INTRODUCTION AND SCOPE OF WORKS

Easington Recreation Ground comprises a public park on which there are football pitches, a fenced children's play area and various other forms of recreational facility.

Banbury Town Council wishes to provide a hardstanding car parking area on a part of the Recreation Ground and also to replace the children's play area and install a multi-use games area (MUGA).

Access to all areas of the Recreation Ground for the purpose of providing these works and facilities can only be taken via Harriers View at the north of the Ground. Through this contract the Council is seeking a contractor to remove the existing play area, provide and install a replacement play area, and provide an install a MUGA. The Council has specific requirements for the MUGA but is open to proposals for the replacement play area. Its choice of contractor will be influenced by both the quality and price of the proposals which it receives.

Because of the nature of the site and constraints of the site access the Council's intention is to appoint a Principal Contractor for the whole of the works described. The contractor for the supply and installation of the play area and MUGA will work under the direction to the Principal Contractor.

The site will be available for the works between 17th July 2017 and 25th August 2017. All work must be completed by 25th August 2017.

Concurrently with the works, in addition to the construction of the car park by the Principal Contractor, the changing facilities at the eastern boundary of Easington Recreation Ground will be refurbished under a separate contract (See appendix 1).

At all times during the works the adopted footpath crossing the Recreation Ground must be kept clear and free of all contractors activities. It is a major pedestrian route locally and frequently used by children, disabled persons and their carers, and other vulnerable persons.
