Data may also be collated and analysed on participants who are not developers / adopters of these products but who have accessibility issues as part of accessibility testing. • Data collected on the individuals above will be as follows • Email addresses • Names • Places of work and position; previous places of work and position • Protected characteristic data may be collected including: ○ Sex / gender ○ Ethnicity ○ Age ○ Disability and special needs ○ Particular characteristics which informed development of their products which may include: ▪ Race / ethnicity ▪ Religion or belief ▪ Sexual orientation ▪ Gender reassignment

Nature and purposes of the Processing	Data will be processed for research purposes to inform design and delivery of a service that provides advice, support and guidance to developers and adopters of AI / data-driven technologies and those professionals who support them. Data may be processed in the following ways: • Interviews with participants, where informed consent is established both before and during the interviews • Survey data collection

Description	Details
	Workshops with discussions and note-taking on the users perspectives This data will then be analysed, and used to generate anonymised insights to inform the design of the service, including user personas. This in turn will feed into briefings to stakeholders (both internal and external) the Government Digital Services (GDS) assessment. Some quotes from users may be used as part of the assessment and other stakeholder engagement, but these quotes will be anonymised. Personal data will be collated and stored by the controller and only shared with the processor where absolutely necessary; for example, sharing names and email addresses and places of work to organise interviews or workshops. Any further personal data will be shared directly with both controller and processor by the data subject as part of the interview / survey / workshop and with informed consent. Plan for return and destruction of the data once the Processing is complete UNLESS requirement under Union or Member State law to preserve that type of data	Because this is a long-term project with need to undertake significant user research, the data will be retained by the controller until July 31st 2022 to enable further user research. By this date, the controller will seek consent from participants to use their data further if needed, and if not the raw data submitted by participants will be destroyed. The outputs from this processing, such as analysis and recommendations, will not be destroyed as this may be needed for audit trail and further policy work. Consent forms will be filed and saved across the duration of the project, i.e. up until March 2023. The processor will not have access to this data from October 12th 2021, and if that changes the DPIA will be revised.

- 3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Relevant Authority may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

Annex 3 (Expenses Policy)

FOR OUTCOME BASED SUPPLY CONTRACTS

1. The Supplier must adhere to the **overarching principles**, as set out below.
 - **Travel should be for essential business reasons only.** Suppliers shall work to minimise the costs of travel.
 - **Travel should consider environmental impact.** The Buyer has a responsibility to meet obligations to reduce carbon emissions and business travel itself and in its supply chain under the Greening Government Commitment Policy, and therefore does not encourage unnecessary travel. In order to reduce the environmental impact of travel, every attempt should be made to identify options to eliminate the need to travel, for example using new technologies to communicate. Regular travel should always be challenged as part of good practice;
 - The **lowest cost option** for travelling should be the default. Suppliers are encouraged to use public transport wherever possible. Suppliers are also expected to use the most economical means of public transport on every occasion, including travelling outside of peak times where practical. The purchase of advance tickets is expected in all but exceptional cases;
 - **First class** travel is **not permitted and will not be reimbursed**, regardless as to whether the cost of such is lower than alternative options, except when an individual has a disability as set out in the Business Travel and Expenses Procedure;
 - All travel bookings and expense claims for reimbursement must have **clear business justification**.
 - Suppliers shall claim compensation (for late or delayed travel for example), on behalf of the Buyer.
 - The Buyer will only reimburse expenses which are **in excess of the normal commuting and day to day costs** of the individual. Whilst journeys may begin from home, Suppliers will be required to take account of the above when making claims.
2. Reporting and Audit Suppliers are required to maintain a full itemised index of expenses, and detail the named personnel, reference, and work to which is relates, and sufficient evidence to show the principles have been considered and are met in each case, and provide copies on request at any time by the Buyer.

Framework Ref: RM6221

Failure to provide the same will mean the expenses may not be recoverable. Suppliers shall maintain such records for review by the Buyer (and its auditors, HMRC, DHSC and any other central government entity) for the duration of the Call-Off Contract and for a period of 6 years from expiry or termination of the same.

3. Limitations and Exclusions Any reimbursement of expenses is subject to the following exclusions and limits:
 - 3.1. No expenses shall be chargeable for any Deliverables provided on a Fixed Price basis.
 - 3.2. Expenses shall only be chargeable for Deliverables charged on a Capped Time and Materials basis where the Call-Off Contract explicitly specifies both:
 - 3.2.1. that expenses are chargeable; and
 - 3.2.2. the total maximum capped amount for the expenses under the Call Off-Contract.
 - 3.3. If expenses are chargeable, they will only be chargeable up to the stated capped amount. If no capped amount is stated in the Call-Off Contract, then the capped amount shall be interpreted as zero and no expenses shall apply.
 - 3.4. Any claim for reimbursement of expenses must be submitted no later than monthly in arrears.
 - 3.5. No expenses shall be reimbursed for Suppliers working from their normal place of business (in any location) or their home.
 - 3.6. Suppliers shall be required to provide evidence of all expenses incurred on the submission of any invoice for the same. Any claims for expenses must be submitted with evidence (copies of VAT receipts).
4. Unless otherwise explicitly agreed under such Call-Off Contract as a variation of the application of this policy, there is no reimbursement of expenses for travel to any of the Buyer's main offices.
5. Subject to the above, only the following categories of expenses would be reimbursable. Where expenses are chargeable, such expense claims must also meet the following criteria:

If the personal circumstances and location of a particular individual lead to claims becoming excessive, the Buyer reserves the right to review and amend such claims as appropriate. HRA		Health Research Authority

MAAS		Multi-Agency Advice Service
CCG		Clinical Commissioning Groups

Call-Off Schedule 20 (Call-Off Specification)

1. Context

1. The AI Multi-Agency Advisory Service (MAAS) project is a 2.75 year project, just entering its second year, funded by the NHSx AI Lab.
2. The project is a collaboration between four regulatory bodies ('MAAS partners'):
 - the National Institute for Health and Care Excellence (NICE; with project oversight) provides national guidance and advice to improve health and social care,
 - the Care Quality Commission (CQC) is the independent regulator of health and social care in England,
 - the Health Research Authority (HRA) provides a unified national system for the governance of health research, and;
 - the Medicines and Healthcare products Regulatory Agency (MHRA) ensures that medicines and medical devices work and are acceptably safe.
3. The aim of the project is to:
 - enable collaboration between the partner agencies to identify challenges and barriers in the regulatory pathway and to resolve these;

- articulate the regulatory and health technology assessment (HTA) pathway clearly for developers and adopters, so they know what they need to do when, who to contact, etc;
 - bring together in one place support, information and advice on the regulation and HTA pathways for artificial intelligence (AI) in health and care, and other data-driven technologies;
 - identify and tackle 'content gaps' related to the above and in response to priority user needs, and;
 - collaboratively research, test and develop a multi-agency advice service whose form and function best reaches key users and enables them to achieve their goals.
4. User mapping has been undertaken as part of discovery, and the key users (summarised) for this project are:
- Developers of AI and data-driven technologies, who could be from industry, academic researchers or professionals within the health and social care system.
 - Adopters, who could be people or teams working within care and health provider organisations, such as primary care, GPs and GP networks, integrated care systems, care homes, NHS trusts, clinical commissioning groups (CCGs) and local authorities.
5. While not a key user per se, the working practices, needs and constraints of employees at the MAAS partners responsible for running the service should also be well understood to enable effective service delivery.
6. The primary outcome of the service is to provide easy access to comprehensive information and support so that developers of AI and data-driven technologies can meet robust measures of assurance in safety and quality, and health and care providers ('adopters') have the knowledge and tools to help them adopt and deploy the best AI technologies.
7. Based on research undertaken to date, the MAAS partners current thinking (subject to further research and insights in the alpha phase) is that the service component of the project (as distinct from policy development) should focus on the following features:
- An informational website which maps out and clarifies the regulatory and HTA pathway for AI and data-driven technologies, highlighting relevant guidance and materials that developers and adopters need when they need it, so that they can make regulatory progress more effectively whilst (ideally) expending less resource.
 - Two-way engagement and educational outreach with support organisations in the wider research and innovation ecosystem, especially those who developers and adopters typically seek help from (as identified by discovery research), so that they are well placed to guide key users on the correct regulations and reinforce our messages.
 - A centralised transactional resource that makes it easier for developers and adopters to access advice and support they need by triaging them to the most appropriate of existing support offers whilst 'hiding the wiring'. A full map of these support offers will be available to the successful applicant.

8. The project will run from July 2020 through to March 2023, and the service should be running in public beta with a roadmap for iteration of further features by late spring / early summer 2022. It is expected that the service should have been running in public beta for some time by March 2023, and largely stabilised, so that an evaluation of its effectiveness and impact can be undertaken.

2. Scope

The MAAS partners are looking for a digital agency to lead the research, design and testing of prototypes of the service as part of the alpha phase. This will involve:

- Exploring different service routes (both online and offline) to identify which best meet the needs of end users, and are most feasible in the context of the current (and potential future) regulatory landscape;
- Undertaking user research with MAAS partners to determine the optimal service scope, design and processes that will enable them to best support end users in line with their regulatory remits and constraints;
- Prototyping different design concepts, testing with end users, iterating concepts in response to feedback;
- Ensuring the design of the service meets the needs of all users, including those with accessibility needs;
- Proposing a lead service scope and design, along with lead design concepts, to progress into beta, and;
- Adhering to best practice as per industry standards and the [Government Digital Services Standards](#) throughout the project; leading the team through agile project delivery, including deciding appropriate ceremonies.

The agency will build upon the findings from and (where appropriate) raw research materials undertaken in discovery, which are outlined in appendix 1.

The project will need to undergo [Government Digital Services \(GDS\) assessment](#) so that further funding can be released. This assessment should be submitted to GDS by the end of the alpha period, and the digital agency will undertake to remedy any GDS rejection until a successful result and permission to progress to beta is obtained (in line with see assumptions).

The digital agency will be assisted by an in depth on-boarding phase with all MAAS partners, including sharing of materials in advance. The digital agency will meet in the first week with MAAS partners – both individually and collectively – to learn about the different roles, regulatory remits,

statutory obligations and constraints particular to each partner, as well as their goals. A thorough understanding of these will be critical for the digital agency's ability to propose solutions which are feasible and deliver value.

Objectives for this work are:

- Review research undertaken in discovery, and propose an appropriate plan for alpha that tackles biggest risks and areas of uncertainty
- Decide which end users and / or user needs should be prioritised for building the MVP of the service
- Define the service scope and end-to-end user journeys, including deciding which (if any) parts of the offer should be online and / or offline
- Build upon existing content mapping (undertaken in discovery) to develop a content strategy that includes: which content areas to prioritise for further development; how to best structure, write and present content for key users, and; how to keep content up to date.
- Propose the core components of the service and how it will deliver value to end users, whilst taking into account the wider health and care innovation support ecosystem, and other offers tailored for developers and adopters of these innovative technologies
- Propose methods to engage end users, taking into account diverse users needs including accessibility, and make content intelligible to help them make progress.
- Produce, test and improve prototypes (ideally uncoded / wireframes to minimise effort) for end users; gathering robust evidence on progress made and ensuring that versions are iterated and developed in a timely way to progress at an appropriate pace
- Develop a range of appropriate artefacts relating to research and design so that any further work undertaken is grounded in work to date
- Identify and propose what capacity and capabilities will be needed among MAAS partners and / or other system partners to deliver the service from public beta onwards
- Lead the team in preparations for Government Digital Services (GDS) assessments, developing materials and leading presentation strategy.

....

2.1. Geographical Scope

2.1.1. Target Geography

The MAAS partners have different Geographic remits. The Cross-reg service will have an England 'delivery geography' scope to start; we will clearly state where individual regulators remit is wider so

other jurisdictions know what applies. With a long-term intention to open to all devolved nations as interested and ready.

The MAAS service may be accessed from outside England, however the information provided will be relating to Regulation and HTA processing within England.

2.1.2. Delivery Geography

The 'delivery geography' is not related to where services are 'consumed' but to the organisation / location of the Buyer's development and delivery capability.

The work is not based in a specific location and due to the COVID-19 situation all meetings are currently being held virtually, via Zoom. It is anticipated that a lot of the work could be conducted remotely, in line with current Government guidance in response to the COVID-19 pandemic, but there may be a need to attend certain meetings / workshops / focus groups in person and so some travel may be required. Appropriate risk assessment will be conducted in order to accommodate any parties with specific health or work needs as best as practical.

The MAAS Secretariat is based at NICE, with offices in London and Manchester.

2.1.3. Organisational Scope

The MAAS Collaborative is responsible for the safe, effective, and efficient development of the multi-agency advisory service. In doing so it is supported by and works closely with other areas of all four partner organisations. These areas include but are not limited to: Digital Information and Technology, Information Governance, Data and AI Policy Team, Communications, Operations.

2.2. End Users

2.2.1. Target Sectors

Target Sectors details are contained in:

This service is primarily professional-facing, aimed at developer and adaptors of AI and data-driven technologies. While not aimed to be 'citizen / patient-facing', it should also be accessible for the interested members of the public who will want to understand whether regulation is working effectively for them, the NHS and social care.

See Annex 1 for a list of stakeholders

Annex 1

2.2.2. Target Users

The primarily professional-facing users have been identified via user mapping which has been undertaken as part of discovery, and the key users (summarised) for this project are:

- Developers of AI and data-driven technologies, who could be from industry, academic researchers or professionals within the health and social care system.
- Adopters of AI and data-driven technologies, who could be people or teams working within health and social care system provider organisations, such as primary care, GPs and GP networks, integrated care systems, care homes, NHS trusts, clinical commissioning groups (CCGs) and local authorities.

Users in these groups could include, but would not be limited to:

NHS clinicians: both as developers and adopters, other NHS and social care staff, e.g. R&D teams who advise developers; information governance leads and data controllers who advise on testing of AI and adoption; patient safety expertise within trusts who would advise on whether or not adoption is safe; clinical innovation, users will be based in public and private sector organisations.

A representative range of users will be engaged in the development, selection and testing of the service, throughout discovery, alpha and beta phases.

2.3. Stakeholders

The MAAS project has a wide range of stakeholders and interested parties who will contribute directly and indirectly to the project. Including the sponsor NHSX AI Lab, and the collaborating regulatory organisations (NICE, CQC, HRA and MHRA).

The Government Digital Services (GDS) for sign off at specific stages of the project as determined by the GDS assessments framework, the project will need to pass these assessments to release funds for the next stage.

MAAS Stakeholders have been categorised according to their position within the AI landscape and given an engagement level of A, B or C.

Those at engagement level A, who will play an integral role in shaping the information, support, or advice that the service will provide comprise of government bodies and relevant arms-length bodies, include but are not limited to:

- Information Commissioner's Office (ICO)
- NHS Digital
- Public Health England – National Screening Committee

- National Data Guardian (NDG)
- NHS England & Improvement (NHSE/I) – Innovation Service
- NHS England & Improvement (NHSE/I) – Acceleration Access Collaborative AI Award (AAC)
- Equivalent bodies from devolved nations

Level B stakeholders hold various perspectives and knowledge bases such that they can offer valuable input into the service design, but will not form part of the approvals process, examples below but are not limited to:

- System stakeholders (with an interest), i.e. National Institute for Health Research (NIHR), REFORM, Academic Health Science Networks (AHSNs)'s.
- Industry intermediaries, i.e., MedCity, Association of the British Pharmaceutical Industry (ABPI), Association of British HealthTech Industries (ABHI), Imperial College London.
- Provider Intermediaries, i.e., Royal colleges, Care England, Independent Healthcare Providers Network (IHPN), DICE, Association of Directors of Adult Social Services (ADASS)
- User (developers), i.e., Big tech, SME's, academic institutions
- Users (adopters), i.e., NHS Hospital trusts, Care homes, private care providers, Clinical commissioning groups (CCG's)

Level C stakeholder have expressed an interest and want to be kept informed about the project and its progress, but will not form part of its approvals process or input into the service design, examples below but are not limited to:

- Patient Intermediaries and advisory groups
- Organisations or individuals who have specific asked to be kept informed

2.4. Timing Scope

The MAAS project has agreed funding from NHSX AI Lab until 2023, it is however dependent on this funding being for the duration of the project, which in turn may be impacted by government priorities. The initial call-off is for the design phase (Alpha) development (with a view to extending into build phases (private Beta) and the iterative and improvement phase (public beta)).

It is anticipated that the service will run for a number of years once in the live phase (post March 2023) and may require hosting / maintenance and iterative updating support. The long-term sustainability of the service past the agreed project end date will be explored once a concrete proposal for service MVP and backlog that includes design and running costs is developed from the alpha research phase.

2.5. Life-Cycle Scope

The focus of this call-off contract is for the digital agency to provide the specified services to the MAAS project for the design phase (Alpha). The digital agency will support the alpha stage by providing key design and web service development expertise to supplement the policy expertise and knowledge of key users of the policy leads. The digital agency will provide a handover at the end of the design stage (Alpha) with an MVP proposal and backlog, the project has a view to continuing into build phases (private Beta) and the iterative and improvement phase (public beta), dependent upon successful GDS assessment, tenders for these phases will be released at relevant points.

2.6. Technical Scope

2.6.1. Core Technical Capabilities

The primary focus of this call-off contract is for activities which support and underpin to development of the design phase (Alpha) of the MAAS project and continuous improvement / iterations as part of this; so consideration of most sustainable and scalable technology options should be at the forefront. In order to pass the GDS assessment, the Supplier will also need to adhere to the GDS service standard, including technology aspects of the standard.

Annex 2

2.6.2. Interoperability Considerations

While the MAAS isn't an existing solution, the Supplier will need to explore existing solutions with which it might want to integrate and interface. **These will include** Innovation Service; NHSx AI Lab website; NICE website; ~~etc~~, and advise on the best route forward to meet user needs. Within this context, the Supplier needs to understand the various pros / cons of different options for the solution – both on their own merit and in relation to the existing solutions

2.6.3. Technical Constraints

Assumptions	Mitigations
<i>Ways of working to be agreed within Sprint 1 including using Miro or Mural and other collaboration tooling</i>	<i>"Ways of working" shared document agreed on project kickoff and reviewed if and when necessary.</i>
<i>NICE to own all stakeholder relationships informing BJSS who should be contacted and assist organising stakeholders to these meetings. This includes Technical stakeholders.</i>	<i>"Shared activity planning calendar" to ensure stakeholder and user availability in advance</i>
<i>Outcome of the work will be the output of a GDS assessment</i>	<i>Outcome of Alpha will converge into the recommendation report and GDS deck.</i>

<i>Previous discoveries scope and outputs are acceptable to the standard required for this piece of work</i>	<i>Ensure that Discovery output is shared and fully understood by the Alpha team on week one.</i>
<i>This work is related to the Alpha stage culminating on the GDS assessment. If the GDS decision is negative for an unforeseen reason then NICE would like BJSS to continue and NICE would pay for the extra time and resources.</i>	<i>Ensure that all challenges are known and addressed through the engagement to give the project it's best chance of passing the GDS assessment.</i>
<i>Product Owner will be available when required and support stakeholder scheduling</i>	<i>Product Owner will participate on all key ceremonies and deputise when busy. Product Owner will support the team on key challenges and decisions.</i>
<i>Product Owner will agree the scope of the project, if this changes due to new information the delivery timescales will be impacted and will be assessed via replanning</i>	<i>Changes and deviations of scope are common and need to be assessed by the team before agreed with any stakeholder and may result in trade-offs.</i>
<i>Sprint output must be signed off and progress reviewed on a sprint basis</i>	<i>The Service Designer and Delivery Manager will have a quick sign-off session with Product Owner at the end of each sprint.</i>
<i>Delivery Manager will be in place from BJSS to support this project</i>	<i>BJSS is adding a part-time Delivery Manager to ensure added support to the Product Owner and Service Designer.</i>
<i>Acceptance will be per sprint with a defined definition of done</i>	<i>Each sprint, the Product Owner will work with Delivery Manager and Service Designer to create a definition of done for the sprint items.</i>
<i>Depth of outputs need to be defined before the project starts and clear plan on when draft outputs will be available and if there are any external deadline that have to be met</i>	<i>Before engagement starts and upon kickoff, the Product Owner will support Service Designer and Delivery Manager to provide additional context regarding the work to date.</i>
<i>BJSS are not industry experts on all matters, so domain expertise need to be run and managed by NICE</i>	<i>Product Owner to support the team in providing access to relevant SMEs to ensure the team does not have domain expertise gaps when analysing the problem space.</i>
<i>Prototypes are static are not developed solutions (coded)</i>	<i>In order to ensure optimal use of engagement time and skill, the team will not produce coded prototypes and instead focus on prototype designs, in order to quickly test key concepts with stakeholders, backstage actors and users (adopters and developers).</i>
<i>BJSS will contribute to Business case but are not responsible for its approval or completion</i>	<i>BJSS will work alongside Product Owner to contribute to business case as a neutral party.</i>
<i>Outputs will not be available until deliverables are completed with show and tells demonstrating progress.</i>	<i>The project team and Product Owner will have full visibility of deliverables as they are produced and iterated until marked as done.</i>
<i>NICE will provide NHS technical contacts in order that BJSS can understand and consider any technical constraints</i>	<i>Product Owner to provide names and access to appropriate technical contacts</i>
<i>MAAS Evaluation SOW</i>	<i>BJSS will not be involved except for an interview</i>
<i>Content Delivery</i>	<i>Content delivery will consist of devising a content strategy rather than providing copy</i>
<i>Target Sector outlined in 2.2.1</i>	<i>2.2.1 is considered best practice rather than a pre-requisite.</i>

<i>Any additional scope or effort outside the scope of this work will be subject to a CCN</i>	

The MAAS partners and key stakeholders ie. PHE, ICO, etc. all operate different technology systems and business processes, these will need to be understood in-depth by the digital agency to propose a path forward. The digital agency should advise on how best to communicate amongst ourselves and serve our key users. Beyond technical constraints, there may be some legal and / or confidentiality constraints that will challenge a fully integrated service solution, which the Supplier will need to understand in depth to put solutions forward.

2.7. Requirements

The following outputs are required:

- Slide deck and artefacts for GDS alpha assessment, including but not limited to:
 - Map of current state, and issues users currently experience
 - Service blueprint
 - User journeys
 - Research plan and collateral (e.g. consent forms,
 - Evidence log from user research
 - Proposed metrics for monitoring success
- Alpha prototype consisting of wireframes with user journeys that have been tested and demonstrated value with a broad range of key users
- Content strategy for both developing content and keeping content up to date from public beta onwards
- Backlog with prioritised features, deliverables and sprints planned for the service in private beta, along with roles and (where relevant) while-time equivalents required per sprint.

2.8. Business Outcomes

These will be explored as part of the wider alpha scope, including GDS preparation

2.9. Technical Exclusions

For the purpose of this call-off contract technical exclusions will apply in circumstances specified by the Buyer to ensure that the MAAS design, development and delivery infrastructure and associated software, tools etc are not compromised or effort invested in developing technological capability which does not align with the Buyer's current delivery solution or service development and/or technology road map.

The MAAS must adhere to the GDS service manual; therefore all solutions and developments must abide by this.

The MAAS service must not be built as a standalone system; it must integrate with other relevant services in order to best deliver user needs.

“Operational Team”	means the technical and operational team assigned to supplying Deliverables under the Contract and any supporting personnel;
“Probity Policy”	means the probity policy set out in paragraph 3 of this schedule; and

“Wider Bidder Organisation”	means the organisation, as a legal entity as part of a wider parent group, supplying Deliverables under the Contract or bidding in a future Further Competition Procedure(s).

2 Background

- 2.2 Notwithstanding paragraph 2.1, if the Buyer determines the Supplier is in a position of potential competitive advantage compared with other suppliers as a result of performing related activities, the Buyer shall notify the Supplier. In such circumstances, the Supplier shall comply with any such probity measures reasonably proposed by the Buyer.
- 2.3 Where probity measures are to be put in place, the Supplier shall complete, sign and return a copy of the Probity Policy Agreement found at Annex 1 to this Schedule.

- 2.4 The Buyer may at any point during the Framework Contract Period invoke the full provisions of the Probity Policy if the Buyer deems it possible that a Further Competition Procedure may follow.
- 2.5 Each Probity Policy Agreement signed by a Supplier shall continue in force in respect of the Supplier until the conclusion of the Further Competition Procedure in connection with which the Supplier has signed a Probity Policy Agreement. For the avoidance of doubt, from conclusion of the relevant Further Competition Procedure, members of the Operational Team shall be permitted to work on the technical and operational service for the Buyer.
- 2.6 Until the Supplier gives notice in writing to the Buyer that it does not wish to participate in a Further Competition Procedure in accordance with Framework Schedule 7 (Call-Off Award Procedure), the Supplier shall be deemed a potential bidder in respect of the relevant Further Competition Procedure and the full terms of the Probity Policy shall apply.
- 2.7 The Probity Policy shall apply to any Further Competition Procedure arising from the Framework Contract.
- 2.8 The Buyer shall nominate a single point of contact within the Buyer's organisation for the purposes of managing the processes set out herein and notify the Supplier of the same.

3 Probity Policy

3.1 Introduction

- 3.1.1 The Buyer is committed to undertaking the award of public contracts consistent with principles of transparency and fair, equal, and non-discriminatory treatment of bidders as reflected in applicable procurement rules.
- 3.1.2 This Probity Policy sets out the specific working practices the Buyer will expect a Supplier to comply with, during the course of all Further Competition Procedures where the Supplier might otherwise have an unfair competitive advantage as a result of involvement in work leading to the Further Competition Procedure.
- 3.1.3 It is a condition of participation in any of the Further Competition Procedures that each Supplier complies with the specific responsibilities set out in this Probity Policy. Failure to comply with the Probity Policy may result in exclusion from any or all Further Competition Procedures where there are no other means to ensure compliance with the Buyer's duty to treat bidders equally.

3.2 Supplier responsibility to ensure compliance

- 3.2.1 Should the Supplier wish to bid under a Further Competition Procedure for the provision of Deliverables which are the same as or similar to Deliverables provided by the Supplier under an existing Call-Off Contract, the Supplier shall ensure that:

- (a) it creates information barriers between their Bid Team and any of their Operational Team(s) working on existing Call-Off Contracts held by the Supplier in order to minimise unfair knowledge sharing; and
- (b) it notifies to the Buyer any material documentation and information, Deliverables or both arising from any preparatory phase that might otherwise constitute a competitive advantage and, if requested, shall provide such documentation, information or Deliverables to the Buyer.

3.2.2 The Buyer reserves the right to request that the Supplier at any time demonstrates its compliance with the requirements of the Probity Policy.

3.3 Sharing information

- 3.3.1 The Supplier shall provide such information that is relevant to the Further Competition Procedure regarding the Deliverables (if any) that the Supplier provides, or has already provided at an earlier stage, to the Buyer as an existing supplier, as may be reasonably requested by the Buyer from time to time and on the understanding that this information may be passed on by the Buyer, in full or in part, to facilitate an equal competition between bidders in relation to Further Competition Procedures (with the exception of Supplier Commercially Sensitive Information). This information must be provided by the Supplier at its own cost in a standard electronic format (e.g. MS-Office application files) or via participation in meetings, workshops or similar at the discretion of the Buyer.
- 3.3.2 Information must not be passed by the Supplier's Operational Team to their Bid Team(s). The Bid Team must not involve members of the Operational Team. The exception to this rule, for sharing or passing of information between teams, is that prior written permission is attained from the Buyer.
- 3.3.3 Each Supplier must treat all other suppliers equally and must not discriminate against any other entity or individual, at all times, in the context of requests for information made to the Buyer pursuant to this Probity Policy. All information to be shared between bidders must be sent to the Buyer who shall thereafter share the information with other suppliers as necessary.
- 3.3.4 The Buyer reserves the right to share budget information, planned resource profiles and other cost information (excluding Commercially Sensitive Information) to bidders if such information would otherwise confer an advantage to the Supplier.
- 3.3.5 Suppliers shall be aware that the provisions of FOIA may apply to information that forms the subject matter of this Probity Policy and understand that the provisions of FOIA shall take precedence over any term of this Probity Policy. The Buyer acknowledges that pursuant to the Code of Practice on the Discharge of the Functions of Public Authorities

under Part I of FOIA, where it receives a request under FOIA which relates to information whose disclosure may cause adverse impact on a Supplier, it is under a duty to:

- (a) seek the views of the Supplier prior to making any disclosure, in particular to assist in determining whether the information falls within the exemptions at Section 41 or 43 under FOIA; and
- (b) take due account of any views of the Supplier when determining whether such information falls within the Section 41 or 43 exemptions and thereby whether disclosure of such information should occur under FOIA.

3.4 Suppliers to control flow of information

3.4.1 Where a Supplier, or any Subcontractor, agent or member of that Supplier or an Affiliate is directly involved in the provision or management or delivery of Deliverables under the Contract with the Buyer, the Supplier shall establish internal communications barriers providing separation between different teams within the Supplier organisation compliant with the procedures set out below. Where the Supplier believes that it is not possible to comply with all of the procedures set out below the Supplier shall notify the Buyer and the Buyer shall work with the Supplier to ensure that the procedures below are implemented to the fullest extent practicable.

(a) Physical and Organisational Separation

There must be appropriate barriers and a clear and regulated communications procedure consistent with the principles in this Probity Policy between individuals who are involved, directly or indirectly, in putting together a bid or proposal and any individuals in the Supplier organisation who are directly involved in the provision or management of Deliverables under a Call-Off Contract to the Buyer.

(b) Communications between the Operational Team and the Bid Team

Individuals in the Bid Team may not discuss any aspect of the Further Competition Procedure or consult with individuals in the Operational Team except under circumstances deemed appropriate by the Buyer.

(c) Communications between the Wider Bidder Organisation and the Bid Team

The Supplier shall ensure that prior to any individuals in the Bid Team receiving information relating to the Further Competition Procedure from individuals in the Wider Bidder Organisation who are indirectly involved in the provision or management of Deliverables under any Call-Off Contract with the Buyer, they shall obtain the written permission of the Buyer. After receiving each such request, the Buyer shall review the information and may, at its sole discretion, give permission for the disclosure to the Bid Team and/or may make all or any part of that

information available to other Suppliers in accordance with paragraph 3.3.4.

(d) Information Systems

Any information held by the Supplier in any form (including electronic) which relates to Deliverables related to the Further Competition Procedure currently or potentially to be provided by the Wider Bidder Organisation to the Buyer shall not be made available to (or otherwise be accessible by) the Bid Team other than in accordance with the provisions of this Probity Policy.

(e) Bidder Account Management Role

If a Supplier retains a team to manage its commercial relationship with the Buyer at corporate or at client group level (the “**Account Management Team**”), individuals in that Account Management Team shall be permitted to supervise the activities of the Bid Team and the Operational Team. but shall only communicate information between those teams in strict accordance with this Probity Policy. For the avoidance of doubt, this excludes sharing of cost estimates, planning information, budgets, etc. unless the Buyer has agreed to share such information with all bidders in a Further Competition Procedure.

(f) Bid Team Organisation

No single individual forming part of the Bid Team may perform any other role (full or part time) in the provision or management of Deliverables to the Buyer (as part of the Operational Team or otherwise). For the avoidance of doubt, this paragraph shall not prevent individuals within the Supplier's organisation from participating in more than one bid to the Buyer at any one time.

(g) Changes to the Bid Team

Within 7 days of receipt of the invitation to participate in the relevant Further Competition Procedure(s) the Supplier shall provide the Buyer with a list of those individuals forming the Bid Team. In accordance with the generality of the principles contained in this Probity Policy, if in exceptional circumstances the Supplier intends to make any changes to the membership of the Bid Team, it shall promptly seek the prior consent of the Buyer (such consent not to be unreasonably withheld or delayed).

(h) Compliance with the Policy

The Supplier's Compliance Officer shall be responsible for the Supplier's compliance with this Probity Policy. The Supplier's Compliance Officer shall discuss any difficulty in complying with this Probity Policy with the Compliance Officer. Each Supplier must ensure that all individuals in the Wider Bidder Organisation engaged at any time in the provision or management of Deliverables to or for the Buyer under a Call-Off Contract (including the members of the Account Management Team, the Bid

Team and the Operational Team) are appropriately briefed regarding this Probity Policy and agree to adhere strictly to this Probity Policy.

4 Potential or Actual Breach

- 4.1 The Operational Team and/or the Bid Team (as applicable) shall (through the Compliance Officer) notify the Buyer immediately on becoming aware of or suspecting a breach of this Probity Policy. The Buyer will then assess the potential impact of the breach and agree with the Supplier subsequent actions (such as a joint review or other step that the Buyer deems necessary) to be taken by the Supplier and/or the Buyer to mitigate the breach.
- 4.2 Where a breach of this Probity Policy has occurred the Supplier hereby acknowledges and agrees that the Buyer may take such actions as it deems necessary, which may include, subject to any other existing rights that the Buyer may have under the Further Competition Procedure and at the discretion of the Buyer, the disqualification of the Supplier from the Further Competition Procedure.
- 4.3 In addition, the Supplier acknowledges that any breach of this Probity Policy by the Operational Team and/or Bid Team may result in legal proceedings being commenced against the Supplier including a claim for the recovery of any losses or damages incurred by the Buyer as a direct consequence of that breach.

Dear, [Supplier Name]

Ref:

[Buyer Name] (the "**Buyer**") is currently planning and undertaking a Further Competition Procedure under the [reference the Framework] ("**Contract**"). You may wish to participate in the further procurement process.

You will appreciate that a key issue in any procurement strategy is to ensure that it is conducted with due probity, in particular it is imperative that any Supplier who is already engaged in providing services to the Buyer is structured such that it does not undermine the ability of the Buyer to hold a fair competition. It is important that there is a transparency in the engagement process, and suitable counter measures in place, to ensure that the procurement provides each supplier under the Contract with an equality of treatment and opportunity.

As a supplier under the Contract, these principles and safeguards are applicable to how we regulate the participation of your company in Further Competition Procedures and are enshrined in the Probity Policy set out in Call-Off Schedule [24] (Probity) to the Call-Off Contract.

Please arrange for a suitably authorised representative of your organisation to countersign the enclosed copy of this letter to confirm your company's acceptance of the terms of the Probity Policy and that you will comply with its terms and shall procure that Subcontractors where applicable comply with the terms.

Please keep one copy of this document for your records and return one copy to the Buyer at the above address.

Yours sincerely,

Call-Off Schedule 24 (Health Probity)

- 2.4 If the Buyer decides to buy Deliverables under the Framework Contract it must use Framework Schedule 7 (Call-Off Award Procedure) and must state its requirements using Framework Schedule 6 (Order Form Template and Call-Off Schedules). If allowed by the Regulations, the Buyer can:

 - (c) exclude optional template Call-Off Schedules; and/or
 - (d) use Special Terms in the Order Form to add or change terms.
- 2.5 Each Call-Off Contract:
 - (a) is a separate Contract from the Framework Contract;
 - (b) is between a Supplier and a Buyer;
 - (c) includes Core Terms, Schedules and any other changes or items in the completed Order Form; and
 - (d) survives the termination of the Framework Contract.
- 2.6 Where the Supplier is approached by any Other Contracting Authority requesting Deliverables or substantially similar goods or services, the Supplier must tell them about this Framework Contract before accepting their order.
- 2.7 The Supplier acknowledges it has all the information required to perform its obligations under each Contract before entering into a Contract. When information is provided by a Relevant Authority no warranty of its accuracy is given to the Supplier.
- 2.8 The Supplier will not be excused from any obligation, or be entitled to additional Costs or Charges because it failed to either:
 - (a) verify the accuracy of the Due Diligence Information; or
 - (b) properly perform its own adequate checks.
- 2.9 CCS and the Buyer will not be liable for errors, omissions or misrepresentation of any information.

- 2.10 The Supplier warrants and represents that all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

3. What needs to be delivered

- 3.2.11 The Buyer can cancel any order or part order of Goods which has not been Delivered. If the Buyer gives less than 14 days notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.
- 3.2.12 The Supplier must at its own cost repair, replace, refund or substitute (at the Buyer's option and request) any Goods that the Buyer rejects because they do not conform with Clause 3. If the Supplier does not do this it will pay the Buyer's costs including repair or re-supply by a third party.

3.3 Services clauses

- 3.3.1 Late Delivery of the Services will be a Default of a Call-Off Contract.

- 3.3.6 The Supplier must ensure all Services, and anything used to Deliver the Services, are of good quality and free from defects.
- 3.3.7 The Buyer is entitled to withhold payment for partially or undelivered Services, but doing so does not stop it from using its other rights under the Contract.

4.7 The Buyer may retain or set-off payment of any amount owed to it by the Supplier if notice and reasons are provided.

4.8 The Supplier must ensure that all Subcontractors are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this does not happen, CCS or the Buyer can publish the details of the late payment or non-payment.

4.9 If CCS or the Buyer can get more favourable commercial terms for the supply at cost of any materials, goods or services used by the Supplier to provide the Deliverables, then CCS or the Buyer may require the Supplier to replace its existing commercial terms with the more favourable terms offered for the relevant items.

4.10 If CCS or the Buyer uses Clause 4.9 then the Framework Prices (and where applicable, the Charges) must be reduced by an agreed amount by using the Variation Procedure.

4.11 The Supplier has no right of set-off, counterclaim, discount or abatement unless they are ordered to do so by a court.

Cause; and

(c) mitigated the impact of the Authority Cause.

6. Record keeping and reporting

- 6.4 The Supplier must provide information to the Auditor and reasonable co-operation at their request.
- 6.5 If the Supplier is not providing any of the Deliverables, or is unable to provide them, it must immediately:
- (d) tell the Relevant Authority and give reasons;
 - (e) propose corrective action; and
 - (f) provide a deadline for completing the corrective action.
- 6.6 The Supplier must provide CCS with a Self Audit Certificate supported by an audit report at the end of each Contract Year. The report must contain:
- (a) the methodology of the review;

 - (b) non-payment by the Supplier of any Tax or National Insurance.
- 8.4 All claims indemnified under this Contract must use Clause 26.

- 8.6 If the Supplier becomes aware of a representation or warranty that becomes untrue or misleading, it

must immediately notify CCS and every Buyer.

- 8.7 All third party warranties and indemnities covering the Deliverables must be assigned for the Buyer's benefit by the Supplier.

9. Intellectual Property Rights (IPRs)

- 9.1 Each Party keeps ownership of its own Existing IPRs. The Supplier gives the Buyer a non-exclusive, perpetual, royalty-free, irrevocable, transferable worldwide licence to use, change and sub-license the Supplier's Existing IPR to enable it to both:
- (a) receive and use the Deliverables; and
 - (b) make use of the deliverables provided by a Replacement Supplier.
- 9.2 Any New IPR created under a Contract is owned by the Buyer. The Buyer gives the Supplier a licence to use any Existing IPRs and New IPRs for the purpose of fulfilling its obligations during the Contract Period.

- 9.6 If an IPR Claim is made or anticipated the Supplier must at its own expense and the Buyer's sole option, either:

 - (b) replace or modify the relevant item with substitutes that do not infringe IPR without adversely affecting the functionality or performance of the Deliverables.
- 9.7 In spite of any other provisions of a Contract and for the avoidance of doubt, award of a Contract by the Buyer and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Supplier acknowledges that any authorisation by the Buyer under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific IPR involved.

10.3.2 When the Relevant Authority receives a requested Rectification Plan it can either:

- (a) reject the Rectification Plan or revised Rectification Plan, giving reasons; or
- (b) accept the Rectification Plan or revised Rectification Plan (without limiting its rights) and the Supplier must immediately start work on the actions in the Rectification Plan at its own cost, unless agreed otherwise by the Parties.

10.3.3 Where the Rectification Plan or revised Rectification Plan is rejected, the Relevant Authority:

- (a) must give reasonable grounds for its decision; and
- (b) may request that the Supplier provides a revised Rectification Plan within 5 Working Days.

10.3.4 If the Relevant Authority rejects any Rectification Plan, including any revised Rectification Plan, the Relevant Authority does not have to request a revised Rectification Plan before exercising its right to terminate its Contract under Clause 10.4.3(a).

10.4.1 If any of the following events happen, the Relevant Authority has the right to immediately terminate its Contract by issuing a Termination Notice to the Supplier:

writing;

- (i) if the Relevant Authority discovers that the Supplier was in one of the situations in 57 (1) or 57(2) of the Regulations at the time the Contract was awarded; or
- (j) the Supplier or its Affiliates embarrass or bring CCS or the Buyer into disrepute or diminish the public trust in them.

10.4.2 CCS may terminate the Framework Contract if a Buyer terminates a Call-Off Contract for any of the reasons listed in Clause 10.4.1.

10.4.3 If any of the following non-fault based events happen, the Relevant Authority has the right to immediately terminate its Contract by issuing a Termination Notice to the Supplier:

- (a) the Relevant Authority rejects a Rectification Plan;

- (c) if there is a declaration of ineffectiveness in respect of any Variation; or
- (d) any of the events in 73 (1) (a) or (c) of the Regulations happen.

10.5 When the supplier can end the contract

The Supplier can issue a Reminder Notice if the Buyer does not pay an undisputed invoice on time. The Supplier can terminate a Call-Off Contract if the Buyer fails to pay an undisputed invoiced sum due and worth over 10% of the annual Contract Value within 30 days of the date of the Reminder Notice.

10.6 What happens if the contract ends

10.6.1 Where a Party terminates a Contract under any of Clauses 10.2.1, 10.2.2, 10.4.1, 10.4.2, 10.4.3, 10.5 or 20.2 or a Contract expires all of the following apply:

10.6.2 In addition to the consequences of termination listed in Clause 10.6.1, where the Relevant Authority terminates a Contract under Clause 10.4.1 the Supplier is also responsible for the Relevant Authority's reasonable costs of procuring Replacement Deliverables for the rest of the Contract Period.

10.6.3 In addition to the consequences of termination listed in Clause 10.6.1, if either the Relevant Authority terminates a Contract under Clause 10.2.1 or 10.2.2 or a Supplier terminates a Call-Off Contract under

Clause 10.5:

- (a) the Buyer must promptly pay all outstanding Charges incurred to the Supplier; and
- (b) the Buyer must pay the Supplier reasonable committed and unavoidable Losses as long as the Supplier provides a fully itemised and costed schedule with evidence - the maximum value of this payment is limited to the total sum payable to the Supplier if the Contract had not been terminated.

10.6.4 In addition to the consequences of termination listed in Clause 10.6.1, where a Party terminates under Clause 20.2 each Party must cover its own Losses.

10.6.5 The following Clauses survive the termination or expiry of each Contract: 3.2.10, 4.2, 6, 7.5, 9, 11, 12.2, 14, 15, 16, 17, 18, 31.3, 34, 35 and any Clauses and Schedules which are expressly or by implication intended to continue.

10.7 Partially ending and suspending the contract

10.7.1 Where CCS has the right to terminate the Framework Contract it can suspend the Supplier's ability to accept Orders (for any period) and the Supplier cannot enter into any new Call-Off Contracts during this period. 10.7.4 The Relevant Authority can only partially terminate or suspend a Contract if the remaining parts of that Contract can still be used to effectively deliver the intended purpose.

10.7.5 The Parties must agree any necessary Variation required by Clause 10.7 using the Variation Procedure, but the Supplier may not either:

- (a) reject the Variation; or
- (b) increase the Charges, except where the right to partial termination is under Clause 10.2.

10.7.6 The Buyer can still use other rights available, or subsequently available to it if it acts on its rights under Clause 10.7.

18. No other terms apply

The provisions incorporated into each Contract are the entire agreement between the Parties. The Contract

19. Other people's rights in a contract

No third parties may use the Contracts (Rights of Third Parties) Act 1999 (CRTPA) to enforce any term of the Contract unless stated (referring to CRTPA) in the Contract. This does not affect third party rights and remedies that exist independently from CRTPA.

- 24.6 If there is a Specific Change in Law or one is likely to happen during the Contract Period the Supplier must give CCS and the Buyer notice of the likely effects of the changes as soon as reasonably practical. They must also say if they think any Variation is needed either to the Deliverables, Framework Prices or a Contract and provide evidence:
- (a) that the Supplier has kept costs as low as possible, including in Subcontractor costs; and
 - (b) of how it has affected the Supplier's costs.
- 24.7 Any change in the Framework Prices or relief from the Supplier's obligations because of a Specific Change in Law must be implemented using Clauses 24.1 to 24.4.
