Intensive support will be provided through organisations in specialist areas such as substance misuse, mental health issues, disabilities or other areas where specialist support is required to help the participant progress.

It is recognised that the Case Manager will not have all the skills themselves to manage the complex needs of many offenders. In order for a participant to manage the barriers they face, referrals to specialist organisations for more intense support will be required.

Evidence will include copies of referral documentation, name of organisation, date, contact name and reason for referral plus confirmation of appointment attendance with the specialist organisation either by letter or email; letter must be on organisation headed paper. This will not be a Provider's 'in house' provision and can be claimed more than once depending on evidenced need of participant (although payment will only be made for the first activity with accepted evidence).

Work Placement/Tasters/Voluntary work taster

The Provider is to broker a short-term work placement, work trial, work experience or voluntary placement.

Work tasters can provide short real life work experiences to enable participants regain a positive attitude to work and update skills. Placements/tasters must be risk assessed and with recognised employers/charities.

Evidence will include written confirmation either by letter or email, from the employer or organisation, that the participant has attended placement and must include the company logo. Details will include participant name, dates attended and job role of participant.

Mentoring

The Provider is to broker one to one support throughout the period of the programme delivered through a recognised mentoring organisation/scheme with appropriately trained mentors.

Mentors can add significant value to the journey of an offender, giving independent advice and support to help the offender navigate life and the system. This may include a meet at the gate service (or shortly after release from prison) to accompany participants to relevant appointments such as JCP and housing.

Evidence will include a copy of the mentoring scheme on organisation headed paper and confirmation from mentor/mentoring organisation that the first appointment has taken place.

Additional supportive measures and sub-group specific activities may be added by NOMS CFO after consultation with the Provider.

Supportive measures will be recorded on CATS with supporting information in the action plan and notes sections.

In order to receive payment for supportive measures, at least 2 core activities must be completed.

Commenced full or part time employment, following an interview, whether temporary or permanent.

All interviews must be recorded on CATS and evidence of interview sent to NOMS.

In order to supply an audit trail to support all employment claims, Case Managers will ensure that they record the action plan and notes on CATS for all activity undertaken to obtain the employment achievement.

Employment can only be recorded where sufficient work has been undertaken by the Provider to justify the employment achievement. This is especially important when more than one agency may have been involved in working with a participant to avoid duplication and double counting.

There is a recognition that there is a significant number of employment agency job opportunities and Zero hour contracts available, however to claim these as an employment achievement, evidence of the participant working a minimum 30 hours must be provided. Without demonstrating that at least 30 cumulative hours of employment has taken place, the achievement should not be claimed.

Where employment is gained through an employment agency the employment achievement must be recorded with both agency name and employer name and address. The evidence supplied must be from the employer showing the assignment details and that the participant has commenced the employment.
