

# HCAP17008: LC159: Peterborough Town Sites Term Landscape Maintenance and Cleansing Contract 2016-2019

## ITT QUESTIONS AND ANSWERS LOG\_v2.0 16.06.2016

**09.06.2016**

**No questions received**

**16.06.2016**

**Q1. Site Vehicle Access Arrangements**

Site 6, West of Slate Farm, is there vehicle access to this site? I found an access of the Newborough Road but due to the ditch we wouldn't be able to get any machinery in.?

A Vehicle access is available via Norwood lane which leads onto vehicle access gates onto the site.

**Q2. Hedge Specification**

Site 4, East of Parnell Way. There are three different hedge specification that don't seem to have been maintained to these in the current form. For instance, the H4 (both sides and top) is standing at about 4m tall. Is this how you want it to be maintained?

A East of Parnell Way has been previously maintained under a different specification hence why it is not at the specification required. The hedges must be maintained as specified on the drawing 004 East of Parnell Way, Peterborough. The H4 cut may be maintained to a maximum height of 4m, and must not exceed this.

**Q3. Grass Cutting Specification**

Within the pricing document and Grass cutting specification 4.3, there is no indication of the number of cuts per annum, are we correct in assuming that the tender price should just be on a per cut bases, and the actual contract value would be dependent on the overall growth rates.

A Where a specific number of visits/cuts is not stated the contractor must maintain the grass as indicated within the specification. Grass growth must be monitored and maintained within the parameters of the specification regardless of growing conditions throughout the year. Therefore number of visits may vary so the tender price is expected cover maintenance for the entire duration of the year.
