- 1.3 Each fee element of the Price shall be calculated and paid in accordance with this Schedule 2 as supplemented by Part 5 (Payment Mechanism) of the Specification. In the event of any conflict or inconsistency between the provisions in this Schedule 2 and any provisions in the Specification, the provisions in this Schedule 2 shall prevail and take priority.
- 1.4 Any rights in this Schedule 2 for the Authority to suspend the payment of particular fee element of the Price in particular circumstances shall be without prejudice to any other rights or remedies of the Authority under the Contract, including (without limitation) any rights under Schedule 11 (Performance Management/PIP and Action Plan Process).
- 1.5 **Fixed Delivery Fee**
- 1.5.1 Subject to the Supplier's compliance with the Expected Standards, the Authority shall pay a Fixed Delivery Fee in accordance with this paragraph 1.5.
 - 1.5.2 The Fixed Delivery Fee for the whole Term shall be a total sum of £4968,750.00, which shall be payable Monthly in arrears in equal Monthly instalments during the Term.
 - 1.5.3 The Supplier may not invoice for, and the Authority shall not be obliged to pay, any Fixed Delivery Fees (excluding any DAF Funding) during any Expected Standards Failure Period. The Supplier may invoice for any Fixed Delivery Fees accrued but not invoiced during an Expected Standards Failure Period, following the expiry of such Expected Standards Failure Period.
 - 1.5.4 DAF Funding
 - (a) The Supplier may in its Profile allocate a sum no greater than 10% of the Monthly Fixed Delivery Fees (the **DAF Funding**) to a discretionary access fund.

- 1.6.3 In the event that in respect of any Month either:
 - (a) any four (4) Compliance Measures are allocated a Red Status in accordance with the relevant process described in Part 5 of the Specification; or
 - (b) the Supplier fails to perform to an acceptable level against any single Critical Compliance Measure;
- 1.6.4 then the Supplier's overall level of performance shall be treated by reference to the relevant process described in Part 5 of the Specification as being "Non-Compliant" meaning that the Compliance Fee for that Month shall be suspended and the Supplier may not invoice for, and the Authority shall not be obliged to pay, that Compliance Fee or the Compliance Fee for any subsequent Month until such time as the Supplier's overall level of performance is treated as being "Compliant". In these circumstances, once the Authority has determined by reference to the relevant process in Part 5 of the Specification that the Supplier's overall level of performance is "Compliant", the relevant suspension of the Compliance Fees shall no longer apply and the Supplier shall be entitled to invoice, and the Authority shall pay in accordance with the terms of this Contract, all of the relevant previously suspended Compliance Fees.

If the relevant total number does exceed the relevant Cumulative Enrolment Target then the Enrolment Fees applicable to the excess number of Accepted Enrolments shall be carried forward and the same process as described in this paragraph 1.7.5 shall apply for each successive Month.

any Profile Payment for any subsequent Month until, as at the end of any Month, the total number of Enrolments Accepted in that Month and all previous Months during the Term is between 100% and 115% of the Cumulative Enrolment Target. In these circumstances, once a position is reached as at the end of any subsequent Month in which the total number of Enrolments Accepted in that Month and all previous Months during the Term is between 100% and 115% of the Cumulative Enrolment Target, the relevant suspension of Profile Payments shall cease to apply and the Supplier shall be entitled to invoice for, and the Authority shall pay, all relevant previously suspended Profile Payments.

In that next following Month, the Supplier may then invoice for the relevant Activity Fees carried forward from the previous Month, together with Activity Fees for Activities which are Accepted in that next following Month, provided that this does not result in the total number of Accepted Activities invoiced by the Supplier in that Month and all preceding Months during the Term (if any) exceeding the Cumulative Activity Target. If the relevant total number does exceed the relevant Cumulative Activity Target then the Activity Fees applicable to the excess number of Accepted Activities shall be carried forward and the same process as described in this paragraph 1.8.5 shall apply for each successive Month.
- 1.8.6 From the fifth full calendar Month following the Services Commencement Date, where, in any Month, the Supplier delivers Accepted Activities in respect of any Activity Hub which mean that the total number of Activities Accepted during that Month and all previous Months during the Term is between 100% and 115% of the Cumulative Activity Target, an additional Monthly Profile Payment of £3,010 (per Activity Hub and in respect of each Activity Type) shall be payable, Monthly in arrears. The total Profile Payments available during the Term shall be no higher than £75,250 (per Activity Hub) in respect of each Activity Type and the Authority shall not be obliged to pay any Profile Payments in excess of this sum.

- 2.5.2 The Supplier shall notify the Authority if there are any legislative requirements, which would necessitate the retention of certain Documentation for longer periods than those specified above and the parties shall agree a reasonable extension of such periods.

- 2.5.3 The retention periods apply to the primary source documents and any electronic or other types of records produced.
- 2.5.4 All Documentation including those which provide full and accurate records of the Services, all expenditure reimbursed by the Authority and all payments made by the Authority, must be retained securely for a period of twelve (12) years after the final payment of all sums due under the Contract, regardless of the period specified above.
- 2.5.5 To those records as they may reasonably require in order to review the Supplier's compliance with the Contract or for the extraction of information. Clause 32 of the Contract refers.

2.6 **Alternative methods of documentation storage**

Any such proposals must comply with Relevant Legislation such as: Public Records Acts 1958 and 1967, the Taxes Management Act 1970, the Value Added Tax Act 1994, the Companies Act 1985, EU Regulations and the Statute of Limitations.
- 2.6.2 The National Audit Office requires sight of certain original documents when conducting its audits. These include documents such as contracts, agreements, guarantees and titles to property, which may also be required as evidence to the courts. The Supplier shall ensure that if alternative methods of document storage are proposed there must be stated methods of minimising the potential risks that may arise.

Examples of potential risks are:

 - (b) The creation of duplicated records;
 - (c) Corrupt, incomplete or illegible copies;
 - (d) Misleading copies e.g. alterations to the original not shown, subject to unauthorised alteration (accidental or deliberate), not the current version, not indexed to related documents;

- 2.6.3 Any such proposed system shall offer no opportunity for records/documents to be amended without an audit trail. The Supplier shall detail to the Authority for Approval how it shall minimise these risks.
- 2.6.4 Effective document management systems normally provide the following facilities:
 - (a) Data capture – the means of transferring the originals to the alternative means of storage and after data capture a quality assurance process to ensure that the document has been captured accurately and can be reproduced;
 - (b) Indexing - identifies and classifies documents for retrieval and a quality assurance process to ensure that a document has been properly indexed;
 - (c) Storage media - which provide sufficient capacity and security;

- (d) Manipulation - enables the stored documents to be combined or manipulated to create new documents;
- (e) Networks - enable the stored documents to be shared and exchanged;
- (f) Workflow – systems and/or software which enables only particular personnel to view, authorise, edit, annotate, print etc. the stored records;
- (g) Retrieval, display and print.

2.6.5 The Supplier shall advise the Authority what facilities would be included under this Contract to be Approved.

3 Document Retention Policy

- 3.1 The Supplier shall produce and maintain a Document Retention Policy detailing how they will comply with this Schedule 5, and shall provide a copy of such policy to the Authority upon request.

- 6.8 If the Authority unreasonably withholds its approval to the implementation of any changes to the ICT Environment and/or to the ISMS and/or to the Security Plan proposed by the Supplier in accordance with paragraph 6.7, the Supplier is not in breach of the Contract to the extent that it can be shown that such breach:
 - 6.8.1 has arisen as a direct result of the Authority unreasonably withholding Approval to the implementation of such proposed changes; and
 - 6.8.2 would have been avoided had the Authority Approved the implementation of such proposed changes.
- 6.9 If a change to the ISMS or Security Plan is to address any non-compliance with ISO/IEC 27001:2013 requirements or equivalent, the Baseline Security Requirements or any obligations in the Contract, the Supplier shall implement such change at its own cost and expense.
- 6.10 If any repeat Security Test carried out pursuant to paragraph 6.7 reveals an actual or potential breach of security or weakness exploiting the same root cause failure, such circumstance shall constitute a material Default.

The Authority and its authorised representatives shall, where applicable, be granted access to the Supplier Sites and Sub-contractor premises for this purpose.
- 7.3 If, on the basis of evidence resulting from such audits, it is the Authority's reasonable opinion that ISMS is not compliant with any applicable principles and practices of ISO/IEC 27001: 2013 or equivalent, the requirements of this Schedule 6 and/or the Baseline Security Requirements is not being achieved by the Supplier, the Authority shall notify the Supplier of this and provide a reasonable period of time (having regard to the extent and criticality of any non-compliance and any other relevant circumstances) for the Supplier to implement any necessary remedy. If the Supplier does not ensure that the ISMS is compliant within this

period of time, the Authority may obtain an independent audit of the ISMS to assess compliance (in whole or in part).

- 7.4 If, as a result of any such independent audit as described in paragraph 7.3 the Supplier is found to be non-compliant with any applicable principles and practices of ISO/IEC 27001:2013 or equivalent, the requirements of this Schedule 6 and/or the Baseline Security Requirements the Supplier shall, at its own cost, undertake those actions that are required in order to ensure that the ISMS is compliant and shall reimburse the Authority in full in respect of the costs obtaining such an audit.

8 Security risks and breaches

- 8.1 The Supplier shall use its reasonable endeavours to prevent any Breach of Security for any reason, including as a result of malicious, accidental or inadvertent behaviour.

 - (a) minimise the extent of actual or potential harm caused by any Breach of Security;
 - (b) remedy any Breach of Security to the extent that is possible and protect the integrity of the ICT Environment (to the extent that this is within its control) and ISMS against any such Breach of Security or attempted Breach of Security;
 - (c) mitigate against a Breach of Security or attempted Breach of Security; and
 - (d) prevent a further Breach of Security or attempted Breach of Security in the future resulting from the same root cause failure;
 - 8.3.2 provide to the Authority and/or the Computer Emergency Response Team for UK Government ("GovCertUK") or equivalent any data that is requested relating to the Breach of Security or attempted Breach of Security within 2 Working Days of such request; and
 - 8.3.3 as soon as reasonably practicable and, in any event, within 2 Working Days following the Breach of Security or attempted Breach of Security, provide to the Authority full details (using the reporting mechanism defined by the ISMS) of the Breach of Security or attempted Breach of Security, including a root cause analysis if required by the Authority

and the Supplier recognises that the Authority may report significant actual or potential losses of Personal Data to the Information Commissioner or equivalent and to the Cabinet Office.

- 8.4 If any action is taken by the Supplier in response to a Breach of Security or attempted Breach of Security which occurred as a result of non-compliance of the ISMS with any ISO/IEC 27001: 2013 requirements or equivalent (as applicable), the Baseline Security Requirements and/or the requirements of this Schedule 6, any such action and change to the ISMS and/or Security Plan as a result shall be implemented at the Supplier's cost.

9 IT Environment

- 10.3 The Supplier shall procure the application of security patches to vulnerabilities categorised as 'Critical' within 7 days of public release, vulnerabilities categorised as 'Important' within 30 days of public release and vulnerabilities categorised as 'Other' within 60 days of public release, except where:
- 10.3.1 the Supplier can demonstrate that a vulnerability is not exploitable within the context of the Services being provided, including where it resides in a software component which is not being used, provided that, where those vulnerabilities become exploitable, they are remedied by the Supplier within the timescales in paragraph 10.3;
 - 10.3.2 the application of a security patch in respect of a vulnerability categorised as 'Critical' or 'Important' adversely affects the Supplier's ability to deliver the Services, in which case the Supplier shall be granted an extension to the

- timescales in paragraph 10.3 of 5 days, provided that the Supplier continues to follow any security patch test plan agreed with the Authority; or
- 10.3.3 the Authority agrees a different timescale after consultation with the Supplier in accordance with the processes defined in the ISMS.
- 10.4 The ISMS and the Security Plan shall include provision for the Supplier to upgrade software throughout the Term within 6 Months of the release of the latest version unless:
- 10.4.1 upgrading such software reduces the level of mitigation for known threats, vulnerabilities or exploitation techniques, provided always that such software is upgraded by the Supplier within 12 Months of release of the latest version; or
- 10.4.2 otherwise agreed with the Authority in writing.
- 10.5 The Supplier shall:
- 10.5.1 implement a mechanism for receiving, analysing and acting upon threat information provided by GovCertUK, or any other competent central Government Body;

- 10.5.4 pro-actively scan the ICT Environment (to the extent that this is within the control of the Supplier) for vulnerable components and address discovered vulnerabilities through the processes described in the ISMS;
- 10.5.5 from the Commencement Date and within 5 Working Days of the end of each subsequent Month during the Term provide a report to the Authority detailing both patched and outstanding vulnerabilities in the ICT Environment (to the extent that this is within the control of the Supplier) and any elapsed time between the public release date of patches and either the time of application or, for outstanding vulnerabilities, the time of issue of such report;
- 10.5.6 propose interim mitigation measures in respect of any vulnerabilities in the ICT Environment (to the extent this is within the control of the Supplier) known to be exploitable where a security patch is not immediately available;
- 10.5.7 remove or disable any extraneous interfaces, services or capabilities that are no longer needed for the provision of the Services (in order to reduce the attack surface of the ICT Environment to the extent this is within the control of the Supplier); and
- 10.5.8 inform the Authority when it becomes aware of any new threat, vulnerability or exploitation technique that has the potential to affect the security of the IT Environment (to the extent this is within the control of the Supplier) and provide initial indications of possible mitigations.
- 10.6 If the Supplier is unlikely to be able to mitigate any vulnerability within the timescales in paragraph 10.3, the Supplier shall notify the Authority immediately.
- 10.7 Any failure by the Supplier to comply with paragraph 10.3 shall constitute a material Default.

11 Sub-contracts

- 11.1 The Supplier shall ensure that all Sub-Contracts with Sub-Contractors who have access to Information Assets and/or Authority Data contain equivalent provisions in relation to information assurance and security that are no less onerous than those imposed on the Supplier under the Contract.

- 1.1 The Supplier shall, unless otherwise Approved in accordance with paragraph 5.2 of this Appendix A, only have access to and handle Information Assets and Authority Data that are classified under the Government Security Classifications Scheme as OFFICIAL.
- 1.2 There may be a specific requirement for the Supplier in some instances on a limited 'need to know basis' to have access to and handle Information Assets and Authority Data that are classified as 'OFFICIAL-SENSITIVE.'
- 1.3 The Supplier shall apply the minimum security controls required for OFFICIAL information and OFFICIAL-SENSITIVE information as described in Cabinet Office guidance, currently at:
https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/251480/Government-Security-Classifications-April-2014.pdf.
- 1.4 The Supplier shall be able to demonstrate to the Authority and any accreditor that it has taken into account the "Technical Controls Summary" for OFFICIAL (in the above guidance) in designing and implementing the security controls in the Supplier System, which shall be subject to assurance and accreditation to Government standards.
- 1.5 Additional controls may be required by the Authority and any accreditor where there are aspects of data aggregation.

2 End User Devices

- 2.1 Authority Data shall, wherever possible, be held and accessed on paper or in the ICT Environment on secure premises and not on removable media (including laptops, removable discs, CD-ROMs, USB memory sticks, PDAs and media card formats) without Approval. If Approval is sought to hold and access data by other means, the Supplier shall consider the second-best option and third best option below and record the reasons why a particular approach should be adopted when seeking Approval:
 - 2.1.1 second best option means: secure remote access so that data can be viewed or amended over the internet without being permanently stored on the remote device, using products meeting the FIPS 140-2 standard or equivalent, unless Approved;
 - 2.1.2 third best option means: secure transfer of Authority Data to a remote device at a secure site on which it will be permanently stored, in which case the Authority Data and any links to it shall be protected at least to the FIPS 140-2 standard or equivalent, unless otherwise Approved, and noting that protectively marked Authority Data must not be stored on privately owned devices unless they are protected in this way.
- 2.2 The right to transfer Authority Data to a remote device should be carefully considered and strictly limited to ensure that it is only provided where absolutely necessary and shall be subject to monitoring by the Supplier and Authority.
- 2.3 Unless otherwise Approved, when Authority Data resides on a mobile, removable or physically uncontrolled device, it shall be:
 - 2.3.1 the minimum amount that is necessary to achieve the intended purpose and should be anonymised if possible;

- 2.3.2 stored in an encrypted form meeting the FIPS 140-2 standard or equivalent and using a product or system component which has been formally assured through a recognised certification process of CESG to at least Foundation Grade, for example, under the CESG Commercial Product Assurance scheme ("CPA") or equivalent, unless otherwise Approved;
 - 2.3.3 protected by an authentication mechanism, such as a password; and
 - 2.3.4 have up to date software patches, anti-virus software and other applicable security controls to meet the requirements of this Schedule 6.
- 2.4 Devices used to access or manage Authority Data shall be under the management authority of the Supplier and have a minimum set of security policy configurations enforced. Unless otherwise Approved, all Supplier devices shall satisfy the security requirements set out in the CESG End User Devices Platform Security Guidance ("CESG Guidance") (<https://www.gov.uk/government/collections/end-user-devices-security-guidance--2>) or equivalent.
- 2.5 Where the CESG Guidance highlights shortcomings in a particular platform the Supplier may wish to use, then these should be discussed with the Authority and a joint decision shall be taken on whether the residual risks are acceptable. If the Supplier wishes to deviate from the CESG Guidance, this should be agreed in writing with the Authority on a case by case basis.

3 Data Storage, Processing, Management, Transfer and Destruction

- 3.1 The Parties recognise the need for Authority Data to be safeguarded and for compliance with the Data Protection Legislation. To that end, the Supplier shall inform the Authority the location within the United Kingdom where Authority Data is stored, processed and managed. The import and export of Authority Data from the Supplier System must be strictly controlled and recorded.
- 3.2 The Supplier shall inform the Authority of any changes to the location within the United Kingdom where Authority Data is stored, processed and managed and shall not transmit, store, process or manage Authority Data outside of the United Kingdom without Approval which shall not be unreasonably withheld or delayed provided that the transmission, storage, processing and management of Authority Data offshore is within:
- 3.2.1 the European Economic Area ("EEA"); or
 - 3.2.2 another country or territory outside the EEA if that country or territory ensures an adequate level of protection by reason of its domestic law or of the international commitments it has entered into which have been defined as adequate by the European commission.
- 3.3 The Supplier System shall support the requirement of the Authority to comply with Government policy and Cabinet Office guidance on Offshoring, currently set out at: <https://ogsirooffshoring.zendesk.com/hc/en-us/articles/203107991-HMG-sOffshoring-Policy>
- by assessing, as required, any additional security risks associated with the storage, processing and/or transmission of any data and/or information offshore, including by an offshore Supplier (which may include the use of 'landed resources'), taking account of European Union requirements to confirm the 'adequacy' of protection of Personal Data in the countries where storage, processing and/or transmission occurs. No element of the Supplier System may be off-shored without Approval.
- 3.4 The Supplier shall ensure that the Supplier System provides internal processing controls between security domains to prevent the unauthorised high domain exporting of Authority Data to the low domain if there is a requirement to pass data between different security domains.

- 3.5 The Supplier shall ensure that any electronic transfer of Authority Data:
- 3.5.1 protects the confidentiality of the Authority during transfer through encryption suitable for the impact level of the data;
 - 3.5.2 maintains the integrity of the Authority Data during both transfer and loading into the receiving system through suitable technical controls for the impact level of the data; and
 - 3.5.3 prevents the repudiation of receipt through accounting and auditing.
- 3.6 The Supplier shall:
- 3.5.4 protect Authority Data, including Personal Data, whose release or loss could cause harm or distress to individuals and ensure that this is handled as if it were confidential while it is stored and/or processed;
 - 3.5.5 ensure that any official-sensitive information, including Personal Data is encrypted in transit and when at rest when stored away from the Supplier's controlled environment;
 - 3.5.6 on demand, provide the Authority with all Authority Data in an agreed open format;

 - 3.5.9 securely erase any or all Authority Data held by the Supplier when requested to do so by the Authority;
 - 3.5.10 ensure that all material used for storage of Confidential Information is subject to controlled disposal and the Supplier shall:
 - (a) destroy paper records containing Personal Data by incineration, pulping or shredding so that reconstruction is unlikely; and
 - (b) dispose of electronic media that was used for the processing or storage of Personal Data through secure destruction, overwriting, erasure or degaussing for re-use.

4 Networking

- 4.1 Any Authority Data transmitted over any public network (including the Internet, mobile networks or un-protected enterprise network) or to a mobile device shall be encrypted using a product or system component which has been formally assured through a certification process recognised by CESG, to at least Foundation Grade, for example, under CPA or through the use of Public Sector Network ("PSN") compliant encrypted networking services or equivalent unless none are available in which case the Supplier shall agree the solution with the Authority.
- 4.2 The Supplier shall ensure that the configuration and use of all networking equipment in relation to the provision of the Services, including equipment that is located in secure physical locations, shall be at least compliant with Good Industry Practice.
- 4.3 The Supplier shall ensure that the ICT Environment (to the extent this is within the control of the Supplier) contains controls to maintain separation between the PSN and internet connections if used.

5 Security Architectures

- 5.1 When designing and configuring the ICT Environment (to the extent that this is within the control of the Supplier) the Supplier shall follow Good Industry Practice and seek guidance from recognised security professionals with the appropriate skills and/or those with a CESG Certified Professional certification (<http://www.cesg.gov.uk/awarenesstraining/IA-certification/Pages/index.aspx>) or equivalent for all bespoke or complex components.
- 5.2 The Supplier shall provide to the Authority and any accreditor sufficient design documentation detailing the security architecture of the ICT Environment and data transfer mechanism to support the Authority's and any accreditor's assurance that this is appropriate, secure and compliant with the Authority's requirements.
- 5.3 The Supplier shall apply the 'principle of least privilege' (the practice of limiting systems, processes and user access to the minimum possible level) to the design and configuration of the ICT Environment used for the storage, processing and management of Authority Data. Users should only be granted the minimum necessary permissions to access Information Assets and Authority Data and must be automatically logged out of the Supplier System if an account or session is inactive for more than 15 minutes.

6 Digital Continuity

The Supplier shall ensure that each Information Asset is held in an appropriate format that is capable of being updated from time to time to enable the Information Asset to be retrieved, accessed, used and transferred to the Authority, including in accordance with any information handling procedures set out in PSI 24/2014 (Information Assurance) if applicable.

7 Personnel Vetting and Security

- 7.1 All Staff shall be subject to pre-employment checks that include, as a minimum, their employment history for at least the last 3 years, identity, unspent criminal convictions and right to work (including nationality and immigration status) and shall be vetted in accordance with:

- 7.5 The Supplier shall ensure that Staff who can access Information Assets and/or Authority Data and/or the ICT Environment are aware of their responsibilities when handling such information and data and undergo regular training on secure information management principles. Unless otherwise Approved, this training must be undertaken annually.
- 7.6 If the Supplier grants Staff access to Information Assets and/or Authority Data, those individuals shall be granted only such levels of access and permissions that are necessary for them to carry out their duties. Once Staff no longer require such levels of access or

permissions or leave the organisation, their access rights shall be changed or revoked (as applicable) within one Working Day.

8 Identity, Authentication and Access Control

- 8.1 The Supplier shall operate a robust role-based access control regime, including network controls, to ensure all users and administrators of and those maintaining the ICT Environment are uniquely identified and authenticated when accessing or administering the ICT Environment to prevent unauthorised users from gaining access to Information Assets and/or Authority Data. Applying the 'principle of least privilege', users and administrators and those responsible for maintenance shall be allowed access only to those parts of the ICT Environment they require. The Supplier shall retain an audit record of accesses and users and disclose this to the Authority upon request.
- 8.2 The Supplier shall ensure that Staff who use the Authority System actively confirm annually their acceptance of the Authority's acceptable use policy.

- 10.2 The Supplier shall collect audit records which relate to security events in the ICT Environment (where this is within the control of the Supplier), including those that would support the analysis of potential and actual compromises. In order to facilitate effective monitoring and forensic readiness, such Supplier audit records shall include:
 - 10.2.1 logs to facilitate the identification of the specific asset which makes every outbound request external to the ICT Environment (to the extent it is within the control of the Supplier). To the extent, the design of the ICT Environment allows, such logs shall include those from DHCP servers, HTTP/HTTPS proxy servers, firewalls and routers;

CFO PROJECT ENROLMENT GUIDANCE

Introduction

Part A of this document is intended for use by the Support Worker, providing guidance and support to complete the enrolment form correctly.

Part B of this document contains the CFO project outline, enrolment and privacy policies. The highlighted areas **must be explained to and understood by** the potential participant before they agree to participate in the ESF funded CFO project, and sign the CFO Enrolment Form. Part B of this guidance can also be given to the potential participant if they request a copy of it.

This CFO Project Enrolment Guidance should only be used in conjunction with the corresponding (matching) version number of the CFO Enrolment Form.

PART A

The following guidance relates to each section of the Enrolment Form. All sections on the form must be completed correctly for the individual to proceed with the Enrolment process.

Section 1 - Personal Details

All sections are mandatory, apart from the National Insurance number.

Section 2 - Eligibility

All potential participants must be unemployed to be eligible. The minimum eligibility age is 16 in the North West, West Midlands and London, 18 in all other contract areas. Additional information may be required to determine the legal right to live and work in the UK (see Section 3 of the Enrolment Form.)

*The Support Worker **must** confirm the following details relating to eligibility:*

- The individual has permission to legally live and work in the UK
- **Custody only** (Veterans Hub)– the earliest possible release date is within the next 3 years.

Note: Additional permission from the participant will be required should you wish to share details with other agencies e.g. to obtain identification or open a bank account.

Section 3 - Nationality

For all Non EU nationals, evidence of right to work must be approved by CFO when submitting the Enrolment Form.

Additional information for the Support Worker –

In addition to the existing restrictions on the right to live and work in the UK for individuals from outside the European Economic Area (EEA), Support Worker should be aware of the following position for Croatian nationals:

From 1st July 2013, Croatian nationals have been able to move and reside freely in any European Union (EU) Member State. However, Croatian nationals wanting to work in the UK need to obtain work authorisation (permission to work) before starting any employment, unless they are exempt from this requirement. Work authorisation is normally in the form of an accession worker authorisation certificate (or "purple registration certificate"). A Croatian national with an offer of employment in the UK must obtain this document from the Home Office before commencing work. This document will contain an endorsement restricting the holder to a particular job or type of employment. Those qualifying for a purple registration certificate will generally be skilled workers who meet the criteria for the issue of a certificate of sponsorship.

Section 4 – Support Worker Confirmation

The potential participant must have the project details and eligibility criteria explained to them and the Support Worker must sign and date the form.

Section 5 - Potential Participant Confirmation

The Support Worker must ensure the **Project Outline**, **Enrolment** and **Privacy Policy** (from Part B) are explained to and understood by the potential participant, who must sign to confirm this, as well as agree to participate in the project.

*The Support Worker **must** also explain the following details relating to project participation:*

- The enrolment process requires completion of an assessment to determine suitability for CFO, agreeing to participate does not automatically lead to enrolment.
- If agreement to participate is not received, the individual cannot participate in the CFO project
- The potential participant should also be informed that their information will be shared with ESF for audit and evaluation purposes
- If there are additional provider criteria in place to be accepted on to the project this should be described at this stage

Part B begins on the following page...

- 2.6 If, at the end of the period allocated to the Performance Improvement Plan, either:
- 2.6.1 the actions and outcomes set out in the Performance Improvement Plan have not been achieved by the Supplier; and/or

- 3.4 To the extent that the Supplier does not agree to the terms of the Action Plan, and such dispute is not resolved within 10 Working Days, then the parties shall follow the dispute resolution procedure set out in clause 46 of the Contract.
- 3.5 The Action Plan shall be reviewed by the Authority not less than once per Month and the result of such review shall be shared with the Supplier.
- 3.6 If, at the end of the duration of the Action Plan, either:
- 3.6.1 the actions and outcomes set out in the Action Plan have not been achieved by the Supplier; and/or

3.6.6 terminate the Contract with immediate effect in accordance with clause 39.1.7 of the Contract.

4 Costs

4.1 Other than where expressly stated, each party will be responsible for its own costs incurred in relation to this Schedule 11, including in relation to the preparation and implementation of any Performance Improvement Plan or Action Plan.

4.2 Unless the Authority Approves otherwise in writing, the Supplier shall not be entitled to submit any claim for payment under the Contract or otherwise use any European Social Fund funding in respect of its costs incurred in relation to this Schedule 11.

2 General

2.1 To be permitted to have any type of access to Authority data, or to use the Authority Case Management System, it is a condition that, the Supplier shall procure that all Data Users have completed and signed a Data Usage Agreement (if so required by the Authority) and Security Operational Procedure in the form as the Authority may reasonably require (the **SyOps Forms**) prior to such access being granted and as may be updated from time to time by the Authority.

2.2 The Supplier shall retain all fully completed and individually signed SyOps Forms and shall provide copies of such SyOps Forms upon request by the Authority from time to time.

- 2.10 The Supplier must provide such assurance and evidence to the Authority as the Authority may reasonably require that security vetting checks as required by the Authority from time to time have been undertaken on all Staff where it is required, and ensure that evidence of this for existing Staff is available on request to allow the Authority to perform sample checks to assure compliance.

- 3.12 Documents that can be uploaded to CATS+ are capped at 1mb. There are no specific quality requirements, however documents should be deemed fully legible by the CFO and in a file format accepted by CATS+.
- 4 CATS+ access for offenders and ex-offenders**
 - 4.1 The Supplier acknowledges that the Authority does not permit access to CATS+ to offenders, regardless of whether or not they are employed by the Supplier or any Sub-Supplier in the delivery of Services under this Contract or any other Contract with the Authority, including those relating to the HMPPS CFO ESF programme.
 - 4.2 The Authority will permit access to CATS+ for ex-offenders who are employed by the Supplier in the delivery of Services under this Contract subject to the Supplier completing a risk and impact assessment which must be submitted to, and approved by, the Authority. This must take place prior to any new CATS+ user requests being raised by the Supplier and must take into account whether their personal information is held on the system and how the integrity of the CFO programmes and individuals data will be maintained.
- 5 CATS+ training**
 - 5.1 The Supplier acknowledges that the successful completion of CATS+ training is mandatory for all users of the system before they will be permitted access to it by the Authority.
 - 5.2 Training sessions will be provided by the Authority initially at regional locations, using a set timetable of dates or at the Authority's premises. Training will be by individual contract level and consist of Train the Trainer sessions to enable Suppliers to train their own staff.
 - 5.3 In the event that training sessions become over-subscribed, extra training sessions will be made available by the Authority where possible and these sessions will be based at the Authority's premises and will be across contracts as a mop up exercise.
 - 5.4 The Supplier must ensure that Supplier Staff who are nominated as CATS+ Trainers are available for the whole training session. The Supplier acknowledges that any Supplier Staff who are unable to complete the full session will not be allowed access to CATS+ or be allowed to conduct provider staff CATS+ training. The Authority will make details of start and end times for the training session available at the publication of training dates, along with any pre learning requirements.
 - 5.5 In the event that any Supplier Staff are unable to complete the full training session, or that any Supplier Staff fail to attend a booked training session, then the Authority may request the Supplier to reimburse the Authority their reasonable costs associated with the training.
 - 5.6 The Supplier acknowledges that Supplier Staff need to demonstrate a satisfactory level of competence in using CATS+, for their Train the Trainer role. If the Authority is not satisfied with the standard of CATS+ knowledge, the individual(s) will be denied access to the system and not be able to conduct CATS+ Training for Supplier staff without attending further training until a satisfactory level of competence is demonstrated.

- 5.7 Each Supplier is required to have a sufficient number of trainers throughout the life of the contract, fully trained by HMPPS CFO, to deliver CATS+ training to all their case workers (including sub providers) who require access to the CATS+ system. The minimum number of trainers should be 2 per Hub (or satellite delivery site), up to a maximum of 6 across each contract.
- 5.8 Each Supplier should ensure that they have no less than 2 trainers per Hub operational at any one point in time. When the numbers become critical HMPPS CFO will deliver new training to the appropriate prime and Sub-Contractor staff.
- 5.9 Training must be booked at least 28 days in advance. Maximum number for training (both CATS+ & Quality Assurance (QA)) is 6 staff.
- 5.10 Once trained as a "CATS+ Trainer", with relevant level of security checks completed, delivery of training can commence with the Supplier and Sub-Supplier Staff. The Supplier must inform the Authority service desk in advance (giving at least 5 Working Days' notice) of all CATS+ training sessions they plan to deliver to allow CATS+ Training Environment to be set up on system.
- 5.11 The Supplier must inform the Authority's service desk (or such other Authority personnel as the Authority Representative may nominate from time to time) of any CATS+ training sessions (at least 5 Working Days) as the first 2 training sessions delivered by CATS+ trainers will need to be monitored by Authority Representatives to ensure consistency of training. Periodic observations will also be conducted by Authority Representatives during the length of the project.
- 5.12 Any concerns or failures in the quality of the training delivery should be recorded by the Authority Representative and will be discussed at the subsequent Performance Meeting.
- 5.13 The Authority may issue a schedule of CATS+ Trainer training dates when the need arises or in the last quarter of the year via a Supplier Bulletin.
- 5.14 The Supplier shall ensure that they maintain an auditable log of their CATS+ Trained Trainers which should include their names and the date of training.
- 5.15 The Supplier shall ensure that they maintain an auditable log of their CATS+ users which should include their names and the dates they have been trained on CATS+.

Schedule 19

Market Stewardship Principles

1 Introduction

- 1.1 These Market Stewardship Principles cover the key principles that must underpin the Supplier's provision of the Services and its engagement with all entities to which it Sub-Contracts the provision of the Services.
- 1.2 Each of the principles set out in this Schedule details how the Supplier should respond to its obligations against each of the principles governs how the Supplier must engage with its Sub-Contractors.

2 Principles

2.1 Adherence to appropriate management of risk in the supply chain

All contractual and other risk should be appropriately managed. This should extend to not passing risk down supply chains disproportionately, the management of volume fluctuations and other events and the management of intellectual property rights.

2.2 Meaningful volume of work allocation

The Supplier should be able to evidence its approach in allocating work to supply chain partners in a manner which meets its obligations under the Contract. Where a Sub-Contractor is specified in the Contract, the Supplier shall refer meaningful volumes of work to that Sub-Contractor. These volumes should be set out in the Sub-Contract.

The Supplier shall record details of all issues arising out of complaints from Sub-Contractors that they have not received expected volumes of work and shall refer these complaints to the Authority.

2.3 Systems for allocation of work to a Sub-Contractor

The Supplier should have systems for allocation of specific work to a Sub-Contractor where the delivery of that element of the Services is best served by calling on the particular expertise of a Sub-Contractor. The allocations should ensure that the Participants receive Services from a Sub-Contractor that has the correct level of expertise. Examples would include Sub-Contractors who have the skills and experience required to work with offenders with a range of different needs including without limitation; protected characteristics, female offenders, BAME, and offenders with learning difficulties or dyslexia etc.

2.4 Volume Fluctuations

The Supplier must demonstrate to the Authority's satisfaction how it manages any volume fluctuations in referrals and the reallocation of the Services to Sub-Contractors. The potential impact of both increases and particularly reductions in work allocation and associated drop in income, and actions to mitigate these risks, must be set out in the Industry Standard Partnering Agreement or the Sub-Contract (as applicable). Any changes should be communicated through the change process set out in this Contract.

2.5 Spot purchase arrangements

Spot purchase arrangements may be entirely appropriate but can be detrimental to Sub-Contractors as opposed to more standard contracts that guarantee an income. Sub-Contractors generally, but also in seeking funding or additional business may be disadvantaged in only being able to reference spot purchase contracts. The Supplier should therefore ensure that, wherever 'spot purchase' arrangements are utilised, options to transition to more stable contractual referral systems are reviewed at regular periods.

2.6 Payment terms

The Supplier should detail a full exploration of payment terms and the impact of these on the supply chain including the requirement for any clawback/ repayment if targets are not met. The implications of this should be worked through for each year of the Industry Standard Partnering Agreement or Sub-Contract (as applicable).

2.7 Minimum contract term

Consideration should be given to the needs of Sub-Contractors in relation to the Term. The contract length, if inadequate, may damage the ability of the Sub-Contractor in seeking new business or additional funding from elsewhere. Supporting statements around expected minimum term of Sub-Contracts may be helpful for Sub-Contractors to avoid this.

2.8 Intellectual Property Rights (IPR)

The Supplier should set out in the Industry Standard Partnering Agreement or Sub-Contract an approach for the handling of intellectual property rights to be established as part of the supply chain selection process.

2.9 Alignment of ethos in the supply chain

The Authority envisages that a sustainable relationship is fostered throughout the Term, which meets the expectations of both parties according to the position established at contract inception. In entering into a Sub-Contract, there should be an understanding of what is important to both the Supplier and the Sub-Contractor and this should go on to form part of the Sub-Contract which will be reviewed throughout the Term to ensure that expectations are being met. The Authority's market engagement has reinforced that this is an important expectation for many organisations and key to building trust, especially in the early stages of such business relationships.

2.10 Audit trail

The Supplier must maintain an audit trail of engagement with Sub-Contractors that demonstrates compliance with the principles established at the outset of the working relationship and shall include any additional support the Supplier offers.

2.11 Referrals of clients to non-contracted partners

The Supplier may wish to refer services to organisations who already deliver similar support services. The Supplier must not exploit the services delivered by these organisations, particularly those that do not enter into a formal contractual or grant funding arrangement with the Supplier. The Authority will require the Supplier to articulate how it is supporting and sustaining all organisations that the Supplier intends to refer a significant volume of work. In this context, 'significant' should be interpreted in proportion to the size of the organisation rather than the Supplier's caseload.

2.12 Meetings

The Supplier must record details of the conduct of all meetings with Sub-Contractors and any other members of its supply chain and review these records to ensure that they are timely and appropriate and reinforce good relationship management.

2.13 Visibility across the supply chain

The Authority expects that all parties have visibility of participation within the supply chain. This should include payment terms against contractual targets, the volume of business handled by Sub-Contractors, fair apportionment of referrals with regard to easier cases, and how the supply chain adjusts to changing volumes or demographics.

2.14 Supply chain sourcing, selection and refresh process

The Supplier must ensure that the sourcing, selection and refresh process for Sub-Contractors is transparent. This information must be made freely available to both the Authority and each potential Sub-Contractor on request.

2.15 Reward and recognition of good performance

The Authority considers it important that Sub-Contractors receive appropriate reward for good performance. Recognition of good performance should be shared across the chain and this should include the sharing of good practice.
