Schedule 2 (Specification)

1. INTRODUCTION

Introduction

- 1.1. This Specification sets out the Department's requirements for the delivery of Initial Teacher Training and Early Career Framework (ITTECF)-based training for Early Career Teachers (ECTs) under the Framework Agreement. The Supplier provides the Services in accordance with this Specification when awarded a Call Off Contract. Where applicable, the Specification is refined to accommodate the requirements of each Call off Order.

Background and context

Initial Teacher Training and Early Career Framework-based training

- 1.2. From Initial Teacher Training and early career induction, including ITTECF-Based Training, through to Specialist and Leadership National Professional Qualifications (NPQs), the Department has revolutionised teacher training and development by defining the evidence-based knowledge and skills that define great teaching into frameworks, and designing delivery models to maximise fidelity to the underlying frameworks. These congruent frameworks create a 'golden thread' of evidence that underpins professional development for teachers and school leaders at every career stage.
- 1.3. Statutory induction should provide early career teachers (ECTs) with a firm foundation for a successful career in teaching, and is required to support ECTs in demonstrating that they have met the Teachers' Standards. All organisations that offer statutory induction to ECTs must comply with the same statutory requirements.
- 1.4. The Department rolled out changes to statutory induction across England in September 2021. These reforms extended statutory induction from one year to two years and entitled ECTs to an induction based on the Early Career Framework (ECF). The objective of these reforms is to raise teacher quality by strengthening induction support for ECTs. In turn, it is expected that this will improve ECT retention and teacher quality, improving pupil outcomes. As with the suite of professional development reforms, it is important that the benefits of early career induction are felt nationwide, with a universal national offer available.
- 1.5. The ECF was first published in 2019 and sets out what early career teachers are entitled to learn about and learn how to do when they start their careers. The ECF is aligned, and now combined, with the Initial Teacher Training Core Content Framework (CCF), which defined in detail the minimum entitlement of all trainee teachers.
- 1.6. Both the ECF and the CCF were based on the most up-to-date research into excellent teaching practice when they were published in 2019. However, evidence does not stand still, and when launching the CCF and ECF the Department committed to ensuring that the frameworks are informed by the latest developments in the evidence base. Building on what we have learned from the first few years of CCF implementation and ECF delivery, we have reviewed and revised the CCF and ECF into a single combined framework, covering the first three years or more at the start of a teacher's career. The combined, updated document is known as the Initial Teacher Training and Early Career Framework (ITTECF) was published in January 2024.
- 1.7. Suppliers will need to use the ITTECF as the foundation of their Training Programmes for delivery by September 2025. The framework is available here: <https://www.gov.uk/government/publications/initial-teacher-training-and-early-career-framework>
- 1.8. An ITTECF-based induction comprises of two or more years of support, including:

- 1.8.1. A trained Mentor, with expertise in the evidence and practice of ITTECF, with additional funded time away from the classroom to support the ECT(s); and
- 1.8.2. Funded time away from the classroom (10% in year 1 as now and an additional 5% off timetable in year 2) to undertake training, covering all of the ITTECF 'learn that' and 'learn how to' statements.
- 1.8.3. For those schools choosing to follow a provider-led approach to an ITTECF-based induction, covering all of the ITTECF 'learn that' and 'learn how to' statements would be through a minimum 112-hour curriculum of training, including:
 - Self-directed study sessions (at least 23 hours).
 - Mentor sessions (~ 59 hours).
 - Training sessions (at least 30 hours).

To ensure they can commit time to undertake their training, ECTs are entitled to 10% off timetable in their first year of induction and 5% in their second year. This equates to 87 hours and 44 hours respectively; a total of 131 hours. The Supplier's programme shall not exceed 131 hours.

- 1.9. The Department provides support for schools to implement the new induction requirements and to minimise the burden on them. This support includes:
 - 1.9.1. High quality, freely available training materials for schools to use to develop and deliver their own induction programmes for their ECTs. These materials translate the content of the ITTECF into a structured induction programme with supporting materials that cover each statement in the ITTECF;
 - 1.9.2. Funded training programmes for ECTs delivered by Lead Providers; and
 - 1.9.3. Funded Mentor training. Mentoring is fundamental to the successful delivery of ITTECF-based induction. Schools have access to high quality training for their Mentors. This Mentor training is related to the ITTECF and delivered by Lead Providers.

Delivery of Provider-led early career induction training

- 1.10. Suppliers appointed to the Framework Agreement will, subject to Call Off contracts awarded under the Framework, deliver ITTECF-Based Training to ECTs from September 2025 to September 2028. In addition, the School-Led Development Trust who operate the National Institute of Teaching (NlOT) provide ITTECF-Based Training to ECTs under a separate sole-supplier framework agreement.
- 1.11. Suppliers are required to deliver Training Programmes that support the continuation of reformed ITTECF-based induction across England (see section 7). Suppliers must understand the context of the ITTECF reforms, including:
 - The Initial Teacher Training and Early Career Framework, which sets out what early career teachers are entitled to learn about and learn how to do: [Initial teacher training and early career framework - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/initial-teacher-training-and-early-career-framework).

Teaching School Hubs

- 1.12. Teaching School Hubs (TSHs) are at the heart of the Department's commitment to ensuring that teachers receive high-quality training and development at every stage of their career, providing a backbone of delivery across the country. TSHs are expected to continue to play a central role in delivering ECT training. Their role in professional development makes it easier for schools and teachers to identify what opportunities and support are available to them.

Appropriate Bodies

- 1.13. Appropriate Bodies are the organisations that quality-assure statutory teacher induction. From September 2024, TSHs will become the main provider of Appropriate Body services. TSHs that are also Appropriate Bodies are permitted to deliver services for ITTECF-Based Training for ECTs which means that they can deliver early career training to a school for which they are also the Appropriate Body. However, schools receiving ITTECF-Based Training for ECTs from a TSH do have the choice to use a different organisation for their Appropriate Body if they wish to do so.

2. SCOPE

- 2.1. The general Scope of Services that the Supplier shall deliver is as follows:
 - 2.1.1. design of training materials for ECTs and Mentors (e.g. self-study content, material for taught sessions) (see Section 7);
 - 2.1.2. provision of Digital Deliverables, including a Digital Learning Solution capable of offering high-quality online learning experiences and managing largescale and complex data requirements to enable delivery of the Training Programme, tracking and payment (see Section 16);

3. OBJECTIVES

- 3.1. The Department's objective for ITTECF-based Training for ECTs is to improve teacher retention and quality and, in turn, improve pupil outcomes. We have continuously monitored ECF-based training since its introduction. Evaluation findings from the ECF reforms ([Early career framework induction evaluation - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/674442/Early-career-framework-induction-evaluation-2020-21.pdf)) indicate that ECTs' confidence has grown, more participants report overall satisfaction than dissatisfaction, and Mentoring especially is highly valued. The overall objectives of ITTECF-Based Training for ECTs are to:
- 3.1.1. improving the quality of teaching;
 - 3.1.2. improving the retention rates of teachers;
 - 3.1.3. supporting the development of the teaching workforce;

 - 3.1.5. delivery of Social Value specific objectives.
- 3.2. Lead Providers shall help the Department achieve its objectives by meeting Participant recruitment and retention targets, ensuring that training for ECTs and Mentors appropriately covers all ITTECF content, ensuring that ECTs and Mentors engage in the Training Programme as fully as possible, have positive experiences while participating in Provider-Led Training, and meeting requirements for content and training quality.

7. PROGRAMME SPECIFIC REQUIREMENTS

Overall requirements

- 7.1. The Provider-Led Training Programme includes 7 elements:
 - 7.1.1. Product 1 – Sequence

- 7.1.2. Product 2 – Diagnostic Tools
- 7.1.3. Product 3 – Self-Directed Study Materials
- 7.1.4. Product 4 – ECT Training Programmes
- 7.1.5. Product 5 – Mentor rials
- 7.1.6. Product 6 – Mentor Training Programmes
- 7.1.7. Product 7 – Digital Deliverables¹
- 7.2. ITTECF-Based Training for ECTs is designed to build on learning from Initial Teacher Training (ITT). Suppliers are expected to translate existing (2020) DfE accredited ECF materials (formerly known as Core Induction Programme or ‘CIPs’) so they are (a) more suitable for ECTs who are already familiar with the evidence base and (b) so they offer tailored experiences for ECTs based on their prior knowledge and expertise. Suppliers’ content must be integrated with Diagnostic Tools (see Table 2 below) and offer tailoring according to ECTs’ prior knowledge and expertise.
- 7.3. For example, Suppliers could create materials which place different emphasis on the needs of ECTs relating to their understanding of pedagogical content, analysis of application and expertise in implementing the knowledge into their own practice. This could result in differences of challenge in ITTECF-Based Training for ECTs:
- (1) materials that are similar to existing CIPs in the level of challenge they present in emphasising the understanding and analysis of pedagogical concepts, but that position content as familiar (e.g. acknowledging that participants have previously encountered concepts/ pieces of research and had some experience of these being applied);
 - (2) materials which also position content as familiar, but that cover the framework more concisely and present a greater level of challenge in the implementation of good pedagogical practice (a change in pitch). Making content more concise could include (i) reusing only part of a section from an existing CIP and/or (ii) redrafting a section from an existing CIP in order to summarise it further, while adding greater analysis or practice of implementation
- 7.4. The Supplier shall comply with guidance relating to flexibility, which is issued periodically by the Department, when designing and delivering their Training Programme.
- 7.5. A brief summary of each of the elements the Supplier must design can be found in Table 2 below:

Table 2: Description of Products and Services

This Sequence describes the way ECTs study each section (self-directed / Mentor sessions / training) and the time to be spent on it.</p>	Schools and ECTs and Mentors	<p>The Supplier is able to deliver a two-year training programme that covers each '<i>learn that...</i>' and '<i>learn how to...</i>' statement in the ITTECF.</p> <p>The Sequence enables ECTs to master foundational concepts and knowledge before moving on to new concepts and knowledge.</p> <p>Schools, ECTs and Mentors know what to expect in terms of their schedule and priorities for induction.</p>
2. Diagnostic tools	<p>Diagnostic Tools are integral to the functioning of the training model (i.e. greater tailoring for individual needs).</p> <p>Suppliers are required to design and create Diagnostic Tools to support: ECTs in</p> <ul style="list-style-type: none"> (i) accessing content that is appropriate to and builds upon their prior knowledge, avoiding unnecessary repetition from ITT whilst ensuring all ECTs master the pre-requisite knowledge for entering the teaching profession. <p>Mentors in</p> <ul style="list-style-type: none"> (ii) interpreting which areas of the framework their ECTs may present areas for improvement, in terms of their knowledge and/or practice and (iii) signposting ECTs towards appropriate materials/ activities within the relevant topic or module, or work to embed understanding in (a) determining the areas in which their ECTs need either more support or challenge/practice and (b) directing ECTs towards appropriate materials/ activities. <p>Suppliers shall create Diagnostic Tools that:</p>	ECTs and Mentors	<p>Diagnostic Tools support ECTs' professional development by helping to make ITTECF-Based Training more tailored to individuals' levels of expertise.</p>

	<p>(iv) are informative, and not presented as pass/fail summative assessments, with ECTs and mentors retaining autonomy over their use; are well integrated with other ECT and Mentor training materials through clear signposting and tailored outcomes;</p> <p>(v) are used with a frequency that provides meaningful tailoring to ECTs, avoiding high stakes, infrequent Diagnostic Tools which result in streaming ECTs into separate bands; and</p> <p>(vi) should not deny an ECTs progression through materials, nor allow for any unintended reduction in coverage of the framework statements.</p> <p>Diagnostic Tools should provide a reliable indication of an ECT's current knowledge and/or their practice:</p> <p>(vii) Knowledge Diagnostic Tools should provide the opportunity for ECTs to demonstrate their knowledge (for example through quizzes). The tools should not rely solely on ECTs stating their level of confidence in each area. Based on the outcome, the tools should clearly direct ECTs to relevant areas of the programme appropriate to their prior knowledge.</p> <p>(viii) Practice Diagnostic Tools should empower Mentors to identify and develop their ECTs' ability to apply their knowledge of the ITTECF in the classroom. They should aid Mentors in recognising indicators of understanding underpinning practice, as well as setting appropriate actions for their ECTs' development. This could be supported with useful rubrics, tools or learning platforms for observations and next steps.</p> <p>There is no expectation that one tool should be used to cover both knowledge and practice.</p>		
--	--	--	--

3. Self-Directed Study Materials	<p>Materials which support independent study undertaken by the ECT on specific sections of the ITTECF as set out in the Sequence.</p> <p>Self-study materials should be tailored according to ECTs' level of expertise, including suitable challenge and support, and assume prior familiarity with the content of the ITTECF. Suppliers must consider that many participants will have learnt the evidence base at ITT and take account of this in the design of their materials. Suppliers must translate existing content appropriately when creating their tailored materials (see Section 7.2 above).</p> <p>Self-study materials must be integrated with Diagnostic Tools, but they should not be a barrier to progress and nor should they be utilised as a form of summative assessment.</p> <p>Self-study materials should include exemplification for different phases, settings, and subjects, as well as material to help ECTs feel more confident in responding to the needs of all pupils, including pupils with SEND. As a minimum, this should include core subjects, EY/ Primary/ Secondary/Special Schools.</p> <p>The Supplier shall design content to ensure an ECT can undertake at least 23 hours of self-study.</p>	ECTs	<p>ECTs are able to use Self-Directed Study Materials to work independently and at their own pace.</p> <p>ECTs have access to training that is relevant to their expertise and experiences.</p> <p>Through self-study, ECTs have a deep understanding of all parts of the ITTECF, and the quality of their teaching is improved.</p>
4a. ECT Training Programme Content	The Supplier is required to prepare the content of the ECT Training Programme, to deliver the stated Product/Service Purpose.	ECTs	<p>ECTs develop a deep understanding of all parts of the ITTECF, and the quality of their teaching is improved.</p> <p>ECTs build effective support networks, including outside of their school.</p>
4b. ECT Training Programme Delivery	The Supplier is required to deliver the ECT Training Programme to ECTs to achieve the Product/Service Purpose. The delivery mechanism must include 30 hours-worth of synchronous or asynchronous training, of which at least 18 hours must be face-to-face delivery. The Supplier must ensure that the Training Programme enables ECTs to build effective support networks.		

5. Mentor Session Materials	<p>A base of detailed materials which support regular Mentoring sessions and engagement between the ECT and their Mentor on specific sections of the ITTECF as set out in the Sequence. These materials are at the centre of the Mentor's Training Programme. They underpin and support the Mentor's expertise, preparation, and delivery of mentoring sessions.</p> <p>Mentor session materials should be concise, precise with regard to actions Mentors need to take, and include clear outlines of the knowledge and skills Mentors bring to each session. They should also provide support for Mentors in tailoring ITTECF content for ECTs' needs, for example appropriate actions to take when implementing knowledge of the ITTECF in the classroom. This should include options for extra support for ECTs who require it when engaging with the Training Programme, for instance if the ECT Diagnostic Tool has indicated that the ECT may need to develop their knowledge or practice in that topic.</p>	ECTs and mentors	<p>Schools/the Supplier are able to create provision of Materials that enables Mentors to prepare effective mentoring sessions quickly. ECTs receive support from their mentor to understand and apply the ITTECF, which is tailored to the ECT's individual needs and experiences.</p> <p>Through discussions with their Mentor, ECTs develop a deep understanding of all parts of the ITTECF and the ability to implement their knowledge within their context, and the quality of their teaching is improved.</p>
6a. Mentor Training Programme Content	<p>The Supplier is required to design the content of the Training Programme for the Mentors of ECTs to deliver the stated Product/Service Purpose. The content must be focused on:</p> <ul style="list-style-type: none"> (1) the ITTECF; (2) mentoring knowledge and skills; (3) knowledge and skills needed for working with the relevant Supplier's training programme. 	Mentors	<p>Mentors develop a deep understanding of all parts of the ITTECF in order to support the ECTs with their understanding of the ITTECF.</p> <p>Mentors are able to effectively mentor and tailor their support to the individual ECT's needs and experiences.</p> <p>Mentors have a professional community of support to share best practice.</p>
6b. Mentor Training Programme Delivery	<p>The Supplier is required to deliver the Training Programme for Mentors to achieve the stated Product/Service Purpose. The Training Programme must be focused on:</p> <ul style="list-style-type: none"> (1) the ITTECF; (2) mentoring knowledge and skills; 		

	<p>(3) knowledge and skills needed for working with the relevant Supplier.</p> <p>xThe Training Programme must also enable Mentors to build professional communities of support.</p> <p>Mentor training should effectively take place in one year. This would involve taught content pertaining to the above areas through self-study materials, live and synchronous sessions etc. Mentors will then, in effect be 'trained' at the end of year 1. Year 2 will then see newly trained Mentors benefit from the same support as Mentors from previous cohorts, including ongoing access to all ECT and Mentor training materials and all session materials, as well as any optional induction or support sessions, which would focus on supporting them in meeting the needs of their ECT(s) e.g., support clinics or drop-in sessions</p> <p>The Training Programmes should be a maximum of 20 hours in total. This equates to c. 6-7 hours of training per term (based on a school that operates a three-term academic year). Suppliers are expected to build in a range of delivery methods, including face-to-face sessions. For example, an introductory full-day conference (6 hours) at the start of the first term, 2.5 hours of self-study in each term, and 2 hours of networking/ peer-support per term.</p>		
7a Digital Deliverables - Website	Suppliers are required to develop a website for the Supplier's ITTECF-Based Training that is publicly accessible. This website shall provide prospective Participants and schools with thorough information on the Supplier's offer [including the School-led Materials where applicable].	Schools, ECTs and Mentors	The website shall provide prospective ECTs, Mentors and schools with thorough information on the Supplier's offer so they can make an informed decision on which programme to choose.

<p>7b Digital Deliverables - Digital Learning Solution</p>	<p>Suppliers are required to develop, host and manage a Digital Learning Solution.</p> <p>Digital Learning Solutions should be designed in a manner that:</p> <ul style="list-style-type: none"> (i) meets high usability standards; (ii) Ensures they are accessible to all; (iii) provides a clear user journey, which ensures digital and non-digital aspects of the Training Programme map together; (iv) enables participants to have an engaging and interactive digital learner experience, which takes into account user needs and burden; and (v) enables participants to access their digital learning solution during core working hours (Monday-Friday 08.00 to 18.00). Where downtime is needed, this must take place outside of core hours. <p>See Section 16 for further details.</p>	<p>ECTs and Mentors</p>	<p>A high-quality hybrid learning experience is crucial to ensuring that participants can access resources smoothly and remain engaged with Training Programmes.</p>
<p>7c Digital Deliverables - Integrations</p>	<p>The Supplier shall integrate with the Department's Digital Service using an application programming interface (API).</p> <p>Integrations should be designed in a manner that ensures:</p> <ul style="list-style-type: none"> (i) Suppliers records are kept as up to date with those of the Department as soon as practicable, whilst limiting the load placed on the Supplier's Systems and the Department services; (ii) Suppliers have an ability to technically and operationally adapt to major version changes to the API within 3 months of the Department confirming specifications for any change, and within 4 weeks for minor changes; (iii) they can effectively manage minor version changes; (iv) they can monitor the performance of their Integration and respond to changes; 	<p>The Department</p>	<p>An effective and strong performing integration is crucial for programme efficiency, minimising administrative data burdens on the Supplier and the Department</p>

	(v) compliance with the specifications set out in the API technical documentation;		
	See Section 16 for further details.		

Training Delivery & Cohort Timings

- 7.6. Participants can start their Year 1 training at any point after the Cohort Commencement Date, but it shall be no later than the 31st of July following the Cohort Commencement Date.
- 7.7. ECTs shall start their Year 2 training no earlier than the following September after the Cohort Commencement Date.
- 7.8. Subject to paragraph 8 and Participants who undertake part-time training/defer, ECTs should conclude their training 2 academic years after they have started it, and Mentors should conclude their training in 1 academic year.
- 7.9. The Supplier confirms the progress of Participants by making Declarations at various points throughout the Cohort, but it shall be no more than six (6) per ECT and two (2) per Mentor. Declarations also trigger Output Payments in accordance with Schedule 3 (Charges).
- 7.10. Declarations must be supported by acceptable Evidence of Engagement in accordance with Annex 1.

Content Design

- 7.11. The Supplier shall design and develop a full programme of ITTECF-Based Training for ECTs and Mentors that is in accordance with the ITTECF and the requirements set out below.
- 7.12. The Supplier's Training Programme shall be delivered as part of the Call Off Contract. The Supplier will update their Training Programme to incorporate changes required by the Department. Such changes may be agreed during delivery Call Off Contracts, or the Department may choose to issue a separate Call Off Order to include for content design changes.
- 7.13. The Supplier shall consider the following, which may be updated from time to time, when designing and delivering its Training Programme:
 - 7.13.1. The ITTECF, which for early career training underpins an entitlement to a funded, two-year package of structured training and support for ECTs and their mentors, available at: [Initial teacher training and early career framework - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/initial-teacher-training-and-early-career-framework);
 - 7.13.2. The current Core Induction Programmes include high-quality development materials, underpinned by the 2019 ECF, which will support early career teachers to develop the essential knowledge and skills to set them up for a successful and fulfilling career in teaching, available at: <https://www.early-career-framework.education.gov.uk/> (See section 7.3 for more detail on how suppliers shall use Core Induction Programmes);
 - 7.13.3. The Department's Induction for newly qualified teachers (England) statutory guidance for Appropriate Bodies, headteachers, school staff and governing bodies, available at: <https://www.gov.uk/government/publications/induction-for-early-career-teachers-england>;

- 7.13.4. The National Standards for school-based Initial Teacher Training Mentors (2016), available at: https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/536891/Mentor_standards_report_Final.pdf;
- 7.13.5. The Teachers' Professional Development Standard, defining good professional development for teachers, available at: <https://www.gov.uk/government/publications/standard-for-teachers-professional-development>; and
- 7.13.6. The Education Endowment Foundation's research on effective professional development, available at: <https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports/effective-professional-development>.
- 7.14. Table 3 below sets out the essential criteria to be met by the Supplier when designing the Sequence:

Table 3: Product 1: Essential criteria for the Sequence	
1.	The Sequence must only cover content referred to in the ITTECF.
2.	<p>The Sequence must cover each of the '<i>learn that...</i>' and '<i>learn how to...</i>' statements in the ITTECF in enough depth to enable ECTs to master foundational concepts and knowledge before moving on to new concepts and knowledge.</p> <p>The ITTECF gives each '<i>learn that...</i>' and '<i>learn how to...</i>' statement a unique reference. Suppliers should refer to these references to make it clear how each part of the Sequence is linked to the ITTECF. For example, the statement:</p> <p>'Teachers have the ability to affect and improve the wellbeing, motivation and behaviour of their pupils' has a unique reference of 1.1</p>
3.	The Supplier must produce one universal Sequence that works for all schools and teachers, regardless of the education phase, subject specialisation, or context of the setting.
4.	<p>The Sequence must meet the following requirements:</p> <ol style="list-style-type: none"> Sets out on a week-by-week basis when Mentoring Sessions, self-directed study sessions and ECT training sessions should take place across the full two-year ITTECF-based Training Programme. This can provide for weeks where no sessions are sequenced; Includes a brief description of the content to be covered in each session, with reference to the ITTECF; Work for all ECTs regardless of subject, phase or context ; Is suitable for all ECTs regardless of prior experience and ability; and Does not include Mentor Training.
5.	<p>The Supplier must ensure that the Sequence includes sessions which are a minimum of 112 hours across Year One and Year Two of induction, broken down as per the following:</p> <ul style="list-style-type: none"> Self-directed study sessions (at least 23 hours). Mentor sessions (~ 59 hours). Training sessions (at least 30 hours, of which 18 should be face-to-face). <p>To ensure they can commit time to undertake their training, ECTs are entitled to 10% off timetable in their first year of induction and 5% in their second year. This equates to 87 hours and 44 hours respectively; a total of 131 hours. The Supplier's programme shall not exceed 131 hours.</p>

	Suppliers should note that ECTs undertaking ITTECF-Based Training are not mandated to undertake the maximum amount of training (131 hours) and the Supplier shall be cognisant of the workload implications, both for the ECT and wider school / teaching staff.
10.	The Supplier must ensure that there is sufficient flexibility built into sequencing and schedules for engagement with the ITTECF-based programme to ensure schools also have sufficient time to also undertake necessary statutory induction requirements, including termly progress reviews/formal assessments and additional support to ECTs.

Product 2: Diagnostic Tools

- 7.15. The Supplier shall design and implement Diagnostic Tools that meaningfully interrogate an ECT's knowledge and expertise to allow for tailored outcomes in how they then engage with the programme content, with the support of their Mentor. While the Supplier may design Diagnostic Tools which fit with their Training Programme, they must adhere to the criteria set by the Department.
- 7.16. Table 4 below sets out the essential criteria for Diagnostic Tools to be met by the supplier when designing tailored training.
- 7.17. The final design and functionality of the Supplier's proposed Diagnostic Tools shall be subject to Testing in accordance with Part B of Schedule 8 (Implementation Plan and Testing)

Table 4: Product 2: Diagnostic Tool	
1.	The Supplier must create diagnostic processes and tools to support: (i) ECTs in accessing content that is appropriate to and builds upon their prior knowledge, avoiding unnecessary repetition from ITT whilst ensuring all ECTs master the pre-requisite knowledge for entering the teaching profession; and (ii) Mentors in (a) interpreting which areas of the Content Framework their ECTs may present areas for improvement, in terms of their knowledge and/or practice; and (b) signposting ECTs towards appropriate materials/ activities within the relevant topic or module, or work to embed understanding.
2.	The Supplier must design and present Diagnostic Tools as informative and which signpost ECTs to appropriate material/activities to further their development. The tool should not be framed as a pass/fail summative assessment, and Mentors and ECTs should retain autonomy over its use and application.
3.	The Supplier must create Diagnostic Tools that are integrated within their programmes. They should clearly align with both the ECT and Mentor Training Programmes.
4.	The Supplier must design Diagnostic Tools for use in a timely manner, recognising the opportunities to implement them within their courses at a frequency that provides meaningful tailoring to ECTs whilst avoiding being overly burdensome. Suppliers should avoid high stakes, infrequent Diagnostic Tools, which result in streaming ECTs into different bands.
5.	The Supplier must not design diagnostics that deny ECTs the opportunity to progress through materials, nor allow for any unintended reduction in an ECT's coverage of the framework statements – instead tailoring should be about balancing the depth of study and practice that ECTs are engaging with according to the level of their expertise, that the tool helps identify.
6.	The Supplier must create diagnostic processes that provide a reliable indication of an ECT's current knowledge and/or their practice:

	<p>(i) Knowledge Diagnostic Tools should provide the opportunity for ECTs to demonstrate their knowledge (for example through quizzes). The tools should not rely solely on ECTs stating their level of confidence in each area. Based on the outcome, the tools should clearly direct ECTs to relevant areas of the programme appropriate to their prior knowledge.</p> <p>(ii) Practice Diagnostic Tools should help Mentors to identify and develop their ECTs' ability to apply their knowledge of the ITTECF in the classroom. They should aid Mentors in recognising indicators of understanding underpinning practice, as well as setting appropriate actions for their ECTs' development. This could be supported with useful rubrics, tools or learning platforms for observations and next steps.</p> <p>There is no expectation that one tool should be used to cover both knowledge and practice.</p>
--	---

7.18. Table 5 below sets out the essential criteria to be met by the Supplier when designing the Self-Directed Study Materials:

Table 5: Product 3: Self-Directed Study Materials	
1.	The Self-Directed Study Materials must only cover content referred to in the ITTECF.
2.	The Supplier must provide an appropriate volume of Self-Directed Study Materials for the time allocated in the Sequence to Self-Directed Study guidance.
3.	The Self-Directed Study Materials must include a range of different types of material, designed in order to aid independent study and encourage the ECT to learn and understand the ITTECF. These types of materials could include, but are not limited to, exemplifications (for example videos or case studies) that demonstrate best practice, research summaries, or reading.
4.	The Supplier must produce Self-Directed Study Materials that work for all ECTs, regardless of subject, phase or context. This should be a universal programme of content suitable for all ECTs, drawing from, and including where appropriate, exemplification of, a range of subjects, phases and contexts to help ECTs feel more confident in responding to the needs of all pupils, including pupils with SEND. As a minimum, this should include core subjects, EY/ Primary/ Secondary/Special School.
5.	The approach to Self-Directed Study Materials must be informed by current research and international best practice.
6.	Materials should be designed for ECTs who are already familiar with the ITTECF, having learnt the evidence base during their ITT. Providers should consider carefully how any revisiting of content, for example to secure and/or deepen understanding, is framed. (See section 7.3).
7.	Providers should include in their materials tailoring which adjusts the depth of study and challenge that ECTs are engaging with according to their level of expertise (as determined by providers' Diagnostic Tools). Tailored materials should be integrated with Diagnostic Tools and their outcomes.

Product and Service 3 : ECT Training Programmes (including ECT Training Content and ECT Training Delivery)

Product 3a: ECT Training Programme Content

7.19. Table 6 below sets out the essential criteria for the ECT Training Content to be met by the Supplier when designing the ECT Training Programme:

Table 6: Product 4a: Essential criteria for ECT Training Programmes	
2.	The Training Programme Content must only cover content referred to in the ITTECF.
3.	Sufficient ECT Training Content must be produced to best utilise the time allocated in the Sequence for ECT Training Sessions.

4.	The approach to ECT training must be informed by (and make reference to) current research and international best practice.
5.	In designing ECT Training Content, the Supplier must give due consideration to different delivery methods, including but not limited to face-to-face sessions, peer sessions, events and/or visits, online sessions, and communities of support. Of the 30 hours of training, there must be a minimum of 18 hours of face-to-face ECT training provided. The Supplier must ensure that the ECT training sessions help ECTs to build effective support networks, including outside of their own school, and must ensure that the ECT Training Sessions allow ECTs to observe a range of good practice and teaching methods whilst minimising the impact on ECTs' time and workload.
6.	The Supplier must produce Training Programme Content that works for all ECTs, regardless of subject, phase, or context. This should be a universal programme of content suitable for all ECTs, drawing from, and including exemplification of, a range of subjects, phases and contexts to help ECTs feel more confident in responding to the needs of all pupils, including pupils with SEND. As a minimum, this should include core subjects, EY/ Primary/ Secondary/Special School.

Service 3b: ECT Training Programme Delivery

- 7.20. Table 7 below sets out the essential criteria for the ECT Training Delivery to be met by the Supplier when delivering the ECT Training Programme under Call Off Contracts.

Table 7: Product 4b: Essential criteria for Training Programme Delivery	
1.	The Supplier must deliver the ECT Training Content to all ECTs in schools who have signed-up to the Supplier's Training Programme. The ECT Training Programmes must not exceed the time allocated in the Sequence for ECT Training.
2.	The Supplier has primary responsibility for the delivery of the ECT Training Programme, including for the quality of provision delivered by any Subcontractors, as measured by Key Performance Indicators (KPIs) and/or Service Level Agreements (SLA).
3.	The Supplier must work with schools to ensure high participation in Training Programmes, providing evidence for how the Training Programme will meet the needs of schools and ECTs, including recognising timetabling considerations. Ideally, schools would be provided with a programme schedule at the start of the academic year.
4.	The Supplier must develop mechanisms for accurately measuring and reporting participation and retention rates in the programme and have mechanisms and strategies for improving low participation and retention rates.
5.	The Supplier must ensure that the information and data that it holds in relation to each ECT Participant is in a format that can be shared easily. In addition, that its registration with the Information Commissioner's Office enables the Supplier to provide information to the Department, should one of its ECTs move schools and therefore transfer to another Lead Provider's training programme.
6.	The Supplier will not collect personal details of ECTs independently of the Department, but will collect only such additional personal information about ECTs as is required, where that information is not supplied by the Department.

- 7.21. Table 8 below sets out the essential criteria to be met by the Supplier when designing the Mentor Session Materials:

Table 8: Product 5: Mentor Session Materials	
1.	The Mentor Session Materials must only cover content referred to in the ITTECF.
2.	The Supplier must produce enough Mentor Session Materials to fill the time allocated in the Sequence(s) for Mentor Sessions.

3.	The Mentor Session Materials should include clear outcomes for each Mentor Session.
4.	Mentor session materials should be a base of detailed content which supports Mentoring sessions between the ECT and their Mentor on specific sections of the ITTECF. These materials are at the centre of Mentor Training Programmes. They underpin and support the Mentor's expertise, preparation, and delivery of Mentoring sessions and engagement with their ECTs (to include Mentoring skills and knowledge of the ITTECF evidence base). Mentor session materials should be concise, precise with regard to actions Mentors need to take or recommend to their ECTs especially in relation to any outcomes of Diagnostic Tools and include clear outlines of the knowledge and skills mentors should bring to each session.
5.	The Mentor Session Materials must include a range of different types of materials and tools, designed to help Mentors and ECTs achieve the session outcomes. These could include, but are not limited to, exemplification (for example, videos or other open-access multimedia).
6.	The Supplier must only produce Mentor Session Materials that fully adhere to the current National Standards for school-based ITT Mentors. The Authority reserves the right to ask Suppliers to make reasonable adjustments to the Mentor Session Materials following any future publication of updated standards.
7.	The approach to Mentor Session Materials must be informed by current research and international best practice.
8.	It is crucial that Mentor Session Materials work for all participants, regardless of subject, phase or context. This should be a universal programme of content suitable for all ECTs and Mentors, drawing from, and including where appropriate, exemplification of a range of subjects, phases and contexts to help Mentors in contextualizing their support so that their ECTs feel more confident in responding to the needs of all pupils, including pupils with SEND. As a minimum, this should include core subjects, EY/ Primary/ Secondary/Special School.

Product and Service 6: Mentor Training Programmes (including Mentor Training Content and Mentor Training Delivery)

- 7.22. The Supplier is required to develop and deliver training for the Mentors of ECTs in order to support Mentors to develop a deep understanding of the ITTECF, to improve and tailor their support to individual ECTs, and to develop a professional community of support to share best practice,

Product 6a: Mentor Training Programme Content

- 7.23. Table 9 below sets out the essential criteria to be met by the Supplier when designing the Mentor Training Programme Content.

Table 9: Product 6a: Essential criteria for Mentor Training Programme Content	
1.	The Supplier must produce Mentor training content that is focused primarily on training Mentors in: (1) the ITTECF, (2) Mentoring knowledge and skills, (3) knowledge and skills needed for working with the relevant Supplier's Training Programme. These will ensure that the Mentor can support the ECT to understand the ITTECF and will ensure that Mentoring programmes provide Mentors with high-quality professional development that benefits them. .

2.	The Supplier must develop a Mentor Training Programme that provides for a maximum of 20 hours of training over one year. This equates to approximately 6-7 hours of training per term (based on a school that operates a three-term academic year); the Supplier is not bound by this model and may use their 20 hours as is most appropriate. The design of the Mentor Training Programme must take account of the existing burdens on Mentors and schools. This should also include taking account of Mentors' previous experience. Mentors will effectively be 'trained' at the end of year 1. Year 2 will then see newly trained Mentors benefit from the same support as Mentors from previous cohorts, such as directed materials and any induction or support sessions, which would focus on supporting them in embedding and developing expertise.
3.	The Mentor Training Programme Content must be informed by (and make reference to) current recognised research and international best practice.
4.	In designing the Mentor Training Programme Content, providers are expected to include face-to-face sessions, and give due consideration to different delivery methods, including but not limited to peer sessions, events and/or visits, online sessions, communities of support. The Supplier must ensure that the Training Programme helps Mentors to build effective support networks, including outside of their own school whilst minimising the impact on Mentors' time and workload.
5.	The Supplier must ensure that all Mentor training fully adheres to the current National Standards for school-based ITT Mentors. The Department reserves the right to require the Supplier to make reasonable adjustments to the Mentor training following any future publication of updated standards and/or frameworks. Providers should be aware that some Mentors undertaking ITTECF-Based Training for ECTs will have experience Mentoring for ITT providers accredited to deliver from 2024. ITTECF-based Mentor Training Programmes must take account of prior Mentoring experience.
6.	The Supplier must produce Mentor training content that works for all Mentors, regardless of subject, phase or context. This can either be a universal set of training content suitable for all Mentors, drawing from a range of subject, phases and contexts or separate sets of training content which are subject, phase and/or context specific.

Service 6b: Mentor Training Programme Delivery

7.24. Table 10 below sets out the essential criteria for the Mentor training delivery to be met by the Supplier when delivering the Mentor Training Programme.

Table 10: Product 6b: Essential criteria for Mentor Training Programme Delivery	
1.	The Supplier must deliver the Mentor Training Programme Content to all the ECT Mentors in all the schools that they propose to deliver in, as per the recruitment requirements below.
2.	The Mentor Training Programme must not exceed the time allocated in the relevant Sequence. Up to 20 hours of content can be delivered across the year at the Supplier's discretion. As above, Mentor training should include face-to-face delivery.
3.	The Supplier has full responsibility for the quality of the delivery of the Mentor Training Programme, including for the quality of any Subcontractors.
4.	The Supplier must work with schools to ensure high participation in Mentor Training Programmes, providing evidence for how the Training Programme will meet the needs of schools, including recognising timetabling considerations.

- | | |
|----|--|
| 5. | The Supplier must develop mechanisms for accurately measuring and reporting participation and retention rates in the programme and have mechanisms for improving low participation and retention rates. |
| 6. | The Supplier must ensure that the information and data that it holds in relation to each Mentor Participant is in a format that can be shared easily. In addition, that its registration with the Information Commissioner's Office enables the Supplier to provide information to the Department, should one of its Mentor Participants move schools and therefore transfer to another Lead Provider's training programmes. |
- 7.25. Table 11 below sets out the essential criteria to be met by the Supplier when designing the Digital Deliverables

1.	Suppliers are required to develop a website for the Supplier's ITTECF-based ECT training that is publicly accessible. This website shall provide prospective Participants and schools with thorough information on the Supplier's offer.
Table 11: Product 7b: Digital Learning Solution	
1.	The Supplier must design a Digital Learning Solution with users' digital learning experience in mind. User journeys will be clear and carefully curated, with all the programme training requirements mapped together.
2.	The Supplier must ensure Participants have an engaged and interactive learning experience.

3.	The Supplier shall have an ability to technically and operationally adapt to major version changes to the API within 3 months of the Department confirming specifications for any change, and within 4 weeks for minor changes (for example, adding a new attribute or permitted value to an existing endpoint). The Department undertakes to consult Suppliers when developing revised specifications. The Department aims to share plans for unconfirmed changes as early as possible with the Supplier for consultation. At the point of confirming revised specifications, the Department aims to provide documentation in the Sandbox for testing and recommended processes.
4.	The Supplier shall design their Integrations so they can effectively manage minor version changes. - 7.29. Evidence of Engagement is required as set out in Annex 1.

Exemptions

- 7.30. Where the Supplier identifies that there are exceptional circumstances, the Supplier can apply for an exemption in respect of the requirement to ensure that an ECT undertakes a minimum of 18 hours of face-to-face training. Exemptions may be granted in the following circumstances:
- 7.30.1. where the geographical location of the school means that the amount of travel required for face-to-face delivery is not viable for a school and / or Participant(s);
 - 7.30.2. where a Supplier is offering a particular specialism that justifies virtual delivery by a specific Delivery Partner; or
 - 7.30.3. where a Participant is undertaking a non-standard induction which means the Supplier can offer online-only delivery to accommodate the individual Participant needs. This is on the provision that Participants have the option to attend at least two 'live' events.

- 7.31. The Supplier must seek approval from the Department that that an exemption applies, and it is at the discretion of the Department to grant any exemptions.

The date any Charges adjustment ("Price Adjustment Start Date") takes effect shall be at the start of the six-month period immediately following implementation of the Variation in question. - 13.2 For example, if the Gainshare Assessment identifies the actual cost of delivering the Services was £50,000 (fifty thousand) less than the total amount of Charges paid to the Supplier for the Services, the Department would be entitled to a £25,000 Gainshare Payment.
- 13.3 The Supplier pays the Department the Gainshare Payment by crediting the amount to the invoice that is raised immediately after the Gainshare Payment is identified, or if no invoice is due, the Supplier issues a credit note equal to the Gainshare Payment to the Department on the 25th day of the month after the Gainshare Payment has been identified.

Annex 1 Part A: Test Issues – Severity Levels that apply to Testing for Digital Deliverables

Severity Error Type	Stage 1 definition	Stage 2 definition	Stage 3 definition	Stage 4 definition
Severity 1 Error	N/A	<p>The Supplier has made no progress against their implementation plan and further conversations reveal they were unlikely to do so in time for September 2025.</p>	<p>The Supplier has failed to supply a functioning Supplier Integration as per the scenarios and tests specified and further conversations reveal they will be unable to make it functional before registration goes live; and / or</p> <p>The Supplier doesn't have a publicly accessible Supplier Website and has failed to meet security and GDPR requirements, conversations reveal that they will be unable to rectify this before September 2025; and/or</p> <p>The Supplier has made no progress against implementing their Digital Learning Solution and further conversations revealed they were unlikely to do so in time for September 2025.</p>	<p>A Supplier has failed to provide a functioning Digital Learning Solution and further conversations reveal they will be unable to make it functional before September 2025.</p>

<p>Severity 2 Error</p>	<p>The Supplier's plan highlights they are not going to meet all of the required standards. A large intervention needs to occur in order to rectify this, but it is still possible for a Supplier to meet the requirements in time for launch.</p> <p>For example, the Supplier's plans reveal that they will be unable to integrate with new API versions within three months due to partnering or system choices.</p>	<p>The Supplier has made little progress against their Implementation Plan and as a result their Digital Learning Platform and Supplier Integrations are not going to meet all the required standards before launch, without a large intervention. For example, a Supplier might have to bring on additional resources, the Department could agree to extending the deadline on meeting some of the requirements, a Supplier might have to descope elements of build; and / or</p> <p>The Supplier is demonstrating limited understanding the GDS service and tech standards and have yet to implement them but have plans which appear achievable to implement them moving forward; and / or</p> <p>The Department has concerns about how a Supplier is working with the Department, for example they are not engaging with us during this process, but there is opportunity to ameliorate this moving forward.</p>	<p>The Supplier is unable to evidence that the Supplier Integration can deal with some of scenarios, tests and requirements specified and as a result they are not going to meet all the required standards, but a workaround can be implemented. For example, the Supplier might have to bring on additional resources, the Department could agree to extending the deadline on meeting some of the requirements, a Supplier might have to descope elements of build; and / or</p> <p>The Supplier's Website, whilst live, is missing elements of functionality and has limited correct information. This can be rectified in a reasonable timeframe; and / or</p> <p>The Supplier has failed to meet a few of the security and GDPR requirements, however these can be rectified in a reasonable timeframe; and / or</p> <p>The Supplier has made some progress against their implementation plan, but it has been limited, and as a result their online learning system is not going to meet all the required standards before launch, but a workaround can be implemented. The Supplier shall ensure that each of the Insurances is effective no later than the Start Date in respect of those Insurances set out in the Annex to this Schedule and those required by applicable Law; and
- 1.2 The Insurances shall be:
 - 1.2.1 maintained in accordance with Good Industry Practice;
 - 1.2.2 (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;
 - 1.2.3 taken out and maintained with insurers of good financial standing and good repute in the international insurance market; and
 - 1.2.4 maintained until the End Date except in relation to Professional Indemnity where required under the Annex Part C which shall be maintained for at least six (6) years after the End Date.
- 1.3 The Supplier shall ensure that the public and products liability policy contain an indemnity to principals clause under which the Buyer shall be indemnified in respect of claims made against the Buyer in respect of death or bodily injury or third party property damage arising out of or in connection with the Deliverables and for which the Supplier is legally liable.

2. How to manage the insurance

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;
 - 2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and
 - 2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

3. What happens if you aren't insured

- 3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Buyer may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4. What happens if you aren't insured

- 5.2 Where the Supplier intends to claim under any of the Insurances for any matters that are not related to the Deliverables and/or this Contract, the Supplier shall, where such claim is likely to result in the level of cover available under any of the Insurances being reduced below the minimum limit of indemnity specified in this Schedule, promptly notify the Buyer and provide details of its proposed solution for maintaining the minimum limit of indemnity specified in this Schedule.

6. Cancelled Insurance

- 6.1 The Supplier shall notify the Buyer in writing at least five (5) Working Days prior to the cancellation, suspension, termination or non-renewal of any of the Insurances.
- 6.2 The Supplier shall ensure that nothing is done which would entitle the relevant insurer to cancel, rescind or suspend any insurance or cover, or to treat any insurance, cover or claim as voided in whole or part. The Supplier shall use all reasonable endeavours to notify the Buyer (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

7. Insurance claims

- 7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Deliverables, or this Contract for which it may be entitled to claim under any of the Insurances. - 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible.
