Social Value

1. The UK Public Services (Social Value) Act came into force on 31 January 2013 which require public services to think about how they can also secure wider social, economic, and environmental benefits through the contracts that are placed. The UK Government Policy Paper - Procurement Policy Note 06/20 – taking account of social value in the award of central government contracts sets out how Government Departments should take account of social value in the award of central government contracts by using the Social Value Model.
2. Social value has a lasting impact on individuals, communities, and the environment. Government has a huge opportunity and responsibility to maximise benefits effectively and comprehensively through its commercial activity. Social value will be evaluated based on qualitative responses from tenderers, and not on volumes. All tenderers must set out what they will deliver and how they will deliver it and it is this information that will be scored in bid evaluations.
3. Tenderers must ensure that any benefit identified as social value in their tender is over and above the core deliverable/s of the tender or any resulting contract.
4. The Social Value Model ('the Model') sets out government's social value priorities for procurement. There are 5 themes and 8 policy outcomes which flow from these themes, as follows:

Themes	Policy Outcome
1. COVID-19 Recovery	1. Help local communities to manage and recover from the impact of COVID-19
2. Tackling Economic Inequality	2. Create new businesses, new jobs and new skills 3. Increase supply chain resilience and capacity
3. Fighting Climate Change	4. Effective stewardship of the environment
4. Equal Opportunity	5. Reduce the disability employment gap 6. Tackle workforce inequality
5. Wellbeing	7. Improve health and wellbeing 8. Improve community cohesion

2. Each policy outcome within the Model has been designed so that the Authority can easily assess and evaluate the relevant social value offered in tenders and manage the social value delivered in contracts.
3. For this ITT, the following three themes will be evaluated:
 - a. Tackling Economic Inequality
 - b. Fighting Climate Change
 - c. Wellbeing
4. The Themes of COVID-19 Recovery and Equal Opportunity will not be assessed.
5. The table below identifies each of the three themes, the Policy Outcome, Model Award Criteria, Sub Criteria and the Appendix to Annex D to Section D to the DEFFORM 47 that provides further information to aid the tenderer to submit their responses against each requirement as per paragraph 3 above.

Theme	Policy Outcome	Model Award Criteria	Sub Criteria	Appendix
Tackling Economic Inequality	Create new businesses, new jobs, and new skills	2.1	Entrepreneurship, growth and business creation	1
		2.2	Employment	2
		2.3	Education and training	3
	Increase supply chain resilience and capacity	3.1	Diverse supply chains	4
		3.2	Innovation and disruptive technologies	5
		3.3	Modernising delivery and increasing productivity	6
		3.4	Collaboration throughout the supply chain	7
		3.5	Manage cyber security risks	8
Fighting Climate Change	Effective stewardship of the environment	4.1	Additional environmental benefits	9
		4.2	Influence environmental protection and improvement	10
Wellbeing	Improve health and wellbeing	7.1	Support health and wellbeing in the workforce	11
		7.2	Influencing support for health and wellbeing	12
	Improve community integration	8.1	Collaborate in codesign and delivery	13
		8.2	Influence to support strong, integrated communities	14

6. The tenderer must include in Schedule 9 – Key Performance Indicators, one Key Performance Indicator for each of the three themes for which a Policy Outcome is addressed and a benefit under the contract shall be delivered (Schedule 2 – Schedule of Requirements Item 15) on an annual basis that captures at least one aspect of Social Value detailed in the Model Award Criteria and the Model Award Sub Criteria.
7. The tenderer must include supporting evidence for each Key Performance Indicator proposed in Schedule 9 that addresses:
 - a. The ‘Method Statement’, stating how the tenderer will achieve the stated KPI and how their commitment meets the Award Criteria, and
 - b. a timed project plan and process, including how the tenderer will implement their commitment and by when. Also, how the tenderer will monitor, measure and report on their commitments / the impact of their proposals. Tenderers should include but not be limited to:
 1. timed action plan
 2. use of metrics
 3. tools/processes used to gather data
 4. reporting
 5. feedback and improvement
 6. transparency
 - c. how you will influence staff, suppliers, customers, and communities through the delivery of the Contract to support the Policy Outcome, e.g. engagement, co-design/creation, training and education, partnering/collaborating, volunteering.
8. The Tenderers response to these requirements will be assigned a Pass or Fail by the Authority based upon an assessment of the degree to which the supporting evidence and KPI aims to deliver at least one aspect of Social Value under the contract aligned to the Model Award Criteria and the Model Award Sub Criteria against the Policy outcome
9. A fail against providing a KPI for each of the three themes that aim to deliver a Social Value benefit against the social value Model Award Criteria and the Model Award Sub Criteria will render your tender non-compliant resulting in elimination from the competition and no further evaluation of the tender being carried out.

OFFICIAL-SENSITIVE COMMERCIAL

THIS DOCUMENT IS REDACTED IN ITS ENTIRETY

Section F – Conditions of Tendering

- F1. The issue of ITT Documentation or ITT Material is not a commitment by the Authority to place a Contract as a result of this competition or at a later stage. Neither does the issue of this ITT or subsequent Tender submission create any implied Contract between the Authority and any Tenderer and any such implied Contract is expressly excluded.
- F2. The Authority reserves the right, but is not obliged to:
- a. vary the terms of this ITT in accordance with applicable law;
 - b. seek clarification or additional documents in respect of a Tenderer's submission during the Tender evaluation where necessary for the purpose of carrying out a fair evaluation. Tenderers are asked to respond to such requests promptly;
 - c. visit your site;
 - d. disqualify any Tenderer that submits a non-compliant Tender in accordance with the instructions or conditions of this ITT;
 - e. disqualify any Tenderer that is guilty of misrepresentation in relation to its Tender, expression of interest, the dynamic PQQ or the tender process;
 - f. re-assess your suitability to remain in the competition, for example where there is a material change in the information submitted in and relating to the PQQ response, see paragraphs A31 to A34.
 - g. withdraw this ITT at any time, or choose not to award any Contract as a result of this tender process, or re-invite Tenders on the same or any alternative basis;
 - h. re-issue this ITT on a single source basis, in the event that this procurement does not result in a 'competitive process' as defined in the Single Source Contract Regulations 2014, making such adjustments as would be required by the application of the Defence Reform Act 2014 and/or the Single Source Contract Regulations 2014;
 - i. choose not to award any Contract as a result of the current tender process;
 - j. where it is considered appropriate, ask for an explanation of the costs or price proposed in the Tender where the Tender appears to be abnormally low;
- F3. The Contract will be effective when both parties sign the Contract. The Contract will be issued by the Authority via a DEFFORM 8, to the address you provide, on or before the end of the validity period specified in paragraph C3.

Conforming to the Law

- F4. You must comply with all applicable UK legislation and any equivalent legislation in a third state.

- F5. Your attention is drawn to legislation relating to the canvassing of a public official, collusive behaviour and bribery. If you act in breach of this legislation your Tender will be disqualified from this procurement. Disqualification will be without prejudice to any civil remedy available to the Authority or any criminal liability that your conduct may attract.

Bid Rigging and Other Illegal Practices

- F6. You must report any suspected or actual bid rigging, fraud, bribery, corruption, or any other dishonest irregularity in connection to this tendering exercise to:

Defence Regulatory Reporting Cell Hotline
0800 161 3665 (UK) or
+44 1371 85 4881 (Overseas)

 - b. enter into any agreement or arrangement with any other person as to the form or content of any other Tender, or offer to pay any sum of money or valuable consideration to any person to effect changes to the form or content of any other Tender;
 - c. enter into any agreement or arrangement with any other person that has the effect of prohibiting or excluding that person from submitting a Tender;
 - d. canvass the Authority or any employees or agents of the Authority in relation to this procurement; or
 - e. attempt to obtain information from any of the employees or agents of the Authority or their advisors concerning another Tenderer or Tender.
- F8. Where you have advised the Authority in relation to this procurement procedure or otherwise have been or are involved in any way in the preparation or conduct of this procurement procedure or where any other actual or potential conflict of interest (COI) exists or arises at any point before the Contract award decision, you must notify the Authority immediately.
- F9. Where an actual or potential COI exists or arises, you must provide a proposed Compliance Regime within seven (7) calendar days of notifying the Authority of the actual or potential COI. The proposal must be of a standard which, in the Authority's sole opinion, appropriately manages the conflict, provides sufficient separation to prevent distortion of competition and provides full details listed in F9 a to g below. Where the Contract is awarded and the COI is still relevant post-Contract award decision, your proposed Compliance Regime will become part of the Contract Terms and Conditions. Any Tenderer who fails to comply with this requirement (including where the Authority does not deem the proposed Compliance Regime to be of a standard which appropriately manages the conflict) may be disqualified from the procurement at the discretion of the Authority.

F11. Where the Authority provides Government Furnished Assets (GFA) in support of this competition, you must include details of the GFA in your Public Store Account and treat it in accordance with Def Stan 05-099. 1. You must complete and attach DEFFORM 711 (Notification of Intellectual Property Rights (IPR) Restrictions) (Schedule 10) as part of your Tender. You must provide details of any information / technical data that is deliverable or delivered under the Contract where it is, or may be, subject to any IPR restrictions (or any other type of restriction which may include export restrictions) affecting the Authority's ability to use or disclose the Information / technical data in accordance with the conditions of any resulting Contract. You must also identify any Contractor Deliverables subject to IPR which have been funded exclusively or in part by private venture, foreign investment or otherwise than by the Authority.
2. In particular, you must identify:
 - a. any restriction on the provision of information to the Authority; any restriction on disclosure or the use of information by, or on behalf of, the Authority; any obligations to make payments in respect of IPR, and any Patent or Registered Design (or application for either) or other IPR (including unregistered Design Right) owned or controlled by you or a Third Party;
 - b. any allegation made against you, whether by claim or otherwise, of an infringement of Intellectual Property Rights (whether a Patent, Registered Design, unregistered Design Right, Copyright or otherwise) or of a breach of confidence, which relates to the performance of any resultant Contract or subsequent use by or for the Authority of any Contractor Deliverables;
 - c. the nature of any allegation referred to under sub-paragraph 2.b., including any obligation to make payments in respect of the Intellectual Property Right of any confidential information; and / or
 - d. any action you need to take, or the Authority is required to take to deal with the consequences of any allegation referred to under sub-paragraph 2.b.
3. You must provide the Authority with details of every restriction and obligation referred to in paragraphs 1 and 2. The Authority will not acknowledge any such restriction unless so notified using DEFFORM 711 or as otherwise agreed under any resultant Contract. You must also provide, on request, any information required for authorisation to be given under Section 2 of the Defence Contracts Act 1958.
4. You should refer to the DEFFORM 711 Explanatory Notes for further information on how to complete the form.

Notification of Foreign Export Control Restrictions

5. If, in the performance of the Contract, you need to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, you will be responsible for applying for the licence. The Authority will provide you with all reasonable assistance in obtaining any necessary UK import or export licence.
6. In respect of any Contractor Deliverables, likely to be required for the performance of any resultant Contract, you must provide the following information in your Tender:

Whether all or part of any Contractor Deliverables are or will be subject to:

- a. a non-UK export licence, authorisation or exemption; or
- b. any other related transfer control that restricts or will restrict end use, end user, re-transfer or disclosure.

You must complete DEFFORM 528 (or other mutually agreed alternative format) in respect of any Contractor Deliverables identified at paragraph 6 and return it as part of your Tender. If you have previously provided this information you can provide details of the previous notification and confirm the validity.

- 7. You must use reasonable endeavours to obtain sufficient information from your potential supply chain to enable a full response to paragraph 6. If you are unable to obtain adequate information, you must state this in your Tender. If you become aware at any time during the competition that all or part of any proposed Contractor Deliverable is likely to become subject to a non-UK Government Control through a Government-to-Government sale only, you must inform the Authority immediately by updating your previously submitted DEFFORM 528 or completing a new DEFFORM 528.
- 8. This does not include any Intellectual Property specific restrictions mentioned in paragraph 2.
- 9. You must notify the named Commercial Officer immediately if you are unable for whatever reason to abide by any restriction of the type referred to in paragraph 6.
- 10. Should you propose the supply of Contractor Deliverables of US origin the export of which from the USA is subject to control under the US International Traffic in Arms Regulations (ITAR), you must include details on the DEFFORM 528. This will allow the Authority to make a decision whether the export can or cannot be made under the US-UK Defense Trade Co-operation Treaty. The Authority shall then convey its decision to the Tenderer. If the Authority decides that use of the Treaty for the export is permissible, it is your responsibility to make a final decision whether you want to use that route for the export concerned if you are awarded the Contract.

Import Duty

- 11. United Kingdom (UK) legislation permits the use of various procedures to suspend customs duties.
- 12. For the purpose of this competition, for any deliverables not yet imported into the UK, you are required to provide details of your plans to address customs compliance, including the Customs procedures to be applied (together with the procedure code) and the estimated Import Duty to be incurred and/or suspended
- 13. You should note that it is your responsibility to ensure compliance with all regulations relating to the operation of the accounting for import duties. This includes but is not limited to obtaining the appropriate Her Majesty's Revenue & Customs (HMRC) authorisations.

Cyber Risk

- 14. Cyber risk has been considered and in accordance with the Cyber Security Model resulted in a Cyber Risk Profile as detailed in Schedule 16. The Risk Assessment

Reference is detailed in Schedule 16. Tenderers are required to complete the Supplier Assurance Questionnaire on the Supplier Cyber Protection Service and submit this as part of their Tender response, together with a Cyber Implementation Plan as appropriate.

Sub-Contracts Form 1686

15. Form 1686 (Schedule 27) (also known as Appendix 5) is to be used in all circumstances where contractors wish to place a Sub-Contract at OFFICIAL-SENSITIVE with a contractor outside of the UK, or where the release of SECRET or above information is involved within the UK or overseas. The process will require submission of the single page document either directly to the MOD Project Team or, where specified, to the DE&S Security Advice Centre. Form 1686 and further guidance can be found in the Cabinet Office's [Contractual Process](#).

Small and Medium Enterprises

16. The Authority is committed to supporting the Government's Small and Medium-sized Enterprise (SME) policy, and we want to encourage wider SME participation throughout our supply chain. Our goal is that 25% of the Authority's spending should be spent with SMEs by 2022; this applies to the money which the Authority spends directly with SMEs and through the supply chain. The Authority uses the European Commission definition of SME.
17. A key aspect of the Government's SME Policy is ensuring that its suppliers throughout the supply chain are paid promptly. All suppliers to the Authority and their Sub-Contractors are encouraged to make their own commitment and register with the <https://www.smallbusinesscommissioner.gov.uk/ppc/>.
18. Suppliers are also encouraged to work with the Authority to support the Authority's SME initiative, however this is not a condition of working with the Authority now or in the future, nor will this issue form any part of the Tender evaluation. Information on the Authority's purchasing arrangements, our commercial policies and our SME Action Plan can be found at [Gov.UK](#) and the DSP.
19. The opportunity also exists for Tenderers to advertise any Sub-Contract valued at over £10,000 on the Defence Sourcing Portal and further details can be obtained directly from: <https://www.gov.uk/guidance/subcontract-advertising>. This process is managed by the Strategic Supplier Management team who can be contacted at: DefComrcISSM-Suppliers@mod.gov.uk.

Transparency, Freedom Information and Environmental Information Regulations

20. The Authority shall publish notification of the Contract and publish Contract documents where required following a request under the FOI Act except where publishing such information would hinder law enforcement; would otherwise be contrary to the public interest; would prejudice the legitimate commercial interest of any person or might prejudice fair competition between suppliers.
21. The Authority may publish the contents of any resultant Contract in line with government policy set out in the Government's [Transparency Principles](#) and in accordance with the provisions of either DEFCON 539, SC1B Conditions of Contract Clause 5 or SC2 Conditions of Contract Clause 12.

22. Before publishing the Contract, the Authority will redact any information which is exempt from disclosure under the Freedom of Information Act 2000 ("the FOIA") or the Environmental Information Regulations 2004 ("the EIR").
23. You must complete the attached Tenderer's Sensitive Information form (DEFFORM 539A, SC1B Schedule 4 or SC2 Schedule 5) explaining which parts of your Tender you consider to be Sensitive Information (as defined in DEFCON 539). This includes providing a named individual who can be contacted with regard to FOIA and EIR.
24. You should note that while your views will be taken into consideration, the ultimate decision whether to publish or disclose information lies with the Authority. You are advised to provide as much detail as possible on the form. It is highly unlikely that a Tender will be exempt from disclosure in its entirety. Should the Authority decide to publish or disclose information against your wishes, you will be given prior notification.

Electronic Purchasing

25. Tenderers must note that use of the [Contracting, Purchasing and Finance \(CP&F\)](#) electronic procurement tool is a mandatory requirement for any resultant Contract awarded following this Tender. By submitting this Tender, you agree to electronic payment. You may consult the service provider on connectivity options. Failure to accept electronic payment will result in your Tender being non-compliant and excluded from the tender process.

Change of Circumstances

26. In accordance with paragraph A31, if your circumstances have changed, please select 'Yes' to the appropriate question on DEFFORM 47 Annex A and submit a Statement Relating to Good Standing with your Tender.

Asbestos, Hazardous Items and Depletion of the Ozone Layer

27. The Authority is required to report any items that use asbestos, that are hazardous or where there is an impact on the Ozone. Where any Contractor Deliverables fall into one of these categories select 'Yes' to the appropriate question on DEFFORM 47 Annex A and provide further details in your Tender.

Defence Safety Authority (DSA) Requirements

28. Tenderers are required to comply with any applicable DSA military regulatory policy and regulation. Tenderers who wish to propose an alternative acceptable means of compliance must obtain agreement in principle from the relevant defence regulator (through the Project Team) in advance of submitting their Tender. Acceptable Means of Compliance (AMC) are strongly recommended practices and a justification will be required if they are not followed. Tenderers must consult the relevant defence regulator where there is more than one AMC. You must confirm how you intend to comply with the regulatory articles, and the date you consulted with the relevant defence regulator.

Bank or Parent Company Guarantee

29. You will be informed whether you are required to provide a Bank or Parent Company Guarantee. In the event that you are selected as the winning Tenderer, you must provide your Bank or Parent Company Guarantee (in the form of DEFFORM 24/24A as appropriate)

during the standstill period. No Contract will be awarded until a suitable Bank or Parent Company Guarantee, as appropriate, is in place. Failure to provide a Bank or Parent Company Guarantee during the standstill period, will result in you being de-selected as the winning Tenderer. The Authority reserves the right to re-evaluate the Tenders, (if necessary) to take into account the absence of the de-selected Tenderer, enabling the Authority to establish the next winning Tenderer and award a Contract.

For the purposes of this Condition materiel shall mean information, technical data, and items, including Contractor Deliverables, components of Contractor Deliverables and software.

Where there is no requirement under the Contract for a risk management plan the Contractor shall submit this information to the Authority's representative.

If the Authority makes such a request it will consult with the Contractor before making a determination of whether the Authority or the Contractor is best placed in all the circumstance to make the request. Where, subsequent to such consultation the Authority notifies the Contractor that the Contractor is best placed to make such request:
- (1) the Contractor shall, or procure that the Contractor's Subcontractor shall, expeditiously consider whether or not there is any reason why it should object to making the request and, where it has no objection, file an application to seek a variation of the applicable export licence or import licence or authorisation in accordance with the procedures of the licensing authority. Where the Contractor has an objection, the Parties shall meet within five (5) working days to resolve the issue and should they fail, the matter shall be escalated to an appropriate level within both Parties' organisations, to include their respective export licensing subject matter experts; and

Where it is not possible to include equivalent terms to those set out in this Condition, the Contractor shall report that fact and the circumstances to the Authority.
- i. Without prejudice to HM Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority shall provide the Contractor with sufficient information, certification, documentation, and other reasonable assistance to facilitate the granting of export licences or import licences or authorisations by a foreign Government in respect of the performance of the Contract.
- j. The Authority shall provide such assistance as the Contractor may reasonably require in obtaining any UK export licences necessary for the performance of the Contract.

Such notification shall be no later than thirty (30) days of knowledge of any affected Contractor Deliverable and in any event such notification shall be not less than thirty (30) days prior to delivery of the Contractor Deliverables.
- m. If the information to be provided under clause 0 has been provided previously to the Authority by the Contractor under the Contract, the Contractor may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of clause 0.
- n. During the term of the Contract, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clauses 0 or 32.l of which they become or are aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.
- o. For a period of up to 2 years from completion of the Contract and in response to a specific request by the Authority, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clause 0 or 32.l of which they become aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.
- p. Where following receipt of materiel from a Subcontractor or any of their other suppliers restrictions are notified to the Contractor by that Subcontractor, supplier or other third party or are identified by the Contractor, the Contractor shall immediately inform the Authority by issuing an updated DEFFORM 528. Within 20 Business days of such notification, the Contractor shall propose to the Authority actions to mitigate the impact of such restrictions. Such proposals may include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain

appropriate authorisations from the relevant foreign government. The Authority shall notify the contractor within 20 Business days of receipt of a proposal whether it is acceptable and where appropriate the Contract shall be modified in accordance with its terms to implement the proposal.

- q. If the restrictions prevent the Contractor from performing their obligations under the Contract and have not been removed, modified or otherwise satisfactorily managed within a reasonable time, the Authority may at its absolute discretion elect to amend the contract in accordance with Condition 6 or as otherwise may be provided by the Contract, or to terminate the Contract. Except as set out in clause 32.q, in the event of termination in these circumstances termination shall be on fair and reasonable terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to agree such fair and reasonable terms failing which either Party may refer the matter to dispute resolution in accordance with the provisions in the Contract.
- r. In the event that the restrictions notified to the Authority pursuant to clause 0 were known or ought reasonably have been known by the Contractor (but were not disclosed) at contract award or if restrictions notified to the Authority pursuant to clauses 32.m or 32.o were known or ought reasonably to have been known by the Contractor at the date of submission of the most recent DEFFORM 528 submitted to the Authority in accordance with clause 0, termination under clause 32.s will be in accordance with Condition 42 (Material Breach) and the provisions of clause 32.v will not apply.
- s. The Authority shall use reasonable endeavours to identify any export control restrictions applying to materiel to be provided to the Contractor as Government Furnished Assets (GFA). Where the Authority is to provide materiel necessary to enable the Contractor to perform the Contract or in respect of which the Services are to be provided, and that materiel is subject to a non-UK export licence, authorisation, exemption or other related transfer or export control as described in the provisions of clause 32.j, the Authority shall provide a completed DEFFORM 528 or will provide a new or updated DEFFORM 528 to the Contractor within thirty (30) days of the date of knowledge and in any case not later than thirty (30) days prior to the delivery of such materiel to the Contractor.
- t. In the event that the Authority becomes aware that the DEFFORM 528 disclosure was incomplete or inaccurate or in the event additional such materiel is identified then the Authority shall provide, as soon as reasonably practicable a new or revised DEFFORM 528. In the event that the Authority becomes aware that a prior disclosure included in DEFFORM 528 submitted to the Contractor was incomplete or inaccurate less than thirty (30) days prior to the delivery to the Contractor of any material to which the updated or new disclosure relates, the Parties will meet as soon as reasonably practicable to discuss how to mitigate the impact of the incomplete or inaccurate disclosure.
- u. Where:
 - (1) restrictions are advised by the Authority to the Contractor in a DEFFORM 528 provided pursuant to clauses 32.r or 32.s or both; or
 - (2) any of the information provided by the Authority in any DEFFORM 528 proves to be incorrect or inaccurate;
- v. the Authority and the Contractor shall act promptly to mitigate the impact of such restrictions or incorrect or inaccurate information. Such mitigation shall include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. If the restrictions or incorrect or inaccurate information adversely affect the ability of the Contractor to perform their obligations under the Contract, the matter shall be handled under the terms of Condition 6 (Formal Amendments to the Contract) or as may otherwise be provided by the Contract as appropriate and if no alternative solution satisfies the essential terms of the Contract and the restrictions have not been removed, modified or otherwise satisfactorily managed within a reasonable time the Authority may terminate the Contract. Termination under these circumstances will be under the terms of Condition 41

(Termination for Convenience) and as referenced in the Contract.

- w. Pending agreement of any amendment of the Contract as set out in clause 32.p or 32.t, provided the Contractor takes such steps as are reasonable to mitigate the impact, the Contractor shall be relieved from their obligations to perform those elements of the Contract directly affected by the restrictions or provision of incorrect or incomplete information.

- h. Such interest or penalties or both shall not be recoverable from the Authority under the Contract or any other contract. ISNs 2017/01, 04 and 06, Defence Condition 658 and DEFSTAN 05-138 details the DART registration, IT security accreditation processes, risk assessment/management and Cyber security requirements which can be found in the following links:

- (8) All UK classified material including documents, media and other assets must be physically secured to prevent unauthorised access. When not in use UK OFFICIAL and UK OFFICIAL-SENSITIVE material shall be handled with care to prevent loss or inappropriate access. As a minimum UK OFFICIAL-SENSITIVE material shall be stored under lock and key and shall be placed in a lockable room, cabinets, drawers or safe and the keys/combinations shall be subject to a level of control.
- (9) Disclosure of UK OFFICIAL and UK OFFICIAL-SENSITIVE material must be strictly controlled in accordance with the "need to know" principle. Except with the written consent of the Authority, the Contractor shall not disclose the Contract or any provision thereof to any person other than to a person directly employed by the Contractor or sub-Contractor.
- (10) Except with the consent in writing of the Authority the Contractor shall not make use of the Contract or any information issued or provided by or on behalf of the Authority otherwise than for the purpose of the Contract, and, same as provided for in paragraph 8 above, the Contractor shall not make use of any article or part thereof similar to the articles for any other purpose.
- (11) Subject to any intellectual property rights of third parties, nothing in this Security Condition shall restrict the Contractor from using any specifications, plans, drawings and other documents generated outside of this Contract.
- (12) Any samples, patterns, specifications, plans, drawings or any other documents issued by or on behalf of the Authority for the purposes of the Contract remain the property of the Authority and must be returned on completion of the Contract or, if directed by the Authority, destroyed in accordance with paragraph 34.

Access

- (13) Access to UK OFFICIAL and UK OFFICIAL-SENSITIVE material shall be confined to those individuals who have a "need-to-know", have been made aware of the requirement to protect the information and whose access is essential for the purpose of their duties.
- (14) The Contractor shall ensure that all individuals requiring access to UK OFFICIAL-SENSITIVE information have undergone basic recruitment checks. This should include establishing proof of identity; confirming that they satisfy all legal requirements for employment by the Contractor; and verification of their employment record. Criminal record checks should also be undertaken where permissible under national/local laws and regulations. This is in keeping with the core principles set out in the UK Government (HMG) Baseline Personnel Security Standard (BPSS) which can be found at:

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/714002/HMG_Baseline_Personnel_Security_Standard_-_May_2018.pdf

Hard Copy Distribution

- (15) UK OFFICIAL and UK OFFICIAL-SENSITIVE documents may be distributed, both within and outside Contractor premises in such a way as to make sure that no unauthorised person has access. It may be sent by ordinary post in a single envelope. The words UK OFFICIAL or UK OFFICIAL-SENSITIVE must not appear on the envelope. The envelope must bear a stamp or marking that clearly indicates the full address of the office from which it was sent. Commercial Couriers may be used.
- (16) Advice on the distribution of UK OFFICIAL-SENSITIVE documents abroad or any other general advice including the distribution of UK OFFICIAL-SENSITIVE shall be sought from the Authority.

Electronic Communication and Telephony and Facsimile Services

- (17) UK OFFICIAL information may be emailed unencrypted over the internet. UK OFFICIAL-SENSITIVE information shall normally only be transmitted over the internet encrypted using either a National Cyber Security Centre (NCSC) Commercial Product Assurance (CPA) cryptographic product or a UK MOD approved cryptographic technique such as Transmission Layer Security (TLS). In the case of TLS both the sender and recipient organisations must have TLS enabled. Details of the required TLS implementation are available at:

<https://www.ncsc.gov.uk/guidance/tls-external-facing-services>

Details of the CPA scheme are available at:

<https://www.ncsc.gov.uk/scheme/commercial-product-assurance-cpa>

- (18) Exceptionally, in urgent cases UK OFFICIAL-SENSITIVE information may be emailed unencrypted over the internet where there is a strong business need to do so, but only with the prior approval of the Authority. However, it shall only be sent when it is known that the recipient has been made aware of and can comply with the requirements of these Security Conditions and subject to any explicit limitations that the Authority require. Such limitations including any regarding publication, further circulation or other handling instructions shall be clearly identified in the email sent with the material.
- (19) UK OFFICIAL information may be discussed on fixed and mobile telephones with persons located both within the country of the Contractor and overseas. UK OFFICIAL-SENSITIVE information may be discussed on fixed and mobile telephones only where there is a strong business need to do so and only with the prior approval of the Authority.
- (20) UK OFFICIAL information may be faxed to recipients located both within the country of the Contractor and overseas, however UK OFFICIAL-SENSITIVE information may be transmitted only where there is a strong business case to do so and only with the prior approval of the Authority.

Use of Information Systems

- (21) The detailed functions that must be provided by an IT system to satisfy the minimum requirements cannot all be described here in specific detail; it is for the implementers to identify possible means of attack and ensure proportionate security mitigations are applied to prevent a successful attack.
- (22) The Contractor should ensure 10 Steps to Cyber Security (Link below) is applied in a proportionate manner for each IT and communications system storing, processing, or generating UK OFFICIAL or UK OFFICIAL-SENSITIVE information. The Contractor should ensure competent personnel apply 10 Steps to Cyber Security.

<https://www.ncsc.gov.uk/guidance/10-steps-cyber-security>.

- (23) As a general rule, any communication path between an unauthorised user and the data can be used to carry out an attack on the system or be used to compromise or ex-filtrate data.
- (24) Within the framework of the 10 Steps to Cyber Security, the following describes the minimum-security requirements for processing and accessing UK OFFICIAL-SENSITIVE information on IT systems.
- (a) Access. Physical access to all hardware elements of the IT system is to be strictly controlled. The principle of “least privilege” will be applied to System Administrators. Users of the IT System (Administrators) should not conduct ‘standard’ User functions using their privileged accounts.
 - (b) Identification and Authentication (ID&A). All systems are to have the following functionality:
 - i. Up-to-date lists of authorised users.
 - ii. Positive identification of all users at the start of each processing session.
 - (c) Passwords. Passwords are part of most ID&A security measures. Passwords are to be “strong” using an appropriate method to achieve this, e.g. including numeric and “special” characters (if permitted by the system) as well as alphabetic characters.
 - (d) Internal Access Control. All systems are to have internal Access Controls to prevent unauthorised users from accessing or modifying the data.
 - (e) Data Transmission. Unless the Authority authorises otherwise, UK OFFICIAL-SENSITIVE information may only be transmitted or accessed electronically (e.g. point to point computer links) via a public network like the Internet, using a CPA product or equivalent as described in paragraph 16 above.
 - (f) Security Accounting and Audit. Security relevant events fall into two categories, namely legitimate events, and violations.
 - i. The following events shall always be recorded:
 - a. All log on attempts whether successful or failed,
 - b. Log off (including time out where applicable),
 - c. The creation, deletion or alteration of access rights and privileges,
 - d. The creation, deletion, or alteration of passwords.
 - ii. For each of the events listed above, the following information is to be recorded:
 - a. Type of event,
 - b. User ID,
 - c. Date & Time,
 - d. Device ID.

The accounting records are to have a facility to provide the System Manager with a hard copy of all or selected activity. There also must be a facility for the records to be printed in an easily readable form. All security records are to be inaccessible to users without a need to know. If the operating system is unable to provide this, then the equipment must be

protected by physical means when not in use i.e., locked away or the hard drive removed and locked away.

- (g) Integrity & Availability. The following supporting measures are to be implemented:
- i. Provide general protection against normally foreseeable accidents/mishaps and known recurrent problems (e.g., viruses and power supply variations),
 - ii. Defined Business Contingency Plan,
 - iii. Data backup with local storage,
 - iv. Anti-Virus Software (Implementation, with updates, of an acceptable industry standard Anti-virus software),
 - v. Operating systems, applications and firmware should be supported,
 - vi. Patching of Operating Systems and Applications used are to be in line with the manufacturers recommended schedule. If patches cannot be applied an understanding of the resulting risk will be documented.
- (h) Logon Banners. Wherever possible, a “Logon Banner” will be provided to summarise the requirements for access to a system which may be needed to institute legal action in case of any breach occurring. A suggested format for the text (depending on national legal requirements) could be:
“Unauthorised access to this computer system may constitute a criminal offence”
- (i) Unattended Terminals. Users are to be automatically logged off the system if their terminals have been inactive for some predetermined period of time, or systems must activate a password protected screen saver after 15 minutes of inactivity, to prevent an attacker making use of an unattended terminal.
- (j) Internet Connections. Computer systems must not be connected direct to the Internet or “un-trusted” systems unless protected by a firewall (a software based personal firewall is the minimum, but risk assessment and management must be used to identify whether this is sufficient).
- (k) Disposal. Before IT storage media (e.g., disks) are disposed of, an erasure product must be used to overwrite the data. This is a more thorough process than deletion of files, which does not remove the data.

Laptops

- (25) Laptops holding any UK OFFICIAL-SENSITIVE information shall be encrypted using a CPA product or equivalent as described in paragraph 16 above.
- (26) Unencrypted laptops and drives containing personal data are not to be taken outside of secure sites. For the avoidance of doubt the term “drives” includes all removable, recordable media e.g., memory sticks, compact flash, recordable optical media (CDs and DVDs), floppy discs and external hard drives.
- (27) Any token, touch memory device or password(s) associated with the encryption package is to be kept separate from the machine whenever the machine is not in use, left unattended or in transit.
- (28) Portable CIS devices holding the Authorities’ data are not to be left unattended in any public location. They are not to be left unattended in any motor vehicles either in view or in the boot or

luggage compartment at any time. When the vehicle is being driven the CIS is to be secured out of sight in the glove compartment, boot, or luggage compartment as appropriate to deter opportunist theft.

Loss and Incident Reporting

- (29) The Contractor shall immediately report any loss or otherwise compromise of any OFFICIAL or OFFICIAL-SENSITIVE material to the Authority. In addition, any loss or otherwise compromise of any UK MOD owned, processed or UK MOD Contractor generated UK OFFICIAL, or UK OFFICIAL-SENSITIVE material is to be immediately reported to the UK MOD Defence Industry Warning, Advice and Reporting Point (WARP), within the Joint Security Co-ordination Centre (JSyCC) below. This will assist the JSyCC in formulating a formal information security reporting process and the management of any associated risks, impact analysis and upward reporting to the UK MOD's Chief Information Officer (CIO) and, as appropriate, the Contractor concerned. The UK MOD WARP will also advise the Contractor what further action is required to be undertaken.

Sub-Contracts

- (31) Where the Contractor wishes to sub-contract any elements of a Contract to sub-Contractors within its own country or to Contractors located in the UK such sub-contracts will be notified to the Contracting Authority. The Contractor shall ensure that these Security Conditions are incorporated within the sub-contract document.
- (32) The prior approval of the Authority shall be obtained should the Contractor wish to sub-contract any UK OFFICIAL-SENSITIVE elements of the Contract to a sub-Contractor facility located in another (third party) country. The first page of Schedule 27 (MOD Form 1686 (F1686) of the GovS 007 Security Contractual Process chapter is to be used for seeking such approval. The MOD Form 1686 can be found at Schedule 27
- (33) If the sub-contract is approved, the Contractor will flow down the Security Conditions in line with paragraph 30 above to the sub-Contractor. Contractors located overseas may seek further advice and/or assistance from the Authority with regards the completion of F1686.

Publicity Material

- (34) Contractors wishing to release any publicity material or display assets that arises from a Contract to which these Security Conditions apply must seek the prior approval of the Authority. Publicity material includes open publication in the Contractor's publicity literature or website or through the media; displays at exhibitions in any country; lectures or symposia; scientific or technical papers, or any other occasion where members of the general public may have access to the information even if organised or sponsored by the UK Government

Physical Destruction

- (35) As soon as no longer required, UK OFFICIAL and UK OFFICIAL-SENSITIVE material shall be destroyed in such a way as to make reconstitution very difficult or impossible, for example, by burning, shredding, or tearing into small pieces. Advice shall be sought from the Authority when information/material cannot be destroyed or, unless already authorised by the Authority, when its retention is considered by the Contractor to be necessary or desirable. Unwanted UK OFFICIAL-SENSITIVE information/material which cannot be destroyed in such a way shall be returned to the Authority.

Interpretation/Guidance

- (36) Advice regarding the interpretation of the above requirements should be sought from the Authority.
- (37) Further requirements, advice, and guidance for the protection of UK classified information at the level of UK OFFICIAL-SENSITIVE may be found in Industry Security Notices at:

<https://www.gov.uk/government/publications/industry-security-notices-isns>

t. Framework Agreement Variation of Price (VOP).

- (1) The prices stated in the Schedule of Requirements are FIXED at year one (1) price levels. The prices do not include provision beyond this date for increases or decreases in the market price of the Articles being purchased. The replacement index or indices shall cover, to the maximum extent possible, the same economic activities as the original index or indices.
- (4) In the event that any material changes are made to the indices (e.g. a revised statistical base date) during the period of the contract and before final adjustment of the final contract price, then the re-basing methodology outlined by the Office for National Statistics (ONS, the series providers) to match the original index to the new series shall be applied.
- (5) In the event the agreed index or indices cease to be published (e.g. because of a change in the Standard Industrial Classification) the Authority and the Contractor shall agree an appropriate replacement index or indices, which shall cover to the maximum extent possible the same economic activities as the original index or indices. The methodology outlined by the Office for National Statistics used for rebasing indices (as in Clause 45.t (4) above) shall then be applied.
- (6) Notwithstanding the above, any extant index / indices agreed in the Contract shall continue to be used as long as it is / they are available and subject to ONS revisions policy. Payments calculated using the extant index / indices during its / their currency shall not be amended retrospectively as a result of any change to the index or indices.
- (7) The Contractor shall notify the Authority of any significant changes in the purchasing / manufacturing plan on the basis of which these provisions were drawn up and agreed, or of any other factor having a material bearing on the operation of these provisions such as to cause a significant divergence from their intended purpose, in order that both parties may consider whether any change in this provision would be appropriate
- (8) Prices shall be adjusted taking into account the effect of the above formula as soon as possible after publication of the relevant indices or at a later date if so agreed between the Authority and the Contractor. Where an index value is subsequently amended, the Authority and the Contractor shall agree a fair and reasonable adjustment to the price, as necessary.
- (9) Claims under this Condition shall be submitted to the Bill Paying Branch, certified to the effect that the "requirements of this Clause 45.t." have been met.

DEFFORM 711 - PART B – System / Product Breakdown Structure (PBS)

The Contractor should insert their PBS here. For Software, please provide a Modular Breakdown Structure.

Completion Notes**Part A**

If any information / technical data that is deliverable or delivered under the relevant Contract conditions is, or may be, subject to any IPR restrictions (or any other type of restriction which may include export restrictions) affecting the Authority's ability to use or disclose the information / technical data in accordance with the conditions of any resulting Contract, then the Contractor must identify this restricted information / technical data in this Part A. Otherwise, the Authority shall treat such information in accordance with the same rights under the Contract it would enjoy should no restrictions exist.

For example, any of the following must be disclosed:

- a) any restriction on the provision of information / technical data to the Authority; any restriction on disclosure or the use of information by, or on behalf of, the Authority; any obligations to make payments in respect of IPR, and any patent or registered design (or application for either) or other IPR (including unregistered design right) owned or controlled by you or a third party;
- b) any allegation made against the Contractor, whether by claim or otherwise, of an infringement of IPR (whether a patent, registered design, unregistered design right, copyright or otherwise) or of a breach of confidence, which relates to the performance of the Contract or subsequent use by or for the Authority of any Contract deliverables;
- c) the nature of any allegation referred to under sub-paragraph (b) above, including any request or obligation to make payments in respect of the IPR of any confidential information and / or;
- d) any action the Contractor needs to take, or the Authority is requested to take, to deal with the consequences of any allegation referred to under sub-paragraph (b) above.

Block 1	Enter the associated Invitation to Tender (ITT) or Contract number as appropriate.
Block 2	No action – This sequential numbering is to assist isolation and discussion of any line item
Block 3	Identify a unique reference number for the information / technical data (i.e. a Contractor's document or file reference number) including any dates and version numbers. Documents may only be grouped and listed as a single entry where they relate to the same Article and where the restrictions and IPR owner are the same.

Completion Notes**Part A**

Block 4	Identify the Article(s) associated with the information / technical data by entering a unique identification number / label for the Article(s). This may range from platform level down to sub-system level. This is to enable the Authority to quickly identify the approximate technical boundary to any user rights limitation (e.g. The RADAR or Defensive Aid Sub-System etc). This identification shall be at the lowest level of replaceability of the Article(s) or part of it to which the restrictions apply (i.e. if the restrictions apply to a sub-system the parent system should not be used to identify the restriction boundary). <u>Any entry without a unique identifier shall be treated as a nil entry.</u> NOTE: The Authority does not accept any IPR restrictions in respect of the physical Articles themselves. Block 4 is solely to provide an applied picture to any technical data stated under Block 3 as having IPR restrictions.
Block 5	This is a freeform narrative field to allow a short explanation justifying why this information / technical data has limited rights applying to it.
Block 6	Identify who is the owner of the IPR in the information / technical data (i.e. copyright, design right etc). If it is a sub-contractor or supplier, please identify this also.

Completion Notes**Part B**

If neither hardware nor software is proposed to be designed, developed or delivered as part of the Contract, Part B should be marked "NIL RETURN".

Otherwise, the Contractor must include a System / Product Breakdown Structure (PBS) in a format which is consistent with ISO 21511 and / or the configuration requirements of DEFSTAN 05-057, unless an alternative format better represents your design configuration. For software, a modular breakdown structure must be provided. For reasons of clarity, it is acceptable to provide several levels of breakdown if this assists in organising the configuration of the Articles.

Details provided under Part B shall not imply any restriction of use over the Contract Articles, nor any restriction on associated technical data to be delivered under the Contract. Any restrictions of such technical data must be identified within Part A.

Against each unique item within the PBS / module breakdown, one of the following categories shall be recorded:

- a) (PVF) - Private Venture Funded - where the article existed prior to the proposed Contract and its design was created through funding otherwise than from Her Majesty's Government (HMG).
- b) (PAF) - Previous Authority Funded (inc. HMG Funded) - where the article existed prior to the proposed Contract and its design was created through Previous Authority Funding.
- c) (CAF) - Contract Authority Funded (inc. HMG Funded) - where the article did not exist prior to the Contract and its design will be created through Contract Authority Funding under this Contract.
- d) (DNM) Design Not Mature - where the article / design configuration is not yet fixed.

In combination with one of categories (a) to (d) above, the Contractor shall further identify where an item has, or will have, foreign export control applying to it, through use of the further following category:

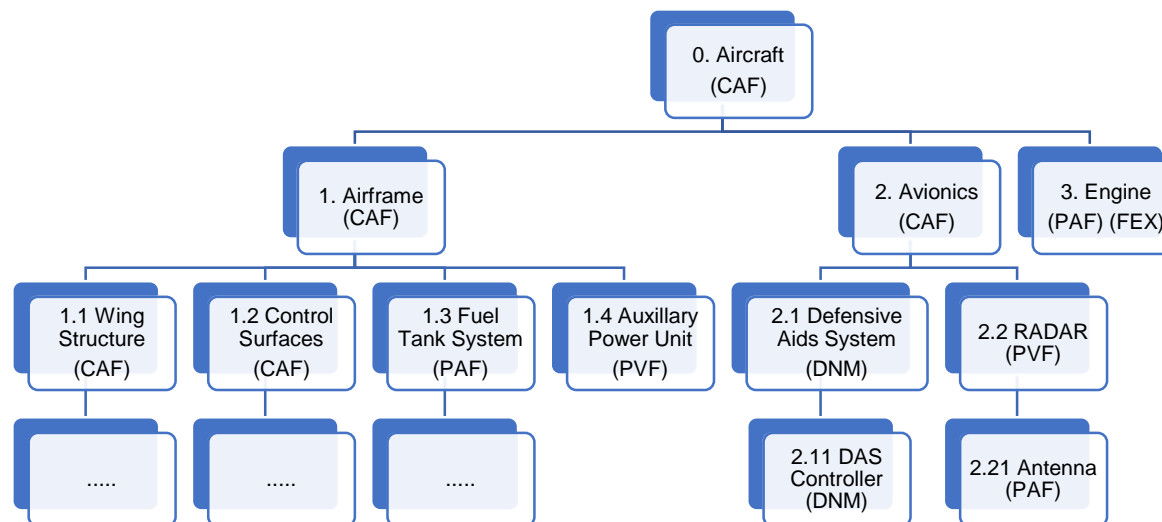

- e) (FEX) Foreign Export Controlled

Notes:

1. During the term of the Contract the Contractor may transition any items identified as category (d) above into category (b) or (c). Transitions from category (d) into category (a) may only be made with the express written agreement of the Authority's Senior Commercial Officer, and by following the amendment process set out in the Contract.
2. It is acceptable to specify the highest level of structure to which the category (a), (b) or (c) applies (i.e. there is no need to specify each sub-system / componentry if the entirety of the parent system was for example, Private Venture Funded). See guidance examples overleaf.
3. For the avoidance of doubt, where a parent system did not exist prior to the Contract yet makes use of Private Venture Funded Articles, it must be identified as (CAF). The Private Venture Funded sub-components / sub-systems can be identified as PVF.
4. Where items are identified as category (b), the Contractor should provide the number(s) of the previous Contract(s) under which the design was created and the Previous Authority Funding was applied.

Example PBS

A theoretical pictorial example is given below but it is to be noted that the configuration may equally be dealt with in a hierarchal tabularised format.

The diagram above indicates a highly simplified and hypothetical Contract scenario dealing with the procurement of a new air asset.

- i. The proposed new aircraft would be considered Contract Authority Funded (CAF) at its top level.
- ii. Items denoted as Private Venture Funded (PVF) would generally indicate that it and all of its sub-components have been funded by sources other than HMG. In this instance there is no need to proceed down the product breakdown structure any further (see 1.4), except unusually where a generally PVF regarded item has incorporated a Previous Authority Funded (PAF) item (see 2.21).
- iii. The proposed design is making use of a PAF engine.
- iv. This engine has Foreign Export Control (FEX) applying to items within it.
- v. The Defensive Aids System at 2.1 is covered as part of the Contract but the exact configuration and design has not yet been fixed “Design Not Mature” (DNM).
- vi. It is not feasible for a parent PVF system to make use of a CAF item; the parent system configuration would not have existed prior to the Contract.

Cyber Security

The Cyber Risk Level for the **SWESS-Light-In-Line** Requirement has been assessed as a **Very Low** risk project. The associated Risk Assessment Reference (RAR or RA) is: **RAR-488364154**.

DE&S have included DEFCON 658 (SC2) as part of the ITT process. This DEFCON is intended to protect MOD Identifiable Information transferred during the life of the contract and sometimes post contract. MOD Identifiable Information is defined in DEFCON 658 (SC2) as "All Electronic Information which is attributed to or could identify an existing or proposed MOD capability, defence activities or personnel and which the MOD requires to be protected against loss, misuse, corruption, alteration and unauthorised disclosure."

Tenderers should complete the SAQ by either using the supporting PDF document on the Defence Sourcing Portal (DSP) for this ITT or using the online SAQ Form from the weblink below (preferred).

Online SAQ available from:

<https://forms.office.com/Pages/ResponsePage.aspx?id=7WB3vINZS0iuldChbfoJ5Tv4OR9pb0BHial1Ag-WKXVUOFk3Sk9SS0JDQ0FRWjhYNDhTVIdHUDJaNy4u>

The completed SAQ must be uploaded within the Commercial Envelope on DSP AND emailed to the DCCP Team at the following email address: ISSDes-DCPP@mod.gov.uk

NOTE: Tenderers should allow a minimum of two working days for the DCCP team to respond with their SAQ result for inclusion in their Tender response.

Def Stan 05-138 (appendix 1) provides further advice and specific guidance on classifications. If the SAQ response is not accepted as sufficient by the online tool, then tenderers should show how they intend to achieve compliance by completing a Cyber Implementation Plan.

Suppliers intending to sub-contract part of a Ministry of Defence contract will also be required to complete a Risk Assessment for the sub-contract(s), and sub-contractors will be required to complete an SAQ in response to it.

You can find further information on Cyber Security by clicking [here](#) or by searching for DCCP on GOV.UK.

Please click this link to register with the online tool and complete your questionnaire:

THIS DEED OF GUARANTEE AND INDEMNITY GIVEN BY A PARENT COMPANY IN RESPECT OF A SUBSIDIARY

is made the [] day of [] 2022

BETWEEN:

(1) [Insert the name of the name of the Guarantor] [[a company incorporated in England and Wales with number [] whose registered office is at []] or [a company incorporated under the laws of [insert country] registered in [insert country] with number [] at [insert place of registration] whose principal office is at []] (“the **Guarantor**”); in favour of

(2) THE SECRETARY OF STATE FOR DEFENCE (“the **Authority**”)

WHEREAS:

(A) The Authority proposes to award contract number **(Insert Number)** (“the **Contract**”) to [redacted], company registration number [redacted] whose registered office is [redacted] (“the **Contractor**”).

(B) It is a condition precedent of the Authority entering into the Contract with the Contractor that the Guarantor must first execute and deliver this Deed of Guarantee and Indemnity to the Authority.

Now in consideration of the Authority entering into the Contract, the Guarantor hereby irrevocably and unconditionally agrees with the Authority as follows:

1. The Guarantor shall provide all resources and facilities whether financial or otherwise to enable the Contractor duly to fulfil its obligations in and arising from the Contract subsisting between the Authority and the Contractor at the date of this deed or which shall be entered into at any time after the date of this deed between the Authority and the Contractor (the **'Indemnified Obligations'**);

2. If:

a) the Contractor shall fail in any respect duly to perform and observe, or shall otherwise be in breach of, any of the Indemnified Obligations; or

b) any of the Indemnified Obligations are or become void, voidable, unenforceable or otherwise ineffective; or

c) the Contract is terminated owing to a breach or an event of default on the part of the Contractor; or

d) a receiver, administrative receiver, administrator, liquidator or similar officer is appointed over any or all of the Contractor's undertaking or assets;

then, forthwith on demand from the Authority the Guarantor shall, as a primary obligation, indemnify the Authority against all losses, claims, liabilities, damages, expenses and costs which may be incurred, met or suffered by the Authority and which arise from or in connection with (whether directly or indirectly) any such matters save that, subject to the other provisions of this deed, the liability of the Guarantor under this clause shall not exceed the liability of the Contractor to the Authority under the Contract.

3. The Guarantor irrevocably and unconditionally undertakes that all sums received or recovered by the Authority:
- a) by way of dividend, composition or payment arising from the liquidation, bankruptcy or otherwise of the Contractor may be taken and applied by the Authority in part satisfaction of the losses, claims, liabilities, damages, expenses and costs referred to in paragraph 2 above, and the Guarantor's obligations under this deed shall stand good in respect of the balance;
 - b) under this deed, may be credited to a suspense account and held in such account for so long as the Authority thinks fit pending the application of such monies towards the payment of the Indemnified Obligations;
 - c) from the Contractor in respect of any of the Indemnified Obligations, may be applied by the Authority in any manner and in any order towards any debts owed by the Contractor to the Authority (whether or not relating to the Indemnified Obligations) as the Authority may determine (notwithstanding any appropriation or purported appropriation by any person);
4. The Guarantor shall have no right to be subrogated to the Authority and shall not make any claim against the Contractor (unless instructed so to do by the Authority, in which event the Guarantor shall make such a claim) in respect of the Guarantor's performance under this deed, until the Authority has received payment in full of its claim against the Contractor;
5. This deed shall not be affected by any insolvency (including, without limitation, winding up, administration, receivership or administrative receivership), amalgamation, reconstruction, change of name, ownership, control or status or any legal limitation relating to, by or of the Contractor or any other person or, where the Contractor is a partnership, by any change in the partners;
6. The Guarantor shall not be discharged or released from its obligations under this deed:
- a) by any arrangement or agreement made between the Authority and the Contractor or a receiver, administrative receiver, administrator, liquidator or similar officer of the Contractor: or
 - b) by any renegotiation, substitution, alteration, amendment or variation (however fundamental) and whether or not to the Guarantor's disadvantage, to or of, the obligations imposed upon the Contractor or any other person; or
 - c) by any forbearance granted by the Authority to the Contractor or any other person as to payment, time, performance or otherwise; or
 - d) by any release or variation (however fundamental) of, any invalidity in, or any failure to take, perfect or enforce any other indemnity, guarantee or security in respect of the obligations to which this deed relates; or
 - e) by any other matter or thing which but for this provision might exonerate the Guarantor and this notwithstanding that such arrangement, agreement, renegotiation, substitution, alteration, amendment, variation, forbearance, matter or thing may have been made, granted or happened without the Guarantor's knowledge or assent;
7. No failure to exercise or any delay in exercising on the Authority's part any right or remedy under this deed or under the Contract or any other agreement shall operate as a waiver of such right or remedy;

8. Any certificate or determination by the Authority of the amount due under this deed or under the Contract shall be, in the absence of manifest error, conclusive evidence of the matters to which it relates;

9. No settlement or discharge between the Authority and the Guarantor or the Contractor shall be effective if any payment to the Authority in respect of the Contractor's or the Guarantor's obligations to the Authority is avoided or reduced by virtue of any provisions or enactments relating to bankruptcy, insolvency, liquidation or similar laws of general application from time to time and if such payment is so avoided or reduced, the Authority shall be entitled to recover from the Guarantor the amount of such payment as if such settlement or discharge had not occurred;

10. The Authority shall not be obliged, before exercising any of its rights under this deed, to take any action against, or make any demand from, the Contractor or any other person;

11. The Guarantor's obligations under this deed are continuing obligations and shall not be considered satisfied, settled or terminated by the Authority giving any approvals, or taking delivery of any goods, or accepting any performance under the contract and no single, cumulative or partial exercise by the Authority of any right or remedy under or arising from this deed shall prevent any further exercise;

12. All payments under this deed shall be made without set-off, counter-claim or other deduction;

13. The Guarantor shall be bound by all court judgments or arbitration awards relating to the contract or any dispute or matter between the Authority and the Contractor;

14. This deed shall be governed by and construed in accordance with English law. The parties irrevocably submit to English jurisdiction to the exclusion of all foreign jurisdiction, save that foreign jurisdictions may apply solely for the purposes of giving effect to this paragraph and for the enforcement of any judgment, order or award given under English jurisdiction.

[The following clause should only be used where the Guarantor is a company incorporated outside of England and Wales]

15. Appendix 1 to DEFFORM 24 (Edn 10/14)

Explanatory Notes

1. These explanatory notes are to assist in the completion of the DEFFORM 24 and should not be included in your completed Deed of Guarantee and Indemnity.
2. DEFFORM 24 is a Deed of Guarantee and Indemnity given by a Parent Company in respect of a Subsidiary. It is designed to cover a specific single contract entered into with the MOD by the subsidiary. The purpose of obtaining a Parent Company guarantee and indemnity is to ensure that the company is in a position to be able to execute the contract properly and, failing that, the MOD is reimbursed for any extra expenditure it may incur in making arrangements to have the contract completed elsewhere.
3. Where the company is able to offer a guarantee and indemnity from a parent (holding) company, commercial officers should ensure that they seek the guarantee and indemnity from the ultimate parent (holding) company in the group, rather than an intermediate parent (holding) company, or any other intermediate parent (holding) company where such exists. In such cases the MOD will wish to be satisfied as to the parent (holding) company's ability to provide the cover required, having regard to its financial resources and prospects. You should always ask Cost Assurance and Analysis Service - Industry Analysis (CAAS IA) to advise on this. Where the proposed contract is large, this may entail the holding company agreeing to a separate assessment by CAAS IA. In order to assure consistency throughout the MOD only this DEFFORM can be used as a Deed of Guarantee and Indemnity being given by a Parent Company.

Guidance On Completion

4. The specimen wording of the DEFFORM should be suitable for most circumstances and should not be changed at the request of a Guarantor. You must seek Central Legal Services – Commercial Law (CLS-CL) advice if the Guarantor requests a revision to the template DEFFORM or if the proposed Guarantor is a company registered outside England and Wales. In the latter case, you will need to seek legal advice to confirm both that the proposed Guarantor has power (under its own corporate rules and the laws of its home country) to enter into the deed and that it has executed the deed in a manner that makes it legally binding on the Guarantor.

Introductory Paragraph

5. Insert the contractor's name and, if applicable, registration number of the contractor (unless the contractor is a UK partnership or an overseas company it will be shown on the company letterhead) and the contract / tender details and dates and edit as appropriate.

Paragraph 1

6. Covers the Guarantor's obligations to the MOD to provide all resources and facilities (financial or otherwise) to enable the contractor to meet its obligations under the contract.

Paragraph 2

7. Covers the circumstances under which the guarantee and indemnity may be activated. This also requires the Guarantor to indemnify the MOD on demand against all losses and costs which the MOD has incurred as a result of these circumstances. However, the MOD cannot claim more under this paragraph from the Guarantor than they could claim from the contractor under the contract. If the contract contains a Limitation of Contractor's Liability, this will automatically apply to the indemnity under paragraph 2 of DEFFORM 24.

Appendix 1 to DEFFORM 24 (Edn 10/14)

Paragraph 3

8. Covers the way in which any sums received by the MOD from either the contractor and / or the Guarantor may be used.

Paragraph 4

9. Covers the essential requirement of subrogation (the substitution in law of one party for another as the creditor). This will normally ensure that the Guarantor fulfils its obligations to the MOD before it takes any action to recover any claims of its own from the contractor. However, it also provides for the Guarantor to claim its right of subrogation if instructed to do so by the MOD, if that avenue would mean that it is able to recover money from a contractor in liquidation, which would then enable the Guarantor to meet the MOD claim.

Paragraph 5

10. Maintains the validity of this guarantee and indemnity even if the contractor changes its name, status and even ownership or control etc.

Paragraph 6

11. Prevents the Guarantor from subsequently avoiding its responsibilities even if there have been any amendments to the underlying contract.

Paragraph 7

12. Safeguards the MOD in the event of the MOD's failure or delay to call on the guarantee and indemnity.

Paragraph 8

13. The MOD may self-certify the amount of any demand for payment under the guarantee and indemnity. The Guarantor may only challenge this in cases of "manifest error".

Paragraph 9

14. Covers the scenario where the MOD may have received payment in settlement of a dispute but that payment then becomes void (e.g. if the payee soon thereafter becomes insolvent). The Guarantor still remains liable for the amount of the voided payment.

Paragraph 10

15. Confirms that MOD may seek recompense from the Guarantor without first having to attempt to make recovery from the contractor.

Paragraph 11

16. Confirms that the MOD taking delivery of goods, accepting performance under the contract or making any claim under the deed, does not relieve the Guarantor from its ongoing liability under the deed. This is to prevent accidental waiver of the MOD's rights.

Paragraph 12

17. This is self explanatory.

Paragraph 13

Appendix 1 to DEFFORM 24 (Edn 10/14)

18. Prevents the Guarantor from claiming that it may not be bound by an arbitrator's decision against a contractor, which could force the MOD to litigate the same point a second time with the possibility that a different court may reach a different conclusion.

Paragraph 14

19. Confirms that English law applies to the indemnity, no matter which national law may apply to any contract. Also, if the contractor is not subject to English law, the MOD may use the contractor's national law in order to enforce any claim that may be agreed.

Paragraph 15

20. Delete this clause if the Guarantor is an English company (i.e. a company incorporated in England or Wales). If the Guarantor is a foreign company, then the paragraph should be retained. In either case you should delete the introductory words in bold.

Execution

Insert the full corporate name of the Guarantor in the execution clause, where indicated. For the deed to be effective it is essential that it is signed by two directors of the Guarantor or by one director and the company secretary. It is now not strictly necessary for the Guarantor to apply its corporate seal - although the MOD may request it.

7. that our obligations under this bond are continuing obligations and shall not be considered satisfied, settled or terminated by your giving of any approvals, or taking delivery of any goods, or accepting any performance under the contract and no single, cumulative or partial exercise by you of any right or remedy under or arising from this bond shall prevent any further exercise;
8. that any demand(s) complying with all the requirements hereof must be received by us on or before [insert date];
9. that all payments under this bond shall be made without set-off, counter claim or other deduction;

¹ This execution clause should be changed if the bank or other corporate entity giving the bond is executing it in one of the other methods listed in the accompanying guidance (see Execution).

Appendix 1 to DEFFORM 24A (Edn 10/14)

Explanatory Notes

1. These explanatory notes are to assist in the completion of the DEFFORM 24A and should not be included in your completed Bond.
2. DEFFORM 24A is an 'on demand' bond provided by the financial markets (normally a bank or insurance company). The purpose of obtaining a bond is to ensure that the MOD is reimbursed for any extra expenditure it may incur in making alternative arrangements in the event of the company failing to fulfil any of its contractual obligations and the MOD having the contract completed elsewhere.
3. Where the financial markets provide the indemnity, the Indemnifier will invariably charge a premium to cover its risk, and this should be borne by the company without additional expense to the MOD. The extent of the cover that the market is willing to provide, and the level of premium sought, will provide a valuable independent assessment of the company's financial standing and prospects.

Guidance On Completion

4. The specimen wording of the DEFFORM should be suitable for most circumstances and should not be changed at the request of an Indemnifier. You must seek Central Legal Services – Commercial Law (CLS-CL) advice if the Indemnifier requests a revision to the template DEFFORM.

Introductory Paragraph

5. Insert the name and address of the Indemnifier, the contractor's name and, if applicable, registration number of the contractor (unless the contractor is a UK partnership or an overseas company it will be shown on the company letterhead) and the contract / tender details and dates and edit as appropriate.

Paragraph 1

6. Covers the Indemnifier's obligations to the MOD. As a bank, by its regulations, has to limit its liability, there is a provision to insert a maximum sum. Covers the circumstances under which the indemnity may be activated.

Paragraph 2

7. Maintains the validity of the bond even if the contractor changes its name, status and even ownership or control etc.

Paragraph 3

8. Prevents the Indemnifier from subsequently avoiding its responsibilities even if there have been any amendments to the contract.

Paragraph 4

9. Safeguards the MOD in the event of the MOD's failure or delay to call on the bond.

Paragraph 5

10. Covers the scenario where the MOD may have received payment in settlement of a dispute but that payment then becomes void (e.g. if the payee soon thereafter becomes insolvent). The Indemnifier still remains liable for the amount of the voided payment.

Paragraph 6

11. Confirms that the MOD may seek recompense from the Indemnifier without first having to attempt to make recovery from the contractor.

Appendix 1 to DEFFORM 24A (Edn 10/14)

Paragraph 7

12. Confirms that the MOD taking delivery of goods, or making any claim under the deed, does not relieve the Indemnifier from its ongoing liability under the deed.

Paragraph 8

13. This is self explanatory. The inserted date will be the expiry date of the bond.

Paragraph 9

14. This is self explanatory.

Paragraph 10

15. Confirms that English law applies to the bond, no matter which national law may apply to any contract. Also, if the contractor is not subject to English law, the MOD may use the contractor's national law in order to enforce any claim that may be agreed.

Paragraph 11

16. Delete this clause if the Indemnifier is an English company (i.e. a company incorporated in England or Wales). If the Indemnifier is a foreign company, then the paragraph should be retained. In either case you should delete the introductory words in bold.

Execution

For the bond to be effective it is essential that it is executed correctly. This is achieved by ensuring that it is properly signed. The template execution clause in the bond provides for signature by a named Attorney on behalf of the bank. This is the most common method of execution in practice. You should ask for a copy of the power of Attorney to check that the person signing the bond has the requisite authority to do so. As an alternative, the deed may be signed by two directors of the Indemnifier, or by one director and the company secretary, or by a director in the presence of a witness who attests the signature. If any of these alternatives are used, the signature block should be changed to reflect this. It is now not strictly necessary for the Indemnifier to apply its corporate seal - although the MOD may request it.
