

South Tees Site Company Limited (STSC) - Prior Information Notice

PIN Reference	PIN-STSC-0003 High Voltage Cable Repair Options
Aim of this notice	Open early engagement – This means that a procurement idea is currently active and is in the early stage of development and judging interest from potential suppliers.
Description	<p>STSC are looking for options for its HV Cable repairs. It is interested in exploring the available technologies for substances which can be added to the oil filled cables which can repair any ruptures.</p> <p>There are roughly 80-100 kilometres of underground cable across the site with two cables showing signs of small leaks (7-10 litres/week) and one cable with a larger leak of around 30-40 litres/week on a cable with a 15,000 litre capacity.</p> <p>It is intended that a supplier day will be held via Microsoft Teams in order for the contracting authority to gather information on what is available. Information gathered may be used to help build a scope of requirements and may assist in the building of subsequent tender documents.</p> <p>This notice is to inform interested parties of the intended supplier day (Date to be confirmed).</p>
Industry	High Voltage Cable
CPV Code(s)	31321300
Location of contract	North East England
About the buyer	<p>South Tees Site Company (STSC) was formed in October 2016 as a wholly owned arm's length company of BEIS to carry out two distinctive sets of activities on the assets at South Tees steelworks formerly owned by SSI UK and under the control of the Official Receiver (OR). These activities were to provide:</p> <ul style="list-style-type: none"> • Management, operation, and maintenance of the South Tees Steelworks site for the Liquidator of SSI UK • Support, advice, and co-operation to the South Tees Development Corporation (STDC) in the development of its strategic vision for the regeneration of the wider South Tees area <p>This required STSC to execute good and efficient management and administration of the day-to-day</p>

	<p>operations and the “Keep Safe” status of the site. Keep Safe activity was summarised as:</p> <ul style="list-style-type: none"> • Inspection and risk assessment of redundant assets, including 400 individual buildings and structures • Maintenance and operation of Environmental, Health, Safety and Security Management and process control systems, assets, and equipment to ensure the site is operated without harm to people, the environment, or equipment • Management of the high voltage electrical distribution system to provide power to other businesses on the site • Management of some of the infrastructure in joint use by the site residents e.g. road and rail system <p>As part of the arrangements STSC also provided a range of additional site wide services to tenants on the South Tees site including security, drainage, weighbridge facilities, oil removal and fire prevention.</p> <p>In October 2020 STDC successfully completed a Compulsory Purchase Order (CPO) process to complete the acquisition of the SSI in Liquidation land and assets and hence bring the full South Tees Site, now renamed Teesworks, under their control. Ownership of STSC transferred from BEIS to STDC at the same time. In addition to its ongoing role STSC now also supports the STDC group companies to facilitate the safe preparation for, and execution of demolition of the assets to allow sustainable commercial development of Teesworks and local economy.</p>
