### Examples of funded research

- STFC is providing the design infrastructure for the £23bn UK microelectronics sector that underpins strategically important industries worth £78bn to the UK economy
- STFC's ISIS facility and its users, working in partnership with the NHS, developed a novel material to improve the treatment of cleft lip and palate, speeding up healing times and reducing operating costs
- STFC's Synchrotron Radiation Source was used to understand how conventional anti-malarial drugs work, allowing the development of more effective treatment to reduce the devastating global impact of malaria
- STFC's ISIS facility is identifying new materials that can safely and conveniently store hydrogen, enabling the development of hydrogen-fuelled cars reducing reliance on fossil fuels and cutting carbon emissions

## Award Scoring criteria

### Evaluation Justification Statement

In consideration of this particular requirement UK SBS has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this RFP. UK SBS considers these weightings to be in line with existing best practice for a requirement of this type.

| Questionnaire | Q No. | Question subject          | Maximum Marks |
|---------------|-------|---------------------------|---------------|
| Price         | AW5.2 | Price                     | 40.00%        |
| Quality       | AW6.2 | Technical Proposal        | 18.00%        |
| Quality       | AW6.3 | Delivery of Raw Materials | 6.00%         |
| Quality       | AW6.4 | Final Delivery            | 12.00%        |
| Quality       | AW6.5 | Project Schedule          | 6.00%         |
| Quality       | AW6.6 | Quality Assurance         | 12.00%        |
| Quality       | AW6.7 | Warranty                  | 6.00%         |

## Award Evaluation of criteria

### Non-Price elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20.

**Example** if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation: Score/Total Points available multiplied by 20 ( $60/100 \times 20 = 12$ )

Where an evaluation criterion is worth 10% then the 0-100 score achieved will be multiplied by 10.

**Example** if a Bidder scores 60 from the available 100 points this will equate to 6% by using the following calculation: Score/Total Points available multiplied by 10 ( $60/100 \times 10 = 6$ )

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

|    |  |
|----|--|
| 0  | The Question is not answered or the response is completely unacceptable.         |
| 20 | Extremely poor response – they have completely missed the point of the question. |

|     |  |
|-----|--|
| 40  | Very poor response and not acceptable. Requires major revision to the proposal to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.               |
| 60  | Poor response with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of success, sufficient obstacles but correctable                                  |
| 80  | Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire. Good probability of success, weaknesses can be readily corrected.                               |
| 100 | Response demonstrates they can meet a high performance level. High probability of success, no significant weaknesses noted. The response is compelling in its description of techniques and measurements to be employed. |

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

**Example**

Evaluator 1 scored your bid as 60

Evaluator 2 scored your bid as 40

Evaluator 3 scored your bid as 80

Evaluator 4 scored your bid as 60

Your final score will  $(60+40+80+60) \div 4 = 60$

**Price elements** will be judged on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100.

All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50  $(80/100 \times 50 = 40)$

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

## 5.5. Evaluation process

5.5.1 The evaluation process will feature some, if not all, the following phases
