2 The Plug In Vehicle Grant is a grant currently offered by the Office for Zero Emission Vehicles (OZEV) to eligible manufacturers to promote the purchase of zero emission vehicles. As of 18 March 2021 the government announced changes to the Plug-in Van Grant (PIVG) that will affect the ABT e-Transporter 6.1 that currently qualifies for this scheme. Customers purchasing a ABT e-Transporter 6.1 will receive 35% off the purchase price up to a maximum of £6,000. The £6,000 grant has already been deducted from the recommended 'On the road' price shown (and therefore the recommended 'On the road' price will increase in the event that grant funding is withdrawn, or eligibility for the grant or the grant amount changes, for any reason). Your authorised Volkswagen Van Centre will submit the details of your order online in order to claim the grant funding. The grant is subject to full T&Cs and eligibility requirements. For more information, please contact your authorised Volkswagen Van Centre or visit www.gov.uk/plug-in-car-van-grants/overview. The Government Plug-in Van Grant (PIVG) is not applicable to sales in the Channel Islands or Isle of Man. Vehicle eligibility and grant figure correct as at 18.3.2020.

Volkswagen Commercial Vehicles may change RRP's at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen authorised Van Centre.
