- BT Cover
- Drain Pipe
- Gully
- Inspection Cover
- Lamp Post
- Man Hole Cover
- Post
- Soil Vent Pipe
- Telegraph Pole
- Water Cover
- Contour Line
- Survey Station

Notes

Levels are in metres above Ordnance Survey Datum.

Coordinate system is Ordnance Survey National Grid OSGB36(15) at coordinates 165468.426E, 45265.578N (STNTG1). All data has been drawn using a scale factor of 1.000 from this point.

Level Datum and coordinate system were established using the OS active station GNSS network.

Grid is related to Ordnance Survey coordinates.

No allowance has been made for sub surface entry into manholes or other chambers or voids below ground level. Therefore any details relating to depths, sizes etc. are taken from above ground and as such will be approximate only.

It is important to note that the same accuracies implied by the plotting scale are equally applicable to digital data supplied for CAD.

Every effort has been made to identify all visible above ground features, however it should be borne in mind that there may be items obscured at the time of survey.

Visible features in the vicinity of the boundaries, as shown on this survey, may not represent the extent of legally conveyed ownership.
