								Inc	Type	Colour								
90		COMCMGDAY	CONTROLS COMMISSIONING PER DAY. We have estimated a number of days for on site commissioning for the products proposed within this quotation. The commissioning engineers operate a seven hour working day during normal working hours (8am to 6pm Monday to Friday); all other times are charged at a higher rate and subject to prior agreement. Rate excludes travel and over night stay expenses. The charges assume a fault free installation with clear access-any specialised access equipment should also be available. It is a condition that 'as installed' drawings and completed commissioning schedules are available prior to attending site. Failure to fulfill his condition may result in additional visits which will be charged at Whitecroft standard rates.								N/A				1		635.00	635.00

**Totals Excluding VAT: 3,554.09**  
**All prices in STERLING**

The prices are based upon the total package, therefore, ordering of individual items may result in revised prices.

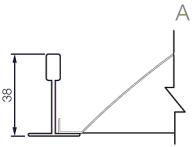

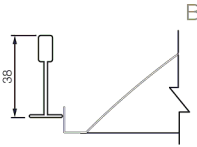

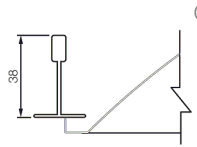

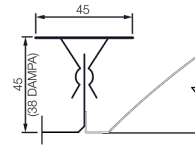

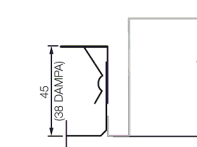

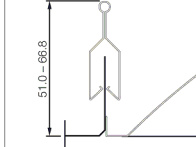

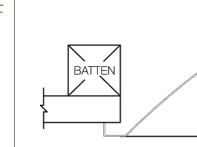

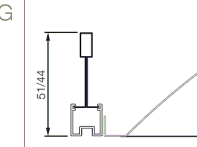

This quotation is valid until 22nd February 2018.

Please note that any quoted commissioning and related application/training works are nett prices and not available to discount.

Whitecroft are a member of the Electrolink WEEE compliance scheme. We have not charged a levy in advance for the luminaires as it is more appropriate to be applied at the time of disposal, however, because the lamp manufacturers charge in advance of disposal our quoted lamp prices include this levy.
