- 4.1 Immediately upon notification by the Contractor of a Financial Distress Event (or if the Authority becomes aware of a Financial Distress Event without notification and brings the event to the attention of the Contractor), the Contractor shall have the obligations and the Authority shall have the rights and remedies as set out in paragraphs 4.3 to 4.6.
- 4.2 In the event of a late or non-payment of a Key Sub-Contractor pursuant to paragraph 3.1(f), the Authority shall not exercise any of its rights or remedies under paragraph 4.3 without first giving the Contractor ten (10) Business Days to:
  - (a) rectify such late or non-payment; or
  - (b) demonstrate to the Authority's reasonable satisfaction that there is a valid reason for late or non-payment.
- 4.3 The Contractor shall (and shall procure that the Guarantor and/or any relevant Key Sub-Contractor shall):
  - (a) at the request of the Authority, meet the Authority as soon as reasonably practicable (and in any event within three (3) Business Days of the initial notification (or awareness) of the Financial Distress Event or such other period as the Authority may permit and notify to the Contractor in writing) to review the effect of the Financial Distress Event on the continued performance and delivery of the Services in accordance with this Contract; and

(b) where the Authority reasonably believes taking into account the discussions and any representations made under paragraph 4.3(a) that the Financial Distress Event could impact on the continued performance and delivery of the Services in accordance with this Contract:

(i) submit to the Authority for its approval, a draft Financial Distress Remediation Plan as soon as reasonably practicable (and in any event, within ten (10) Business Days of the initial notification (or awareness) of the Financial Distress Event or such other period as the Authority may permit and notify to the Contractor in writing); and

(ii) to the extent that it is legally permitted to do so and subject to paragraph 4.8, provide such information relating to the Contractor and/or the Guarantor as the Authority may reasonably require in order to understand the risk to the Services, which may include forecasts in relation to cash flow, orders and profits and details of financial measures being considered to mitigate the impact of the Financial Distress Event.

4.4 The Authority shall not withhold its approval of a draft Financial Distress Remediation Plan unreasonably. If the Authority does not approve the draft Financial Distress Remediation Plan, it shall inform the Contractor of its reasons and the Contractor shall take those reasons into account in the preparation of a further draft Financial Distress Remediation Plan, which shall be resubmitted to the Authority within five (5) Business Days of the rejection of the first draft. This process shall be repeated until the Financial Distress Remediation Plan is either

(a) approved by the Authority;

(b) referred, by notice sent by either Party to the other Party explaining why it thinks the Financial Distress Remediation Plan has not been approved, to commercial negotiation led by senior representatives who have authority to agree the Financial Distress Remediation Plan to be held within 28 days of the date of the notice; or

(c) finally rejected by the Authority.

4.5 If the Authority considers that the draft Financial Distress Remediation Plan is insufficiently detailed to be properly evaluated, will take too long to complete or will not ensure the continued performance of the Contractor's obligations in accordance with the Contract, then it may either agree a further time period for the development and agreement of the Financial Distress Remediation Plan or escalate any issues with the draft Financial Distress Remediation Plan using the Dispute Resolution Procedure.

4.6 Following approval of the Financial Distress Remediation Plan by the Authority, the Contractor shall:

(a) on a regular basis (which shall not be less than fortnightly):

(i) review and make any updates to the Financial Distress Remediation Plan as the Contractor may deem reasonably necessary and/or as may be reasonably requested by the Authority, so that the plan remains adequate, up to date and

ensures the continued performance and delivery of the Services in accordance with this Contract; and

- (ii) provide a written report to the Authority setting out its progress against the Financial Distress Remediation Plan, the reasons for any changes made to the Financial Distress Remediation Plan by the Contractor and/or the reasons why the Contractor may have decided not to make any changes;
- (b) where updates are made to the Financial Distress Remediation Plan in accordance with paragraph 4.6(a), submit an updated Financial Distress Remediation Plan to the Authority for its approval, and the provisions of paragraphs 4.4 and 4.5 shall apply to the review and approval process for the updated Financial Distress Remediation Plan; and
- (c) comply with the Financial Distress Remediation Plan (including any updated Financial Distress Remediation Plan) and ensure that it achieves the financial and performance requirements set out in the Financial Distress Remediation Plan.

4.7 Where the Contractor reasonably believes that the relevant Financial Distress Event under paragraph 4.1 (or the circumstance or matter which has caused or otherwise led to it) no longer exists, it shall notify the Authority and the Parties may agree that the Contractor shall be relieved of its obligations under paragraph 4.6.

4.8 The Contractor shall use reasonable endeavours to put in place the necessary measures to ensure that the information specified at paragraph 4.3(b)(ii) is available when required and on request from the Authority and within reasonable timescales. Such measures may include:

- (b) agreeing in advance with the Authority, and the Guarantor a form of confidentiality agreement to be entered by the relevant parties to enable the disclosure of the information to the Authority;
- (c) putting in place any other reasonable arrangements to enable the information to be lawfully disclosed to the Authority (which may include making price sensitive information available to Authority nominated personnel through confidential arrangements, subject to their consent); and
- (d) disclosing the information to the fullest extent that it is lawfully entitled to do so, including through the use of redaction, anonymisation and any other techniques to permit disclosure of the information without breaching a duty of confidentiality.

## ANNEX 3: CALCULATION METHODOLOGY FOR FINANCIAL INDICATORS

The Contractor shall ensure that it uses the following general and specific methodologies for calculating the Financial Indicators against the Financial Target Thresholds:

### 1 GENERAL METHODOLOGY

#### 1.1 Terminology

The terms referred to in this Annex 3 are those used by UK companies in their financial statements. Where the entity is not a UK company, the corresponding items should be used even if the terminology is slightly different (for example a charity would refer to a surplus or deficit rather than a profit or loss).

#### 1.2 Groups

Where the entity is the holding company of a group and prepares consolidated financial statements, the consolidated figures should be used.

#### 1.3 Foreign Currency Conversion

Figures denominated in foreign currencies should be converted at the exchange rate in force at the relevant date for which the Financial Indicator is being calculated.

#### 1.4 Treatment of Non-Underlying Items

Financial Indicators should be based on the figures in the financial statements before adjusting for non-underlying items.

### 2 SPECIFIC METHODOLOGY

Financial Indicator	Specific Methodology
<b>1</b> <b>Operating Margin</b>	<p>The elements used to calculate the Operating Margin should be shown on the face of the Income Statement in a standard set of financial statements.</p> <p>Figures for Operating Profit and Revenue should exclude the entity's share of the results of any joint ventures or Associates.</p> <p>Where an entity has an operating loss (i.e. where the operating profit is negative), Operating Profit should be taken to be zero.</p>
<b>2</b> <b>Net Debt to EBITDA Ratio</b>	<p><i>"Net Debt" = Bank overdrafts + Loans and borrowings, including balances owed to other group members + Finance leases + Deferred consideration payable – Cash and cash equivalents, including short-term financial investments</i></p>

Financial Indicator	Specific Methodology
	<p><b>"EBITDA"</b> = <i>Operating profit + Depreciation charge + Amortisation charge.</i></p> <p>The majority of the elements used to calculate the Net Debt to EBITDA Ratio should be shown on the face of the Balance sheet, Income statement and Statement of Cash Flows in a standard set of financial statements but will otherwise be found in the notes to the financial statements.</p> <p><u>Net Debt</u>: The elements of Net Debt may be described slightly differently and should be found either on the face of the Balance Sheet or in the relevant note to the financial statements. All interest bearing liabilities (other than retirement benefit obligations) should be included as borrowings as should, where disclosed, any liabilities (less any assets) in respect of any hedges designated as linked to borrowings (but not non-designated hedges). Borrowings should also include balances owed to other group members.</p> <p>Deferred consideration payable should be included in Net Debt despite typically being non-interest bearing.</p> <p>Cash and cash equivalents should include short-term financial investments shown in current assets.</p> <p>Where Net debt is negative (i.e. an entity has net cash), the relevant Financial Target Threshold should be treated as having been met.</p> <p><u>EBITDA</u>: Operating profit should be shown on the face of the Income Statement and, for the purposes of calculating this Financial Indicator, should include the entity's share of the results of any joint ventures or Associates. The depreciation and amortisation charges for the period may be found on the face of the Statement of Cash Flows or in a Note to the Accounts. Where EBITDA is negative, the relevant Financial Target Threshold should be treated as not having been met (unless Net Debt is also negative, in which case the relevant Financial Target Threshold should be treated as having been met).</p>
<p><b>3</b></p> <p><b>Net Debt + Net Pension Deficit to EBITDA ratio</b></p>	<p><b>"Net Debt"</b> = <i>Bank overdrafts + Loans and borrowings, including balances owed to other group members + Finance leases + Deferred consideration payable – Cash and cash equivalents, including short-term financial investments.</i></p> <p><b>"Net Pension Deficit"</b> = <i>Retirement Benefit Obligations – Retirement Benefit Assets.</i></p>

Financial Indicator	Specific Methodology
	<p><b>"EBITDA"</b> = <i>Operating profit + Depreciation charge + Amortisation charge.</i></p> <p>The majority of the elements used to calculate the Net Debt + Net Pension Deficit to EBITDA Ratio should be shown on the face of the Balance sheet, Income statement and Statement of Cash Flows in a standard set of financial statements but will otherwise be found in the notes to the financial statements.</p> <p><u>Net Debt:</u> The elements of Net Debt may be described slightly differently and should be found either on the face of the Balance Sheet or in the relevant note to the financial statements. All interest bearing liabilities (other than retirement benefit obligations) should be included as borrowings as should, where disclosed, any liabilities (less any assets) in respect of any hedges designated as linked to borrowings (but <i>not</i> non-designated hedges). Borrowings should also include balances owed to other group members.</p> <p>Deferred consideration payable should be included in Net Debt despite typically being non-interest bearing.</p> <p>Cash and cash equivalents should include short-term financial investments shown in current assets.</p> <p><u>Net Pension Deficit:</u> Retirement Benefit Obligations and Retirement Benefit Assets may be shown on the face of the Balance Sheet or in the notes to the financial statements. They may also be described as pension benefits / obligations, post-employment obligations or other similar terms.</p> <p>Where 'Net Debt + Net Pension Deficit' is negative, the relevant Financial Target Threshold should be treated as having been met.</p> <p><u>EBITDA:</u> Operating profit should be shown on the face of the Income Statement and, for the purposes of calculating this Financial Indicator, should include the entity's share of the results of any joint ventures or Associates.</p> <p>The depreciation and amortisation charges for the period may be found on the face of the Statement of Cash Flows or in a Note to the Accounts.</p> <p>Where EBITDA is negative, the relevant Financial Target Threshold should be treated as not having been met (unless 'Net Debt + Net Pension Deficit' is also negative, in which case the relevant Financial Target Threshold should be regarded as having been met).</p>

Financial Indicator	Specific Methodology
<p>4</p> <p><b>Net Interest Paid Cover</b></p>	<p><b>"Earnings Before Interest and Tax"</b> = Operating profit.</p> <p><b>"Net Interest Paid"</b> = Interest paid – Interest received.</p> <p>Operating profit should be shown on the face of the Income Statement in a standard set of financial statements and, for the purposes of calculating this Financial Indicator, should include the entity's share of the results of any joint ventures or Associates.</p> <p>Interest received and interest paid should be shown on the face of the Cash Flow statement.</p> <p>Where Net interest paid is negative (i.e. the entity has net interest received), the relevant Financial Target Threshold should be treated as having been met.</p>
<p>5</p> <p><b>Acid Ratio</b></p>	<p>All elements that are used to calculate the Acid Ratio are available on the face of the Balance Sheet in a standard set of financial statements.</p>
<p>6</p> <p><b>Net Asset value</b></p>	<p>Net Assets are shown (but sometimes not labelled) on the face of the Balance Sheet of a standard set of financial statements. Net Assets are sometimes called net worth or 'Shareholders' Funds'. They represent the net assets available to the shareholders. Where an entity has a majority interest in another entity in which there are also minority or non-controlling interests (i.e. where it has a subsidiary partially owned by outside investors), Net Assets should be taken inclusive of minority or non-controlling interests (as if the entity owned 100% of such entity).</p>
<p>7</p> <p><b>Group Exposure Ratio</b></p>	<p><b>"Group Exposure"</b> = Balances owed by Group Undertakings + Contingent liabilities assumed in support of Group Undertakings.</p> <p><b>"Gross Assets"</b> = Fixed Assets + Current Assets.</p> <p><u>Group Exposure</u>: Balances owed by (i.e. receivable from) Group Undertakings are shown within Fixed assets or Current assets either on the face of the Balance Sheet or in the relevant notes to the financial statements. In many cases there may be no such balances, in particular where an entity is not a member of a group or is itself the ultimate holding company of the group.</p> <p>Contingent liabilities assumed in support of Group Undertakings are shown in the Contingent Liabilities note in a standard set of financial statements. They include guarantees and security given in support of the borrowings of other group companies, often as part of group borrowing arrangements. Where the contingent liabilities are capped, the capped figure should be taken as their value. Where no cap or</p>

<p><b>8</b></p> <p><b>Turnover Ratio</b></p>	<p>Revenue should be shown on the face of the Income Statement in a standard set of financial statements. It should exclude the entity's share of the revenue of joint ventures or associates.</p>
