ANNEX 4 TO SCHEDULE 1

Information Assurance

1. PROTECTIVE MARKINGS

1.1. The Supplier shall ensure that its Personnel are aware of and comply with the Government's protective marking system which identifies the sensitivity of data. The definitions may change from time to time and the Authority will notify the Supplier when this occurs. The Supplier shall ensure that Personnel are kept up to date.

1.2. The Supplier shall abide by, and ensure that its personnel abide by, the provisions of: Official Secrets Acts 1911 to 1989; and Section 182 of the Finance Act 1989.

1.3. The Authority follows His Majesty's Governments (HMG) policy relating to Security Classifications which includes the definitions of the protective markings and the Supplier shall be required to follow this policy. Its principles are:

(a) Principle One: All information that HMG needs to collect, store, process, generates or share to deliver services and conduct government business has intrinsic value and requires an appropriate degree of protection.

(b) Principle Two: Everyone who works with government (including personnel, contractors and service providers) has a duty of confidentiality and a responsibility to safeguard any HMG information or data that they access, irrespective of whether it is marked or not, and must be provided with appropriate training.

(c). Principle Three: Access to sensitive information must only be granted on the basis of a genuine 'need to know'; and an appropriate personnel security control.

(d) Principle Four: Assets received from or exchanged with external partners must be protected in accordance with any relevant legislative or regulatory requirements, including any international agreements or obligations.

2. SECURITY CLASSIFICATIONS DEFINITIONS

2.1 The Supplier shall abide by the following Government Security Classifications.

2.2 There are 3 security classifications (OFFICIAL, SECRET and TOP SECRET) indicate the increasing sensitivity of information AND the baseline personnel, physical and information security controls (see 2.2.5) necessary to defend against a broad profile of applicable threats. Additionally there is a classification that refers to a limited amount of information which will be particularly sensitive but will still come within OFFICIAL marking even if its loss or compromise could have severely damaging consequences. This more sensitive information will be identified by adding 'SENSITIVE' and must therefore be marked 'OFFICIAL-SENSITIVE':

2.2.1 OFFICIAL

The majority of information that is created or processed by the public sector. This includes routine business operations and services, some of which could have damaging consequences if lost, stolen or published in the media, but are not subject to a heightened threat profile.

2.2.2 OFFICIAL-SENSITIVE

This marking alerts Users to the enhanced level of risk and that additional controls are required. The need to know principle must be rigorously enforced for this information particularly where it may be being shared outside of a routine or well understood business process

2.2.3 SECRET

Very sensitive information that justifies heightened protective measures to defend against determined and highly capable threat actors. For example, where compromise could seriously damage military capabilities, international relations or the investigation of serious organised crime.

2.2.4 TOP SECRET

HMG's most sensitive information requiring the highest levels of protection from the most serious threats. For example, where compromise could cause widespread loss of life or else threaten the security or economic wellbeing of the country or friendly nations.

2.3 Each classification provides for a baseline set of personnel, physical and information security controls that offer an appropriate level of protection against a typical threat profile. As a minimum, all HMG information must be handled with care to comply with legal and regulatory obligations and reduce the risk of loss or inappropriate access. There is no requirement to mark routine OFFICIAL information.

3. DEALING WITH INFORMATION CLASSIFIED ABOVE OFFICIAL

3.1 In any Trial or hearing, which deals with information classified above OFFICIAL, including Tribunal Special Immigration Asylum Commission (SIAC) and Proscribed Organisation Appeal Commission (POAC) cases which in the view of the Authority, considerations of national security arise, or with Public Interest Immunity Applications, the Supplier shall be aware that the Authority:-

(a) May impose on the Suppliers such arrangements for the reporting of the proceedings as it considers necessary and may reimburse the Supplier for any additional evidenced costs, which the Authorities Contract Manager agrees are reasonable, incurred in complying with any such arrangements;

(b) Reserves the right, without making any payments to the Supplier, to appoint any person it sees fit, whether an employee of the Supplier or not, to act as a transcriber at such Trial or hearing.

3.2 The Supplier shall not retain in any form, any materials that relate to cases of national security, public interest immunity applications, any applications made in chambers or proceedings classified by the Authority above SECRET.

3.3 Further information on transferring OFFICIAL- SENSITIVE data will be provided to the Supplier by the Authority during Mobilisation and Implementation.

The Supplier shall sign the Terms and Conditions for the Connection to the Criminal Justice Secure eMail Service as detailed at Appendix 1 below. The Authority may at any stage during the Call-off Contract Period indicate that alternative secure e-mail systems should be used and the Supplier shall comply with this change.

A log of encrypted CDs and onward transmission method shall be maintained by the Supplier and the Authority reserves the right to request a copy of this record at any time.

4.4 The Supplier shall send all hard copy material, with a security classification of Official via tracked mail using Special Delivery (or equivalent service) and double enveloping of the contents. The inner envelope should have the relevant security marking on it. The security marking MUST NOT be placed on the outer envelope, rather it should be marked "Addressee only". Security classification above Official MUST NOT be sent by post.

4.5 Where the Supplier uses practices other than the above to transmit audio to their transcribers and staff, for instance shared IT systems ie cloud technology, or any other method of transmission, the Authority reserves the right to review and accredit their process prior to commencement and if cloud technology, to see the adherence to cloud computing principles

- g) any dissolution, amalgamation, reconstruction, reorganisation, change in status, function, Control or ownership, insolvency, liquidation, administration, voluntary arrangement, or appointment of a receiver, of the Supplier or any other person.
