1. BACKGROUND TO THIS FRAMEWORK

The National Health Service (NHS) and wider public sector is facing a period of intense financial pressure to reduce costs. Authorities are looking towards innovative solutions to help reduce their cost base and increase efficiency across all departments. Innovations in lifecycle contract management would typically encourage a change of existing practice to improve efficiency and allow resources to be targeted on strategic objectives. These ideas are not always compared holistically against traditional methods that typically treat individual contracts or stages of a contract lifecycle in isolation.

The Countess of Chester Hospital Commercial Procurement Services (CPS) is a centre of procurement expertise providing strategic and specialist procurement services and advice to NHS trusts, wider public sector and private sector clients. Operating within, but operationally independent of, an NHS Acute Foundation Trust Procurement department, our in-depth knowledge of the NHS and the healthcare market coupled with excellent track record of delivering high quality commercial and procurement projects enables us to effectively advise, assist and deliver a range of benefits including service improvements and cash releasing and cost avoidance savings. CPS Framework Agreements currently serve over 70 public sector organisations, and offer unique access points to goods and services which offer innovation and savings with no customer access fees.

CPS wishes to award a national framework agreement for the provision of asset lifecycle contract management services which will allow for improvements in organisational efficiency which may otherwise have been overlooked under a fragmented approach to contract management. This framework will specifically target the requirement for an end to end outsourced lifecycle contract management solution spanning procurement, contract management and service delivery management. Bidders will be required to demonstrate how their solution will increase efficiency against traditional contract letting and management methods, whilst maintaining or improving high standards of delivery.

This framework agreement opportunity encourages smaller businesses to participate (SME's), as such the procurement process has been simplified to encourage greater participation. The proposed framework agreement will greatly reduce the ongoing administrative burden of repeating multiple procurement processes for the services described within this ITT. This framework will therefore support public procurement and private enterprise through its efficiency.

2. BACKGROUND TO THE COUNTESS OF CHESTER HOSPITAL NHS FOUNDATION TRUST COMMERCIAL PROCUREMENT SERVICE.

The Countess of Chester Hospital NHS Foundation Trust is comprised of a 600 bed acute general hospital located on the outskirts of the City of Chester, an 86 bed community based hospital located in Ellesmere Port, a number of West Cheshire community based health clinics and a shared service Microbiology Laboratory in Wirral.

The Trust also hosts a Commercial Procurement Service which not only undertakes its own commercial activity but seeks to act to the wider public sector to promote and develop smaller innovative businesses and ideas. Further information can be obtained from the website www.coch-cps.co.uk

The Countess of Chester Hospital NHS Foundation Trust as the Framework Manager will administer the framework agreement, provide guidance to client authorities and issue draft

contracts for consideration between client authorities and the successful supplier. In the first instance of any dispute the Framework Manager will offer first line mediation.

3. BACKGROUND TO THE PUBLIC SECTOR AND NHS

The public sector in the United Kingdom (UK) is comprised of many varying organisations. These include: ministries or departments of central government such as the Cabinet Office, Department of Health (including the National Health Service (NHS)) and Ministry of Justice; local authorities, such as councils and social services; wider public bodies such as fire and rescue services, police authority services, educational authorities, universities and public broadcasting; and finally utilities agents, such as water authorities. Derived from European Union (EU) treaty principles, UK public sector procurement bodies must comply with both the Public Procurement Directive and Public Remedies Directive. These mandate a regulated contract and tender procedure for opportunities above a certain financial threshold, which varies depending on the type of organisation and type of procurement being undertaken.

The National Health Service (NHS) in the UK is representative of over 400 health organisations including Hospital Trusts, Mental Health Trusts, Ambulance Trusts, Foundation Trusts, Clinical Commissioning Groups, Commercial Support Units and Community Health Trusts. The landscape is one of constant evolution and change.

The Countess of Chester Hospital's Commercial Procurement Service wishes to establish a Framework Agreement for use by the following UK public sector bodies (and any future successors to these organisations):

This Framework Agreement will be accessible for use by all UK Central Government Departments and their Arm's Length Bodies and agencies; Non-Ministerial Departments and Executive Agencies; and, the Wider Public Sector (and any future successors to these organisations).

(ii) subject to management supervision by another contracting authority listed above in this section VI.3 of this notice; or

(iii) more than half of the board of directors or members of which, or, in the case of a group of individuals, more than half of those individuals, are appointed by another contracting authority listed above in this section VI.3 of this notice

(iv) an association of or formed by one or more of the Contracting Authorities listed above in this section VI.3 of this notice

Entities which are not public sector bodies may also use the Framework Agreements if the Authority is satisfied that:

- such entity is calling-off goods and/or services directly, solely and exclusively in order to satisfy contractual obligations to one or more public sector bodies, all of which are entitled to use the Framework Agreements on their own account;
- all goods to be called-off by it are to be used directly, solely and exclusively to provide goods and/or services at sites occupied by such public sector body(ies); and

- it will pass the benefit of the call-off contract to such public sector body(ies) directly, in full and on a purely “pass-through” basis. Accordingly there must be no mark-up, management fee, service charge or any similar cost solely in relation to the supply of goods and/or services imposed on the relevant public sector body(ies), who must be able to benefit from the terms of the Framework Agreements in a like manner and to the same extent as if using the Framework Agreements on its/their own account.

Any ‘bodies governed by public law’ which under the Public Contracts Regulations 2015 means bodies that have all of the following characteristics

- (a) they are established for the specific purpose of meeting needs in the general interest, not having an industrial or commercial character;
- (b) they have legal personality; and
- (c) they have any of the following characteristics:—
 - (i) they are financed, for the most part, by the State, regional or local authorities, or by other bodies governed by public law;
 - (ii) they are subject to management supervision by those authorities or bodies; or
 - (iii) they have an administrative, managerial or supervisory board, more than half of whose members are appointed by the State, regional or local authorities, or by other bodies governed by public law.

4. HOW THE FRAMEWORK WILL OPERATE

This framework will be a single supplier framework and as such no further competition will be required once awarded. Client Authorities wishing to call-off the framework agreement may engage directly with the successful framework supplier and finalise their requirements based on their organisational needs. The framework will run for a four year term; however call-off contracts may exceed this period provided that they are awarded within the framework term.

The following outlines a high level process of how parties will engage each other:

1. The Client Authority contacts the Framework Manager for a unique framework order reference number.
2. The Client Authority makes reference to the unique framework order reference number on the subsequent call-off contract between the Supplier and the Client Authority. The Template order form (included in SCHEDULE B – NHS Framework Agreement) may be used if required. However a client purchase order making reference to the Framework Agreement and Framework Order Reference number is adequate as the call off contract.
3. Call-off contracts will be tracked and measured by the Framework Manager by exception.
4. Client Authorities using these services without making reference to the unique framework order reference number are doing so not in conjunction with the terms laid out within this framework agreement.

5. HOW THIS TENDER PROCESS WILL WORK.

Open Procedure

Following the receipt of your bid and once the final deadline passes; your bid will be opened by the assessment panel. Where prerequisites have been applied, these will be assessed as the first stage of the evaluation. Failure to meet any prerequisite will result in your bid being immediately rejected. Upon satisfying all prerequisites your bid will be qualitatively assessed using the award criteria laid out below. Following the conclusion of the evaluation you will be issued notification of either being successful or unsuccessful. This will be accompanied by a debrief letter advising you of your scores and if appropriate the scores of the winning bid(s), along with narrative as to how the scores were applied and what the characteristics and relative advantages of the winning bid were. A minimum 10 calendar day standstill period will follow prior to concluding the framework which will be formed upon the exchange and signing of framework documents. Where a single tender is received, no standstill period will be required. Following the signing of the framework documents a contract award notice will be published in OJEU detailing the successful applicant's details.
