8. In respect of any Contractor Deliverables, likely to be required for the performance of any resultant contract, you must provide the following information in your Tender:

- a. Whether all or part of any Contractor Deliverables are or will be subject to:
 - 1) a non-UK export licence, authorisation or exemption; or
 - 2) any other related transfer control that restricts or will restrict end use, end user, re-transfer or disclosure.

You must complete DEFFORM 528 (or other mutually agreed alternative format) in respect of any Contractor Deliverables identified at paragraph 8 and return it as part of your Tender. If you have previously provided this information you can provide details of the previous notification and confirm the validity.

9. You must use reasonable endeavours to obtain sufficient information from your potential supply chain to enable a full response to paragraph 8. If you are unable to obtain adequate information, you must state this in your Tender. If you become aware at any time during the competition that all or part of any proposed Contractor Deliverable is likely to become subject to a non-UK Government Control through a Government-to-Government sale only, you must inform the Authority immediately by updating your previously submitted DEFFORM 528 or completing a new DEFFORM 528. <https://www.aof.mod.uk/aofcontent/tactical/toolkit/index.htm>

10. This does not include any Intellectual Property specific restrictions mentioned in paragraph 4.

11. You must notify the named Commercial Officer immediately if you are unable for whatever reason to abide by any restriction of the type referred to in paragraph 8.

12. Should you propose the supply of Contractor Deliverables of US origin the export of which from the USA is subject to control under the US International Traffic in Arms Regulations (ITAR), you must include details on the DEFFORM 528. This will allow the Authority to make a decision whether the export can or cannot be made under the US-UK Defense Trade Co-operation Treaty. The Authority shall then convey its decision to the Tenderer. If the Authority decides that use of the Treaty for the export is permissible, it is your responsibility to make a final decision whether you want to use that route for the export concerned if you are awarded the contract.

Import Duty

13. European Union (EU) legislation permits the use of various procedures to suspend customs duties.

14. For the purpose of this competition, for any deliverables not yet imported into the EU, you are required to provide details of your plans to address customs compliance, including the Customs procedures to be applied (together with the procedure code) and the estimated Import Duty to be incurred and / or suspended.

15. You should note that it is your responsibility to ensure compliance with all regulations relating to the operation of the accounting of import duties. This includes but is not limited to obtaining the appropriate Her Majesty's Revenue and Customs (HMRC) authorisations.

Sub-contracts Form 1686

16. Form 1686 (also known as Appendix 5) is to be used in all circumstances where contractors wish to place a sub-contract with a contractor where the release of OFFICIAL-SENSITIVE information is involved. The process will require submission of the single page document either directly to the MOD Project Team or, where specified, to the DE&S Security Advice Centre. You can find further information in the [Security Policy Framework – Contractual Process](#) chapter. You can access a word version of Form 1686 on GOV.UK at: https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/367494/Contractual_Process_-_Appendix_5_form.doc.

Small and Medium Enterprises

17. The Authority is committed to supporting the Government's small and medium-sized enterprise (SME) initiative; its ambitious target is that every £1 in every £3 that the Government spends should be with small businesses by 2020. Our goal is that 25% of MOD spending should be spent with SMEs by 2020; this applies to the money which the MOD spends directly with SMEs and through the supply chain. The Authority uses the European Commission definition of an SME.

18. A key aspect of the Government's SME Policy is ensuring that its suppliers throughout the supply chain are paid promptly. All suppliers to the Authority and their sub-contractors are encouraged to make their own commitment and register with the Prompt Payment Code at: <http://www.promptpaymentcode.org.uk>.

19. Suppliers are also encouraged to work with the Authority to support the Authority's SME initiative. Information on the Authority's purchasing arrangements, our commercial policies and our SME policy can be found at <https://www.gov.uk/government/organisations/ministry-of-defence/about/procurement>.

20. The opportunity also exists for Tenderers to advertise any sub-contract valued at over £10,000 in the MOD Contracts Bulletin and further details can be obtained directly from:

Transparency, Freedom of Information and Environmental Information Regulations

21. You should be aware that the contents of any resultant contract may be published in line with government policy set out in the Prime Minister's letter of May 2010 (<https://www.gov.uk/government/policies/improving-the-transparency-and-accountability-of-government-and-its-services>) and the information contained within SC2 Conditions of Contract Clause A14.
22. Before publishing the Contract, the Authority will redact any information which is exempt from disclosure under the Freedom of Information Act 2000 ("the FOIA") or the Environmental Information Regulations 2002 ("the EIR").
23. You should complete the attached Tenderer's Commercially Sensitive Information Form (DEFFORM 539A) explaining which parts of your Tender you consider are commercially sensitive. This includes providing a named individual who may be contacted with regard to FOIA and EIR.
24. You should note that, while your views will be taken into consideration, the ultimate decision whether to publish or disclose information lies with the Authority. You are advised to provide as much detail as possible on the form. It is highly unlikely that a Tender will be exempt from disclosure in its entirety. Should the Authority decide to publish or disclose information against your wishes, you will be given prior notification.

Electronic Purchasing

25. Tenderers must note that use of the Contracting, Purchasing and Finance (CP&F) electronic procurement tool is a mandatory requirement for any resultant contract awarded following this tender. By submitting this tender you agree to electronic payment. You can view information on CP&F and the methods to connect at <https://www.gov.uk/government/publications/mod-contracting-purchasing-and-finance-e-procurement-system>. Please feel free to consult the service provider on connectivity options. Failure to accept electronic payment will result in your Tender being non-compliant.

Change of Circumstances

26. If you have not previously submitted a Statement Relating to Good Standing or circumstances have changed, please select 'Yes' and submit a Statement Relating to Good Standing with your Tender.

Asbestos, Hazardous Items and Depletion of the Ozone Layer

27. The Authority is required to report any items that use asbestos, that are hazardous or where there is an impact on the Ozone. Where any Contractor Deliverables fall into one of these categories select 'Yes' and provide further details in your Tender.

Military Aviation Authority (MAA) Requirements

28. In July 2011 the Military Aviation Authority (MAA) launched a new set of Regulatory Publications. Key to these is the Regulatory Articles (RA), which prescribe Acceptable Means of Compliance (AMC) for each separate Regulation. Tenderers who wish to propose an alternative means of compliance must obtain agreement in principle from the MAA (through the Project team) in advance of submitting their Tender. AMC are strongly recommended practices and a justification will be required if they are not followed. Tenderers must consult the MAA where there is more than one AMC. You must confirm how you intend to comply with the RA, and the date you consulted with the MAA.

Bank or Parent Company Guarantee

29. A Parent Company or Bank Guarantee may be required. In the event that your tender is identified as the most favourable / compliant tender, but that MOD assesses that a Parent Company or Bank Guarantee is required, then one will be requested (in the form of DEFFORM 24 / 24A as appropriate). No contract will be awarded until a suitable Parent Company or Bank Guarantee, as appropriate, is in place.

The Armed Forces Covenant

30. The Armed Forces Covenant is a public sector pledge from Government, businesses, charities and organisations to demonstrate their support for the Armed Forces community. The Covenant was brought in under the Armed Forces Act 2011 to recognise that the whole nation has a moral obligation to redress the disadvantages the armed forces community face in comparison to other citizens, and recognise sacrifices made.
31. The Covenant's two principles are that:

- a. the Armed Forces community would not face disadvantages when compared to other citizens in the provision of public and commercial services; and
- b. special consideration is appropriate in some cases, especially for those who have given most such as the injured and the bereaved.

The Authority encourages all Tenderers, and their suppliers, to sign the Corporate Covenant, declaring their support for the Armed Forces community by displaying the values and behaviours set out therein.

32. The Armed Forces Covenant provides guidance on the various ways you can demonstrate your support through the Corporate Covenant, which is at: <https://www.gov.uk/government/policies/armed-forces-covenant>.
33. If you wish to register your support you can provide a point of contact for your company on this issue to the Armed Forces Covenant Team at the address below, so that the MOD can alert you to any events or initiatives in which you may wish to participate. The Covenant Team can also provide any information you require in addition to that included on the website.

34. Paragraphs 30 – 33 above are not a condition of working with the Authority now or in the future, nor will this issue form any part of the tender evaluation, contract award procedure or any resulting contract. However, the Authority very much hopes you will want to provide your support.

Appendix 2 to DEFFORM 47 Annex A (Offer)

Edn 09/17

Reverse Auction

1. The Authority intends to conduct a Reverse Auction for this requirement. The Reverse Auction is a process conducted via the Internet in which those Tenderers who have submitted a compliant response to the Invitation to Tender (ITT) are invited in electronic competition to offer a lower price than that provided in the tender return. The purpose of conducting a Reverse Auction is so that the Authority shall benefit from improved competition while Tenderers shall benefit from improved knowledge about market pricing. Acceptance by the Authority of an electronic offer shall be subject to the terms and conditions of the ITT.

2. In accordance with paragraph F1 of the DEFFORM 47 the Authority reserves the right to request an explanation of the costs or price proposed.

3. To participate in the Reverse Auction, Tenderers must have access to the Internet and one of the following browsers:

- Internet Explorer 9 and above,
- Mozilla Firefox 31+
- Google Chrome
- Apple Safari 6.14

In addition, for full functionality of the Auction Monitor, bidders must install Java version 1.7+

4. Acting on behalf of the Authority, the external Auction Service Provider shall notify the date and scheduled start time of the Reverse Auction to compliant Tenderers. The external Auction Service Provider will manage the operational aspects of the Reverse Auction event on behalf of the Authority. The Auction Service Provider will provide the Tenderer with the Rules of Participation, a username and password that allows secure access to the relevant web pages, including the training activity and individual Reverse Auction event.

5. Training shall be provided by the Auction Service Provider, usually 24 hours before the event is scheduled to take place. The training exercise is aimed at ensuring that participating Tenderers are adequately equipped in terms of computer software, hardware and Internet connectivity. It will also provide the opportunity to confirm that starting prices are accurate as actual pricing will be used during the training. The identity of the Tenderers shall not be disclosed at any point.

6. Compliant Tenderers shall be notified of the starting prices by the Auction Service Provider prior to the Reverse Auction scheduled start time, but shall not be able to make any revised bid until the start of the Reverse Auction. The Auction Service Provider shall use the lowest total tendered price, per Lot, submitted by a compliant Tenderer on DEFFORM 47 Annex A, as the starting price in the Reverse Auction. If the tender has been evaluated using Most Economically Advantageous Tender evaluation criteria the total price of the highest scored tender, per Lot, rather than the lowest price, will be ranked first. If the tender has been evaluated where nominal price discounts have been awarded for technical elements of the tendered solution, the total lowest weighted price, per Lot, rather than the lowest price, will be ranked first. If the tender has been evaluated where a nominal cost has been applied to relative weaknesses in the tendered solution, the total lowest weighted price, per Lot, rather than the lowest price, will be ranked first. If the requirement is divided into Lots each Lot will be auctioned concurrently.

7. During the Auction each Tenderer shall be able to see their own tendered price in comparison to the lowest total tendered price (or highest scored total price / lowest weighted total price) per Lot and their individual ranking. Any change in the total price, or a Tenderers individual ranking, shall be reflected on the screen shortly after it has been submitted. A new total price submitted by a Tenderer that equals an existing total price shall be ranked behind the existing bid. No minimum or maximum bid decrement shall be applied.

8. The Reverse Auction will have a standard duration of thirty minutes. The Auction Service Provider's website shall indicate the time remaining to the end of the Auction. Any bids submitted in the final three minutes of the Auction shall automatically extend the Auction to ensure that there is always at least three minutes

remaining to allow Tenderers to review their position and enter a lower bid. The Auction will end only when no more bids are received during the three minute extensions

9. Following completion of the Reverse Auction, all Tenderers are required to update the item pricing on the pricing sheet provided, per Lot, by the Auction Service Provider. No item price should exceed the item price initially offered by the Tenderer in their tender return. The total price of the completed pricing sheet must match the lowest total price offered by the Tenderer during the Reverse Auction. Each Tenderer should return the completed pricing sheet to the Auction Service Provider within 48 hours of the Reverse Auction closure.

10. Tenderers must note that bids made during the Reverse Auction are provided on the understanding that the price offer shall remain open for acceptance by the Authority. The Authority reserves the right not to award a Contract based on the outcome of the tender process or the Reverse Auction.
