10.1 The Seller shall procure that the Buyer shall be the registered holder of the ROCs on the Register for all Export Output of the Facilities. The Seller shall do all such things as are required or requested by the Authority or the Buyer (acting reasonably) to ensure that the Buyer becomes the registered holder of the ROCs on the Register within 5 Business Days from the date the ROCs are issued to the Seller, provided that in any event the Seller will ensure that the Buyer is the registered holder of the relevant ROCs on the Register by the Long Stop Date immediately following the end of the Financial Year in which the Export Output to which the ROCs relate was delivered, ("**ROC Registration Obligation**") and if for whatever reason the Seller fails to comply with the ROC Registration Obligation for the purposes of paragraph 12 the Seller shall be deemed to have failed to transfer ownership of the relevant ROCs to the Buyer.

10.2 The Seller shall also (where relevant), within 2 (two) Business Days of receiving any ROC (or information on that ROC) attributable to the Export Output:

10.2.1 If received by e-mail, send the relevant ROC or information on that ROC (in the form received) to the Buyer by e-mail; or

11 **Transfer of ROCs**

11.1 The Seller undertakes that it will, forthwith on the earlier of receipt of ROCs attributable to the Export Output or notification from the Authority that the Seller is the registered owner of such ROCs, take all such steps as are required or necessary to transfer the ownership of such ROCs to the Buyer in the time scale specified in paragraph 10.1 and in accordance with the prevailing rules as provided from time to time by the Authority or other authorised body during the term of this Agreement.

12 **ROCs revoked or not issued**

If any ROCs to which the Buyer is entitled pursuant to paragraph 3 are not issued by the Authority within such timescale as the Authority indicate such ROCs should be issued (e.g. at the date of this Agreement the Authority have indicated that ROCs should be issued 3 (three) months after the end of the month when the relevant Energy is generated) or in any event are not issued by Long Stop Date immediately following the Financial Year in which the Export Output to which the ROCs relate was delivered, or having been issued, are subsequently revoked by the Authority at any time or the Buyer becomes unable to use any ROCs associated with the Export Output in accordance with paragraph 11.3 ("**Default ROCs**"), the Seller repay to the Buyer the amounts previously paid to the Seller for each Default ROC within 5 (five) Business Days after the Seller is notified (whether by the Buyer or otherwise) of a Default ROC. 2 **Adjustments to the Base Price/Inclusive Price Calculations**

- 2.1 The Facilities which are or may be included in this Agreement are either (a) Non-Intermittent Plant or (b) Intermittent Plant. Each separate class of Facility needs to be dealt with separately for the purposes of determining whether the requirements of the Seller in relation to the output required to be provided by the Buyer under this Agreement have been met pursuant to the provisions of clause [xx].
- 2.2 The Seller is obliged under the Agreement to provide the Contracted Output for Non-Intermittent Plant and this output will be required to be provided to the Buyer for an agreed Commitment Period as stated in the table set out in Schedule 1 and relating to individual Facilities) which will be of no shorter duration than [1 (one) year]. The provisions of paragraph 4 of Schedule 4 shall apply.
- 2.3 The following provisions apply where the values for Export Output and Contracted Output are not equal with the result that a calculation needs to be carried out to determine whether there has been a shortfall in the provision of Contracted Output or a surplus of Contracted Output produced.
- 2.3.1 In any Contract Billing Period where the Contracted Output is calculated pursuant to clause 6.1 and the figure for the Contracted Output is determined to be lower than the figure for Export Output for the relevant Contract Billing Period then the Buyer shall re-calculate the Base Price taking into account any excess output delivered by the Seller and where relevant the Seller shall receive an enhanced Base Price for each unit of Energy delivered over the Contracted Output figure and such Adjusted Price will be used to calculate the new value of the Inclusive Price for the Energy delivered.

- 2.3.2 In any Contract Billing Period where the Contracted Output is calculated pursuant to clause 6.1 and the figure for the Contracted Output is determined to be lower than the figure for Export Output for the relevant Contract Billing Period then the provisions of sub-paragraph 2.4 will apply.
- 2.4 The Base Price will be re-calculated by the Buyer to take into account any increased costs incurred by the Buyer as a result of the shortfall in generating output suffered as a result of the Seller not providing the required level of Contracted Output for the relevant Contract Billing Period.
- 2.4.1 If there is a reduction in the Base Price as determined by the Buyer due to increased costs being incurred then an Adjusted Price will be notified to the Seller and this Adjusted Price will be used to calculate the payment to be made by the Buyer to the Seller for the Energy delivered for the relevant Contract Billing Period.
- 2.4.2 Where the Seller has provided a Floor Price to the Buyer (as stated in the table in Schedule 1) then if the Adjusted Price for the Energy delivered for the relevant Contract Billing Period would have been less than the Floor Price then the Floor Price will be used in determining the Inclusive Price.
- 2.4.3 If the Seller fails to provide the relevant level of Contracted Output for **[xx]** consecutive Contract Billing Periods such that an Adjusted Price is required to be calculated, then the Buyer will have the right to treat this as a material breach of the terms of the Agreement and the provisions of Schedule 6 shall apply.

**OUTPUT FORECASTS, COMMITMENT PERIOD AND
MAINTENANCE PROGRAMME****3 Forecasts**

- 3.1 The Seller shall provide to the Buyer [at least xx days prior to the Registration Date] all historic metered output data and any other Facility specific information reasonably requested by the Buyer together with the Forecast Output as required pursuant to the provisions of clause 2.4 and the further provisions of this Schedule 4 so that the Buyer can better predict anticipated Export Output ("**Annual Forecast**") from the Facilities. The Seller also acknowledges that the Metering Communications Link that the Buyer has the right to install under clause 4.4 of this Agreement is also designed to help the Buyer better forecast from the Facilities.
- 3.2 The Seller shall not later than 5 (five) Business Days prior to the commencement of each of the anniversaries of the Registration Date notify the Buyer in writing of the Forecast Output for such year (in the form stipulated by the Buyer). Such notification shall show the total of the Forecast Output for the year broken down on a Facility by Facility basis and the totals of the Forecast Output for each Contract Billing Period during the year again broken down on a Facility by Facility basis. [It is acknowledged that for Facilities which are Intermittent Plant this will not be practical in all cases but the aggregated figure for all Facilities must include forecast outputs for such Facility types. For Non-Intermittent Plant this requirement is still valid.
- 3.3 The Seller shall also not earlier than 8 Business Days and not later than 5 Business Days prior to the start of each Contract Billing Period notify the Buyer by e-mail or facsimile of amendments to the Forecast Output provided pursuant to paragraph 3.1 above and the anticipated Forecast Output for each Settlement Period in that Contract Billing Period (even if it is the same or similar to that anticipated by the annual forecast) (the "**Monthly Forecast**").
- 3.4 Notwithstanding the above, if the Seller becomes aware that the Contracted Output for any Settlement Period in any Contract Billing Period could differ from the Monthly Forecast by more than [] percent, then the Seller shall notify the Buyer of such change and of the revised Monthly Forecast forthwith by facsimile or e-mail.
- 3.5 The Seller shall notify the Buyer not less than 5 (five) Business Days prior to the commencement of each of the anniversaries of the Registration Date of the proposed maintenance, repair, replacement and inspection programme for the Facilities for the same period. The Seller shall, as soon as practicable, give notice to the Buyer of any significant change in the anticipated Export Output or the programme previously notified (including any limitations or restrictions on output capacity, outages or shutdowns).

4 Commitment Period

- 4.1 The Seller undertakes to provide to the Buyer a Contracted Output Notification in relation to each Facility which is a Non-Intermittent Plant at least 5 (five) days prior to the Registration Date. This must include a Commitment Period during which the Seller is committing to provide the Contracted Output to the Buyer.
- 4.2 The Commitment Period to be provided by the Seller to the Buyer must be for a minimum period of [1 (one) year] from the Registration Date [and any proposed amendments to the Contracted Output during the term of the Commitment Period will be dealt with pursuant to the provisions of paragraph 3 above but with each reference to "Forecast Output" being changed to "Contracted Output" for these purposes,

5 Maintenance

- 5.1 The Seller undertakes to the Buyer to:
- 5.1.1 give 30 (thirty) days' notice of any planned maintenance or planned outage, such notice to contain full details of such maintenance or outage;
- 5.1.2 give notice as soon as practicable of any unplanned maintenance or outage, such notice to contain as many details as are practicable concerning the duration and effect on output of such maintenance or outage; and
- 5.1.3 give to the Buyer as soon as reasonable practicable any further data requested by the Buyer to allow the Buyer to make such generation forecast data as any prudent electricity supplier is likely to reasonably want to assimilate.

EMBEDDED BENEFITS AND TRIADS**1. Interpretation**

- 1.1. In this Schedule 5, unless the context otherwise requires the following terms shall have the meanings assigned to them below:

"Avoided BSUoS" shall mean the costs avoided (expressed as £ per MWh) by the Buyer in consequence of the Facilities being embedded into a distribution network which the Buyer would otherwise have incurred under the Balancing Services Use of System Charges (as better described in the NGC Licence);

"Avoided RCRC" means the proportion of RCRC to which the Buyer would have been entitled or been charged (depending on whether RCRC is a positive or negative amount) under the terms of the BSC as a result of the Facilities being embedded into a distribution network, expressed for the purposes of this Agreement as £ per MWh;

"GDUoS Charges" means the generation use of system charges levied by the Local DNO in respect of the Facility, which either take the form of a charge by the Local DNO (where such charges are stated as a positive amount), or take the form of a payment by the Local DNO (where such charges are stated as a negative amount), and references in the Agreement to "positive GDUoS Charges" and "negative GDUoS Charges" shall be construed accordingly.

1.2. The Embedded Benefits shall be the net benefit of:

- (a) Avoided BSUoS;
- (b) Avoided Transmission and Distribution Line Losses; and
- (c) Avoided RCRC and/or negative GDUoS Charges.

2. **Monthly Payment of Embedded Benefits**

- 2.1. In respect of each Contract Billing Period, within 10 (ten) days from the end of the Contract Billing Period, the Buyer shall prepare a statement of the amount of Embedded Benefits transferred to the Buyer relating to the Facility/Facilities during that period multiplied by the Embedded Benefits.
- 2.2. It is agreed that where required an estimated number shall be used to calculate the relevant account under clause 5 of this Agreement.

3. **Triads**

- 3.1. The Seller undertakes not to take any action which would result in any person other than the Buyer being credited with the Export Output from the Facilities during the term of this Agreement.
- 3.2. Within one month of notification of the Triads, the Buyer shall inform the Seller of the value of the reduction in the Buyer's Triad Charges arising from the Seller's Export Output during Triads as calculated in accordance with paragraph 3.5 of this Schedule (the "Reduction") for the relevant Financial Year.
- 3.3. The Buyer shall pay to the Seller the sum which is equal to the Embedded Benefit Percentage of the Reduction in respect of any Financial Year (the "**Shared Reduction**") provided always that such sum does not exceed the value of the actual reduction in the Buyer's Triad Charges which is attributable to the Facility.
- 3.4. The Buyer shall pay the Shared Reduction to the Seller within 30 days of receipt of a valid VAT invoice from the Seller.
- 3.5. The Reduction shall be calculated as follows:

Y = X/3

Z = the Triad Tariff

X = the sum of the Export Output in kW measured at the Delivery Point on each of the Triads within the relevant Financial Year where such Triads occur after the Start Date but prior to any termination of this Agreement.

- 3.6. If, as a result of industry-wide changes, the method of applying or calculating Triad Charges is altered or the benefit represented by the Reduction is replaced or the value of the Reduction is no longer solely allocated to the Buyer (the "**Changed Triad Charge**") and:
- (a) the parties (acting reasonably) agree that the Changed Triad Charge attributable to the Facilities is still of benefit to the Buyer, then the parties will use reasonable endeavours to agree how the Changed Triad Charge will be shared so that each of them (so far as it is possible) is in the same financial position as though the terms set out in this Schedule 5 had continued to apply; or
 - (b) the parties (acting reasonably) agree that the Changed Triad Charge attributable to the Facilities is no longer of benefit to the Buyer or represents a cost the Buyer (a "**Triad Detriment**") then the Parties agree that the portion of the Triad Detriment attributable to the Facilities shall be deducted from Base Price payable by the Buyer to the Seller.

8 **Clause Exhaustive**

The Parties agree that this Schedule 6 states the only circumstances in which either Party may terminate this Agreement.

11.1.2 Non-Defaulting Party's direct costs, losses and expenses arising from the early termination of this Agreement other than those included above.

RELEVANT CHANGE IN LAW

ROCs and Power

- 12 In this Schedule 7, the following words shall unless the context requires otherwise have the meanings assigned to them below:

"Change in Law" has the meaning ascribed to this term in clause 1.1 of the Agreement;

"New Benefit" means any new benefit, exemption or right (including those that replace (in whole or in part) exemptions, benefits or rights that are specifically set out in this Agreement and amendments to such exemptions, benefits or rights) associated with the Facilities or the Export Output;

"BSC P305" means the "BSC P305: Electricity Balancing Significant Code Review" proposals to implement the changes to cash out arrangements approved by the Authority on 2 April 2015;

"Relevant Change in Law" means any Change in Law as a result of which:

- (a) ROCs are no longer issued or are no longer capable of presentation to the Authority in satisfaction of all or any part of the Renewables Obligation;
- (b) the Renewables Obligation ceases to exist in the form it is in as at the date of the Agreement, or in substantially the same form in all material respects; or
- (c) the performance of the Agreement or any material part of either becomes illegal or unenforceable by either Party or the mechanics of the Agreement or any material part of either are no longer operable.
- (d) a New Benefit is introduced.
- (e) there are (or will be) changes to the method for calculating charges for imbalance levied on the Buyer under the BSC as a result of delivery or non-delivery of Active Energy (as defined in the BSC) for any Settlement Period, including but not limited to BSC P305.

- 13 Effect of Relevant Change in Law

- 13.1 On the occurrence of a Relevant Change in Law:

- 13.1.1 either Party may give notice to the other of the occurrence of the Relevant Change in Law;
 - 13.1.2 the Parties shall meet no later than 5 (five) Business Days following receipt of the notice referred to in paragraph 13.1.1 to consult and seek to agree that a Relevant Change in Law has occurred and the effect of that Relevant Change in Law to the Agreement. If the Parties, no later than 5 (five) Business Days after this meeting, have not agreed on the occurrence or the effect of the Relevant Change in Law, either Party may refer those questions, and the question of the changes to be made to the Agreement pursuant to paragraph 13.1.3, for resolution in accordance with clause 10 of this Agreement;
 - 13.1.3 where it is agreed under paragraph 13.1.2 that a Relevant Change in Law has occurred, the Parties shall seek to agree in good faith such amendments to the Agreement as may be necessary or appropriate to take account of such Relevant Change in Law so that the Agreement places each Party in substantially the same position as it was in prior to such Relevant Change in Law and performance of the Agreement is legal and enforceable.
- 14 Limit of effect of Change in Law:
- 14.1 The Parties agree that where the Export Output, ROCs, and other benefits (each, a "**Product**") being purchased under this Agreement is affected by a Relevant Change in Law in accordance with paragraph 13.1.3, only the part of this Agreement that relates to the affected Product will be amended and the remaining provisions of the Agreement as it relates to the remaining Products remain unchanged and will continue to be in full force and effect.
 - 14.2 The Buyer may give notice that it wishes to exercise its right to purchase any New Benefits at a price(s) to be agreed between the Parties (both Parties at all times acting reasonably and in good faith) and the Seller shall be obliged to sell those New Benefits to the Buyer. If the Parties fail to agree a price(s) for the New Benefits within 30 (thirty) days of the date of the aforementioned notice from the Buyer then either Party may refer the issue for resolution in accordance with clause 10 of this Agreement
- 15 Right to suspend performance
- 15.1 Either Party may suspend performance of those of its obligations under the Agreement which are affected by a Relevant Change in Law, by written notice to the other Party, following the agreement or determination under paragraph 13.1.2 that there has been a Relevant Change in Law. Where the Parties are not able to agree, in good faith, amendments to the Agreement which would:
 - 15.1.1 make its performance legal and enforceable; and

15.1.2 place each Party in substantially the same position as it was in prior to such Relevant Change in Law,

then no later than 30 (thirty) Business Days (or such longer period as the Parties may agree) following the commencement of the relevant suspension or, if no such suspension has taken place, then following the commencement of discussions pursuant to paragraph 13.1.3, either Party may refer the Dispute to the Expert for determination in accordance with clause 10 of this Agreement. The role of the Expert in imposing changes to the Agreement upon the Parties for the purposes of this Schedule shall be solely as set out in paragraphs 15.1.1 and 15.1.2 above and to ensure the mechanics of the Agreement are operable. By way of example and without limitation, the Parties do not intend the Expert to impose any allocation or reallocation of risks and/or costs in this Agreement and do not intend the Expert to introduce new commodities (including possibly replacing a Product) into this Agreement. The Parties agree to cooperate to ensure the Expert complies with the requirements of this paragraph 15.

16 Other Changes in Law

16.1 Except as provided above, the impacts of any Change in Law which is not a Relevant Change in Law shall be borne by the Party affected and shall not be a basis for terminating or amending the Agreement. For the avoidance of doubt, none of the following constitutes a Relevant Change in Law:

16.1.1 a change in the Buy-Out Price (irrespective whether such change has the effect of increasing or reducing the value of ROCs to Buyer);

16.1.2 the introduction of any domestic, European or international scheme for trading carbon emissions (including the introduction of the European Union Emissions Trading Scheme) or any Change of Law implemented as a result thereof.
