 - The Contractor must support the 'digital first' approach and use clinically safe, NHS approved digital technology to improve access, increase patient choice, and improve quality and outcomes.
- e) Backing the workforce:
 - The Contractor must provide a GP Led service with appropriate clinical oversight to support the multi- dimensional practice team;
 - The Contractor must provide and support all staff holistically, ensuring personal

development, promote confidence and greater staff satisfaction.

The Contract shall be for a term of five (5) years from the Service start date with the possibility of extending the term by up to another 5 years beyond the initial contracted term at the Commissioners' request. The contract start date is 1st of April 2021.

The contract value for this service is estimated to an annual cost of £931,140 and it will be up for a total £9,311m over the potential 10-years of the contract including extensions (please note that the Commissioners reserve the right to reject bids that exceed the budgetary threshold).

The service will be commissioned via an open type procurement process according to the Light Touch Regime of the Procurement Contract Regulations 2015 for healthcare services advertised to all providers which is proportionate to the value and complexity of the service and contract.
