

BURTON DASSETT PARISH COUNCIL

Project: MUGA Temple Herdewyke

Project Reference Number: TH MUGA

Closing date for Clarification Questions: 16.7.24

Clarification Log (Version a – 16/06/2024)

	Question	Response
1.	Did any scoring get decided for this tender or could you advise how you will make a decision on this?	<p>Evaluation Criteria: Quality Threshold – The panel is confident of the supplier's ability to perform the contract to the highest standards, based upon evidence provided of their professional accreditation and knowledge in and experience of carrying out similar installations - Outcome = Pass/Fail</p> <p>Price Evaluation – The contract will be awarded to the lowest total price from those who pass the Quality Threshold.</p>
2.	In regards to the drop in ground level, are you hoping to have the MUGA relatively level and to therefore build the ground up? Or are you allowing for a 600mm drop across the court. Can the drainage also allow for the run off the be diverted to the ditch?	Yes, the ground will need to be built up to compensate for the 600mm drop in ground level, so that the surface is level, with a slight incline towards the rear so that rainwater runs off into the ditch at the back.
