

PRELIMINARIES**M1 GENERAL**

It is deemed that the Main Contractor will have allowed for and included in the tender / quote / estimate; the cost of complying with all the requirements / works set out within the Preliminaries.....

M2 OCCUPIED PROPERTY

Where the property is occupied during the progress of the works and the Employer furniture and effects remain in situ. The Main Contractor must make himself fully aware of the extent and location of the contents of the property before submitting his tender/quote/estimate. The Main Contractor will take care to protect the contents of the property during works progress, by providing and using suitable covers and dust sheets. The main contractor will be responsible for carefully moving any furniture and effects to enable work to be carry out. The Main Contractor may make an allowance for these requirements, fixed at the time of tender/quote/estimate.

M3 EXISTING FIXTURES AND FITTINGS

The Main Contractor shall carefully remove all fixtures and fittings, to enable the works to be carried out. Such items shall be stored in a suitable environment for the duration of the work and refitted to the original condition. (subject to agreement with the Employer / Contract Administrator (JCT))

M4 MAINTAINING EMPLOYERS TEMPORARY SERVICES

The Main Contractor is to ensure that the Employer / , Contract Administrator (JCT) where required, has access within the property to adequate services at all time. (i.e. temporary HW/CW supplies, sanitation, toilets, heating and cooking facilities are to be provided and maintained). The exact nature of the temporary supplies/services are to be agreed with the Employers Contract / Administrator (JCT) prior to commencement of the work.....

No services are to be out of action or disconnected for more than four hours without prior written agreement with the Employer / Contract Administrator (JCT)

~~M5 THE PARTY WALL ACT 1996~~

~~The Employer must satisfy the requirements of the Party Wall Act 1996, (where applicable) and provide written evidence of such compliance to the Main Contractor prior to the work commencing.~~

M6 BUILDING REGULATIONS

The Employer / Contract Administrator (JCT) will supply the Main Contractor with a copy of the Full Plans Approval Notice prior to commencement.

The Main Contractor shall arrange for the inspection of any works; (and fund the site inspection costs) as required by the Local Authority Building Control Department. The Main Contractor shall notify the Employer of any decisions made by the Building Control Officer and their effect on the works.

The Main Contractor is to record the dates of the Local Authority Building Control Department site visits and the name of the Building Control Office plus any comments made..

~~M7 PLANNING PERMISSION~~

~~The Employer / Contract Administrator (JCT) will supply the Main Contractor with a copy of the relevant Planning Approval Notice prior to commencement.~~

~~The Main Contractor shall ensure that all conditions contained within the Planning Approval notice are adhered to, except by prior agreement with the Employer / Contract Administrator (JCT)~~

TENDER / QUOTES / ESTIMATES

M8

SITE EXAMINATION

Arrangements for access to be made through the Employer pre tender / quote. The Main Contractor shall be held to have inspected the site and have considered all location conditions, including means of access for vehicles and plant, accommodation for materials, plant (skips & containers) works people, power supply etc.

No claims for additional payments will be entertained for claims arising from the difficulties which inspection or inquiry would have revealed.

M9

TENDERS/QUOTES/ESTIMATES

The Employer does not bind himself to accept the lowest tender / quote / estimate that is submitted for the work. Tenders / quote / estimate will be evaluated to determine which tender represents the "Best Value" to the Employer.

The Employer is not responsible for any costs incurred by the Main Contractors in the preparation of the tender/quotes/estimates.

M10

TENDER

Tender/Quote/Estimates are to remain open for a period of ten weeks, from the date fixed in the submission.

M11

VAT

All tender figures / invoices / final accounts to show the assessment of VAT in a separate format.

M12

PRICED SPECIFICATION

The Main Contractor will be required to submit a priced specification within five working days of the acceptance of the Tender/Quote/Estimate by the Employer / Contract Administrator (JCT)

M13

PRICING

Drawings, notes, specification and information as supplied are to be read in conjunction with each other. Any discrepancy, ambiguity or query is to be referred to the Employer/Designer/, Contract Administrator (JCT) in writing four working days before submission of tender/quotes/estimation. Any subsequent discrepancy reported will normally be interpreted as most favourable to the Employer. The drawings, notes, specification and information will form part of the contract made between the Main Contractor and the Employer. No alterations or qualifications of any kind is to be made by the Main Contractor to the text without the written authority of the Employer

M14

PRICE INCLUSIONS

The Main Contractors price shall be deemed to include all work specified in this document/drawings and **all work** reasonably required to complete the project

CARRYING OUT THE WORKS

M15

POSSESSION

Possession of the site or the order to commence work shall be given in line with the tender documents and confirmed in writing by the Employer / Contract Administrator (JCT) .. The Main Contractor shall then commence the execution of the works and shall proceed with due diligence so that the whole of the works shall be completed by the date for completion as set out in the tender documents to the satisfaction of the Employer / Contract Administrator (JCT)

M16

CONTRACT PERIOD

The contract period for the work will be that as set out in the appointment letter /tender documents , sent by the Employer / Contract Administrator (JCT) to the Main Contractor. The contract period will be adhered to at all times.

M17	<u>CO-ORDINATION OF THE WORKS / PROGRAMME</u>
	<p>The Main Contractor is to confirm with the Employer / Contract Administrator (JCT) in writing, an agreed programme for the works, itemising the proposed stages of construction by trade and action, and the daily working hours., within a week of tenders being accepted</p> <p>The Main Contractor is to confirm that he has all the necessary information in place to complete the works prior to commencement.</p> <p>If additional information is required then the Main Contractor is to issue written "Requests for Information" recording the date by which additional information is required..</p> <p>The Main Contractor is to provide the Employer / Contract Administrator (JCT) with the name and contact telephone number (24 hours access) of the Main Contractors representative.....The Main Contractor is to co-ordinate the work in such a way as to avoid unproductive time resulting from unforeseen circumstance, i.e. third party delays, No claims for additional payments will entertained for lost time in these circumstances.</p>
M18	<u>MONITORING</u>
	<p>The Main Contractor is to supply the Employer / Contract Administrator (JCT) with weekly updates on progress highlighting on a daily basis progress against the programme</p>
M19	<u>EXTENSION OF TIME</u>
	<p>Any application for an extension of time to the agreed contract period must be made in writing by the Main Contractor to the Employer / Contract Administrator (JCT) . The Employer / Contract Administrator (JCT) will then determine if such an extension of time is to be granted (delay resulting from delayed weather conditions need to be supported by a diary recording the daily weather agreed by both parties).</p> <p>Application for extension of time to agreed contract period need to be made at the time of the delay..... Not at completion,</p>
M20	<u>SITE MEETING</u>
	<p>The Employer /, Contract Administrator (JCT) and the Main Contractor are to have a "minuted " inaugural site meeting before commencement of work.</p> <p>The Employer /, Contract Administrator (JCT) and the Main Contractor are to have formal meetings at weekly intervals to "minute" progress during the duration of the work...</p> <p>The site meeting to include from the Main Contractors</p> <ul style="list-style-type: none"> i) A progress statement / report by reference to the main contract programme ii) Details of matters likely to affect progress iii) Sub-contractors and suppliers progress report iv) Update on contractual obligations v) Confirmation of information received vi) Confirmation of information required and a timetable cross referenced to the contract programme
M21	<u>SERVICES</u>
	<p>The Main Contractor shall locate all services including pipes/ducts/drains/services/cables/overhead fixtures within the vicinity of the works.</p> <p>Those services which are not included/affected directly by the works shall be adequately protected throughout the duration of the works.</p>
M22	<u>PROGRESS</u>
	<p>The Main Contractor is to carry out the work in a regular and diligent fashion. Working hours on the site are to be 8.00am to 5.30 pm Monday to Friday (on Business Days) unless otherwise agreed</p> <p>Business Day exclude Saturdays and Sundays and Public Holidays</p>

M23 SETTING OUT

The Main Contractor must obtain sufficient information from the drawings, notes, specification, and information supplied to enable the Main Contractor to set the site and levels for the works. Figured dimensions to be preferred to scaled dimensions. No dimensions provided on the drawings shall excuse the Main Contractor from checking by site dimensions and clarifying discrepancy with the Employer / Contract Administrator (JCT).

The Main Contractor shall be responsible for all Sub-Contractors and Specialists dimensions being checked on site. The Main Contractor is responsible for confirming and co-ordinating with the Sub-Contractor the location of all ducts, chases etc. that are required.

M24 CONSTRUCTION DRAWING

Prior to commencement of the work the Employer / Contract Administrator (JCT) is to supply the Main Contractor a complete set of the construction drawings / specifications etc. both in hardcopy form and electric form.. The Employer / Contract Administrator (JCT) and the Main Contractor are to maintain a live drawing issue sheet/log throughout the works..

The Copyright of all tender and Contract Documents shall remain vested with the Employer..

M25 WORKMANSHIP

All works to be carried out in strict accordance with current Code of Practices, and manufacture recommendation and instructions. The Main Contractor is to ensure that all copies of relevant literature is available on site at all times.

At the end of each day the contractor is to leave the site in a clean and tidy condition.

M26 ENERGY RATING CALCULATIONS

~~Where applicable the Main Contractor is to record during construction on printed pro forma's compliance with Accredited Construction Details (ACD) and and Enhanced Construction Details (ECDs) and provide photographic evidence to support compliance~~

M27 AIR TESTING

~~Where applicable the Main Contractor is to undertake air tightness testing, also known as air leakage testing or air permeability testing, to establish the rate at which air leaks out of a building.... as per the Building Regulation Part L. Air Tightness Testing is to be undertaken by UKAS accredited company and certificates registered with ATTMA, copies to Employer / Contract Administrator (JCT)~~

M28 GENERAL MATERIAL

All goods and material will be used in accordance with the appropriate current British Standards, Codes of Practice and to be approved by the Employer / Contract Administrator (JCT)

Irrespective of any further particular detailed description within the specification, all materials to be of good quality of their respective type. Any rejected materials are to be removed from site.....(further descriptive clauses are given as an amplification of specific types of material etc. but in any case of apparent lack of information GOOD QUALITY materials appropriate to the purpose must be used)

M29 SUBSTITUTE MATERIALS

Substitute materials will not be allowed. If a material, goods or service specified is no longer available, then a substitute can be used..... providing the materials, goods, or service is equal

to, or better than, the material originally specified. The Employer must be satisfied that the substitute is equivalent in quality, reliability, function, and compatibility

The Main Contractor is to provide samples, and all relevant technical literature, British Standards, Codes of Practice to support the substitution. To the Employer / Contract Administrator (JCT)

M30 **TESTING MATERIAL**

The Main Contractor is to undertake site "Testing of Materials" as directed by the Employer / Contract Administrator (JCT) , the relevant British Standards and Codes of Practice.....and provide written records of the results

M31 **DEFECTIVE WORK**

Any defect in materials and or workmanship that may become apparent during the contract period shall be rectified to the satisfaction of the Employer / Contract Administrator (JCT) by the Main Contractor at the Main Contractor own expense.

M32 **NAME BOARDS**

The erecting of name boards is permitted on site by the Main Contractor and the Sub-Contractors.. in approved positions and form, ... subject to the required consents. Advertisements are not permitted

M33 **PLANT, SCAFFOLDING, PROTECTION ETC.**

The Main Contractor will allow for all necessary power, transport, plant , tools, scaffolding, ladders, step ladders, trestles, and other temporary constructions and equipment, which shall be sufficient to carry out the work in the drawings, notes, specifications and information, and to provide good access for all trades and comply with accepted safety standards..

The Main Contractor will provide all necessary temporary lighting required to undertake and complete the works

M34 **USE OF PERMANENT HEATING SYSTEMS**

The Main Contractor may use for "drying out" the works the permanent heating installation where appropriate subject to

- i) Taking responsibility for the operation, maintenance and remedial works associated with the operation.
- ii) Arranging supervision by and indemnification of, the appropriate sub-contractors
- iii) Pay any costs associated with the operation..

M35 **NOISE AND DISTURBANCE**

The Main Contractor and sub-contractors shall carry out the works in accordance with BS5288; parts 1 & 2 to minimise noise, vibration and disturbance to satisfy the requirements of section 60 of the Control of Pollution Act 1974. the Main Contractor is to inform the Employer / Contract Administrator (JCT) in advance of any work likely to cause noise and/or pollution.

M36 **POLLUTION**

The Main Contractor is to take all reasonable precautions to prevent pollution of the site and the general environment.

M37 **SITE CONDITIONS**

The Main Contractor is to ensure that the site and surroundings are maintained in a clean and tidy condition at all time.

M38 **PROTECTION OF GARDEN ENVIRONMENT**

~~The Main Contractor is to take all reasonable steps to protect the garden environment, vegetation, trees and plants not affected by the construction work. The Main Contractor is to allow for the removal of pre-agreed plants shrubs etc. by the Employer / Contract~~

~~Administrator (JCT) form affected areas, by giving two weeks' notice of the need to do so.~~

M38

TEMPORARY WORKS

Any temporary works that may be required in order to carry out the proper execution of the works or to ensure Health and Safety Requirements are met; shall be the sole responsibility of the Main Contractor and the cost shall be deemed to be included in the original tender/quote/estimate. The Main Contractor shall be responsible for the design, execution and maintenance of the temporary works and any statutory approvals, permit and liaison as may be required.

M38 a

PROTECTION OF TREES (RPA)

~~The Main Contractor is to comply with the requirements of the RTA, and to ensure that all protection measures are in place ahead of the commencement of construction and during the construction... Temporary adjustments to the protection measures during the construction period due to operational requirements are to be pre-agreed with the employer~~

~~The guidance contained within 'BS 5837 Trees in relation to design, demolition and construction' is to be followed~~

M39

TEMPORARY WATER SUPPLY

The Main Contractor will provide the necessary water supply for the works, including all temporary plumbing, if required, and pay all charges to the local Water Authority. If well water is used, permission must first be obtained. (the well to be left in clean condition and a suitable pump used. Contaminated buckets are not to be used)

M40

CARE OF THE WORK

The Main Contractor is to keep all personnel (including sub-contractors/ specialists) within the site boundary, and be responsible for the full protection of the work until completion. The Employers property outside the immediate working area to be carefully protected and any assessed damage made good.

M41

PROTECTING FROM WEATHER

The Main Contractor shall protect the work from inclement weather. No works liable to damage by the frost may be carried out during frosty weather, except with expressed written permission of the Employer.
