

I-CONSTRUCT INNOVATION CENTRE

REVISION 8

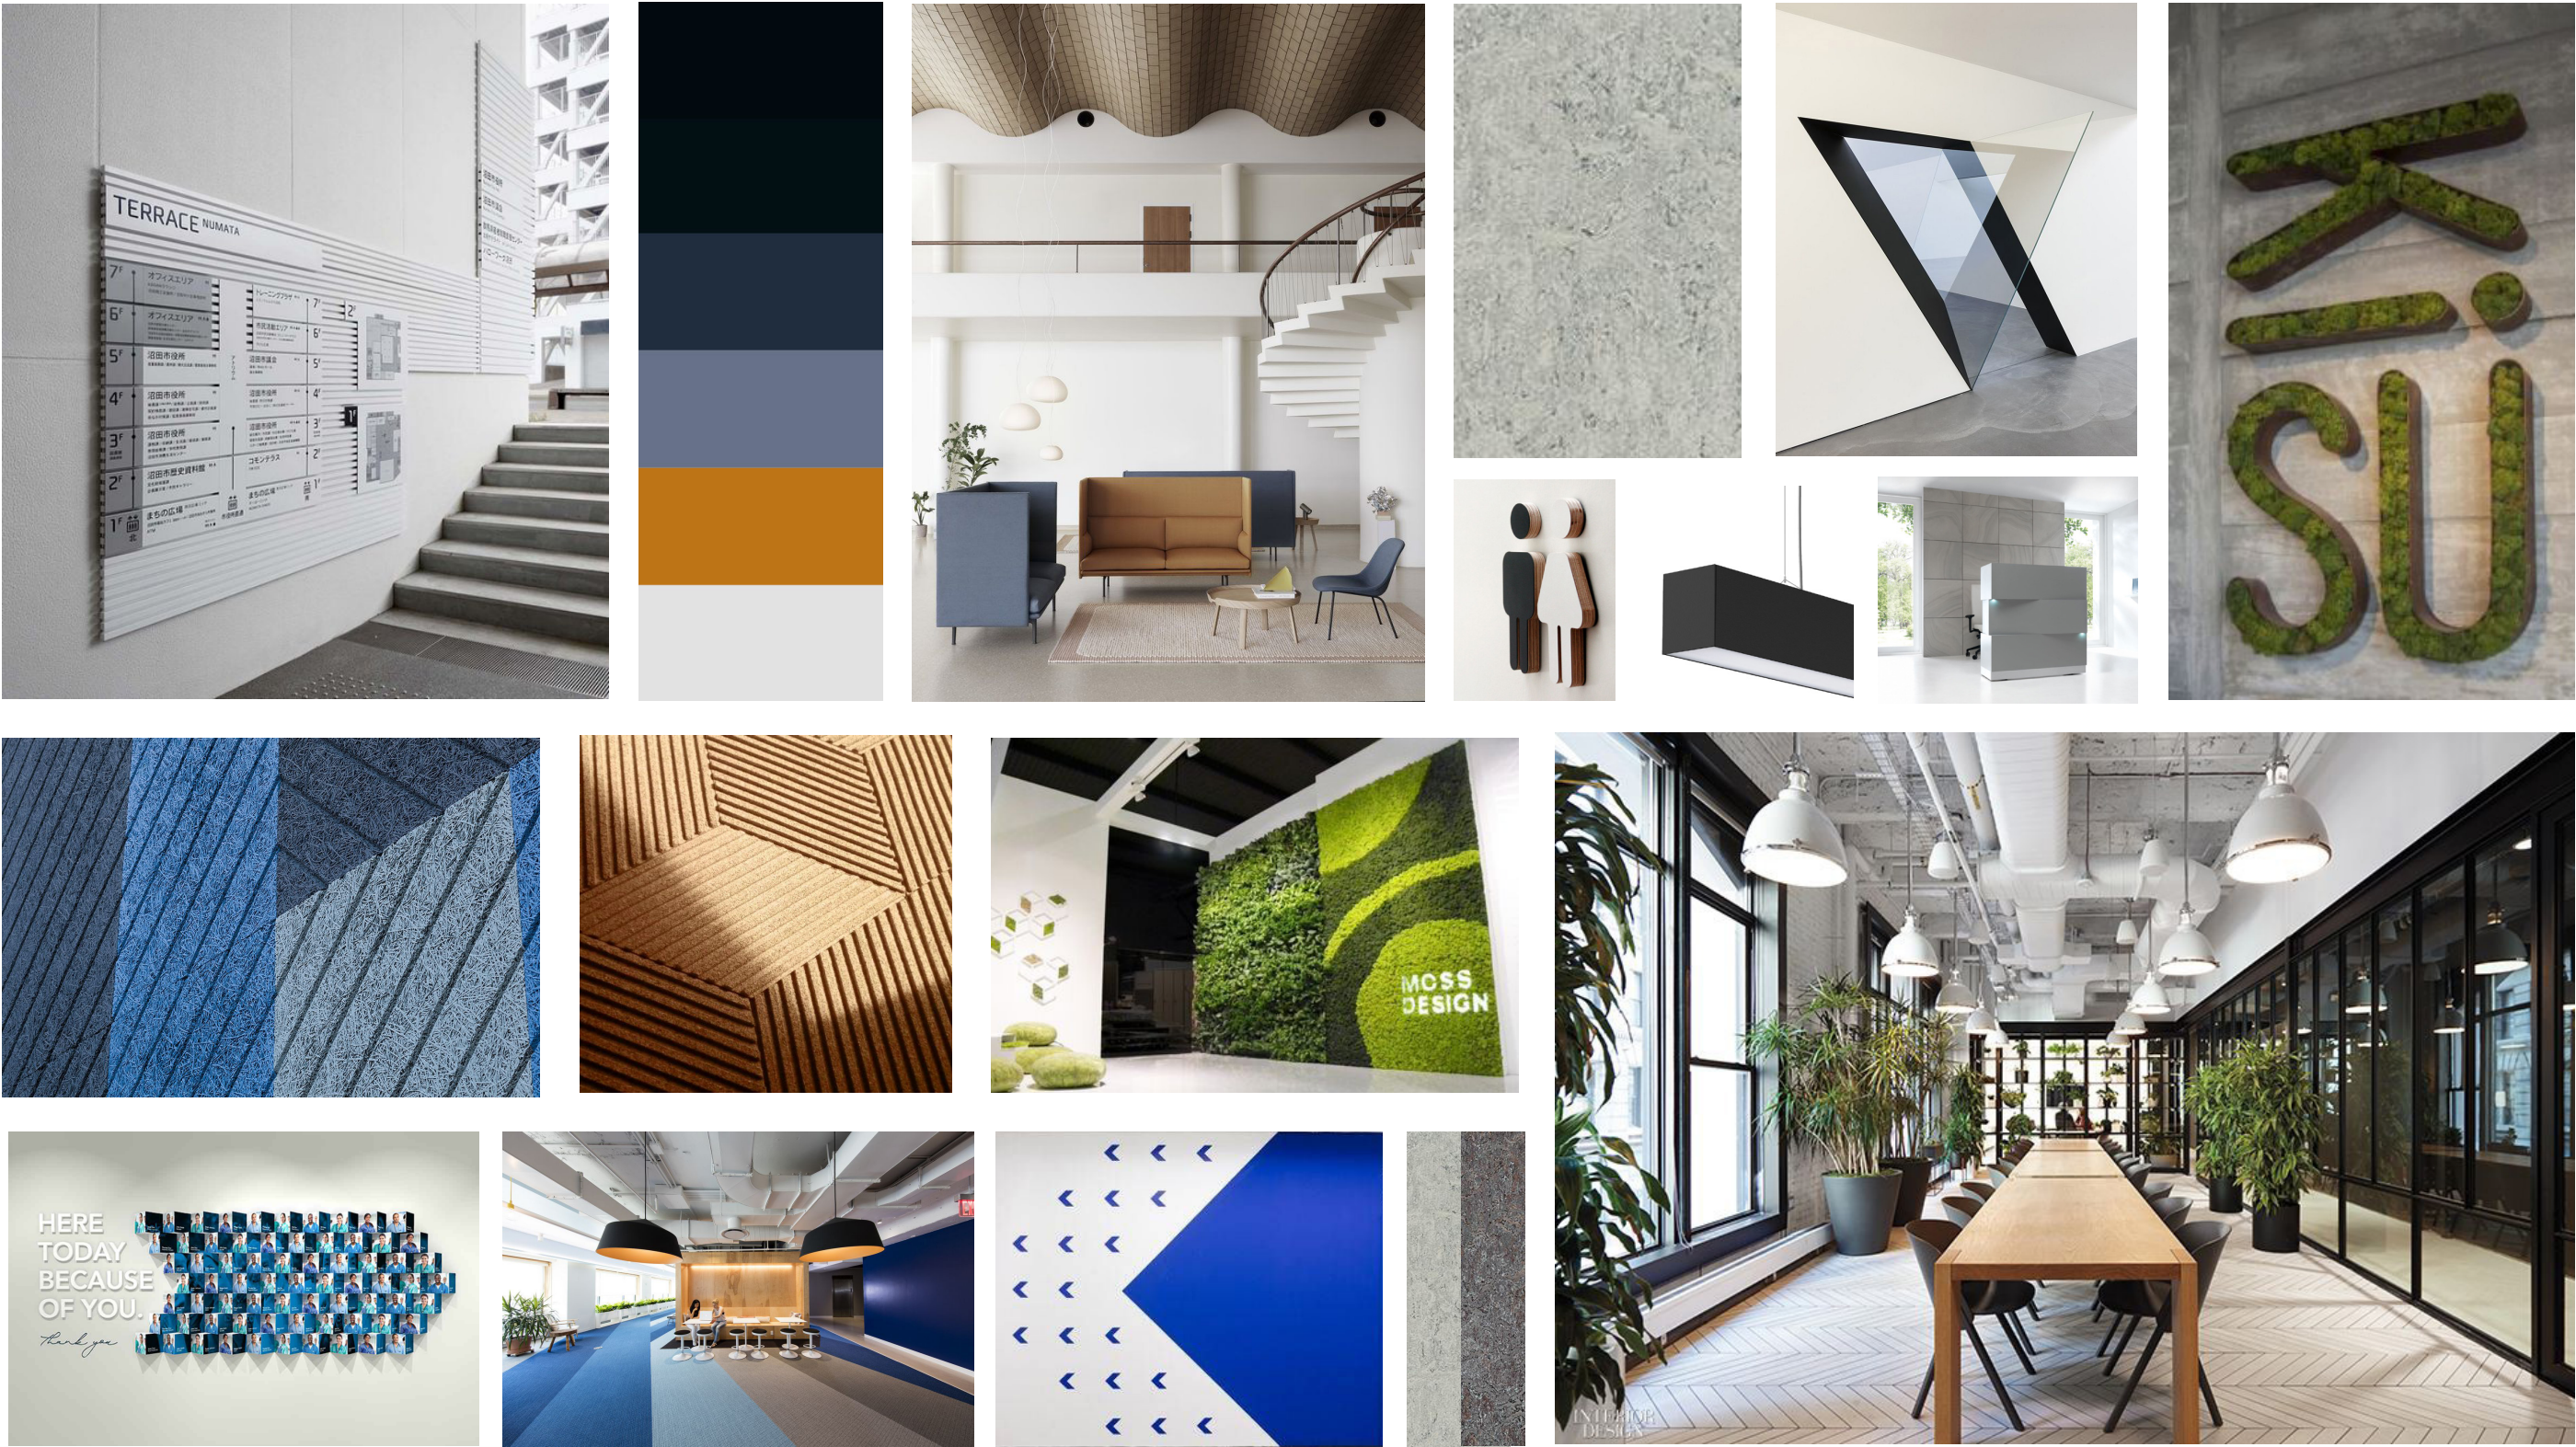

I-Construct: A centre of excellence for construction innovation.

The architecturally contemporary sustainably construction hub, consisting of workshop and demonstration spaces, a technology lab and conference facilities. Will become home to a team offering one-to-one mentoring, grant schemes and advice to small and medium sized firms connected to the construction industry.

Nourishing new and existing businesses with support to grow and innovate whilst creating economic growth and quality job roles for many.

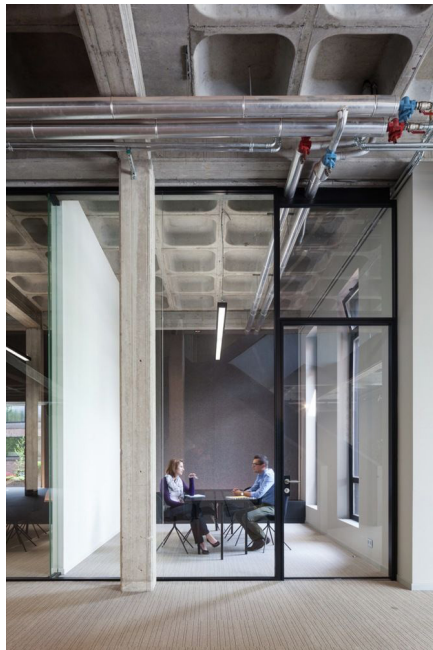

INTERIOR OVERVIEW CONCEPT

The design will compliment and enhance the buildings architecture. Lets accentuate the natural cascading light within the building and reflect the bold architectural shapes with biophilic preserved foliage and natural coloured textures. I-Concept's ethos can flow throughout the building with innovative representation.

EXPOSED STRUCTURAL BEAM CONCEPT

CAFE CONCEPT

The cafe area offers a sense of calm, wellness whilst stimulating the senses. Those who visit and work within the building will benefit from its contrasting environment whilst still enjoying its cohesive energy to the buildings overall scheme. A break-out space with diverse uses. Light and organic with its design features which are to compliment the contemporary architecture.

DETAILED DESIGN CONCEPT

FLOORING & PAINT FINISHES

PAINT FINISHES

Please refer to finishing schedule for detailed information

Woodwork to match grey to structural beams.
Dulux diamond Satinwood

White walls throughout excpet where indicated.
Dulux: Diamond Matt, Pure Brillaint White
