The Supplier shall ensure that each of the Insurances is effective no later than:
 - 1.1.1 the Framework Start Date in respect of those Insurances set out in the Annex to this Schedule and those required by applicable Law; and
 - 1.1.2 the Call-Off Contract Effective Date in respect of the Additional Insurances.
- 1.2 The Insurances shall be:
 - 1.2.1 maintained in accordance with Good Industry Practice;
 - 1.2.2 (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;
 - 1.2.3 taken out and maintained with insurers of good financial standing and good repute in the international insurance market; and
 - 1.2.4 maintained for at least six (6) years after the End Date.
- 1.3 The Supplier shall ensure that the public and products liability policy contain an indemnity to principals clause under which the Relevant Authority shall be indemnified in respect of claims made against the Relevant Authority in respect of death or bodily injury or third party property damage arising out of or in connection with the Deliverables and for which the Supplier is legally liable.
- 1.4 The terms of any insurance or the amount of cover shall not relieve the Supplier of any liabilities arising under the Contract.

2. How to manage the insurance

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;

3. What happens if you aren't insured

- 3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.
- 3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Relevant Authority may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4. Evidence of insurance you must provide

- 4.1 The Supplier shall upon the Start Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to the Relevant Authority, that the Insurances are in force and effect and meet in full the requirements of this Schedule.

5. Making sure you are insured to the required amount

- 5.1 The Supplier shall ensure that any Insurances which are stated to have a minimum limit "in the aggregate" are maintained at all times for the minimum limit of indemnity specified in this Contract and if any claims are made which do not relate to this Contract then the Supplier shall notify the Relevant Authority and provide details of its proposed solution for maintaining the minimum limit of indemnity.

6. Cancelled Insurance

- 6.1 The Supplier shall notify the Relevant Authority in writing at least five (5) Working Days prior to the cancellation, suspension, termination or non-renewal of any of the Insurances.
- 6.2 The Supplier shall ensure that nothing is done which would entitle the relevant insurer to cancel, rescind or suspend any insurance or cover, or to treat any insurance, cover or claim as voided in whole or part. The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

7. Insurance claims

- 7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Deliverables, or each Contract for which it may be entitled to

- 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. The Supplier shall not be entitled to recover from the Relevant Authority any sum paid by way of excess or deductible under the Insurances whether under the terms of this Contract or otherwise.

the Supplier shall immediately notify the Buyer in writing and the Buyer, in its absolute discretion and without limiting any other of its rights, may:

- 1.2.1 require the Supplier to immediately take all remedial action that is reasonable to mitigate the impact on the Buyer and to rectify or prevent a Service Level Failure or Critical Service Level Failure from taking place or recurring;
- 1.2.2 instruct the Supplier to comply with the Rectification Plan Process;
- 1.2.3 if a Service Level Failure has occurred, deduct the applicable Service Level Credits payable by the Supplier to the Buyer; and/or

4. Service Credits

The Buyer shall use the Performance Monitoring Reports supplied by the Supplier to verify the calculation and accuracy of the Service Credits, if any, applicable to each Service Period.

Service Credits are a reduction of the amounts payable in respect of the Deliverables and do not include VAT. The Supplier shall set-off the value of any Service Credits against the appropriate invoice in accordance with calculation formula in the Annex to Part A of this Schedule.

Annex A to Part A: Services Levels and Service Credits Table

Service Levels				Service Credit for each Service Period
Service Level Performance Criterion	Key Indicator	Service Level Performance Measure	Service Level Threshold	
Accurate and timely billing of Buyer	Accuracy /Timelines	at least 98% at all times	[]	0.5% Service Credit gained for each percentage under the specified Service Level Performance Measure
Access to Buyer support	Availability	at least 98% at all times	[]	0.5% Service Credit gained for each percentage under the specified Service Level Performance Measure

The Service Credits shall be calculated on the basis of the following formula:

Formula: x% (Service Level Performance Measure) - x% (actual Service Level performance)	=	x% of the Charges payable to the Buyer as Service Credits to be deducted from the next Invoice payable by the Buyer

Worked example: 98% (e.g. Service Level Performance Measure requirement for accurate and timely billing Service Level) - 75% (e.g. actual performance achieved against this Service Level in a Service Period)	=	23% of the Charges payable to the Buyer as Service Credits to be deducted from the next Invoice payable by the Buyer]

Call-Off Schedule 20 (Call-Off Specification)

This Schedule sets out the characteristics of the Deliverables that the Supplier will be required to make to the Buyers under this Call-Off Contract

The Requirement

Introduction and Background

The Department is seeking a Legal Advisor to provide a broad range of advice and support in relation to the proposed Transitional Support Arrangements.

The Project

As set out within the Biomass Strategy and Net Zero Strategy, power Bioenergy with Carbon Capture and Storage (power BECCS) is an integral part of the UK's drive towards offsetting emissions as we strive towards a greener future.^{1,2} Power BECCS has the potential to deliver a significant volume of removals that would support the UK's achievement of Carbon Budget 6 (CB6) and net zero.

The government committed in Powering up Britain: Energy Security Plan to working with electricity generators currently using biomass to facilitate their transition to power BECCS, subject to value for money, taking account of energy security on the road to net zero.³ However, the timelines for converting from unabated generation to power BECCS means there will be a gap in support between the end of some large scale biomass generators' existing arrangements, either on the Renewables Obligation (RO) or the Contracts for Difference (CfD) schemes, and the potential start of power BECCS. Whilst significant work is in train to support the transition to power BECCS, there will be a gap between the date existing support arrangements for large-scale biomass generators ends in 2027 and their potential transition to the power BECCS business model which is unlikely to take effect until 2030 onwards.

Biomass as a generation technology is subject to relatively high current and expected fuel prices, relative to expectations of power prices and other generation income such as the capacity market. As a result, in the absence of support, it is in most scenarios unlikely that large scale biomass plants would be incentivised to generate. This would lead to the potential retirement of the plants and loss of the associated fuel supply chains and logistics.

¹ [Biomass Strategy 2023](#)

² [Net Zero Strategy: Build Back Greener 2021](#)

³ [Powering Up Britain: Energy Security Plan 2023](#)

Framework Schedule 6 (Order Form Template and Call-Off Schedules)

Crown Copyright 2018

Without these generators the UK could lose out on the optionality of having significant volumes of negative emissions capacity through power BECCS. Given that large-scale solid fuel biomass generators currently contribute a substantial (7%) amount towards UK renewable electricity this would also represent a significant reduction in both generation and capacity. Losing this capacity from the network permanently would likely require the Capacity Market to procure more capacity to maintain security of supply. This could place an upward pressure on Capacity Market prices.

The government is therefore considering whether we need a transitional support mechanism to help facilitate these large-scale biomass generators with the potential to transition to power BECCS but who would have an interim period between their current support ending and when they could potentially transition to power BECCS.

Current status

The government is considering a range of possible interventions to meet the primary policy objective to support the transition to power BECCS as part of the government's decarbonisation commitments. In determining the range and scope of interventions, we will set out a series of success factors which we consider to be critical for meeting the overarching policy objective.

- Remain in market ahead of any future transition.
- Value for Money (VfM)
- Deliverable by Autumn 2024
- Consistent with subsidy control principles
- Manage changing circumstances

We are about to launch a consultation on our policy options, with an aim to publish in December which will run for 8 weeks.

Following an analysis of the results of the consultation we will then seek to:

- Make any legislative changes
- Pass subsidy control
- Pass business case approval
- Consider which generators might be eligible for support and then enter negotiations with them.

Timing

At this stage, DESNZ is seeking to secure legal advisory support on the project all the way through to a final agreement with generators which is expected late 2024. However we will retain the rights to extend the contract in line with the Framework options to meet the project needs. However, any utilisation of the extension periods will be subject to extension of the framework agreement as currently DESNZ is only able to extend contracts to 2 years beyond the framework term (so late 2026).

Framework Schedule 6 (Order Form Template and Call-Off Schedules)

Crown Copyright 2018

This tender is for a legal advisor contracted to provide advice through to final agreement and business case approval, although the contract length will be dependent on both (1) how far the project progresses through HMG's business case process, (2) if project development is delayed, (3) whether there is a successful outcome to any negotiations.

References above to 'impact on Government' means impact in the broadest sense, i.e., including impacts on end consumers as well as direct impacts on Government and/or taxpayers.

The above sets out the scope of the work that may be required during the contract with section D below giving some *guidance* on the expected near term (6-9 months) focus of the advisory work.

Additional to the legal advisors, the Transitional Support Arrangements programme may also have other commercial, policy and analytical advisors which may be appointed separately. All advisors will be expected to work together as necessary as an advisory team.

C. Required Skills and Capabilities of Project Team

Tenderers should propose named members of the core project team and include details of the responsibilities of each team member (including the individual(s) who will be responsible for managing the project).

Please assume resource to staff 2 parallel workstreams if needed during key project crunch times.

In view of the Requirements listed above, your tender response should include a summary of each proposed core team member's skills and capabilities in the areas set out below. The Department requires that Tenderers demonstrate the required skills and capabilities at all

E. Capacity and Working Arrangements

The successful tenderer will need to be able to provide high-calibre, situation-specific advice and demonstrate committed capacity to respond promptly and robustly to requests for advice and support. Your tender response should therefore provide details of how you would manage peaks and troughs in workload over the course of a Legal Services Contract. In particular, you should address your capacity to augment delivery resource at short notice during periods of heightened activity, explaining for instance how you would support negotiations with multiple Transitional Support Arrangement generators, including drafting the contract, while simultaneously supporting new legislation.

The successful tenderer will be expected to identify one named point of contact through whom all enquiries can be filtered. DESNZ will follow suit.

⁴ [Attorney General's Guidance on Legal Risk](#)

Framework Schedule 6 (Order Form Template and Call-Off Schedules)

Crown Copyright 2018

Throughout the Legal Services Contract, the tenderer will be expected to work with the Department to manage legal spend effectively, demonstrating how resources are managed to ensure budget control.

The contract will be structured by work packages scheduled to be completed as necessary, at regular intervals, as the project moves towards FID. Specific work packages will be scoped out by the relevant DESNZ team in discussion with the successful tenderer to assist with effective contract management.

The deliverables will be agreed by work packages scheduled to be completed as necessary, as the project moves towards FID. These work packages will be scoped out by the relevant DESNZ team in discussion with the successful tenderer to ensure the effective delivery of the project.

We expect that DESNZ legal will retain oversight of the project. In some instances, the successful tenderer may need to work with DESNZ legal to produce advice, but generally the successful tenderer will act as the primary legal advisor on the project. The level of input from DESNZ legal will be kept under review over the course of the project

The advisors may be expected to work closely with commercial, policy and analytical advisors either a part of, or appointed by DESNZ to ensure an integrated advisory team. The Policy Team and DESNZ Legal will be the clients to the legal advisors, ensuring robust project and programme management is in place.

Risk-based legal advice should be provided in accordance with the GLD risk framework, in concise plain English, in a form agreed with DESNZ Legal and DESNZ at the outset of the supplier's involvement on each instruction. Such advice is to be provided in the most cost-effective fashion and in a timeframe determined by DESNZ Legal and/or DESNZ.

The successful tenderer will adopt a demand-led and responsive approach: assessing their ability to meet the deadlines specified in instructions on a project-by-project basis, identifying where there are gaps in instructions or apparent inconsistencies with DESNZ stated policy aims, working to the level of input sought, whilst ensuring that the advice is provided in the most cost-effective manner

F. Key Performance Indicators

The successful tenderer will be expected to track and report on their performance in line with Key Performance Indicators for this Legal Services Contract. The proposed KPIs, reporting requirements and remedies will be provided at the contract award stage, but are expected to include producing reports on time and in accordance with scope provided and responses within 4 hours to urgent requests.

Annex 1 (The Tender)
