Order Schedule 20 (Order Specification)

Section 4 – Specification

1. Introduction

The purpose of this procurement is to enhance the cyber security capabilities of the Chemicals Critical National Infrastructure (CNI) sector. The proposed projects seek to support the continued development of cyber security incident response and recovery capabilities within the Chemicals CNI sector, building on work completed in FY 2022/23 (under previous stages of Project Breeze). This initiative, and Project Breeze itself, aligns with Objective D of the NCSC Cyber Assessment Framework (CAF), which emphasises the importance of CNI operators mitigating the effects of cyber incidents.

Project Breeze was intended to follow a structured five-phase approach to provide comprehensive support to the sector's sites and operators. The first three phases of Project Breeze were completed in FY 2022/23, with the original plan to proceed with phases 3 and 4 subsequently. However, after consulting with industry stakeholders, we assess that an additional phase should be introduced, referred to as 2a, before moving on to Phase 3. The completion of Phase 4 is planned for FY2024/25. The completed phases of Project Breeze are as follows:

- Phase 0: **Information gathering.** Sites and operators were required to complete a questionnaire regarding their existing cyber incident response policies and processes within their organisations.
- Phase 1: **Industry briefing.** A dedicated session was conducted by representatives from HMG and previous procured consultants, providing a comprehensive briefing on Project Breeze and the available support for sites and operators throughout the process. The session included discussions on best practices in cyber incident response and recovery, including planning and exercising, highlighting the benefits of participation for businesses.
- Phase 2: **Workshop.** All sites and operators were invited to participate in a workshop that offered in-depth advice and guidance on cyber incident response and recovery. The workshop focused on good practices, integration with existing processes, key considerations, and testing/exercising approaches.

As for this procurement process it would begin at Phase 2a: **The delivery of targeted training to support Chemicals CNI operators develop and produce their own Operational Technology Cyber incident response plans. Phase 3 would provide an opportunity for CNI operators to test these plans, utilising training material/scenarios developed under this procurement exercise.**

2. Aims & Objectives

The industry briefing (Phase 1) and workshop (Phase 2) demonstrated that whilst there are examples of operators making progress in the development of their cyber incident response plans, it is assessed that Chemicals CNI operators would benefit from more detailed training and guidance to support their development and production (Phase 2a). Phase 3 would allow CNI operators to test their plans, likely utilising a scenario-based exercise.

3. Objectives

Objectives that would be achieved on completion of Phase 2a and Phase 3 of Project Breeze are:

1. **Ensure equivalence:** The training aims to bring all operators to an equivalent level of cyber security response preparedness. It seeks to bridge the gap between operators who have made progress in developing their response plans and those who require more detailed training and guidance.

2. **Support subsequent phases:** The training provided will equip operators with the necessary knowledge and skills to proceed to the subsequent phases of Project Breeze. It aims to enable operators to meet the requirements and expectations set forth in the later stages of the project.

3. **Detailed training and guidance:** The objective is to provide operators with training and guidance on cyber incident response and recovery. This includes imparting knowledge on best practices, integration with existing processes, key considerations, and testing/exercising approaches. The aim is to enhance operators understanding and capabilities in effectively responding to and recovering from cyber security incidents and to ensure such processes are integrated into wider site major incident response procedures and protocols.

4. **Enhanced maturity:** The overall objective is to improve the maturity of CNI operators cyber security response and recovery capabilities. Through the training and guidance provided, operators will be better equipped to minimise the impact of cyber security incidents, particularly within the operational technology (OT) environment. This objective aligns with the broader goal of enhancing the resilience of the UK Chemicals CNI.

2. **Operation of the Contract:** To ensure the aims and objectives of the project are met, the contract shall operate as follows:
- a. **Clear communication:** The supplier shall maintain clear and effective communication with the operators, project stakeholders, and relevant authorities. Regular updates, progress reports, and feedback sessions should be provided to ensure transparency and alignment with project goals.

b. **Compliance:** The supplier shall adhere to all relevant standards, regulations, and security needs, including physical and IT-related requirements. This includes ensuring compatibility with operators' equipment, software, and systems, as well as compliance with GDPR regulations in handling and processing data.
3. **Key Performance Indicators (KPIs):** To assess the performance and success of the contract, the following KPIs shall be established:
- a. **Number of participants:** The supplier shall track and report the number of operators participating in the workshops and tabletop exercises, demonstrating engagement and uptake of the training services.

b. **Feedback and satisfaction:** Regular feedback from operators regarding the quality and effectiveness of the training shall be collected and evaluated to measure overall satisfaction and identify areas for improvement.

c. **Progress and readiness:** The supplier will be responsible for assessing the progress made by operators in the development of their cybersecurity response plans and their readiness to proceed to subsequent phases of Project Breeze. This assessment will involve evaluating various aspects, including the incorporation of best practices, integration with existing processes, and the operators' ability to effectively respond to and recover from cybersecurity incidents. The supplier will closely examine the efforts made by each operator to develop their individual response plans. This includes assessing whether the plans align with industry best practices and standards for cybersecurity incident response and whether the plans are OG86 compliant. The evaluation report will also consider how well the response plans integrate with the operators' existing processes, ensuring a cohesive and coordinated approach to cybersecurity incident management.

7. Timetable

The following timetable outlines key targets and milestones to be achieved during Phase 2a and Phase 3 of Project Breeze. It serves as a performance indicator to facilitate stage or interim payments based on the completion of measurable deliverables. The timetable provides specific deadlines for the delivery of outputs, highlighting the importance of meeting these milestones for the overall success of the project.

1. Phase 2a Timetable:

- a. **Completion of Site/Operator questionnaires:** All sites/operators are expected to complete the information gathering questionnaire by September 2023. This will provide essential input for the subsequent phases of the project.
- b. **Industry briefing session:** An industry briefing session, led by the successful suppliers, scheduled to take place before October 2023. This session will provide a comprehensive overview of Phase 2a of Project Breeze and the support available to sites/operators.
- c. **Workshop preparation:** The supplier will prepare the workshop materials, including advice, guidance, and best practices for cyber incident response and recovery. These materials should be ready for distribution to sites/operators by October 2023.
- d. **Workshop Delivery:** The workshops, aimed at all sites/operators, are scheduled to be conducted between October and November 2023. The supplier should ensure that the workshops provide in-depth guidance on cyber incident response and recovery, emphasising good practices, integration with existing processes, key considerations, and testing/exercising approaches.

2. Phase 3 timetable:

- a. **Tabletop exercise preparation:** The supplier will develop tabletop exercise scenarios and supporting materials for cyber incident response and recovery. These materials should be finalised and made available to participating site/operator representatives by December 2023.
- b. **Tabletop Exercise Participation:** The tabletop exercises, focused on cyber incident response and recovery, will take place by February 2024. Site/operator representatives will have the opportunity to test their incident response plans in a simulated environment.
- c. **Summary Report:** Upon the successful completion of phases 2a and 3, the consultants to provide a comprehensive draft summary report by end of March and final report ASAP, as close to the end of Financial Year.

It is crucial to adhere to the specified timetable to ensure timely completion of key activities and milestones. Any deviations from the timetable should be communicated promptly to stakeholders, with necessary adjustments made to maintain project progress. The completion dates for each phase and deliverable are fundamental to the success of the project and should be treated with utmost importance.

Where the Relevant Authority terminates a Contract under Clause 10.4.1 all of the following apply:

10.5.1 The Supplier is responsible for the Relevant Authority's reasonable costs of procuring Replacement Deliverables for the rest of the Contract Period.

10.5.2 The Buyer's payment obligations under the terminated Contract stop immediately.

10.5.3 Accumulated rights of the Parties are not affected.

10.5.5 The Supplier must promptly return any of CCS or the Buyer's property provided under the terminated Contract.

10.5.6 The Supplier must, at no cost to CCS or the Buyer, co-operate fully in the handover and re-procurement (including to a Replacement Supplier).

10.5.7 The following Clauses survive the termination of each Contract: 3.2.10, 6, 7.2, 9, 11, 14, 15, 16, 17, 18, 34, 35 and any Clauses and Schedules which are expressly or by implication intended to continue.

10.6 When the supplier can end the contract

10.6.1 The Supplier can issue a Reminder Notice if the Buyer does not pay an undisputed invoice on time. The Supplier can terminate an Order Contract if the Buyer fails to pay an undisputed invoiced sum due and worth over 10% of the annual Contract Value within 30 days of the date of the Reminder Notice.

10.6.2 If a Supplier terminates an Order Contract under Clause 10.6.1:

- the Buyer must promptly pay all outstanding Charges incurred to the Supplier
- the Buyer must pay the Supplier reasonable committed and unavoidable Losses as long as the

Supplier provides a fully itemised and costed schedule with evidence - the maximum value of this payment is limited to the total sum payable to the Supplier if the Contract had not been terminated

10.8 Partially ending and suspending the contract

10.8.1 Where CCS has the right to terminate the DPS Contract it can suspend the Supplier's ability to accept Orders (for any period) and the Supplier cannot enter into any new Order Contracts during this period. If this happens, the Supplier must still meet its obligations under any existing Order Contracts that have already been signed.

10.8.2 Where CCS has the right to terminate a DPS Contract it is entitled to terminate all or part of it.

10.8.3 Where the Buyer has the right to terminate an Order Contract it can terminate or suspend (for any period), all or part of it. If the Buyer suspends a Contract it can provide the Deliverables itself or buy them from a third party.

10.8.4 The Relevant Authority can only partially terminate or suspend a Contract if the remaining parts of that Contract can still be used to effectively deliver the intended purpose.

10.8.5 The Parties must agree any necessary Variation required by Clause 10.8 using the Variation Procedure, but the Supplier may not either:

- reject the Variation
- increase the Charges, except where the right to partial termination is under Clause 10.3

10.8.6 The Buyer can still use other rights available, or subsequently available to it if it acts on its rights under Clause 10.8.

17. Invalid parts of the contract

If any part of a Contract is prohibited by Law or judged by a court to be unlawful, void or unenforceable, it must be read as if it was removed from that Contract as much as required and rendered ineffective as far as possible without affecting the rest of the Contract, whether it's valid or enforceable.

18. No other terms apply

The provisions incorporated into each Contract are the entire agreement between the Parties. The Contract replaces all previous statements and agreements whether written or oral. No other provisions apply.

24.6 If there is a Specific Change in Law or one is likely to happen during the Contract Period the Supplier must give CCS and the Buyer notice of the likely effects of the changes as soon as reasonably practical. They must also say if they think any Variation is needed either to the Deliverables, DPS Pricing or a Contract and provide evidence:

- that the Supplier has kept costs as low as possible, including in Subcontractor costs
