Surrey
KT15 3NB

Dear Dan,

Please find attached our revised quotation for the various IVC equipment requested. I have grouped this into the following sections:

Table 1 – GM500 items

Table 2 – 1284 Lids

Table 3 – Autoclavable connections & Logistics

Table 4 – DGM racks, connections, AHU and Change Station

I have changed the 2 x complete DGM80 racks, to 2 x complete discounted DGM70 racks. This includes 140 x Polysulfone cage bases with silicone seal, 140 x stainless steel half wire bar lids, 140 x Polysulfone cage tops, 140 x 260ml Polysulfone bottle with silicone seal, 140 x 25mm bottle caps and 140 x label holders. Cost for these racks would have been over £15,000, each, however, I am pleased to be able to offer this to you for £13,000 total. All racking is still in its original packaging and has only been stored in a warehouse and not been to another site.

All other equipment in this table group remains the same from the original quote.

I will contact you later this week for your feedback.

Many thanks

More details can be found at www.tecniplast.it/uk/

The Tecniplast GM500 Caging System

Key Benefits Include

- **The chosen IVC** for breeding, experimental and quarantine areas throughout the world
- **Safe for your staff** – silicone gasket where 2 points meet
- **Maximum Flexibility** - Select either positive or negative pressure regime to suit your health status
- **Guaranteed protection for you and your animals** – H14 graded HEPA filtration
- **Easy to maintain** through innovative rack plenum design
- **Optimum use of holding room space** with the smallest footprint of IVC racks available in line with the latest EU guidelines
- **Zero cross contamination** across all cages on each IVC rack

Caging options available

- In-cage enrichment
 - GYM500 Mouse wheel
 - Mouse House
 - Mouse Mezzanine
 - Mouse Loft
 - Mouse Balcony
- Multi coloured labels and cage components to distinguish between multiple barriers
- GM500 Plus base suitable for 2017 EU Guidelines for Inbred Trio breeding or monogamous pair with additional female
- GM500 in-cage filter to reduce rack maintenance. Zero consumables and ideal if your facility does not have a rack washer

Technical Specification

- (All rack sizes below are also available as 9 high racks but with the same footprint, please ask for more details):

	Single Sided			Double Sided		
	DGM60	DGM70	DGM80	DGM120	DGM140	DGM160
Overall Dimensions (mm) *height with supply plenum	1314(w) x 500 (d) x 1998 (*2076) (h)	1528(w) x 500 (d) x 1998 (*2076) (h)	1742 (w) x 500 (d) x 1998 (*2076) (h)	1314 (w) x 888 (d) x 1998 (*2081) (h)	1528 (w) x 888 (d) x 1998 (*2081) (h)	1742 (w) x 888 (d) x 1998 (*2081) (h)

Estimated delivery time: 10 to 12 working weeks from receipt of purchase order.

Free of charge delivery with this order

TECNIPLAST SPECIAL TERMS AND CONDITIONS**1. Unless stated otherwise, payment terms are as follows:**

100% payment for goods and services is due 30 days from the date of invoice or when available to deliver.

2. All prices are subject to VAT charged at the prevailing rate at time of order placement (valid exemption certificate accepted).

3. All prices are fixed and valid for 30 days.

4. The **Stock Clearance** items are sold as seen and carry no warranty.

5. The equipment is warranted against faulty parts and defects in workmanship for a period of 12 months from date of delivery or availability to deliver. The guarantee will not cover damage caused by accident or misuse through fault or negligence.

Warranty periods are:-

- **Racks** – 12 months.
- **AHU** – 24 months.
- **Cages** – (see point 6).
- **Laminar Flow** – 24 months.

6. In order for the manufacturer's warranty to remain valid for the full period, a routine maintenance must be performed by competent, qualified and fully trained personnel at the recommended intervals. Service Contracts can be quoted separately on request.

7. Plastic Warranty:

- **TECNIPLAST H-TEMP Polysulfone (PSU)** caging is unconditionally guaranteed for **3** years from the stamped date.

During the warranty period Tecniplast liability shall be limited to the replacement of all severely warped, discoloured or cracked products not caused by improper use.

Hereby follows a non-exhaustive list of improper usage examples:

- Washing with highly alkaline Ph detergents (particularly prolonged exposure to strong alkali in a hot environment).
- Autoclaving to temperatures higher than 134°C/273°F.
- Autoclaving in non-suitable plastic bags (sealed, no high steam permeability, wrong dimensions).

For full Terms and Conditions, please see our website www.tecniplastuk.com
