b. No waiver in respect of any right or remedy shall operate as a waiver in respect of any other right or remedy.

## **10. Assignment of Contract**

Neither Party shall be entitled to assign the Contract (or any part thereof) without the prior written consent of the other Party.

Notwithstanding anything to the contrary elsewhere in the Contract, no right is granted to any person who is not a Party to the Contract to enforce any term of the Contract in its own right and the Parties to the Contract declare that they have no intention to grant any such right.

## **12. Transparency**

a. Notwithstanding any other term of this Contract, including Condition 13 (Disclosure of Information), the Contractor understands that the Authority may publish the Transparency Information and Publishable Performance Information to the general public.

b. Subject to clause 12.c the Authority shall publish and maintain an up-to-date version of the

Transparency Information and Publishable Performance Information in a format readily accessible and reusable by the general public under an open licence where applicable.

c. If, in the Authority's reasonable opinion, publication of any element of the Transparency Information and Publishable Performance Information would be contrary to the public interest, the Authority shall be entitled to exclude such Information from publication. The Authority acknowledges that it would expect the public interest by default to be best served by publication of the Transparency Information and Publishable Performance Information in its entirety. Accordingly, the Authority acknowledges that it shall only exclude Transparency Information and Publishable Performance Information from publication in exceptional circumstances and agrees that where it decides to exclude Information from publication on that basis, it will provide a clear statement to the general public explaining the categories of information that have been excluded from publication and reasons for withholding that information.

d. The Contractor shall assist and co-operate with the Authority as reasonably required to enable the Authority to publish the Transparency Information and Publishable Performance Information, in accordance with the principles set out above, including through compliance with the requirements relating to the preparation of Publishable Performance Information set out in clause 12.e to 12.i. Where the Authority publishes Transparency Information, it shall:

- (1) before publishing, redact any Information that would be exempt from disclosure if it was the subject of a request for information under the Freedom of Information Act 2000 (FOIA) or the Environmental Information Regulations 2004 (EIR), for the avoidance of doubt, including Sensitive information;
- (2) taking account the Sensitive Information set out in Schedule 5, consult with the Contractor where the Authority intends to publish Information which has been identified as Sensitive Information. For the avoidance of doubt the Authority, acting reasonably, shall have absolute discretion to decide what information shall be published or be exempt from disclosure in accordance with the FOIA and/or the EIR; and
- (3) present information in a format that assists the general public in understanding the relevance and completeness of the information being published to ensure the public obtain a fair view on how this Contract is being performed.

### **Publishable Performance Information**

e. Within three (3) months of the effective date of Contract the Contractor shall provide to the Authority for its approval (such approval shall not be unreasonably withheld or delayed) a draft Publishable Performance Information KPI Data Report consistent with the content requirements of Schedule 9.

f. If the Authority rejects any draft Publishable Performance Information the Contractor shall submit a revised version of the relevant KPI Data Report for further approval by the Authority with five (5) business days of receipt of any notice or rejection, taking account of any recommendations for revision and improvement to the report provided by the Authority. This process shall be repeated until the parties have an agreed version of the Publishable Performance Information.

g. The Contractor shall provide an accurate and up-to-date version of the KPI Data Report to the Authority for each quarter at the frequency referred to in the agreed Schedule 9.

h. Any dispute in connection with the preparation and/or approval of Publishable Performance Information, other than under clause 12.f, shall be resolved in accordance with the dispute resolution procedure provided for in this Contract.

i. The requirements of this Condition are in addition to any other reporting requirements in this Contract.

### **13. Disclosure of Information**

a. Subject to clauses 13.d to 13.i and Condition 12 each Party:

- (1) shall treat in confidence all Information it receives from the other;
- (2) shall not disclose any of that Information to any third party without the prior written consent of the other Party, which consent shall not unreasonably be withheld, except that the Contractor

may disclose Information in confidence, without prior consent, to such persons and to such extent as may be necessary for the performance of the Contract;

(3) shall not use any of that Information otherwise than for the purpose of the Contract; and

(4) shall not copy any of that Information except to the extent necessary for the purpose of exercising its rights of use and disclosure under the Contract.

b. The Contractor shall take all reasonable precautions necessary to ensure that all Information disclosed to the Contractor by or on behalf of the Authority under or in connection with the Contract:

(1) is disclosed to their employees and Subcontractors, only to the extent necessary for the performance of the Contract;

and

(2) is treated in confidence by them and not disclosed except with the prior written consent of the Authority or used otherwise than for the purpose of performing work or having work performed for the Authority under the Contract or any subcontract.

c. The Contractor shall ensure that their employees are aware of the Contractor's arrangements for discharging the obligations at clauses 13.a and 13.b before receiving Information and shall take such steps as may be reasonably practical to enforce such arrangements.

d. A Party shall not be in breach of Clauses 13.a, 13.b, 13.f, 13.g and 13.h to the extent that either Party:

(1) exercises rights of use or disclosure granted otherwise than in consequence of, or under, the Contract;

(2) has the right to use or disclose the Information in accordance with other Conditions of the Contract; or

(3) can show:

(a) that the Information was or has become published or publicly available for use otherwise than in breach of any provision of the Contract or any other agreement between the Parties;

(b) that the Information was already known to it (without restrictions on disclosure or use) prior to receiving the Information under or in connection with the Contract;

(c) that the Information was received without restriction on further disclosure from a third party which lawfully acquired the Information without any restriction on disclosure; or

(d) from its records that the same Information was derived independently of that received under or in connection with the Contract;

provided that the relationship to any other Information is not revealed.

e. Neither Party shall be in breach of this Condition where it can show that any disclosure of Information was made solely and to the extent necessary to comply with a statutory, judicial or parliamentary obligation. Where such a disclosure is made, the Party making the disclosure shall ensure that the recipient of the Information is made aware of and asked to respect its confidentiality. Such disclosure shall in no way diminish the obligations of the Parties under this Condition.

f. The Authority may disclose the Information:

(1) to any Central Government Body for any proper purpose of the Authority or of the relevant Central Government Body, which shall include: disclosure to the Cabinet Office and/or HM Treasury for the purpose of ensuring effective cross-Government procurement processes, including value for money and related purposes. Where such a disclosure is made the Authority shall ensure that the recipient is made aware of its confidentiality;

(2) to Parliament and Parliamentary Committees or if required by any Parliamentary reporting requirement;

(3) to the extent that the Authority (acting reasonably) deems disclosure necessary or appropriate in the course of carrying out its public functions;

(4) subject to clause 13.g below, on a confidential basis to a professional adviser, consultant or other person engaged by any of the entities defined in Schedule 1 (including benchmarking organisations) for any purpose relating to or connected with the Contract;

(5) subject to clause 13.g below, on a confidential basis for the purpose of the exercise of its rights under the Contract; or

(6) on a confidential basis to a proposed body in connection with any assignment, novation or disposal of any of its rights, obligations or liabilities under the Contract;

and for the purposes of the foregoing, references to disclosure on a confidential basis shall mean disclosure subject to a confidentiality agreement or arrangement containing terms no less stringent than those placed on the Authority under this Condition.

g. Where the Authority intends to disclose Information to a commercial entity which is not a Central Government Body in accordance with clauses 13.f.(4) or 13.f.(5) above, the Authority will endeavour to provide the Contractor with 3 Business Days' notice in advance of such disclosure. In relation to a disclosure of Information made under clause 13.f.(3) above, if reasonably requested by the Contractor within 2 Business Days of such notice being given, where the Authority has not already done so, it will endeavour to procure from the intended recipient of the Information an agreement containing confidentiality terms the same as, or substantially similar to, those placed on the Authority under this Condition.

h. Before sharing any Information in accordance with clause 13.f, the Authority may redact the Information. Any decision to redact Information made by the Authority shall be final.

i. The Authority shall not be in breach of the Contract where disclosure of Information is made solely and to the extent necessary to comply with the Freedom of Information Act 2000 (the "Act") or the Environmental Information Regulations 2004 (the "Regulations"). To the extent permitted by the time for compliance under the Act or the Regulations, the Authority shall consult the Contractor where the Authority is considering the disclosure of Information under the Act or the Regulations and, in any event, shall provide prior notification to the Contractor of any decision to disclose the Information. The Contractor acknowledges and accepts that their representations on disclosure during consultation may not be determinative and that the decision whether to disclose Information in order to comply with the Act or the Regulations is a matter in which the Authority shall exercise its own discretion, subject always to the provisions of the Act or the Regulations.

j. Nothing in this Condition shall affect the Parties' obligations of confidentiality where Information is disclosed orally in confidence.

#### **14. Publicity and Communications with the Media**

The Contractor shall not and shall ensure that any employee or Subcontractor shall not communicate with representatives of the press, television, radio or other media on any matter concerning the Contract unless the Authority has given its prior written consent.

  - (2) Immediately on the Contractor being aware of any actual change of control of any Lower-Tier Sub-Contractor.
- b. The Contractor shall include in any such notification any concerns the Contractor may have with the change of control. Such concerns may include but are not limited to potential threats to national security and security of supply. The Contractor shall not be required to submit any notice which is unlawful or is in breach of either any pre-existing non-disclosure agreement or any regulations governing the conduct of the Contractor in the UK or other jurisdictions where the Contractor may be subject to legal sanction arising from issuing such a notice.

Each notice of change of control shall be taken to apply to all contracts with the Authority. Notices shall be submitted to:

- d. The Representative of the Authority shall consider the notice of change of control and advise the Contractor in writing of any concerns the Authority may have. Such concerns may include but are not limited to potential threats to national security, the ability of the Authority to comply with its statutory obligations or matters covered by the declarations made by the Contractor prior to contract award. The Contractor shall be required to submit a response to the concerns raised by the Authority, including any plans to mitigate those concerns, within 14 calendar days (or as agreed by the parties) of receipt of the Authority's written concerns, for the Authority's consideration.
- e. To the extent that the Authority considers that it is reasonable to do so, the Authority shall work with the Contractor to seek to resolve the Authority's concerns. The Contractor agrees to answer the Authority's questions or requests for clarification promptly.
- f. Where the Authority considers, in its absolute discretion, that the risk may be appropriately mitigated, the Contractor shall implement any agreed mitigations promptly and, in any case, within the timescales required by the Authority. Where the Contractor fails to do so, clause 15.g. shall apply.
- g. The Authority may, acting reasonably, terminate the Contract by giving written notice to the Contractor (and/or request the Contractor to terminate any relevant First-Tier or Lower-Tier Sub-Contractor's contract) within six months of the Authority being notified in accordance with clause 15.a. The Authority shall act reasonably in exercising its right of termination, including, but not limited to, taking into account the Contractor's own assessment of the change of control.
- h. Where the Authority terminates the Contract in accordance with clause 15.g, subject to clause 15.i, the Contractor may request payment for any unavoidable commitments, liabilities or expenditure incurred by the Contractor in connection with the Contract up to the point of termination. The Authority shall act reasonably when assessing the Contractor's request for payment although the parties agree that the Authority shall retain the sole discretion, acting reasonably, to decide whether to make such requested payment in accordance with clause 15.i.
- i. Any requests for payment by the Contractor must be submitted promptly and the Contractor shall demonstrate to the reasonable satisfaction of the Authority that such request for payment:
  - (1) is reasonable and properly chargeable;
  - (2) would otherwise represent an unavoidable loss by the Contractor by reason of the termination of the Contract; and
  - (3) is fully supported by documentary evidence.
- j. In the event that the Contractor fails to demonstrate any of the conditions set out at 15.i.(1)-(3), the Authority may reject such request for payment.
- k. Notification by the Contractor of any intended, planned or actual change of control shall not prejudice the existing rights of the Authority or the Contractor under the Contract nor create or imply any rights of either the Contractor or the Authority additional to the Authority's rights set out in this Condition.
- l. The Contractor shall include provisions equivalent to those set out in this Condition in all relevant sub-contracts.

## **16. Environmental Requirements**

The Contractor shall in all their operations to perform the Contract, adopt a sound proactive environmental approach that identifies, considers, and where possible, mitigates the environmental impacts of their supply chain. The Contractor shall provide evidence of so doing to the Authority on demand.

## **17. Contractor's Records**

- a. The Contractor and their Subcontractors shall maintain all records specified in and connected with the Contract (expressly or otherwise) and make them available to the Authority when requested on reasonable notice.
- b. The Contractor and their Subcontractors shall also permit access to relevant records that relate to the contractual obligations to supply goods or services under the Contract, held by or controlled by

them and reasonably required by the Comptroller and Auditor General, their staff and any appointed representative of the National Audit Office, and provide such explanations and information as reasonably necessary for the following purposes:

- (2) to enable the National Audit Office to carry out an examination pursuant to Part II of the National Audit Act 1983 of the economy, efficiency and effectiveness with which the Authority has used its resources.

c. With regard to the records made available to the Authority under clause 17.a of this Condition, and subject to the provisions of Condition 13 (Disclosure of Information), the Contractor shall permit records to be examined and if necessary copied, by the Authority, or Representative of the Authority, as the Authority may require.

- b. Rejection of any of the Contractor Deliverables under clause 30.a shall take place by the time limit for rejection specified in Schedule 3 (Contract Data Sheet), or if no such period is specified, the Contractor Deliverables shall be deemed to be accepted within a reasonable period of time.

- c. Where the Authority suspects that any Contractor Deliverable or consignment of Contractor Deliverables contains Counterfeit Materiel, it shall:
- (1) notify the Contractor in writing of its suspicion and reasons therefore;

- d. Where the Authority has determined that the Contractor Deliverable, part or consignment of Contractor Deliverables contain Counterfeit Material then it may reject the Contractor Deliverable,

part or consignment under 30.a and 30.b (Rejection), and provide written notification to the Contractor of the rejection.

- f. The Contractor shall be entitled to reasonable additional delivery and packaging costs incurred in complying with the Diversion Order or cancellation. Claims are to be submitted by the Contractor to the Authority's Commercial Officer together with applicable receipts and agreed as an amendment to the Contract in accordance with Condition 6 (Formal Amendments to the Contract). ### **Licences and Intellectual Property**

### **33. Import and Export Licences**

- a. If, in the performance of the Contract, the Contractor needs to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, the responsibility for applying for the licence shall rest with the Contractor. The Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance in obtaining any necessary UK import or export licence.
- b. When an export licence or import licence or authorisation either singularly or in combination is required from a foreign government for the performance of the Contract, the Contractor shall as soon as reasonably practicable consult with the Authority on the licence requirements. Where the Contractor is the applicant for the licence or authorisation the Contractor shall:
  - (1) ensure that when end use or end user restrictions, or both, apply to all or part of any Contractor Deliverable (which for the purposes of this Condition shall also include information, technical data and software), the Contractor, unless otherwise agreed with the Authority, shall identify in the application:
    - (a) the end user as: His Britannic Majesty's Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter "HM Government"); and
    - (b) the end use as: For the Purposes of HM Government; and

- c. If the Contractor or any Subcontractor in the performance of the Contract needs to export materiel not previously supplied by or on behalf of the Authority for which an export licence or import licence or authorisation from a foreign government is required, the responsibility for instituting expeditious action to apply for and obtain the licence shall rest with the Contractor or that Subcontractor. For the purposes of this Condition materiel shall mean information, technical data and items, including Contractor Deliverables, components of Contractor Deliverables and software.

d. Where the Contract performance requires the export of materiel for which a foreign export licence or import licence or authorisation is required, the Contractor shall include the dependencies for the export licence or import licence or authorisation application, grant and maintenance in the Contract risk register and in the risk management plan for the Contract, with appropriate review points. Where there is no requirement under the Contract for a risk management plan the Contractor shall submit this information to the Authority's representative.

e. During the term of the Contract and for a period of up to 2 years from completion of the Contract, the Authority may make a written request to the Contractor to seek a variation to the conditions to a foreign export licence or import licence or authorisation to enable the Authority to re-export or re-transfer a licensed or authorised item or licensed or authorised information from the UK to a non-licensed or unauthorised third party. If the Authority makes such a request it will consult with the Contractor before making a determination of whether the Authority or the Contractor is best placed in all the circumstance to make the request. Where, subsequent to such consultation the Authority notifies the Contractor that the Contractor is best placed to make such request:

(1) the Contractor shall, or procure that the Contractor's Subcontractor shall, expeditiously consider whether or not there is any reason why it should object to making the request and, where it has no objection, file an application to seek a variation of the applicable export licence or import licence or authorisation in accordance with the procedures of the licensing authority. Where the Contractor has an objection, the Parties shall meet within five (5) working days to resolve the issue and should they fail the matter shall be escalated to an appropriate level within both Parties' organisations, to include their respective export licensing subject matter experts; and

(2) the Authority shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the application for the requested variation.

f. Where the Authority determines that it is best placed to make such request the Contractor shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the Authority to make the application for the requested variation.

g. Where the Authority invokes clause 33.e or 33.f the Authority will pay the Contractor a fair and reasonable charge for this service based on the cost of providing it.

h. Where the Contractor subcontracts work under the Contract, which is likely to be subject to foreign export control, import control or both the Contractor shall use reasonable endeavours to incorporate in each subcontract equivalent obligations to those set out in this Condition. Where it is not possible to include equivalent terms to those set out in this Condition, the Contractor shall report that fact and the circumstances to the Authority.

i. Without prejudice to HM Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance to facilitate the granting of export licences or import licences or authorisations by a foreign Government in respect of the performance of the Contract.

j. The Authority shall provide such assistance as the Contractor may reasonably require in obtaining any UK export licences necessary for the performance of the Contract.

k. The Contractor shall use reasonable endeavours to identify whether any Contractor Deliverable is subject to:

- (1) a non-UK export licence, authorisation or exemption; or
- (2) any other related transfer or export control,

that imposes or will impose end use, end user or re-transfer or re-export restrictions, or restrictions on disclosure to individuals based upon their nationality. This does not include the Intellectual Property-specific restrictions of the type referred to in Condition 34 (Third Party Intellectual Property – Rights and Restrictions).

l. If at any time during the term of the Contract the Contractor becomes aware that all or any part of the Contractor Deliverables are subject to clause 33.k.(1) or 33.k.(2), they shall notify the Authority

of this as soon as reasonably practicable by providing details in the DEFFORM 528 or other mutually agreed alternative format. Such notification shall be no later than thirty (30) days of knowledge of any affected Contractor Deliverable and in any event such notification shall be not less than thirty (30) days prior to delivery of the Contractor Deliverables.

m. If the information to be provided under clause 33.l has been provided previously to the Authority by the Contractor under the Contract, the Contractor may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of clause 33.l.

n. During the term of the Contract, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clauses 33.l or 33.m of which they become or are aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

o. For a period of up to 2 years from completion of the Contract and in response to a specific request by the Authority, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clause 33.l or 33.m of which they become aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.

p. Where following receipt of materiel from a Subcontractor or any of their other suppliers restrictions are notified to the Contractor by that Subcontractor, supplier or other third party or are identified by the Contractor, the Contractor shall immediately inform the Authority by issuing an updated DEFFORM 528. Within [X] days of such notification, the Contractor shall propose to the Authority actions to mitigate the impact of such restrictions. Such proposals may include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. The Authority shall notify the contractor within [X] days of receipt of a proposal whether it is acceptable and where appropriate the Contract shall be modified in accordance with its terms to implement the proposal.

q. If the restrictions prevent the Contractor from performing their obligations under the Contract and have not been removed, modified or otherwise satisfactorily managed within a reasonable time, the Authority may at its absolute discretion elect to amend the contract in accordance with Condition 6 or as otherwise may be provided by the Contract, or to terminate the Contract. Except as set out in clause 33.r, in the event of termination in these circumstances termination shall be on fair and reasonable terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to agree such fair and reasonable terms failing which either Party may refer the matter to dispute resolution in accordance with the provisions in the Contract.

r. In the event that the restrictions notified to the Authority pursuant to clause 33.l were known or ought reasonably have been known by the Contractor (but were not disclosed) at contract award or if restrictions notified to the Authority pursuant to clauses 33.n or 33.p were known or ought reasonably to have been known by the Contractor at the date of submission of the most recent DEFFORM 528 submitted to the Authority in accordance with clause 33.l, termination under clause 33.q will be in accordance with Condition 43 (Material Breach) and the provisions of clause 33.v will not apply.

s. The Authority shall use reasonable endeavours to identify any export control restrictions applying to materiel to be provided to the Contractor as Government Furnished Assets (GFA). Where the Authority is to provide materiel necessary to enable the Contractor to perform the Contract or in respect of which the Services are to be provided, and that materiel is subject to a non-UK export licence, authorisation, exemption or other related transfer or export control as described in the provisions of clause 32.k, the Authority shall provide a completed DEFFORM 528 or will provide a new or updated DEFFORM 528 to the Contractor within thirty (30) days of the date of knowledge and in any case not later than thirty (30) days prior to the delivery of such materiel to the Contractor.

t. In the event that the Authority becomes aware that the DEFFORM 528 disclosure was incomplete or inaccurate or in the event additional such materiel is identified then the Authority shall

provide, as soon as reasonably practicable a new or revised DEFFORM 528. In the event that the Authority becomes aware that a prior disclosure included in DEFFORM 528 submitted to the Contractor was incomplete or inaccurate less than thirty (30) days prior to the delivery to the Contractor of any material to which the updated or new disclosure relates, the Parties will meet as soon as reasonably practicable to discuss how to mitigate the impact of the incomplete or inaccurate disclosure.

u. Where:

- (1) restrictions are advised by the Authority to the Contractor in a DEFFORM 528 provided pursuant to clauses 33.s or 33.t or both; or
- (2) any of the information provided by the Authority in any DEFFORM 528 proves to be incorrect or inaccurate;

the Authority and the Contractor shall act promptly to mitigate the impact of such restrictions or incorrect or inaccurate information. Such mitigation shall include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. If the restrictions or incorrect or inaccurate information adversely affect the ability of the Contractor to perform their obligations under the Contract, the matter shall be handled under the terms of Condition 6 (Formal Amendments to the Contract) or as may otherwise be provided by the Contract as appropriate and if no alternative solution satisfies the essential terms of the Contract and the restrictions have not been removed, modified or otherwise satisfactorily managed within a reasonable time the Authority may terminate the Contract. Termination under these circumstances will be under the terms of Condition 42 (Termination for Convenience) and as referenced in the Contract.

v. Pending agreement of any amendment of the Contract as set out in clause 33.q or 33.u, provided the Contractor takes such steps as are reasonable to mitigate the impact, the Contractor shall be relieved from their obligations to perform those elements of the Contract directly affected by the restrictions or provision of incorrect or incomplete information.

question. The Contractor shall indemnify the Authority, its officers, agents and employees against any liability and cost arising from such allegation. This Condition shall not apply if:

f. For all other Contractor Deliverables patents and registered designs in the UK, if a relevant invention or design has been notified to the Authority by the Contractor prior to the Effective Date of Contract, then unless it has been otherwise agreed, under the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949, the Contractor is hereby authorised to utilise that invention or design, notwithstanding the fact that it is the subject of a UK Patent or UK Registered Design, for the purpose of performing the Contract.

g. If, under clause 34.a, a relevant invention or design is notified to the Authority by the Contractor after the Effective Date of Contract, then:

- (2) in any event, unless the Contractor and the Authority can agree an alternative course of action, the Authority shall not unreasonably delay the issue of a written authorisation in accordance with the provisions of Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949.

h. The Authority shall assume all liability and shall indemnify the Contractor, their officers, agents and employees against liability, including the Contractor's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the United Kingdom in the performance of the Contract when such infringement arises from or is incurred by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

i. The Contractor shall assume all liability and shall indemnify the Authority, its officers, agents and employees against liability, including the Authority's costs, as a result of infringement by the Contractor or their suppliers of any patent, utility model, registered design or like protection outside the UK in the performance of the Contract when such infringement arises from or is incurred otherwise than by reason of the Contractor following any specification, statement of work or instruction in the Contract or using, keeping or disposing of any item given by the Authority for the purpose of the Contract in accordance with the Contract.

  - (2) alleged misuse of any confidential Information, trade secret or the like by the Contractor as a result of use of Information provided by the Authority for the purposes of the Contract, but only to the extent that Contractor's use of that Information is for the purposes intended when it was disclosed by the Authority.
- n. The general authorisation and indemnity is:

The Parties will co-operate with one another to mitigate any claim or damage which may arise from use of third party IPR.

p. Nothing in Condition 34 shall be taken as an authorisation or promise of an authorisation under Section 240 of the Copyright, Designs and Patents Act 1988.

q. Notwithstanding any other provisions of the Contract and for the avoidance of doubt, award of the Contract by the Authority and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Contractor acknowledges that any such authorisation by the Authority under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific intellectual property involved.

a. The Contract Price excludes any UK output Value Added Tax (VAT) and any similar EU (or non-EU) taxes chargeable on the supply of Contractor Deliverables by the Contractor to the Authority.

b. If the Contractor is required by UK VAT law to be registered for UK VAT (or has registered voluntarily) in respect of their business activities at the time of any supply, and the circumstances of any supply are such that the Contractor is liable to pay the tax due to HM Revenue and Customs (HMRC), the Authority shall pay to the Contractor in addition to the Contract Price (or any other sum due to the Contractor) a sum equal to the output VAT chargeable on the tax value of the supply of Contractor Deliverables, and all other payments under the Contract according to the law at the relevant tax point.

c. The Contractor is responsible for the determination of VAT liability. The Contractor shall consult their Client Relationship Manager or the HMRC Enquiries Desk (and not the Authority's Representative (Commercial)) in cases of doubt. The Contractor shall notify the Authority's Representative (Commercial) of the Authority's VAT liability under the Contract, and any changes to it, within twenty (20) Business Days of becoming aware the liability is other than at the standard rate of VAT. In the event of any doubt about the applicability of the tax in such cases, the Authority may require the Contractor to obtain, and pass to the Authority, a formal ruling from HMRC. The Contractor shall comply promptly with any such requirement. Where the Contractor obtains a ruling from HMRC, they shall supply a copy to the Authority within three (3) Business Days of receiving that ruling unless they propose to challenge the ruling. Where the Contractor challenges the ruling they shall supply to the Authority a copy of any final decisions issued by HMRC on completion of the challenge within three (3) Business Days of receiving the decision.

d. Where supply of Contractor Deliverables comes within the scope of UK VAT, but the Contractor is not required by UK VAT law to be registered for UK VAT (and has not registered voluntarily), the Authority shall be responsible for assessing and paying over directly to HMRC any UK output VAT due in respect of the Contractor Deliverables. The Contractor shall be responsible for ensuring they take into account any changes in VAT law regarding registration.

e. Where Contractor Deliverables are deemed to be supplied to the Authority outside the UK, the Contractor may be required by the laws of the country where the supply takes place to register there for EU (or non-EU) turnover or similar tax. In that event, the Authority shall pay to the Contractor in addition to the Contract Price (and any other sum due to the Contractor under the Contract) a sum equal to the tax the Contractor is liable to pay to the tax authorities of the country in question in relation to the Contractor Deliverables within thirty (30) calendar days of a written request for payment of any such sum by the Contractor.

f. In relation to the Contractor Deliverables supplied under the Contract the Authority shall not be required to pay any sum in respect of the Contractor's input VAT (or similar EU or non-EU or both input taxes). However, these input taxes will be allowed where it is established that, despite the Contractor having taken all reasonable steps to recover them, it has not been possible to do so. Where there is any doubt that the Contractor has complied with this requirement the matter shall be resolved in accordance with Condition 40 (Dispute Resolution).

g. Should HMRC decide that the Contractor has incorrectly determined the VAT liability, in accordance with clause 37.b above, the Authority will pay the VAT assessed by HMRC. In the event

that HMRC so determines, the Contractor shall pay any interest charged on any assessment or penalties or both directly to HMRC. Such interest or penalties or both shall not be recoverable from the Authority under the Contract or any other contract. The Contractor shall supply the Authority with a copy of all correspondence between HMRC and the Contractor's advisors regarding the VAT assessment within three (3) Business Days of a written request from the Authority for such correspondence.

### **38. Debt Factoring**

a. Subject to the Contractor obtaining the prior written consent of the Authority in accordance with Condition 10 (Assignment of Contract), the Contractor may assign to a third Party ("the Assignee") the right to receive payment of the Contract Price or any part thereof due to the Contractor under the Contract (including interest which the Authority incurred through late payment under the Late Payment of Commercial Debts (Interest) Act 1998 ("the Act")). Any assignment of the right to receive payment of the Contract Price (or any part thereof) under this Condition 38 shall be subject to:

- (1) reduction of any sums in respect of which the Authority exercises its right of recovery under clause 36.f;
- (2) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and
- (3) the Authority receiving notification under both clauses 38.b and 38.c.(2).

b. In the event that the Contractor obtains from the Authority the consent to assign the right to receive the Contract Price (or any part thereof) under clause 38.a, the Contractor shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.

c. The Contractor shall ensure that the Assignee:

- (1) is made aware of the Authority's continuing rights under clauses 38.a.(1) and 38.a.(2); and
- (2) notifies the Authority of the Assignee's contact information and bank account details to which the Authority shall make payment, subject to any reduction made by the Authority in accordance with clauses 38.a.(1) and 38.a.(2).

d. The provisions of Condition 36 (Payment and Recovery of Sums Due) shall continue to apply in all other respects after the assignment and shall not be amended without the prior approval of the Authority.

### **39. Subcontracting and Prompt Payment**

a. Subcontracting any part of the Contract shall not relieve the Contractor of any of the Contractor's obligations, duties or liabilities under the Contract.

b. Where the Contractor enters into a subcontract, they shall cause a term to be included in such subcontract:

- (1) providing that where the Subcontractor submits an invoice to the Contractor, the Contractor will consider and verify that invoice in a timely fashion;
- (2) providing that the Contractor shall pay the Subcontractor any sums due under such an invoice no later than a period of thirty (30) days from the date on which the Contractor has determined that the invoice is valid and undisputed;
- (3) providing that where the Contractor fails to comply with clause 39.b.(1) above, and there is an undue delay in considering and verifying the invoice, that the invoice shall be regarded as valid and undisputed for the purposes of clause 39.b.(2) after a reasonable time has passed; and
- (4) requiring the counterparty to that subcontract to include in any subcontract which it awards, provisions having the same effect as clauses 39.b.(1) to 39.b.(4).

### **Termination**

### **40. Dispute Resolution**

a. The Parties will attempt in good faith to resolve any dispute or claim arising out of or relating to the Contract through negotiations between the respective representatives of the Parties having

authority to settle the matter, which attempts may include the use of any alternative dispute resolution procedure on which the Parties may agree.

b. In the event that the dispute or claim is not resolved pursuant to clause 40.a the dispute shall be referred to arbitration. Unless otherwise agreed in writing by the Parties, the arbitration and this clause 40.b shall be governed by the Arbitration Act 1996. For the purposes of the arbitration, the arbitrator shall have the power to make provisional awards pursuant to Section 39 of the Arbitration Act 1996.

c. For the avoidance of doubt, anything said, done or produced in or in relation to the arbitration process (including any awards) shall be confidential between the Parties, except as may be lawfully required in judicial proceedings relating to the arbitration or otherwise.

## 46.3 Variation of Price

1. The prices stated in the Schedule of Requirements are FIXED at Year 1 (2024/25) price levels. The prices do not include provision beyond this date for increases or decreases in the market price of the Articles being purchased. Any such variation shall be calculated in accordance with the following formula:

$$V = P (a+b(O_i/O_0)) - P$$

Where:

V represents the variation of price

P represents the FIXED price as stated in the Schedule of Requirements

O represents the index HSGG: SPPI INDEX OUTPUT DOMESTIC - M Professional, scientific and technical services

O<sub>0</sub> represents the average OUTPUT Price Index figure for the base period 1<sup>st</sup> April 2024 to 31<sup>st</sup> March 2025 (as above)

O<sub>i</sub> represents the average OUTPUT Price Index figure for the 12-month average of the Output price index before the payment date period

a represents the Non Variable Element (NVE)

b represents the Variable Element

$$a+b=1$$

$$a = 0 \text{ and } b = 1$$

Calculations shall be made to four decimal places.

2. The Index referred to in Clause 1 above shall be taken from the following Tables:

OUTPUT Price Index - ONS Publication HSGG SPPI Output Index Domestic – M Professional, scientific and technical services.

3. Indices published with a 'B' or 'F' marker, or a suppressed value, in the last 3 years are not valid for Variation of Price clauses and shall not be used. Where the price index has an 'F' marker or suppression applied to it during the term of the Contract, the Authority and the Contractor shall agree an appropriate replacement index or indices. The replacement index or indices shall cover, to the maximum extent possible, the same economic activities as the original index or indices.
4. In the event that any material changes are made to the indices (e.g. a revised statistical base date) during the period of the contract and before final adjustment of the final contract price, then the re-basing methodology outlined by the Office for National Statistics (ONS, the series providers) to match the original index to the new series shall be applied.
5. In the event the agreed index or indices cease to be published (e.g. because of a change in the Standard Industrial Classification) the Authority and the Contractor shall agree an appropriate replacement index or indices, which shall cover to the maximum extent possible the same economic activities as the original index or indices. The methodology outlined by the Office for National Statistics used for rebasing indices (as in Clause 4

above) shall then be applied.

6. Notwithstanding the above, any extant index / indices agreed in the Contract shall continue to be used as long as it is / they are available and subject to ONS revisions policy. Payments calculated using the extant index / indices during its / their currency shall not be amended retrospectively as a result of any change to the index or indices.
7. The Contractor shall notify the Authority of any significant changes in the purchasing / manufacturing plan on the basis of which these provisions were drawn up and agreed, or of any other factor having a material bearing on the operation of these provisions such as to cause a significant divergence from their intended purpose, in order that both parties may consider whether any change in this provision would be appropriate.
8. Prices shall be adjusted taking into account the effect of the above formula as soon as possible after publication of the relevant indices or at a later date if so agreed between the Authority and the Contractor. Where an index value is subsequently amended, the Authority and the Contractor shall agree a fair and reasonable adjustment to the price, as necessary.
9. Claims under this Condition shall be submitted to the Bill Paying Branch, certified to the effect that the "requirements of this Clause 46.3" have been met.

A worked example is below. The example does not use a real price or real index and is for illustration purposes only:

Firm Year
Option Year (Fixed Price)

Contract Year	Year	Index
1	2024/25	101.9
2	2025/26	102.9
3	2026/27	103.7
4	2027/28	104.7
5	2028/29	105.4

The first three years of the contract are firm prices, while the remaining 2 Option years of the contract are fixed price with a VOP clause. Therefore, when calculating the first year of fixed prices using VOP, this is for year 4 of the contract. Based on the example above:

$$V = P (a + b(O_i/O_0)) - P$$

VOP	Definition	First Year of VOP (year 4)
V	Variation of Price	
P	The FIXED price as stated in the Schedule of Requirements (base price)	£100,000
O	The average OUTPUT Price Index figure	
O <sub>0</sub>	The 12-month average of the index for the base period (first year of the contract)	2024/25 = 101.9
O <sub>i</sub>	The 12-month average of the index for the fixed year being calculated	2027/28 = 104.7
a	The Non- Variable Element (NVE)	0.1
b	The Variable Element	0.9

$$V = P (a + b(O_i/O_0)) - P$$

$$V = £100,000 \times (0.1 + 0.9 \times (104.7 \div 101.9)) - £100,000$$

$$V = £100,000 \times (0.1 + 0.9 \times (1.0274779)) - £100,000$$

$$V = £100,000 \times (0.1 + 0.9247301) - £100,000$$

$$V = £100,000 \times 1.0247301 - £100,000$$

$$V = \mathbf{£2,473.01}$$

$$P + V = 100,000 + 2,473.01 = \mathbf{£102,473.01}$$

\* Bold values represent what will change in the VOP calculation for each fixed year.

Therefore, the fixed price for year 4 of the contract would be £102,473.01. To calculate the fixed prices for the remaining years, follow the same steps, but replace the value for  $O_i$  with the corresponding index value for that year.

As stated in the contract.

## **Annex D to Schedule 2 - TAF Process**

### **The Tasking Process**

1. The Tasking process is a 4 Part process:
  - Part 1 Requirement Definition.
  - Part 2 Proposal.
  - Part 3 Acceptance.
  - Part 4 Completion.
2. The need for a Contractual Task will be initiated by the requirement for a piece of work that is within the original scope, but outside of the existing activity and deliverables of the contract.

### **Completing the Tasking Form.**

#### **Part 1 – Requirement Definition**

3. The Tasking process shall be initiated by the submission of a Task Authorisation Form (TAF), As per the TAF Template at Appendix 1 to Annex D. The Task must be signed by the Authorised Representative of the Authority.
4. The TAF should be designated a “TAF Number” and given a meaningful title. It should contain a detailed description of the work that is required. All details of the requirement should be captured, including key deliverables, acceptance criteria, required-by / completion dates (IOC, FOC etc.), packaging and delivery considerations.
5. There is space within the TAF Part 1 to set out the specific requirements, and standards or terms and conditions that will apply to the TAF. It can be indicated when specific DEFCONS or Terms will apply to a task.
6. The inclusion of any added terms or conditions into the TAF that are not already provided for in the overarching contract would require a formal Contract Amendment subject to the applicable regulations.
7. Once signed off by the Authority, the TAF Part 1 is sent to the Contractor.

8. The TAF Register at Appendix 2 to Annex D should be updated at the issue of every Tasking order to reflect the latest TAF's description, value, and other essential information.

## **Part 2 – Proposal**

9. The Contractor will then submit a priced Proposal in accordance with the timescales established in the contract (or otherwise agreed) by returning a completed Part 2 of the TAF.
10. Within Part 2 of the TAF Template there are three sections which the Contractor must populate as part of its proposal return:
  - a. **Section a. “Proposed Solution.”** The Solution box should include a thorough description covering all required deliverables. Depending on the nature of the work, this may include a lengthy, complex specification detailing the exact activities to be undertaken (this box may be used to reference a formal attachment submitted alongside the TAF Part 2). This is also the section in which the Contractor has the opportunity to propose its Government Furnished Assets (GFA) requirements, Intellectual Property (IP) considerations, and assumptions, exclusions, and dependencies (AED). Any Assets subject to special control (ASSC) i.e., export / ITAR implications should be detailed here.
  - b. **Section b. “Price and Payment.”** This is where the Contractor shall price the Task, and, where applicable, populate a payment plan. This section also references an attached price breakdown, which will be project-specific and may include labour and materials costs, travel, and subsistence (T&S) costs.
  - c. **Section c. “Completion Date.”** This is where the Contractor confirms the completion date for the Task, validity date of the proposal (which should be in accordance with the over arching contract clauses of the contract unless otherwise agreed), and signature for sign-off by the Contractor's Authorised representative.
11. Upon receipt of the Contractor's proposal, the Authority must evaluate the proposal to ensure it is commercially and technically sound and will deliver what is being asked for in *Part 1 – Requirement*.

## **Part 3 – Approvals and Acceptance**

12. The agreed value of the TAF should be recorded on the TAF register. (And where applicable the remaining balance of any utilised Limit of Liability).
13. As a minimum the three delivery functions of the Authority (PM/OM, Finance and Commercial) shall populate their relevant sign-off sections within *Part 3*

– *Authority Approvals* and the Commercial Officer should ensure the latest agreed payment plan is cited, along with the CP&F Purchase Order Number and SoW line item.

14. The signed TAF is then sent to the Contractor, authorising the work.

#### **Part 4 – Task Completion**

15. Part 4 of the TAF Template (*Task Completion*) is reserved for signing upon delivery of the requirement. On completion of all work required under the TAF, the Contractor will populate and sign *Part 4Section a*. The Authority will then commit due diligence to ensure that all goods / services have in fact been delivered / completed in accordance with the acceptance criteria and timescales established in the agreed TAF.
16. Once all elements of the task have been completed satisfactorily, the Authority's authorised representative can the sign *Part 4 Section b*. to confirm the Task has been completed and to authorise the payment in accordance with the terms of the contract and TAF.

## **UK OFFICIAL AND UK OFFICIAL-SENSITIVE CONTRACTUAL SECURITY CONDITIONS**

### **Purpose**

1. This document provides guidance for Defence Suppliers where classified material provided to or generated by the Defence Supplier is graded UK OFFICIAL or UK OFFICIAL-SENSITIVE. Where the measures requested below cannot be achieved or are not fully understood, further advice should be sought from the UK Designated Security Authority (Email: [COO-DSR-IIPCSy@mod.gov.uk](mailto:COO-DSR-IIPCSy@mod.gov.uk)).

### **Definitions**

2. The term "Authority" for the purposes of this Annex means the UK MOD Contracting Authority.
3. The term "Classified Material" for the purposes of this Annex means classified information and assets.

### **Security Grading**

4. The SENSITIVE marking is used to denote UK OFFICIAL material that is of a particular sensitivity and where there is a need to reinforce the 'need to know'. The Security Aspects Letter, issued by the Authority shall define the UK OFFICIAL-SENSITIVE material that is provided to the Defence Supplier, or which is to be developed by it, under this Contract. The Defence Supplier shall mark all UK OFFICIAL-SENSITIVE documents which it originates or copies during the Contract with the applicable security grading. The Defence Supplier is not required to mark documents graded UK OFFICIAL unless they are transmitted overseas or generated by a Defence Supplier based outside the UK in a third-party country.

### **Security Conditions**

5. The Defence Supplier shall take all reasonable steps to adhere to the provisions specified in the Contract or listed in this Annex. The Defence Supplier shall make sure that all individuals employed on any work in connection with the Contract have notice that these provisions apply to them and shall continue so to apply after the completion or earlier termination of the Contract.
6. Where a Defence Supplier is based outside the UK in a third-party country the national rules and regulations of the third-party country take precedence over these conditions only if the third-party country has an extant bilateral security agreement or arrangement with the UK.
7. The Authority shall state the data retention periods to allow the Defence Supplier to produce a data management policy.
8. If you are a Defence Supplier located in the UK, your attention is also drawn to the provisions of the Official Secrets Act 1989 and the National Security Act 2023.

### **Protection of UK OFFICIAL and UK OFFICIAL-SENSITIVE Classified Material**

9. The Defence Supplier shall protect UK OFFICIAL and UK OFFICIAL-SENSITIVE material provided to or generated by it in accordance with the requirements detailed in this Security Condition and any other conditions that may be specified by the Authority. The Defence Supplier shall take all reasonable steps to prevent the loss or compromise of classified material whether accidentally or from deliberate or opportunist attack.

10. Once the Contract has been awarded, where the Defence Supplier is required to store or process UK MOD classified information electronically, they shall comply with the requirements specified in ISNs, Defence Condition 658 and Defence Standard 05-138. Details can be found at the links below:

<https://www.gov.uk/government/publications/industry-security-notices-isns>.

<https://www.dstan.mod.uk/toolset/05/138/000004000.pdf>

<https://www.gov.uk/government/publications/defence-condition-658-cyber-flow-down>

11. All UK classified material including documents, media and other assets shall be physically secured to prevent unauthorised access. When not in use UK classified material shall be handled with care to prevent loss or inappropriate access. As a minimum UK OFFICIAL-SENSITIVE material shall be stored under lock and key and shall be placed in a lockable room, cabinets, drawers or safe and the keys/combinations shall be controlled.

12. Disclosure of UK classified material shall be strictly controlled in accordance with the *"need to know"* principle. Except with the written consent of the Authority, the Defence Supplier shall not disclose the Contract or any provision thereof to any person other than to a person directly employed by the Defence Supplier or Subcontractor.

13. Except with the consent in writing of the Authority the Defence Supplier shall not make use of the Contract or any classified material issued or provided by or on behalf of the Authority otherwise than for the purpose of the Contract, and, same as provided for in paragraph 9 above, the Defence Supplier shall not make use of any article or part thereof similar to the articles for any other purpose.

14. Subject to any intellectual property rights of third parties, nothing in this Security Condition shall restrict the Defence Supplier from using any specifications, plans, drawings and other documents generated outside of this Contract.

15. Any samples, patterns, specifications, plans, drawings or any other documents issued by or on behalf of the Authority for the purposes of the Contract remain the property of the Authority and shall be returned on completion of the Contract or, if directed by the Authority, destroyed in accordance with paragraph 37.

### **Access**

16. Access to UK classified material shall be confined to those individuals who have a *"need-to-know"*, have been made aware of the requirement to protect the material and whose access is essential for the purpose of their duties.

17. The Defence Supplier shall ensure that all individuals requiring access to UK OFFICIAL and UK OFFICIAL-SENSITIVE material have undergone basic recruitment checks. This should include establishing proof of identity; confirming that they satisfy all

legal requirements for employment by the Defence Supplier; and verification of their employment record. Criminal record checks should also be undertaken where permissible under national/local laws and regulations. This is in keeping with the core principles set out in the UK Government (HMG) Baseline Personnel Security Standard (BPSS) which can be found at:

<https://www.gov.uk/government/publications/government-baseline-personnel-security-standard>

### **Hard Copy Distribution**

18. UK OFFICIAL and UK OFFICIAL-SENSITIVE documents may be distributed internally and externally of Defence Supplier premises. To maintain confidentiality, integrity and availability, distribution shall be controlled such that access to documents is only by authorised personnel. They may be sent by ordinary post in a single envelope. The words UK OFFICIAL or UK OFFICIAL-SENSITIVE must not appear on the envelope. The envelope must bear a stamp or marking that clearly indicates the full address of the office from which it was sent. Commercial Couriers may be used.

19. Advice on the distribution of UK OFFICIAL-SENSITIVE documents abroad or any other general advice including the distribution of UK OFFICIAL-SENSITIVE shall be sought from the Authority.

### **Electronic Communication and Telephony and Facsimile Services**

20. UK OFFICIAL information may be emailed unencrypted over the internet. UK OFFICIAL-SENSITIVE information shall normally only be transmitted over the internet encrypted using either a National Cyber Security Centre (NCSC) Commercial Product Assurance (CPA) cryptographic product or a UK MOD approved cryptographic technique such as Transmission Layer Security (TLS). In the case of TLS both the sender and recipient organisations must have TLS enabled. Details of the required TLS implementation and CPA scheme are available at:

<https://www.ncsc.gov.uk/guidance/tls-external-facing-services>

<https://www.ncsc.gov.uk/scheme/commercial-product-assurance-cpa>

21. Exceptionally, in urgent cases UK OFFICIAL-SENSITIVE information may be emailed unencrypted over the internet where there is a strong business need to do so, but only with the prior approval of the Authority. However, it shall only be sent when it is known that the recipient has been made aware of and can comply with the requirements of these Security Conditions and subject to any explicit limitations that the Authority require. Such limitations including any regarding publication, further circulation or other handling instructions shall be clearly identified in the email sent with the information.

22. UK OFFICIAL and UK OFFICIAL-SENSITIVE information may be discussed verbally on corporate telephones and other corporate electronic devices with persons located both within the country of the Defence Supplier and overseas. UK OFFICIAL-SENSITIVE information should only be discussed where there is a strong business need to do so.

23. UK OFFICIAL information may be faxed to recipients located both within the country of the Defence Supplier and overseas, however UK OFFICIAL-SENSITIVE information may be transmitted only where there is a strong business case to do so and only with the prior approval of the Authority.

### **Use of Information Systems**

24. The detailed functions that must be provided by an IT system to satisfy the minimum requirements cannot all be described here in specific detail; it is for the implementers to identify possible means of attack and ensure proportionate security mitigations are applied to prevent a successful attack.

25. The Defence Supplier should ensure **10 Steps to Cyber Security** (Link below) is applied in a proportionate manner for each IT and communications system storing, processing or generating UK OFFICIAL or UK OFFICIAL-SENSITIVE information.

<https://www.ncsc.gov.uk/guidance/10-steps-cyber-security>

26. As a general rule, any communication path between an unauthorised user and the data can be used to carry out an attack on the system or be used to compromise or ex-filtrate data. Within the framework of the 10 Steps to Cyber Security, the following describes the minimum security requirements for processing and accessing UK OFFICIAL and UK OFFICIAL-SENSITIVE information on IT systems.

a. Access. Physical access to all hardware elements of the IT system is to be strictly controlled. The principle of “*least privilege*” will be applied to System Administrators. Users of the IT System (Administrators) should not conduct ‘standard’ User functions using their privileged accounts.

b. Identification and Authentication (ID&A). All systems are to have the following functionality:

(1) Up-to-date lists of authorised users.

(2) Positive identification of all users at the start of each processing session

c. Passwords. Passwords are part of most ID&A security measures. Passwords are to be “strong” using an appropriate method to achieve this, e.g., including numeric and “special” characters (if permitted by the system) as well as alphabetic characters.

d. Internal Access Control. All systems are to have internal Access Controls to prevent unauthorised users from accessing or modifying the data.\_

e. Data Transmission. Unless the Authority authorises otherwise, UK OFFICIAL-SENSITIVE information may only be transmitted or accessed electronically (e.g., point to point computer links) via a public network like the Internet, using a CPA product or equivalent as described in paragraph 20 above.

f. Security Accounting and Audit. Security relevant events fall into two categories, namely legitimate events and violations.

(1) The following events shall always be recorded:

- (a) All log on attempts whether successful or failed,
- (b) Log off (including time out where applicable),
- (c) The creation, deletion or alteration of access rights and privileges,
- (d) The creation, deletion or alteration of passwords.

(2) For each of the events listed above, the following information is to be recorded:

- (a) Type of event,
- (b) User ID,
- (c) Date & Time,
- (d) Device ID.

(3) The accounting records are to have a facility to provide the System Manager with a hard copy of all or selected activity. There also must be a facility for the records to be printed in an easily readable form. All security records are to be inaccessible to users without a need to know. If the operating system is unable to provide this, then the equipment must be protected by physical means when not in use i.e., locked away or the hard drive removed and locked away.

g. Integrity & Availability. The following supporting measures are to be implemented:

- (1) Provide general protection against normally foreseeable accidents/mishaps and known recurrent problems (e.g., viruses and power supply variations),
- (2) Defined Business Contingency Plan,
- (3) Data backup with local storage,
- (4) Anti-Virus Software (Implementation, with updates, of an acceptable industry standard Anti-virus software),
- (5) Operating systems, applications and firmware should be supported,
- (6) Patching of Operating Systems and Applications used are to be in line with the manufacturers recommended schedule. If patches cannot be applied an understanding of the resulting risk will be documented.

h. Logon Banners. Wherever possible, a "Logon Banner" will be provided to summarise the requirements for access to a system which may be needed to institute legal action in case of any breach occurring. A suggested format for the text (depending on national legal requirements) could be: *"Unauthorised access to this computer system may constitute a criminal offence"*.

i. Unattended Terminals. Users are to be automatically logged off the system if their terminals have been inactive for some predetermined period of time, or

systems must activate a password protected screen saver after 15 minutes of inactivity, to prevent an attacker making use of an unattended terminal.

j. Internet Connections. Computer systems must not be connected direct to the Internet or “un-trusted” systems unless protected by a firewall (a software based personal firewall is the minimum, but risk assessment and management must be used to identify whether this is sufficient).

k. Disposal. Before IT storage media (e.g., disks) are disposed of, an erasure product must be used to overwrite the data. This is a more thorough process than deletion of files, which does not remove the data.

### **Portable Electronic Devices**

27. Portable Electronic Devices holding any UK OFFICIAL-SENSITIVE information shall be encrypted using a CPA product or equivalent as described in paragraph 20 above.

28. Unencrypted Portable Electronic Device and drives containing personal data are not to be taken outside of secure sites<sup>1</sup>. For the avoidance of doubt the term “drives” includes all removable, recordable media e.g., memory sticks, compact flash, recordable optical media (CDs and DVDs), floppy discs and external hard drives.

29. Any token, touch memory device or password(s) associated with the encryption package is to be kept separate from the machine whenever the machine is not in use, left unattended or in transit.

30. Portable Electronic Devices holding the Authorities’ data are not to be left unattended in any public location. They are not to be left unattended in any motor vehicles either in view or in the boot or luggage compartment at any time. When the vehicle is being driven the Portable Electronic Device is to be secured out of sight in the glove compartment, boot or luggage compartment as appropriate to deter opportunist theft.

### **Loss and Incident Reporting**

31. The Defence Supplier shall immediately report any loss or otherwise compromise of any Defence Related Classified Material to the Authority. The term Defence Related Classified Material includes any information or asset that has been given a security classification by the UK MOD. The term also includes classified information and assets held by UK Defence Suppliers which are owned by a third party e.g., NATO or another country for which the UK MOD is responsible.

32. In addition, any loss or otherwise compromise of Defence Related Classified Material is to be immediately reported to the UK MOD Defence Industry Warning, Advice and Reporting Point (WARP). This will assist the UK MOD in formulating a formal information security reporting process and the management of any associated risks, impact analysis and upward reporting to the UK MOD’s Chief Information Officer (CIO) and, as appropriate, the Defence Supplier concerned. The UK MOD Defence Industry

---

<sup>1</sup> Secure Sites are defined as either Government premises or a secured office on the Defence Supplier premises.

WARP will also advise the Defence Supplier what further action is required to be undertaken.

33. Reporting instructions for any security incidents involving Defence Related Classified Material can be found in the Incident Reporting Industry Security Notice at:

<https://www.gov.uk/government/publications/industry-security-notices-isns>

**Subcontracts**

34. Where the Defence Supplier wishes to subcontract any elements of a Contract to Subcontractors within its own country or to Subcontractors located in the UK such subcontracts will be notified to the Authority. The Defence Supplier shall ensure that these Security Conditions are incorporated within the subcontract document.

35. The prior approval of the Authority shall be obtained should the Defence Supplier wish to subcontract any UK OFFICIAL-SENSITIVE elements of the Contract to a Subcontractor facility located in another (third party) country. The first page of MOD Form 1686 (F1686) is to be used for seeking such approval. The MOD Form 1686 can be found in the "Subcontracting or Collaborating on Classified MOD Programmes ISN" at the link below:

<https://www.gov.uk/government/publications/industry-security-notices-isns>

36. If the subcontract is approved, the Defence Supplier shall flow down the Security Conditions in line with paragraph 34 above to the Subcontractor. Defence Suppliers located overseas may seek further advice and/or assistance from the Authority with regards the completion of F1686.

**Physical Destruction**

37. As soon as no longer required, UK OFFICIAL and UK OFFICIAL-SENSITIVE material shall be destroyed in such a way as to make reconstitution very difficult or impossible, for example, by burning, shredding or tearing into small pieces. Advice shall be sought from the Authority when the classified material cannot be destroyed or, unless already authorised by the Authority, when its retention is considered by the Defence Supplier to be necessary or desirable. Unwanted UK OFFICIAL-SENSITIVE classified material which cannot be destroyed in such a way shall be returned to the Authority.

**Private Venture Activities**

38. Private Venture (PV) funded (i.e., non-MOD funded) defence related projects and technology fall within one of the following three categories:

- a. Variants. Variants of standard defence equipment under research, development or in production, e.g., aircraft, military vehicles or ships, etc. with non-standard equipment or fitments, offered to meet special customer requirements or to avoid security or commercial difficulties associated with the sale of an item in-Service with UK Armed Forces.
- b. Derivatives. Equipment for military or civil use that is not based on standard Service designs but is dependent upon expertise or technology acquired in the course of defence contracts.
- c. Freelance. Equipment of defence importance that is in no way based on information gained from defence contracts.

39. UK Defence Suppliers shall ensure that any PV activity that falls into one of the above categories has been formally security graded by the MOD Directorate of Security and Resilience. Please see PV guidance on the following website further information: <https://www.gov.uk/government/publications/private-venture-pv-grading-and-exhibition-clearance-information-sheets>

### **Publicity Material**

40. Defence Suppliers wishing to release any publicity material or display assets that arises from a Contract to which these Security Conditions apply must seek the prior approval of the Authority. Publicity material includes open publication in the Defence Supplier's publicity literature or website or through the media; displays at exhibitions in any country; lectures or symposia; scientific or technical papers, or any other occasion where members of the general public may have access to the information even if organised or sponsored by the UK Government.

41. For UK Defence Suppliers where the exhibition assets relate to multiple Delivery Teams or for Private Venture defence related classified material where there is no defined Delivery Team, the Defence Supplier shall request clearance for exhibition from the Directorate of Security and Resilience. See the MOD Exhibition Guidance on the following website for further information:

<https://www.gov.uk/government/publications/private-venture-pv-grading-and-exhibition-clearance-information-sheets>

### **Export sales/promotion**

42. The Form 680 (F680) security procedure enables MOD to control when, how, and if defence related classified material is released by UK Defence Suppliers to foreign entities for the purposes of promotion or sales of equipment or services. Before undertaking any targeted promotion or demonstration or entering into any contractual commitments involving the sale or release of defence equipment, information or technology classified UK OFFICIAL-SENSITIVE or above to a foreign entity, a UK Defence Supplier shall obtain F680 approval from the Export Control Joint Unit (ECJU) MOD Team. This includes assets classified UK OFFICIAL-SENSITIVE or above either developed to meet a UK MOD requirement or Private Venture (PV) equipment, as formally advised in a Security Aspects Letter (SAL) issued by the relevant Authority, or

PV Security Grading issued by the MOD Directorate of Security and Resilience. Guidance regarding the F680 procedure can be found at:

<https://www.gov.uk/government/publications/ministry-of-defence-form-680-procedure-guidance>

43. If a Defence Supplier has received an approval to subcontract, under an MOD Form 1686 (F1686), for development/production of parts of an equipment, that approval also permits the production of additional quantities for supply to an export customer, when the Defence Supplier has MOD Form 680 approval for supply of the complete equipment, as long as:

- a. they are identical, except for component obsolescence, to items produced under the UK programme that the approval to subcontract relates to; and
- b. no additional OFFICIAL-SENSITIVE or above material is required to be released to the overseas Subcontractor.

### **Interpretation/Guidance**

44. Advice regarding the interpretation of the above requirements should be sought from the Authority.

45. Further requirements, advice and guidance for the protection of UK classified material at the level of UK OFFICIAL and UK OFFICIAL-SENSITIVE may be found in Industry Security Notices at:

<https://www.gov.uk/government/publications/industry-security-notices-isns>

### **Audit**

46. Where considered necessary by the Authority the Defence Supplier shall provide evidence of compliance with this Security Condition and/or permit the inspection of the Defence Supplier's processes and facilities by representatives of the Defence Supplier's National/Designated Security Authorities or the Authority to ensure compliance with these requirements.
