

TCN SCHEDULE 4.5

NOTIFIED SUB-CONTRACTORS

Notified Sub-Contractors

Sub-contractor Name	Registered office and company number	Scope of Sub-contractor's services (what elements of DVSA's requirements will they be delivering)
Redacted	Redacted	Provider of our CCTV equipment. Installation and ongoing maintenance and replacement of any faulty equipment. They will not process CCTV data
Redacted	Redacted	IT managed service and hardware provider who will provide all hardware for go-live and ensure hardware is refreshed on a cyclical basis (or more regularly according to need), as well as end user computing and server management. They will provide replacement hardware in the event of any failure and therefore will support Reed in meeting DVSA KPIs
Redacted	Redacted	Our national property maintenance contractor. Will undertake any required repairs to a Test Centre during delivery that do not fall under landlord purview. Will be one of several contractors used for reactive maintenance e.g. plumbing, electrics or other maintenance issues
Redacted	Redacted	Provide the premises for our Reed owned and managed back up data centre via a co-location arrangement. They provide space, power, cooling, and physical security for the server, storage, and networking equipment, but have no access to Reed or Authority data at any time
Redacted	Redacted	Reed's Telecoms partner responsible for installation & maintenance of network lines
