18.3 The Contractor shall, during the Term establish, maintain and enforce, and require that its Sub-Contractors establish, maintain and enforce, policies and procedures which are adequate to ensure compliance with the Relevant Requirements and prevent the occurrence of a Prohibited Act; and shall notify the Customer immediately if it has reason to suspect that any breach of clauses 18.1 and/or 18.2 has occurred or is occurring or is likely to occur.

20 General

- 20.1 Each of the Parties represents and warrants to the other that it has full capacity and authority, and all necessary consents, licences and permissions to enter into and perform its obligations under the Agreement, and that the Agreement is executed by its duly authorised representative.
- 20.2 A person who is not a party to the Agreement shall have no right to enforce any of its provisions which, expressly or by implication, confer a benefit on him, without the prior written agreement of the Parties. This clause does not affect any right or remedy of any person which exists or is available apart from the Contracts (Rights of Third Parties) Act 1999 and does not apply to the Crown.

- 20.3 The Agreement cannot be varied except in writing signed by a duly authorised representative of both the Parties.
- 20.4 In the event that the Contractor is unable to accept the variation to the Specification or where the Parties are unable to agree a change to the Contract Price, the Customer may:

Where a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed at clause 19.
- 20.5 The Agreement contains the whole agreement between the Parties and supersedes and replaces any prior written or oral agreements, representations or understandings between them. The Parties confirm that they have not entered into the Agreement on the basis of any representation that is not expressly incorporated into the Agreement. Nothing in this clause shall exclude liability for fraud or fraudulent misrepresentation.
- 20.6 Any waiver or relaxation either partly, or wholly of any of the terms and conditions of the Agreement shall be valid only if it is communicated to the other Party in writing and expressly stated to be a waiver. A waiver of any right or remedy arising from a breach of contract shall not constitute a waiver of any right or remedy arising from any other breach of the Agreement.
- 20.7 The Agreement shall not constitute or imply any partnership, joint venture, agency, fiduciary relationship or other relationship between the Parties other than the contractual relationship expressly provided for in the Agreement. Neither Party shall have, nor represent that it has, any authority to make any commitments on the other Party's behalf.
- 20.8 Except as otherwise expressly provided by the Agreement, all remedies available to either Party for breach of the Agreement (whether under the Agreement, statute or common law) are cumulative and may be exercised concurrently or separately, and the exercise of one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.
- 20.9 If any provision of the Agreement is prohibited by law or judged by a court to be unlawful, void or unenforceable, the provision shall, to the extent required, be severed from the Agreement and rendered ineffective as far as possible without modifying the remaining provisions of the Agreement, and shall not in

any way affect any other circumstances of or the validity or enforcement of the Agreement.

- 20.10 The Contractor shall take appropriate steps to ensure that neither the Contractor nor any Staff is placed in a position where, in the reasonable opinion of the Customer, there is or may be an actual conflict, or a potential conflict, between the pecuniary or personal interests of the Contractor and the duties owed to the Customer under the provisions of the Agreement. The Contractor will disclose to the Customer full particulars of any such conflict of interest which may arise.
- 20.11 The Customer reserves the right to terminate the Agreement immediately by notice in writing and/or to take such other steps it deems necessary where, in the reasonable opinion of the Customer, there is or may be an actual conflict, or potential conflict between the pecuniary or personal interest of the Contractor and the duties owed to the Customer pursuant to this clause shall not prejudice or affect any right of action or remedy which shall have accrued or shall thereafter accrue to the Customer.
- 20.12 The Agreement constitutes the entire contract between the Parties in respect of the matters dealt with therein. The Agreement supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any Fraud or fraudulent misrepresentation.

21 Notices

- 21.1 Except as otherwise expressly provided in the Agreement, no notice or other communication from one Party to the other shall have any validity under the Agreement unless made in writing by or on behalf of the Party concerned.

2. Web in a box (password protected demo site for local Healthwatch)
3. Healthwatch public website (www.healthwatch.co.uk)

We require the following testing:

1) Blackbox testing (no details provided to pen testing team):

1.1) Footprinting phase:

- Pen testing team to search the internet, querying various public repositories (whois databases, domain registrars, Usenet groups, mailing lists, etc.) for any useful system information
- Can include social engineering (i.e. checking social networks etc. for public system data but perhaps we do not need this?)

2) Whitebox testing

This term is used when the Pen testing team are given information about the servers and application.

1.2) Scanning and Enumeration:

Based on information found in footprinting, pen test team should scan:

1.2.1) Infrastructure:

open / filtered ports found,

services running on these ports,
mapping router / firewall rules,
identifying the operating system details
network path discovery,

1.2.2) Application level:

Parameter injection, Cross-site scripting, Directory traversal, SQL injection, Buffer overflow, DoS, Format String (there may be more elements to test for and we should confirm).

We should confirm what automated tools and manual methods will be used.

1.3 API testing

High level testing to identify access only.

Vulnerability status should then be provided to us to review.

1. INTRODUCTION

This Schedule 7 covers:

- 1.1 principles of security for the Contractor System, derived from the Security Policy Framework, including without limitation principles of physical and information security;
- 1.2 wider aspects of security relating to the Services;
- 1.3 the creation of the Security Plan;
- 1.4 audit and testing of the Security Plan; and
- 1.5 breaches of security.

2. PRINCIPLES OF SECURITY

- 2.1 The Contractor acknowledges that the Authority places great emphasis on confidentiality, integrity and availability of information and consequently on the security of the Premises and the security for the Contractor System. The Contractor also acknowledges the confidentiality of Authority Data.
- 2.2 The Contractor shall be responsible for the security of the Contractor System and shall at all times provide a level of security which:
 - 2.2.1 is in accordance with Good Industry Practice and Law;
 - 2.2.2 complies with Security Policy Framework; and
 - 2.2.3 meets any specific security threats to the Contractor System.
- 2.3 Without limiting paragraph 2.2, the Contractor shall at all times ensure that the level of security employed in the provision of the Services is appropriate to maintain the following at acceptable risk levels (to be defined by the Authority):
 - 2.3.1 loss of integrity of Authority Data;
 - 2.3.2 loss of confidentiality of Authority Data;
 - 2.3.3 unauthorised access to, use of, or interference with Authority Data by any person or organisation;
 - 2.3.4 unauthorised access to network elements, buildings, the Premises, and tools used by the Contractor in the provision of the Services;

3.2 A draft Security Plan provided by the Contractor as part of its bid is set out herein.

3.3 Prior to the Commencement Date the Contractor will deliver to the Authority for approval the final Security Plan which will be based on the draft Security Plan set out herein.

3.4 If the Security Plan is approved by the Authority it will be adopted immediately. If the Security Plan is not approved by the Authority the Contractor shall amend it within 10 Working Days of a notice of non-approval from the Authority and re-submit to the Authority for approval. The Parties will use all reasonable endeavours to ensure that the approval process takes as little time as possible and in any event no longer than 15 Working Days (or such other period as the Parties may agree in writing) from the date of its first submission to the Authority. If the Authority does not approve the Security Plan following its resubmission, the matter will be resolved in accordance with clause I2 (Dispute Resolution). No approval to be given by the Authority pursuant to this paragraph 3.4 may be unreasonably withheld or delayed. However any failure to approve the Security Plan on the grounds that it does not comply with the requirements set out in paragraphs 3.1 to 3.4 shall be deemed to be reasonable.

3.5 The Security Plan will set out the security measures to be implemented and maintained by the Contractor in relation to all aspects of the Services and all processes associated with the delivery of the Services and shall at all times comply with and specify security measures and procedures which are sufficient to ensure that the Services comply with:

3.5.1 the provisions of this Schedule 7;

3.5.2 the provisions of Schedule 1 relating to security;

3.5.3 the Information Assurance Standards;

3.5.4 the data protection compliance guidance produced by the Authority;

3.5.5 the minimum set of security measures and standards required where the system will be handling Protectively Marked or sensitive information, as determined by the Security Policy Framework;

- 3.5.6 any other extant national information security requirements and guidance, as provided by the Authority's IT security officers; and
- 3.5.7 appropriate ICT standards for technical countermeasures which are included in the Contractor System.
- 3.6 The references to Quality Standards, guidance and policies set out in this Schedule shall be deemed to be references to such items as developed and updated and to any successor to or replacement for such Quality Standards, guidance and policies, from time to time.
- 3.7 If there is any inconsistency in the provisions of the above standards, guidance and policies, the Contractor should notify the Authorised Representative of such inconsistency immediately upon becoming aware of the same, and the Authorised Representative shall, as soon as practicable, advise the Contractor which provision the Contractor shall be required to comply with.
- 3.8 The Security Plan will be structured in accordance with ISO/IEC27002 and ISO/IEC27001 or other equivalent policy or procedure, cross-referencing if necessary to other schedules of the Contract which cover specific areas included within that standard.
- 3.9 The Security Plan shall not reference any other documents which are not either in the possession of the Authority or otherwise specified in this Schedule 7.

 - 4.3 Any change or amendment which the Contractor proposes to make to the Security Plan (as a result of an Authority request or change to Schedule 1 or otherwise) shall be subject to a CCN and shall not be implemented until Approved.

5. AUDIT AND TESTING

- 5.1 The Contractor shall conduct tests of the processes and countermeasures contained in the Security Plan ("Security Tests") on an annual basis or as otherwise agreed by the Parties. The date, timing, content and conduct of such Security Tests shall be agreed in advance with the Authority.
- 5.2 The Authority shall be entitled to send a representative to witness the conduct of the Security Tests. The Contractor shall provide the Authority with the results of such tests (in an Approved form) as soon as practicable after completion of each Security Test.
- 5.3 Without prejudice to any other right of audit or access granted to the Authority pursuant to the Contract, the Authority shall be entitled at any time and without giving notice to the Contractor to carry out such tests (including penetration tests) as it may deem necessary in relation to the Security Plan and the Contractor's compliance with and implementation of the Security Plan. The Authority may notify the Contractor of the results of such tests after completion of each such test. Security Tests shall be designed and implemented so as to minimise the impact on the delivery of the Services.
- 5.4 Where any Security Test carried out pursuant to paragraphs 5.2 or 5.3 reveals any actual or potential security failure or weaknesses, the Contractor shall promptly notify the Authority of any changes to the Security Plan (and the implementation thereof) which the Contractor proposes to make in order to correct such failure or weakness. Subject to Approval in accordance with paragraph 4.3, the Contractor shall implement such changes to the Security Plan in accordance with the timetable agreed with the Authority or, otherwise, as soon as reasonably possible. For the avoidance of doubt, where the change to the Security Plan to address a non-compliance with the Security Policy Framework or security requirements, the change to the Security Plan shall be at no additional cost to the Authority. For the purposes of this paragraph, a weakness means a vulnerability in security and a potential security failure means a possible breach of the Security Plan or security requirements.

6. BREACH OF SECURITY

- 6.1 Either Party shall notify the other immediately upon becoming aware of any Breach of Security including, but not limited to an actual, potential or attempted breach, or threat to, the Security Plan.
- 6.2 Upon becoming aware of any of the circumstances referred to in paragraph 6.1, the Contractor shall immediately take all reasonable steps necessary to:
 - 6.2.1 remedy such breach or protect the Contractor System against any such potential or attempted breach or threat; and
 - 6.2.2 prevent an equivalent breach in the future;

- 6.2.3 collect, preserve and protect all available audit data relating to the incident and make it available on request to the Authority;
- 6.2.4 investigate the incident and produce a detailed report for the Authority within 5 working days of the discovery of the incident.

6.3 Such steps shall include any action or changes reasonably required by the Authority.
