17.3 The Supplier shall:

17.3.1 perform its obligations under the Agreement in accordance with all applicable equality Law and the Customer's equality and diversity policy as provided to the Supplier from time to time; and

## **19 Dispute Resolution**

19.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Agreement and such efforts shall involve the escalation of the dispute to an appropriately senior representative of each Party.

19.2 If the dispute cannot be resolved by the Parties within one month of being escalated as referred to in clause 19.1, the dispute may by agreement between the Parties be referred to a neutral adviser or mediator (the “**Mediator**”) chosen by agreement between the Parties. All negotiations connected with the dispute shall be conducted in confidence and without prejudice to the rights of the Parties in any further proceedings.

19.3 If the Parties fail to appoint a Mediator within one month, or fail to enter into a written agreement resolving the dispute within one month of the Mediator being appointed, either Party may exercise any remedy it has under applicable law.

## **20 General**

20.1 Each of the Parties represents and warrants to the other that it has full capacity and authority, and all necessary consents, licences and permissions to enter into and perform its obligations under the Agreement, and that the Agreement is executed by its duly authorised representative.

- 20.2 A person who is not a party to the Agreement shall have no right to enforce any of its provisions which, expressly or by implication, confer a benefit on him, without the prior written agreement of the Parties.
- 20.3 The Agreement cannot be varied except in writing signed by a duly authorised representative of both the Parties.
- 20.4 The Agreement contains the whole agreement between the Parties and supersedes and replaces any prior written or oral agreements, representations or understandings between them. The Parties confirm that they have not entered into the Agreement on the basis of any representation that is not expressly incorporated into the Agreement. Nothing in this clause shall exclude liability for fraud or fraudulent misrepresentation.
- 20.5 Any waiver or relaxation either partly, or wholly of any of the terms and conditions of the Agreement shall be valid only if it is communicated to the other Party in writing and expressly stated to be a waiver. A waiver of any right or remedy arising from a breach of contract shall not constitute a waiver of any right or remedy arising from any other breach of the Agreement.
- 20.6 The Agreement shall not constitute or imply any partnership, joint venture, agency, fiduciary relationship or other relationship between the Parties other than the contractual relationship expressly provided for in the Agreement. Neither Party shall have, nor represent that it has, any authority to make any commitments on the other Party's behalf.
- 20.7 Except as otherwise expressly provided by the Agreement, all remedies available to either Party for breach of the Agreement (whether under the Agreement, statute or common law) are cumulative and may be exercised concurrently or separately, and the exercise of one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.
- 20.8 If any provision of the Agreement is prohibited by law or judged by a court to be unlawful, void or unenforceable, the provision shall, to the extent required, be severed from the Agreement and rendered ineffective as far as possible without modifying the remaining provisions of the Agreement, and shall not in any way affect any other circumstances of or the validity or enforcement of the Agreement.

## **Annex 3 - Specification**

This Section sets out the Authority's requirements.

### **1.0. Project Aim**

- 1.1. This project will identify which practical interventions can be made by regulators when discharging regulatory or other statutory duties to enable a significant increase in delivery of nature-based solutions that address climate (and biodiversity) impacts in England. Although this project will focus primarily on what the Marine Management Organisation (MMO) can do at scale to enable Nature-Based Solutions (NBS), a systems-based approach across all marine management, advice and policy is expected to be necessary to deliver this project. The project will be required to consider the perspective and requirements of Department for Environment Food & Rural Affairs (Defra) and government partner organisations including Environment Agency (EA), and advisors Natural England (NE) and Joint Nature Conservation Committee (JNCC).

### **2.0. Background**

- 2.1. Improving and restoring nature is our greatest ally against climate impacts. Increased application of Nature-Based Solutions (NBS) has the potential to adapt to and mitigate climate challenges, while simultaneously delivering the climate and biodiversity ambitions of the 25 year Environment Plan and UK Marine Strategy, as well as national (e.g. Climate Change Act 2008) and international commitments (e.g. Paris Agreement, UN Decade of Ecosystem Restoration, and the post-2020 global biodiversity framework, which is expected to have relevant NBS targets).
- 2.2. A diverse range of NBS solutions, applicable to the UK, can be understood from case studies, academic literature and Nationally Determined Contributions in support of the Paris Agreement. While evidence gaps remain, enough consensus exists to implement some NBS in the UK and to improve ambitions for delivery.
- 2.3. Work is required to identify where, how and when the marine regulatory system can enable and scale up NBS both within and outside the Marine Protected Area network, including through marine planning and licensing, in fisheries management and particularly in cases where trade-offs of usage or alternative intervention options exist. This project seeks to enable NBS decision making to progress and deliver outcomes at a scale that has an impact on climate change mitigation and adaptation.

### 3.0. Objectives

#### 3.1. Project objectives are to:

- i. **develop a framework for climate impacts:** Creation, refinement or adoption of a framework that categorises impacts (environmental and social) of climate change in such a way that appropriate NBS responses may be identified to address them;
- ii. **collate and organise nature-based solutions evidence:** Creation or refinement of a database of nature-based solutions applicable to UK waters that relates NBS to the climate impacts framework and includes commentary on the technical readiness level or justifying evidence of any NBS option and identification of any barriers to implementation of each solution;
- iii. **undertake spatial mapping of NBS options:** Spatial data on locations where each NBS could be applied to address the climate impacts present at a location by linking objectives i) and ii), and drawing on extensive existing information;
- iv. **develop action plans for Defra family functions:** Action plans for functions to enable NBS appropriately and effectively, while discharging regulatory and statutory duties.

### 4.0. Requirements and Support

4.1. The project is part of a wider programme of Defra-funded NBS projects. This project will likely share a steering group across projects. The steering group is expected to include representation from Defra, MMO, EA, NE, JNCC and the Marine Climate Change Impacts Partnership (MCCIP).

4.2. The project will maximise the use of existing information for example MCCIP report cards, recent evidence projects including [Identifying sites suitable for marine habitat restoration or creation {MMO1135}](#), [Mapping alternative use of dredge material in NE, NW, SE, SW {MMO1190}](#), [REMEMARE and REACH projects](#) or existing relevant NBS projects e.g. Kelp restoration ([Sussex IFCA](#)) or [Developing the evidence-base to support 'climate smart' decision-making in the marine environment: a focus on MPAs {MB0149}](#)

4.3. Developing action plans should draw together insights from earlier objectives with wider stakeholder input for the Defra family to enable NBS appropriately and effectively while discharging regulatory and statutory duties. Insights from objectives i-iii above should provide understanding of expected climate problems, evidence identifying solutions, technical readiness and implementation barriers and spatial considerations from the NBS perspective that may suggest necessary actions. Actions should be specific, measurable, achievable, relevant and time-oriented (SMART) and plans will consider the existing regulatory processes to understand how novel interventions (such as NBS) can be successfully implemented. Stakeholder participation is expected in the action planning process. This will

ensure that all Defra system views are reflected in the outputs and that differences are resolved where possible within project.

## **5.0. Outputs**

5.1. The outputs from this project will include the following:

- an inception meeting via video-conferencing with the steering group;
- an inception report as meeting minutes, recording clarifications or changes to the project details, as outlined under the project specification and contractor proposal documents and listing any resulting actions;
- twice-monthly, minuted, meetings with key project individuals to review progress against objectives, risks and forward plan;
- milestone minuted meetings with the steering group;
- draft final report(s) in MSWord completed on an MMO Style template and in plain English;
- draft spatial product(s) in an ArcGIS15.2 compatible format on an MMO-Style template with associated metadata, intermediary data products, code or models developed, INSPIRE and MEDIN compliant;
- a draft final MSOffice compatible database or workbook of NBS with user guidance and a style coherent with other products, capable of future expansion;
- final reports incorporating the comments and recommendations identified at the draft final stage;
- final supporting deliverables incorporating the comments and recommendations identified at the draft final stage;
- a close out meeting.

## **6.0. Quality Assurance**

It is essential that any evidence used in preparing the final report has been collected, processed and published with rigour and that appropriate quality assurance (QA) processes are in place, and embedded, within the contracting organisation. The Contractor will provide the MMO with relevant assurances around QA procedures and/or certifications from recognised standards providers (e.g. ISO).

All Travel and Subsistence should be in line with Defra's Travel and Subsistence Policy. Claims should always be supported by valid receipts for audit purposes and must not exceed any of the stated rates below. Should the stated rate be exceeded, Defra reserve the right to reimburse only up to the stated rate.
