Section 1 – Statement of Requirements

1. Executive Summary

The Care Quality Commission (CQC) is the independent regulator of health and social care in England. Our role is to make sure that health and social care services in England provide people with safe, effective and high-quality care, and we encourage them to make improvements. We also carry out special investigations and reviews into aspects of health and social care if asked to do so by the Government or if we decide that there is a public need for more information about how a particular type of service, or combination of services, is functioning or how a particular service issue is being dealt with across the country or a region.

CQC's operating model¹ is to Register, Monitor, Inspect, Rate and Enforce where we find breaches in the regulations; we also act as an Independent Voice. Our approach to regulation is risk-based. Working with wider CQC colleagues, inspectors monitor risk within services in their portfolio and inspections are scheduled on the basis of risk. We take enforcement action where we find a breach of the regulations of the Health & Social Care Act 2008 (Regulated Activities) Regulations 2014² and unlike some other regulators the CQC has both criminal and civil enforcement powers. Our responsibilities for enforcement changed as a consequence of the Mid Staffs Inquiry (April 2015), however since that time the application of our new powers has been increasing and all staff in the operational directorates are undertaking increased criminal enforcement work.

CQC's enforcement is carried out by inspectors and registration inspectors who are responsible for ensuring that risks are identified, managed and escalated and that consistent, evidence-based regulatory judgements are made across their area of responsibility. Inspection and registration managers and Heads of Inspection and Registration have responsibility to oversee the work and make decisions in enforcement activity ensuring that effective judgements are made and audited in line with our systems and processes. CQC currently employs 1,486 inspectors across the Adult Social Care including Registration (ASC), Hospitals and Primary Medical Services (PMS) directorates. Our inspectors and registration inspectors are primarily homebased across England and are responsible for managing all regulatory activity across a regional portfolio of services.

Professional Regulatory Skills is aligned to the CQC Strategy and Operating Model and refers to CQC's end-to-end processes of registration and inspection but with a specific focus on investigatory practice for civil and criminal enforcement activity that CQC may take. The aim of a Professional Regulatory Skills Programme ("the Programme") is to improve CQC's approach to each aspect of the operating model, improving the robustness, timeliness and consistency of our regulatory work and that people who use services will be further protected by the robust and professional approach taken by our staff.

The programme will enhance the skills and knowledge of those in an inspection and enforcement role within the Adult Social Care, Hospitals and Primary Medical Services directorates and enhance CQC's reputation and credibility as a health and social care regulator. Our inspection and registration staff are diverse in terms of their professional backgrounds and qualifications held; therefore accreditation is intended to provide a professional and career development for our inspection and registration staff. For some staff, the programme could support professional

registration and revalidation requirements.

Our staff survey results showed that some inspectors do not feel adequately supported or updated in their role and we expect this learning intervention to have a positive impact on staff engagement. The introduction of a comprehensive Professional Regulatory Skills programme is therefore intended to provide assurance, updating and new skill development to a broad audience. This professional regulatory skills programme will have an impact upon future staff engagement productivity, decreased stress and anxiety related absence.

2. The Requirement

CQC requires a Contractor to design and deliver a Level 6 accredited learning Programme to enable our staff to effectively meet the professional requirements for regulatory activities, as identified in the national occupational standards. Inspection managers, registration managers, Heads of Inspection and Heads of Registration from Adult Social Care, Hospitals and Primary Medical Services are also identified to undertake the Programme to ensure their competence and confidence in leading enforcement work and supporting consistent practice across CQC.

The requirement is for a contractor to design and deliver the full learning process: from knowledge and skills acquisition, to application and reflection, through to assessment and accreditation. The requirement extends to the design of learning and/or processes to equip managers to support the transfer of learning and the assessment of learning. CQC is not prescriptive about the delivery channel for the learning solution and is open to e-learning, classroom and a blended approach. We seek a bespoke, innovative and cost effective solution that will meet the Programme learning outcomes stated below.

Programme Learning Outcomes

At the end of the programme learners will be able to:

- Achieve a Level 6 certification demonstrating they meet the professional requirements for regulatory activities as identified in the national occupational standards
- Confidently and consistently apply processes of CQC's operating model that includes civil and criminal enforcement processes when services breach the legislation, specifically
 - Identify and respond to risk
 - support the planning stages of inspection and registration activities
 - support their day to day role and make improvements to the way evidence is gathered and recorded
 - ensure the principles of the law and legislation are understood and applied, for example General Data Protection Regulations (GDPR)³, Police and Criminal Evidence Act 1984 (PACE)⁴ Criminal Procedure and Investigations Act 1996 (CPIA)⁵ and Regulation of Investigatory Powers Act 2000 (RIPA)⁶
- Ensure clear audit trails are in place demonstrating proportionate judgements for registration, inspection ratings civil and criminal enforcement

- Know the elements of the key criminal offences and the legal tests to be met for civil enforcement action and understand how the respective burdens of proof apply in civil and criminal proceedings
- Gather, evaluate, analyse witness and physical evidence
- Recognise and distinguish between different types and quality of evidence
- Contribute to improving the quality and efficiency of our regulatory work within the limits of responsibility
- Demonstrate effective notetaking (including electronic note taking) and evidence gathering at all stages of the process that leads to an increase in the number of successful prosecutions
- Have the skill to make appropriate judgements, and thus decisions, on casework and to confidently and effectively communicate with our customers and other stakeholders, especially regarding the basis for, and outcomes from the exercise of effective judgement
- Effectively support the CQC legal team to focus on more complex cases due to the confidence and competence of inspection staff to deal with routine civil and criminal enforcement
- Effectively reduce the time taken by inspector, manager, Head of, Deputy Chief inspectors to complete regulatory activity for both civil and criminal enforcement activity
- Successfully enable timely and effective responses when we find unregistered providers operating in the market
- Recognise the importance of equality and human rights to the quality of care received and taking appropriate action where there is evidence of poor care
- Build knowledge, competence and confidence on equality and human rights in their regulatory work

Services to be delivered

Design Phase

The design element involves producing a Programme that enables all the learning outcomes to be achieved.

Essential inputs for the design phase

- Bespoke learning solutions that are fully accredited at level 6; the awarding body criteria must be taken into consideration when providing CQC with proposed design options.
- Learning must be contextualised to CQC work
- Must reflect CQC's learning framework (see supporting information Appendix B2)
- Any e-learning digital solutions will need to be hosted on the CQC's Learning Management System (LMS) (see supporting information "Appendix B2")
- All scheduling will be undertaken by the CQC Academy delivery team, and all learning will need to be recorded on our LMS
- An outline of proposed dates for delivery

Learning materials

- The Contractor will be required to provide all printed course materials during the formal programme, work-based learning and accreditation, whether electronic or paper format.
- All learning materials / solutions must meet the accessible information standards and consider any related equality diversity and human rights needs

- Any element of the programme that is a digital learning solution to meet the requirements set out in "Appendix B2" and taking into consideration security and access issues (our inspection workforce is homebased and therefore reliant on local bandwidth).
- All externally facing materials provided must be branded in the CQC Academy house style (see "Appendix B3")
- Any digital learning products will need to undergo user acceptance testing in line with Academy Systems and Solutions processes
- All materials and aspects of this programme will remain the property of CQC as per the terms and conditions of the contract

Re-Design of materials / content

CQC will provide anonymised case studies that reflect the enforcement practice in Hospitals Primary Medical Services (PMS), Independent Care, Mental Health (MH), Adult Social Care (ASC) and Registration as tools for learning. The Contractor will need to work effectively with CQC internal subject matter experts on reviewing relevant enforcement practice, and any changes to policy and process for the duration of the learning programme.

Requirements for re-design must be covered within the cost envelope, under the following circumstances:

- Evaluation of the cohorts indicates the content or delivery does not meet learner and/or organisational needs
- Changes to any relevant legislations during the contract period
- Changes to CQC practice during the contract period e.g based on emerging new models of care
- To meet all on-going accreditation processes and requirements and including any reaccreditation processes during the contract period.

Knowledge/Skills acquisition

CQC is not prescriptive about the delivery channels for learning however the Programme should allow for cohorts from across geographical and directorate boundaries to encourage cross team engagement and which include management and staff. We would also encourage the Programme to include managers within the early cohorts, Adult Social Care inspectors with enforcement as their area of interest, and those across sectors who are currently undertaking enforcement work as building consistency in practice is a requirement from the Programme. Any learning solutions will need to take into consideration timeliness and delivery of solution, cost effectiveness and essentially, alignment to learning outcomes set out above

The start date of the programme will need to take place no later than 12 weeks after contract commencement.

Any classroom based learning provision included must maximise the use of our Head Office and regional CQC offices across England and support home working to minimise travel, subsistence and accommodation costs

If classroom learning solutions are proposed the Contractor must be must maximise the use of our Head Office and regional CQC offices across England and support home working to minimise travel, subsistence and accommodation costs and capable to deliver at any of the following CQC geographic locations:

■ Birmingham CQC Regional office 46 Priory Queensway Dale End Birmingham B4 7LR

Bristol CQC Regional office: 33 Colston Avenue Bristol BS1 4UA
Leeds CQC Regional office: St Paul's House 23 Park Square South Leeds LS1 2ND

Learner Assessment

A requirement of the Programme is that participants are able to translate the taught element of the programme through to their day to day roles and activities and that this can be assessed.

The Programme must provide relevant assessment which forms part of the accreditation, whether by examination, assignment or work place observation and to include supporting managers (internal verifiers) with appropriate learning so they can effectively use the proposed assessment criteria and indicative scoring criteria

Learner Accreditation

We require the Contractor to provide a learning solution that is accredited at level 6 qualification standards. The Contractor will be required to use an objective framework such as the National Qualifications Framework to provide a nationally recognisable development route that is transferable to a qualification and reflects the required competence specific to the work of inspectors in health and social care.

The Contractor will deliver all elements associated with Programme accreditation process and will be responsible to ensure that Programme is accredited throughout the contract period an implementation plan. We anticipate The Contractor to deliver an accredited programme no later than the commencement of the second learning cohort and would require retrospective accreditation for cohort one. The accreditation process and implementation plan should provide for an assessment of learners previous learning and experience, to accurately assess whether they are exempted from any element of the programme

Evaluation

The Contractor will additionally be required to support evaluation of the Programme through the gathering, collation and submission of agreed evaluation data

We require formative and summative assessments of each module of the learning programme.

Evaluation of the programme will be required at levels of the Kirkpatrick model during the programme life cycle and the Contractor will be required to work with CQC to propose evaluation and return on investment, taking into consideration the aims and outcomes of the programme, and the key performance indicators set out in section 9

The Kirkpatrick Model Level one Reaction evaluation will be required for the first Cohort of learners for this programme with the requirement for the Contractor to make modifications to materials and delivery based on feedback. The programme will be evaluated at regular intervals that will be confirmed with the Contractor. Future level 1 evaluation will be via the CQC LMS

3. Service Levels & Volumes

Service Volumes

The anticipated total of 1,112 internal CQC staff will undertake the learning programme with provisional estimate of 400 learners per year however annual demand is variable depending on learner volumes and shall subject to increase or decrease dependent on learner availability and progression, organisational turnover and recruitment. Therefore service learner volumes to be arranged between CQC and the Contractor on a call-off basis and reviewed each at each quarterly interval during the service period.

The below Service Level Agreement (SLA) is intended to describe the minimum service level that CQC expect the Contractor to adhere to:

Table 1: SLAs
