1.1 The Supplier shall take out and maintain, or procure the taking out and maintenance of the insurances as set out in the Annex to this Schedule, any additional insurances required under an Order Contract (specified in the applicable Order Form) ("**Additional Insurances**") and any other insurances as may be required by applicable Law (together the "**Insurances**"). The Supplier shall ensure that each of the Insurances is effective no later than:

1.1.1 the DPS Start Date in respect of those Insurances set out in the Annex to this Schedule and those required by applicable Law; and

1.1.2 the Order Contract Effective Date in respect of the Additional Insurances.

1.2 The Insurances shall be:

1.2.1 maintained in accordance with Good Industry Practice;

1.2.2 (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;

1.2.3 taken out and maintained with insurers of good financial standing and good repute in the international insurance market; and

1.2.4 maintained for at least six (6) years after the End Date.

1.3 The Supplier shall ensure that the public and products liability policy contain an indemnity to principals clause under which the Relevant Authority shall be indemnified in respect of claims made against the Relevant Authority in respect of death or bodily injury or third party property damage arising out of or in connection with the Deliverables and for which the Supplier is legally liable.

2. How to manage the insurance

2.1 Without limiting the other provisions of this Contract, the Supplier shall:

2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;

DPS Schedule 6 (Order Form and Order Schedules)

3. What happens if you aren't insured

3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.

3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Relevant Authority may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4. Evidence of insurance you must provide

4.1 The Supplier shall upon the Start Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to the Relevant Authority, that the Insurances are in force and effect and meet in full the requirements of this Schedule.

5. Making sure you are insured to the required amount

5.1 The Supplier shall ensure that any Insurances which are stated to have a minimum limit "in the aggregate" are maintained at all times for the minimum limit of indemnity specified in this Contract and if any claims are made which do not relate to this Contract then the Supplier shall notify the Relevant Authority and provide details of its proposed solution for maintaining the minimum limit of indemnity.

6. Cancelled Insurance

6.1 The Supplier shall notify the Relevant Authority in writing at least five (5) Working Days prior to the cancellation, suspension, termination or nonrenewal of any of the Insurances.

DPS Schedule 6 (Order Form and Order Schedules)

Crown Copyright 2021

6.2 The Supplier shall ensure that nothing is done which would entitle the relevant insurer to cancel, rescind or suspend any insurance or cover, or to treat any insurance, cover or claim as voided in whole or part. The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

7. Insurance claims

7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Deliverables, or each Contract for which it may be entitled to claim under any of the Insurances. In the event that the Relevant Authority receives a claim relating to or arising out of a Contract or the Deliverables, the Supplier shall co-operate with the Relevant Authority and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.

7.2 Except where the Relevant Authority is the claimant party, the Supplier shall give the Relevant Authority notice within twenty (20) Working Days after any insurance claim in excess of 10% of the sum required to be insured pursuant to Paragraph 5.1 relating to or arising out of the provision of the Deliverables or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by the Relevant Authority) full details of the incident giving rise to the claim.

7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.

7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. The Supplier shall not be entitled to recover from the Relevant Authority any sum paid by way of excess or deductible under the Insurances whether under the terms of this Contract or otherwise.

Such change in the identity of the supplier of such services may constitute a Relevant Transfer to which the Employment Regulations and/or the Acquired Rights Directive will apply. The Buyer and the Supplier agree that, as a result of the operation of the Employment Regulations, where a Relevant Transfer occurs, the contracts of employment between the Supplier and the Transferring Supplier Employees (except in relation to any contract terms disappplied through operation of regulation 10(2) of the Employment Regulations) will have effect on and from the Service Transfer Date as if originally made between the Replacement Supplier and/or a Replacement Subcontractor (as the case may be) and each such Transferring Supplier Employee.

This Schedule sets out the characteristics of the Deliverables that the Supplier will be required to make to the Buyers under this Order Contract

Section 4 – Specification

1. Background

Policy background

BEIS introduced the Subsidy Control Bill¹ to Parliament in June 2021, which was granted Royal Assent as the Subsidy Control Act in April 2022. The new Subsidy Control Regime will commence in January 2023.

The Regime provides for a new, UK-wide Subsidy Control Regime that has been designed to reflect our strategic interests, strengthen our Union, and help to drive economic growth and prosperity across the whole of the UK. This regime will enable public authorities (PAs), including the Devolved Administrations and local councils, to deliver subsidies that are tailored for local needs and deliver government priorities such as levelling up and transitioning to a net zero economy. It will promote the effective operation of a dynamic and competitive UK market economy.

The Subsidy Control Act makes provision for Streamlined Routes. Streamlined Routes will offer public authorities a way to award subsidies more quickly. They are intended to promote confidence and legal certainty among public authorities and businesses undertaking projects that are routine and low risk and aligned to UK priorities.

Objectives for Streamlined Routes

Streamlined Routes are designed to achieve the following objectives:

- a. **Maximise legal certainty**, by facilitating the granting of regularly awarded subsidies which address well-recognised market failures or equity rationales for intervention.
- b. **Minimise administrative burden**, by ensuring that they benefit multiple public authorities or recipients across the UK and are straightforward to implement.
- c. **Minimise distortions**, by ensuring they are predominantly used to facilitate the award of subsidies at low risk of being highly distortive to domestic competition and investment.

DPS Schedule 6 (Order Form and Order Schedules)

Crown Copyright 2021

d. **Promote UK policy priorities**, by ensuring they are developed for policy areas where there is UK-wide demand for the delivery of such subsidies

e. **Be ambitious in coverage**, in the long term, with significant scope for subsidies relating to UK wide strategic priorities to be awarded under Streamlined Routes.

Public Authorities can award subsidies under a Streamlined Route without having to make an assessment against the Subsidy Control regime's principles. Subsidies awarded under Streamlined Routes are exempt from a call-in direction by the SoS and referral to the Subsidy Advice Unit (SAU). Subsidies granted under a Streamlined Route are not subject to the same scrutiny processes as other subsidies and they cannot be challenged by interested parties (as set out under the Act) unless they are awarded incorrectly (or on general public law grounds).

BEIS is creating three Streamlined Routes, aiming to implement them from January 2023: Energy Usage; Research, Development, and Innovation (RDI); and Local Growth.

The categories are still in development and yet to be confirmed, but the Routes' general contents are outlined below:

- Energy Usage – subsidies awarded to projects that reduce energy usage in businesses and rental homes; develop green heat networks; train installers of green heat technology; and increase manufacturing of low carbon heating technologies; to meet the Government's Net Zero 2050 target
- RDI – subsidies for RDI projects (conducted by all business sizes) with the aim of improving processes, products and knowledge; and subsidies for Business Development Services for RDI (conducted by SMEs only), with the aim of commercialising RDI outputs
- Local Growth – smaller subsidies to start ups and SMEs to promote business growth, employment and productivity; larger subsidies for larger and established businesses, also to promote growth, employment and productivity.

Monitoring and Evaluation (M&E) background

As Streamlined Routes will be a new tool for PAs to use, it is important to understand if Routes are meeting their objectives and what effects they are having on PAs' behaviour. There are three outcomes that the M&E could influence for Streamlined Routes:

- The first is regarding future improvements and changes to how Streamlined Routes will work; this could take the form of enhanced supporting guidance, targeted outreach with specific PAs, or amending existing Streamlined Routes without any effect on existing subsidies given under the Route
- The second relates to the possibility of making further Streamlined Routes in the future if we find that the first three have been beneficial to PAs and have successfully nudged PAs into Government strategic priority areas

DPS Schedule 6 (Order Form and Order Schedules)

Crown Copyright 2021

- The third could involve the realisation that the Streamlined Routes have not been beneficial, and we do not want to improve them as PAs are awarding their own subsidies or creating their own schemes successfully

The full M&E plan is provided under Annex A. We expect the contractor to assess the appropriateness of our suggested research methods to meet the overall evaluation needs for Streamlined Routes.

We must first establish a pre-Streamlined Routes baseline against which PAs' experience of Streamlined Routes will be compared once the new regime commences. The purpose of this research project is to establish the baseline.

It should be noted that the Subsidy Control Act² legally commits the Competition and Markets Authority to publishing an evaluation of the Subsidy Control Regime three years after implementation, which will include Streamlined Routes.

2. Aims and Objectives

The aim is to establish a baseline against which PAs' experience of Streamlined Routes will be compared once the new regime commences. The baseline will be established by engaging with PAs and analysing subsidies in areas that Streamlined Routes will cover post commencement: Energy Usage; Research, Development, and Innovation; and Local Growth.

The following key research questions form our objectives for the research:

| Question | Reasoning |
|---|---|
| Which PAs have been awarding subsidies in these areas and how many subsidies have they awarded? | To understand which organisations are currently awarding these subsidies, to establish if this changes under Streamlined Routes |
| What sized subsidies are being awarded in these areas and who are the beneficiaries (enterprise size, sector, purpose of the subsidy)? | To understand how much is currently being awarded and to whom, to establish if this changes under Streamlined Routes |
| How easy have PAs found awarding subsidies in these areas and what admin burdens were involved? How long has it taken them to develop schemes, which employees were involved, and have they developed these themselves or contracted out to a consultant? | A key Streamlined Routes policy objective is reducing admin burden for PAs. | How well do PAs feel they have understood the current subsidy control guidance? Have they used it? | We want to provide guidance that is easy as possible to follow. |

3. Methodology

BEIS sets out a proposed research approach below. We expect the contractor to identify the strengths and weaknesses of our proposed method and suggest improvements to better meet the objectives of the research. In addition, the contractor should outline how the work will ensure comparability with the post commencement M&E work. We welcome suggested alternatives to the proposed method e.g. if there are only a small number of PAs awarding subsidies in a given area, it might be more appropriate to conduct a workshop including several employees at each of the PAs who have been involved in awarding subsidies.

Stage 1a. – Identify population of relevant PAs for survey – aim is to understand who is likely to use the Streamlined Routes post commencement, and whose experiences of awarding subsidies we need to explore

- We expect the relevant population of PAs to be surveyed to be around 150. This should include
 - a) those identified using the subsidy award database as having awarded subsidies in the areas of Energy Usage, RDI and Local Growth, and
 - b) PAs not on the database who may have awarded subsidies less than £500k. Only awards valued equal to or greater than £500k must be recorded on the database, and therefore many PAs awarding subsidies will not be on the database. PAs in all areas of subsidy award should be included – the first survey will filter these down to just the subsection who have awarded subsidies in at least one of the Energy Usage, RDI and Local Growth areas. We can provide a list of contacts at PAs who can be approached and included in the relevant population to be surveyed if they have awarded subsidies. Note: the process for identifying the relevant population and survey itself must be easily repeatable for the purpose of conducting the post commencement M&E research. The process must be documented clearly and shared with BEIS.
- As of September 2022, the number of PAs that has recorded subsidies under each of the following categories on the database:
 - Energy efficiency – five PAs including BEIS.
 - Research and Development – 13 PAs including BEIS

DPS Schedule 6 (Order Form and Order Schedules)

Crown Copyright 2021

- Regional development and SME support – 13 PAs including BEIS. These are all awarded under Regional development (zero awarded under SME support).
- The exact categories of subsidy permitted by each Route, with their respective criteria (such as maximum award, beneficiary size, conditions attached), will be published in January 2023.

Stage 1b. – Map subsidy award processes – aim is to understand the process PAs go through to award subsidies, so we can assess the effectiveness of each stage against the policy objectives

Map each stage of the existing subsidy-awarding process, to understand what stages are involved in a PA assessing applications for subsidies, conducting assessments against the subsidy guidance since January 2021³, and designing and awarding individual awards and/or schemes. This will allow for more specific questions on each stage of the process, which in turn will allow for like-for-like comparisons with the views we gather on the Streamlined Route regime when we conduct the second, post commencement research project. We want to understand how efficient each stage of the process is, any obstacles faced in awarding subsidies, and where the guidance may be unclear.

The accuracy of the map can be tested with PAs in the in depth interviews in Stage 3, otherwise we welcome alternative methods for assuring its validity.

The survey questions will be asked for each stage of the subsidy-awarding process identified in the mapping exercise, where relevant.

Develop and carry out online surveys and in depth interviews for PAs in sample

Stage 2 – Online survey – aim is to understand PAs' experience of awarding subsidies, so we can compare this with their post commencement experience and evaluate the extent to which Streamlined Routes are meeting their objectives

The engagement with PAs will consist of an initial, quantitative online survey with all the relevant PAs identified previously. These questions will be closed-ended, on an ordinal scale, to allow for quantitative analysis of the responses when we draw comparisons with the post commencement research findings. We expect the contractor to suggest how these questions could be improved to ensure we cover the Streamlined Routes objectives.

We welcome input on our proposed questions:

Focusing on your experience of awarding subsidies between January 2021 and the commencement of the new Subsidy Control regime (expected to be 4th January 2023 but TBC) ...

Stage 3 – In depth interviews – aim is to understand PAs’ experience of awarding subsidies, so we can compare this with their post commencement experience and evaluate the extent to which Streamlined Routes are meeting their objectives

Subsequently, in depth telephone/video interviews will be conducted with a smaller sample drawn from the original relevant sample of PAs. We expect the smaller sample to be representative of the population of subsidy awarding PAs in the UK, by region, award size, and purpose of award. This smaller sample should be large enough to achieve data saturation (we expect this may be approximately 20 PAs but welcome suggestions). We expect open-ended questions to be asked in the in depth interview, allowing for detailed views from PAs on the current subsidy control regime. We encourage the supplier to suggest additional methods to achieve the research aims.

We welcome input on our proposed questions:

Focusing on your experience of awarding subsidies between January 2021 and the commencement of the new Subsidy Control regime (expected to be 4th January 2023 but TBC) ...

- Is your experience of awarding subsidies reflected by the process map we have developed?
- How straightforward has the process been for awarding subsidies?
- How long on average did it take you to award a subsidy? How many FTE were involved? What is their average wage?
- Did you encounter any difficulties in awarding subsidies under the subsidy control rules? If so, please give details
- Was the quantity of subsidies you awarded in this period affected by the subsidy control requirements? If so, why?
- Was the average value of the subsidies you awarded in this period affected by the subsidy control requirements? If so, why?
- What is the average leverage (private contribution to project costs as a percentage) attached to the subsidies you awarded?
- Was the type of subsidies you awarded in this period affected by the subsidy control requirements? If so, why?
- How well did you feel you understood the subsidy control guidance in this period?
- How well did you feel you understood how to assess awards against the subsidy control principles during this period?
- How straightforward was the guidance to use when awarding subsidies?
- To what extent did you think that the subsidies you awarded followed the guidance?
- Did the guidance impact the quantity of subsidies you award? If so, to what extent?
- Did the guidance impact the value of subsidies you award? If so, to what extent?

DPS Schedule 6 (Order Form and Order Schedules)

- Has the guidance impact the type of subsidies you award? If so, to what extent?
- Did you seek external support to understand the subsidy award process e.g., lawyers, consultants, HMG Departments? If so, from whom and for which elements of the process and/or guidance?

Focusing on your experience of awarding subsidies prior to January 2021:

- How straightforward or complex was the process for awarding subsidies under State Aid rules? Please explain your answer.

Stage 4 – Analysis of awards on database – aim is to set a baseline against which we can compare awards under Streamlined Routes, to understand how and the extent to which they are being used

The analysis of the awards on the public database should include but not be limited to:

- The value of awards, both average and total, in the Energy Usage, RDI, and Local Growth areas
- The frequency of awards in the Energy Usage, RDI, and Local Growth areas
- The sectors of the award beneficiaries in the Energy Usage, RDI, and Local Growth areas
- The types of awards (e.g., direct grant, equity, loan) in the Energy Usage, RDI, and Local Growth areas
- The value, frequency, sectors, and types of awards that are not included in the current proposed Streamlined Routes but are routine and low risk. This is with the view of potentially developing more Streamlined Routes in future

4. Outputs Required

We expect a full report on the research findings on the project's completion, as well as a brief interim report at the project's midpoint (February 2023) updating us on progress. The full report must be accessible and comply with .gov guidelines⁴. The brief interim report will contain the process map developed and the quantitative findings from Stage 1. In addition, we expect the underlying, anonymised data on participants' responses to be made available in a .CSV file. Although anonymised, we expect it to be possible to link responses from the baseline research to the post commencement research. We welcome suggestions on how to achieve this.

The final report will include but not be limited to an analysis of subsidy award data on the public database and the anonymised data provided by PAs in the Energy Usage,

⁴ <https://www.gov.uk/guidance/accessibility-requirements-for-public-sector-websites-and-apps>

DPS Schedule 6 (Order Form and Order Schedules)

RDI, and Local Growth areas, the themes of respondents' answers to the open questions, and aggregated responses to the online survey.

In terms of the final report's structure, this will include but not be limited to:

- a. an executive summary;
- b. a summary of the methodology used at each phase of the research and any underlying assumptions and caveats;
- c. findings on PAs' subsidy awarding behaviour since January 2021, drawing on the database evidence; and
- d. separate sections on findings and conclusions for both the subsidy control regime and the guidance, with separate subsections and comparisons across each of the Energy Usage, RDI, and Local Growth areas
- e. Considerations for the post commencement M&E research

The report will draw conclusions on the following, but will not be limited to:

- The quantity, value and type of subsidies awarded in the aforementioned areas, and how these have changed since the current subsidy control regime commenced in January 2021
- PAs' experiences of the subsidy awarding process since January 2021, evaluating how straightforward they have found the regulations and highlighting any common issues/challenges faced
- PAs' experience of using the subsidy control guidance since January 2021, evaluating how straightforward they have found the regulations and highlighting any common issues/challenges faced

Process Outputs

BEIS envisages that the contractor will be transparent in undertaking quality assurance for each defined product within the research and provide documented details of its process and outcome to BEIS. BEIS envisages that it will also be provided with the opportunity to undertake peer review ourselves on each product.

BEIS will receive a methodology report that outlines the contractor's proposed approach to each research phase. Progress meetings can be held virtually throughout the research process. Lastly, upon conclusion of the research, the contractor will provide a full report in March 2023 and provide a virtual presentation summarising the key findings of the full report. BEIS expects to be given the opportunity and ample time to provide extensive input to the final report, and throughout the research process.

DPS Schedule 6 (Order Form and Order Schedules)

8. Ethics

All applicants will need to identify and propose arrangements for initial scrutiny and on-going monitoring of ethical issues. The appropriate handling of ethical issues is part of the tender assessment exercise and proposals will be evaluated on this as part of the 'addressing challenges and risks' criterion.

Contractors should propose named members of the project team and include the tasks and responsibilities of each team member. This should be clearly linked to the work programme, indicating the grade/ seniority of staff and number of days allocated to specific tasks.

Contractors should identify the individual(s) who will be responsible for managing the project.

11. Consortium Bids

In the case of a consortium tender, only one submission covering all of the partners is required but consortia are advised to make clear the proposed role that each partner will play in performing the contract as per the requirements of the technical specification. We expect the bidder to indicate who in the consortium will be the lead contact for this project, and the organisation and governance associated with the consortia.

Contractors must provide details as to how they will manage any sub-contractors and what percentage of the tendered activity (in terms of monetary value) will be sub-contracted.

If a consortium is not proposing to form a corporate entity, full details of alternative proposed arrangements should be provided in the Annex. - (a) receive and use the Deliverables; and
 - (b) make use of the deliverables provided by a Replacement Supplier.

- 9.6. If an IPR Claim is made or anticipated the Supplier must at its own expense and the Buyer's sole option, either:
- (a) obtain for CCS and the Buyer the rights in Clause 9.1 and 9.2 without infringing any third party IPR; or
