

Requests for Information (RFI)

Contractor is to submit their tender in accordance with the information uploaded to Contracts Finder and provide a full clarifications schedule on how their tender has been formulated. The tender and clarifications will then be reviewed during the tender analysis period.

Is the tender pack available in other formats?

The tender pack is only available as a PDF document.

Has the project completion date been changed due to granting an additional two-week period for tenders to be submitted?

Please submit a tender based on the information uploaded to Contracts Finder. The tender form provides an opportunity for the contractor to submit an alternative price and programme if they are unable to meet the timescales set in the tender pack. The final project delivery programme will then be agreed with the successful contractor.
