

This topographic map of Bramshot Country Park displays a detailed landscape with numerous contour lines and elevation points. The map is oriented with North at the top, as indicated by the north arrow in the upper right corner. A scale bar in the lower left corner shows a scale of 1:500, with markings for 0, 10, 20, 30, 40, and 50 meters. The map features a variety of geographical elements, including woodlands, grassy areas, and a central water body. Key features include:

- Contour Lines:** Brown lines representing elevation, with values ranging from approximately 61.3 to 63.5 meters.
- Elevation Points:** Numerous numerical values (e.g., 62.1, 62.5, 63.0) indicating specific spot heights across the terrain.
- Water Features:** A central water body, likely a pond or lake, surrounded by a grassy area. A 'ditch from LIDAR data set' is also marked.
- Vegetation:** Areas labeled 'grass', 'vegetation/shrub', and 'tree canopy' are scattered throughout the map.
- Infrastructure:** A path or road is visible, with a 'sign' marked near the center. A 'ditch inverts' is also noted.
- Boundaries:** The park's boundary is marked by a dashed line, with 'woodlands' labeled outside the main area.

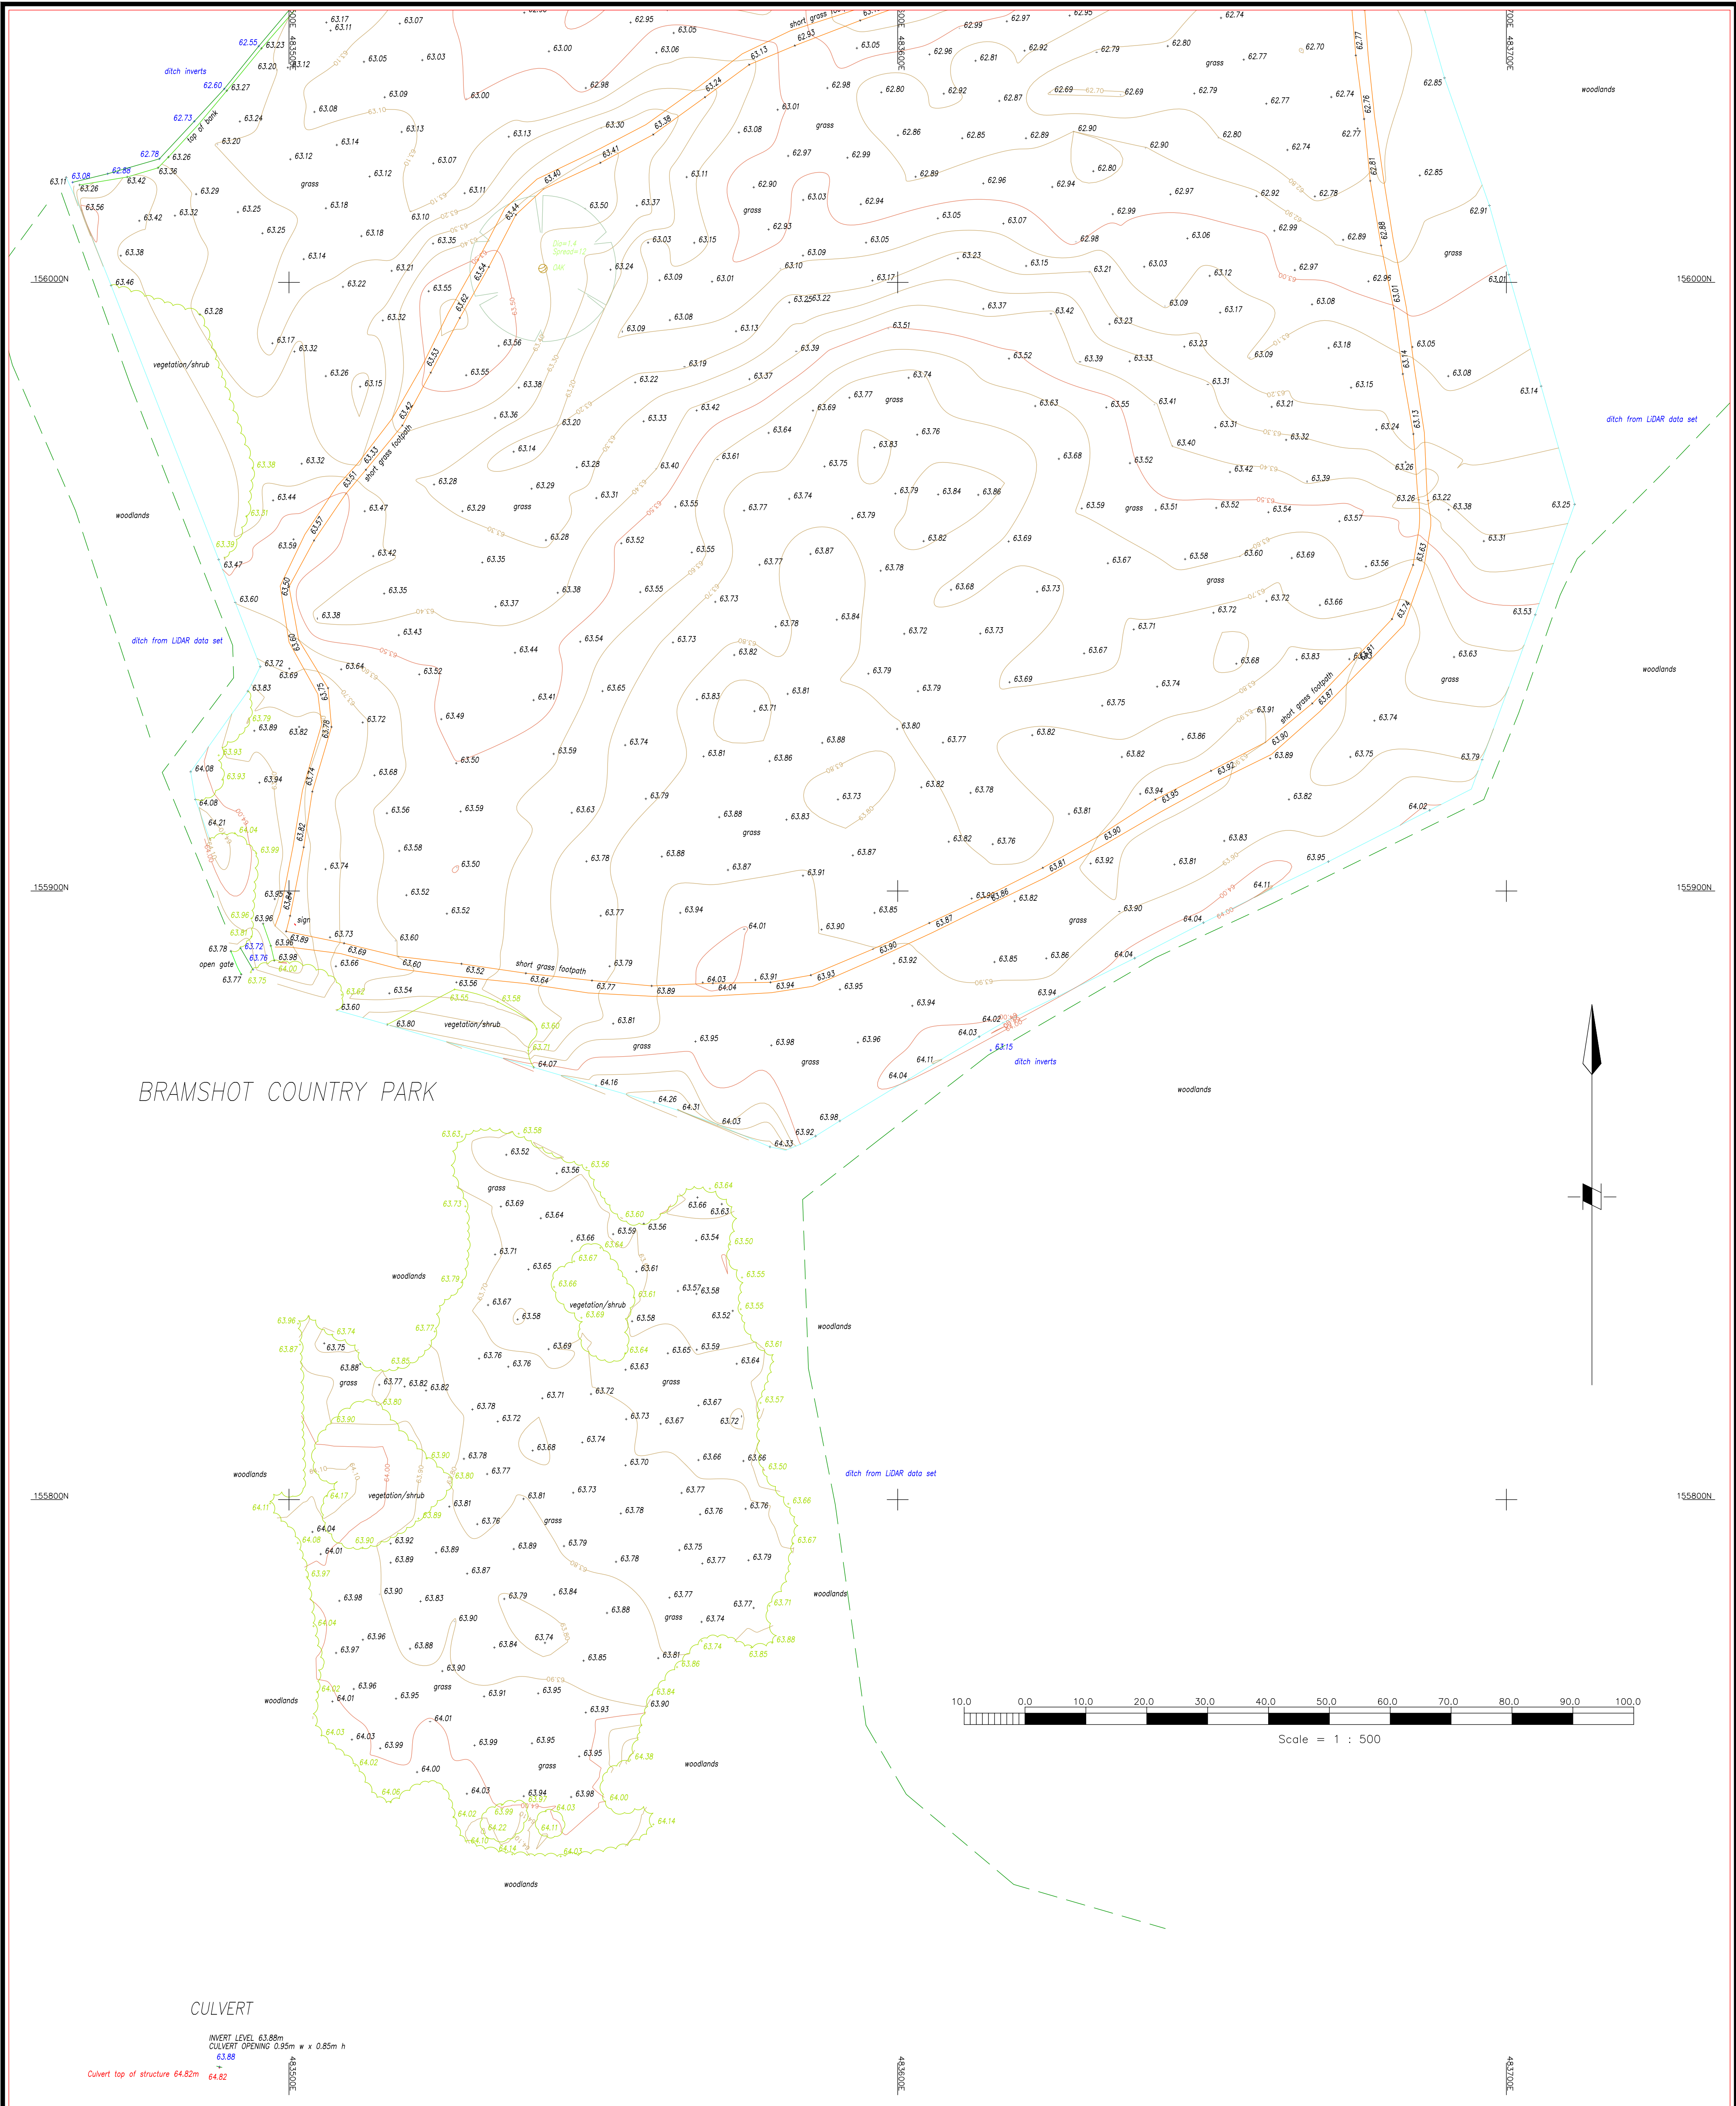

The map is a technical representation of the park's topography, providing a clear view of its physical characteristics and elevation changes.

[illegible]

NOTES

1. The accuracy of this survey drawing is dependent on the scale it was produced, and the original Specification. Users should not re-scale this drawing without written consent.
2. Where underground services are shown, all reasonable care has been taken in their location. The completeness and accuracy of this information however, cannot be guaranteed. Users should satisfy themselves with regard to the type, size and route of services before undertaking any work.
3. All reasonable care has been taken with the representation of the detail shown on this drawing, any discrepancies should be reported to Monaghan Surveys Ltd immediately.
4. This drawing is the property of Monaghan Surveys Ltd. It may not be copied, altered or incorporated into any other data without prior consent from D.Monaghan.
5. To be read in conjunction with the relevant survey brief.
