Recreation Ground area is situated within an area of open space off Thieves Lane, Salhouse, Norfolk. There is currently a children's play area on site and football pitches marked out.

The Parish Council is interested in installing a MUGA to provide a better sport environment for both children and adults.

The underlying ground conditions can be wet, though access to the site is reasonably easy but will require temporary track laid down to prevent damage to grounds. Access is along a fairly narrow road within a residential area. The Contractor should satisfy themselves that there are no underground services present.

The Parish Council maintains the grounds at Salhouse Recreation Ground, however, is not the landowner but will need to be informed of all works proposed – this will be initiated by Salhouse Parish Council but may require liaison with the Contractor as required.

Site location plan included as Appendix 4.

The scope of work to include:

- MUGA Playing surface 18m x 30m
- 3m high sides with rebound fencing to the first 1.2m
- entrances on sides
- 2 no. Football Goals with Basketball Hoops
- Multi-games line markings for football, tennis, basketball and netball
- Floodlighting
- Independent Post Installation Inspection

Please provide an itemised quotation of works listed above.

Evaluation Criteria	
Non-Price elements will be judged on a score from 0 to 10, which shall be subjected to a multiplier so criteria worth 20% will have a 0-10 score and a multiplier of 2. The 0-10 score shall be based on:	
0-1	The Question is not answered or the response is completely unacceptable. It does not meet the minimum requirement or they have completely missed the point of the question
2-3	Very poor response and not acceptable – fails to meet the minimum requirement/standard. Requires major revision to the proposal to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
4-5	Poor response only partially satisfying requirement/standard with deficiencies apparent. Some useful evidence provided but response falls well short of minimum requirements.
6-7	Response is acceptable and meets minimum requirement but remains basic and could have been expanded upon. Response is sufficient but does not inspire. Good probability of success, weaknesses can be readily corrected.
8-9	Response meets our expected requirement/standard and exceeds minimum expectations including as level of detail, which adds value to the bid. Great probability of success, no significant weaknesses noted
10	Excellent response – comprehensive and useful, which exceeds the specified performance or capability in a beneficial way. High probability of success, no weaknesses noted. The response is innovative and includes a full description of techniques and measurements to be employed
Price elements will be judged on the following criteria.	
The lowest price for a response which meets the pass criteria shall score 10. All other bids shall be scored on a pro rata basis in relation to the lowest price.	

For example - Bid 1 £100,000 scores 10, Bid 2 £120,000 differential £20,000 or 20% remove 20% from price scores 8, Bid 3 £150,000 differential £50,000 remove 50% from price scores 5, Bid 4 £175,000 differential £75,000 remove 75% from price scores 2.5. The lowest score possible is 0. All scores are then subjected to a multiplier e.g. if price has a scoring criteria of 70%, the multiplier will be 7.
