	<p>Out of Core Office Hours:</p> <p>Use of the out of hours critical support service shall be governed as follows:</p> <ol style="list-style-type: none"> 1. The service shall be available at all times outside of the core support hours defined in this SLA, which are Monday to Friday, 0900hrs to 1700hrs, excluding English Bank holidays. 2. The service is strictly limited to priority 1 incidents. A priority 1 incident is an outage or severe degradation of the service, or an incident that is likely to cause severe financial and/or reputational damage. 3. This is strictly an Incident Management service, i.e. restoring normal service in the event of an outage or degradation. 4. There will be an allowance of REDACTED with the out of hours service over a 12-month period. Any call to the out of hours service shall be counted as an invocation, unless CDS accept any reasoning it should not be. 5. The number of invocations/tickets per month is flexible, provided that, over the course of 12-months, they do not exceed REDACTED in total. 6. Out of hours tickets shall be reviewed on a quarterly basis to determine usage/performance of the service. 7. If the allocation of REDACTED is not used within 12-months, there shall be no refund or carry-over; however, CDS and the customer shall review whether the allowance should be decreased (or increased) going forwards. 8. The customer should raise a priority 1 ticket as normal before invoking the out of hours critical support service; however, CDS will instruct the call handling service to query whether a ticket has been raised, and if not, they will raise one on your behalf. It is important that the general ticketing rules are observed within the context of this service, as CDS rely on the ticket lifecycle to measure the usage and performance of the support service. 9. The service shall be paid for monthly in advance. 10. Any priority 1 tickets raised, and accepted, shall be treated in accordance with this SLA. The sole exception shall be that the target resolution time (for priority 1 incidents) of two-hours shall only apply within core support hours. Suspending this measurement outside of core service hours is not intended to set an expectation that the service shall be slower, rather it is to reflect that there is likely to be a delay in CDS starting work on any such incident raised, while the on-call resource reaches a workstation and connects remotely. 11. General exclusions apply in that, should the root cause be deemed to lie outside of CDS' control, any support activities accepted by CDS shall be conducted on a best-efforts basis only. <p>If in the event that the ResilienceDirect team require additional out of hours infrastructure support, then this will be charged at a flat rate of REDACTED per day</p>
