## 1. Definitions used in the contract

Interpret this Contract using Joint Schedule 1 (Definitions).

## 2. How the contract works

- 2.1 The Supplier is eligible for the award of Order Contracts during the DPS Contract Period.
- 2.2 CCS does not guarantee the Supplier any exclusivity, quantity or value of work under the DPS Contract.
- 2.3 CCS has paid one penny to the Supplier legally to form the DPS Contract. The Supplier acknowledges this payment.
- 2.4 If the Buyer decides to buy Deliverables under the DPS Contract it must use DPS Schedule 7 (Order Procedure) and must state its requirements using DPS Schedule 6 (Order Form Template and Order Schedules). If allowed by the Regulations, the Buyer can:
- (a) make changes to DPS Schedule 6 (Order Form Template and Order Schedules);
  - (b) create new Order Schedules;
  - (c) exclude optional template Order Schedules; and/or
  - (d) use Special Terms in the Order Form to add or change terms.
- 2.5 Each Order Contract:
- (a) is a separate Contract from the DPS Contract;
  - (b) is between a Supplier and a Buyer;
  - (c) includes:
    - i) Core Terms, Schedules and any other changes or items in the completed Order Form; or
    - ii) Order Form, Industry Terms, Boilerplate, as set out in the Order Form; or
    - iii) any combination of the documents referred to in (i) and (ii) above, as set out in the Order Form for the applicable Order Contract; and
  - (d) survives the termination of the DPS Contract.
- 2.6 Where the Supplier is approached by any Other Contracting Authority requesting Deliverables or substantially similar goods or services, the Supplier must tell them about this DPS Contract before accepting their order.
- 2.7 The Supplier acknowledges it has all the information required to perform its obligations under each Contract before entering into a Contract. When information is provided by a Relevant Authority no warranty of its accuracy is given to the Supplier.
- 2.8 The Supplier will not be excused from any obligation, or be entitled to additional Costs or Charges because it failed to either:
- (a) verify the accuracy of the Due Diligence Information; or
  - (b) properly perform its own adequate checks.

- 2.9 CCS and the Buyer will not be liable for errors, omissions or misrepresentation of any information.
- 2.10 The Supplier warrants and represents that all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.
- 2.11 An Order Contract can only be created using the electronic procedures described in the OJEU Notice as required by the Regulations.
- 2.12 A Supplier can only receive Orders under the DPS Contract while it meets the basic access requirements for the DPS stated in the OJEU Notice. CCS can audit whether a Supplier meets the basic access requirements at any point during the DPS Contract Period.

### **3. What needs to be delivered**

#### **3.1 All deliverables**

3.1.1 The Supplier must provide Deliverables:

- (a) that comply with the Specification, the DPS Application and, in relation to an Order Contract, the Order Tender (if there is one);
- (b) to a professional standard;
- (c) using reasonable skill and care;
- (d) using Good Industry Practice;
- (e) using its own policies, processes and internal quality control measures as long as they do not conflict with the Contract;
- (f) on the dates agreed; and
- (g) that comply with Law.

3.1.2 The Supplier must provide Deliverables with a warranty of at least 365 days from Delivery against all obvious defects.

#### **3.2 Goods clauses**

3.2.1 All Goods delivered must be new, or as new if recycled, unused and of recent origin.

3.2.2 All manufacturer warranties covering the Goods must either be assignable to the Buyer on request and for free, or the Supplier must make claims under the warranties for the Buyer whenever asked to do so for free

3.2.3 The Supplier transfers risk of the Goods on Delivery and ownership or possession of the Goods on payment for those Goods, whichever is earlier

3.2.4 Risk in the Goods transfers to the Buyer on Delivery of the Goods, but remains with the Supplier if the Buyer notices damage following Delivery and lets the Supplier know within 3 Working Days of Delivery.

3.2.5 The Supplier warrants that it has full and unrestricted ownership of the Goods at the time of transfer of

ownership.

- 3.2.6 The Supplier must deliver the Goods on the date and to the specified location during the Buyer's working hours.
- 3.2.7 The Supplier must provide sufficient packaging for the Goods to reach the point of Delivery safely and undamaged.
- 3.2.8 All deliveries must have a delivery note attached that specifies the order number, type and quantity of Goods.
- 3.2.9 The Supplier must provide all tools, information and instructions the Buyer needs to make use of the Goods.
- 3.2.10 The Supplier must indemnify the Buyer against the costs of any Recall of the Goods and give notice of actual or anticipated action about the Recall of the Goods.
- 3.2.11 The Buyer can cancel any order or part order of Goods which has not been Delivered. If the Buyer gives less than 14 days notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.
- 3.2.12 The Supplier must at its own cost repair, replace, refund or substitute (at the Buyer's option and request) any Goods that the Buyer rejects because they do not conform with Clause 3. If the Supplier does not do this it will pay the Buyer's costs including repair or re-supply by a third party.

### **3.3 Services clauses**

- 3.3.1 Late Delivery of the Services will be a Default of an Order Contract.
- 3.3.2 The Supplier must co-operate with the Buyer and third party suppliers on all aspects connected with the Delivery of the Services and ensure that Supplier Staff comply with any reasonable instructions.
- 3.3.3 The Supplier must at its own risk and expense provide all Supplier Equipment required to Deliver the Services.
- 3.3.4 The Supplier must allocate sufficient resources and appropriate expertise to each Contract.
- 3.3.5 The Supplier must take all reasonable care to ensure performance does not disrupt the Buyer's operations, employees or other contractors.
- 3.3.6 The Supplier must ensure all Services, and anything used to Deliver the Services, are of good quality and free from defects.
- 3.3.7 The Buyer is entitled to withhold payment for partially or undelivered Services, but doing so does not stop it from using its other rights under the Contract.

## 4. Pricing and payments

- 4.1 In exchange for the Deliverables, the Supplier must invoice the Buyer for the Charges in the Order Form.
- 4.2 CCS must invoice the Supplier for the Management Levy and the Supplier must pay it using the process in DPS Schedule 5 (Management Levy and Information).
- 4.3 All Charges and the Management Levy:
- (a) exclude VAT, which is payable on provision of a valid VAT invoice; and
  - (b) include all costs connected with the Supply of Deliverables.
- 4.4 The Buyer must pay the Supplier the Charges within 30 days of receipt by the Buyer of a valid, undisputed invoice, in cleared funds using the payment method and details stated in the Order Form.
- 4.5 A Supplier invoice is only valid if it:
- (a) includes all appropriate references including the Contract reference number and other details reasonably requested by the Buyer;
  - (b) includes a detailed breakdown of Delivered Deliverables and Milestone(s) (if any); and
  - (c) does not include any Management Levy (the Supplier must not charge the Buyer in any way for the Management Levy).
- 4.6 The Buyer must accept and process for payment an undisputed Electronic Invoice received from the Supplier.
- 4.7 The Buyer may retain or set-off payment of any amount owed to it by the Supplier if notice and reasons are provided.
- 4.8 The Supplier must ensure that all Subcontractors are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this does not happen, CCS or the Buyer can publish the details of the late payment or non-payment.
- 4.9 If CCS or the Buyer can get more favourable commercial terms for the supply at cost of any materials, goods or services used by the Supplier to provide the Deliverables, then CCS or the Buyer may require the Supplier to replace its existing commercial terms with the more favourable terms offered for the relevant items.
- 4.10 If CCS or the Buyer uses Clause 4.9 then the DPS Pricing (and where applicable, the Charges) must be reduced by an agreed amount by using the Variation Procedure.
- 4.11 The Supplier has no right of set-off, counterclaim, discount or abatement unless they are ordered to do so by a court.

## 5. The buyer's obligations to the supplier

### 5.1 If Supplier Non-Performance arises from an Authority Cause:

- (a) neither CCS or the Buyer can terminate a Contract under Clause 10.4.1;
- (b) the Supplier is entitled to reasonable and proven additional expenses and to relief from liability and Deduction under this Contract;
- (c) the Supplier is entitled to additional time needed to make the Delivery; and

### 5.2 Clause 5.1 only applies if the Supplier:

### 6.5 Where the Audit of the Supplier is carried out by an Auditor, the Auditor shall be entitled to share any information obtained during the Audit with the Relevant Authority.

## Core Terms - DPS

- (a) tell the Relevant Authority and give reasons;
- (b) propose corrective action; and
- (c) provide a deadline for completing the corrective action.

6.7 The Supplier must provide CCS with a Self Audit Certificate supported by an audit report at the end of each Contract Year. The report must contain:

- (a) the methodology of the review;
- (b) the sampling techniques applied;
- (c) details of any issues; and
- (d) any remedial action taken.

6.8 The Self Audit Certificate must be completed and signed by an auditor or senior member of the Supplier's management team that is qualified in either a relevant audit or financial discipline.

## 7. Supplier staff

7.1 The Supplier Staff involved in the performance of each Contract must:

- (a) be appropriately trained and qualified;
- (b) be vetted using Good Industry Practice and the Security Policy; and
- (c) comply with all conduct requirements when on the Buyer's Premises.

7.2 Where a Buyer decides one of the Supplier's Staff is not suitable to work on a contract, the Supplier must replace them with a suitably qualified alternative.

7.3 If requested, the Supplier must replace any person whose acts or omissions have caused the Supplier to breach Clause 27.

7.4 The Supplier must provide a list of Supplier Staff needing to access the Buyer's Premises and say why access is required.

7.5 The Supplier indemnifies CCS and the Buyer against all claims brought by any person employed by the Supplier caused by an act or omission of the Supplier or any Supplier Staff.

## 8. Rights and protection

8.1 The Supplier warrants and represents that:

- (a) it has full capacity and authority to enter into and to perform each Contract;
- (b) each Contract is executed by its authorised representative;
- (c) it is a legally valid and existing organisation incorporated in the place it was formed;
- (d) there are no known legal or regulatory actions or investigations before any court, administrative body or arbitration tribunal pending or threatened against it or its Affiliates that might affect its ability to perform each Contract;
- (e) it maintains all necessary rights, authorisations, licences and consents to perform its obligations

under each Contract;

- (f) it does not have any contractual obligations which are likely to have a material adverse effect on its ability to perform each Contract;
- (g) it is not impacted by an Insolvency Event; and
- (h) it will comply with each Order Contract.

- 8.2 The warranties and representations in Clauses 2.10 and 8.1 are repeated each time the Supplier provides Deliverables under the Contract.
- 8.3 The Supplier indemnifies both CCS and every Buyer against each of the following:
- (a) wilful misconduct of the Supplier, Subcontractor and Supplier Staff that impacts the Contract; and
  - (b) non-payment by the Supplier of any Tax or National Insurance.
- 8.4 All claims indemnified under this Contract must use Clause 26.
- 8.5 The description of any provision of this Contract as a warranty does not prevent CCS or a Buyer from exercising any termination right that it may have for breach of that clause by the Supplier.
- 8.6 If the Supplier becomes aware of a representation or warranty that becomes untrue or misleading, it must immediately notify CCS and every Buyer.
- 8.7 All third party warranties and indemnities covering the Deliverables must be assigned for the Buyer's benefit by the Supplier.

## 9. Intellectual Property Rights (IPRs)

- 9.1 Each Party keeps ownership of its own Existing IPRs. The Supplier gives the Buyer a non-exclusive, perpetual, royalty-free, irrevocable, transferable worldwide licence to use, change and sub-license the Supplier's Existing IPR to enable it to both:
- (a) receive and use the Deliverables; and
  - (b) make use of the deliverables provided by a Replacement Supplier.
- 9.2 Any New IPR created under a Contract is owned by the Buyer. The Buyer gives the Supplier a licence to use any Existing IPRs and New IPRs for the purpose of fulfilling its obligations during the Contract Period.
- 9.3 Where a Party acquires ownership of IPRs incorrectly under this Contract it must do everything reasonably necessary to complete a transfer assigning them in writing to the other Party on request and at its own cost.
- 9.4 Neither Party has the right to use the other Party's IPRs, including any use of the other Party's names, logos or trademarks, except as provided in Clause 9 or otherwise agreed in writing.
- 9.5 If there is an IPR Claim, the Supplier indemnifies CCS and each Buyer against all losses, damages, costs or expenses (including professional fees and fines) incurred as a result.

- 9.6 If an IPR Claim is made or anticipated the Supplier must at its own expense and the Buyer's sole option, either:
- (a) obtain for CCS and the Buyer the rights in Clause 9.1 and 9.2 without infringing any third party IPR; or
  - (b) replace or modify the relevant item with substitutes that do not infringe IPR without adversely affecting the functionality or performance of the Deliverables.
- 9.7 In spite of any other provisions of a Contract and for the avoidance of doubt, award of a Contract by the Buyer and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Supplier acknowledges that any authorisation by the Buyer under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific IPR involved.

## **10. Ending the contract or any subcontract**

### **10.1 Contract Period**

- 10.1.1 The Contract takes effect on the Start Date and ends on the End Date or earlier if required by Law.

- 10.3.2 When the Relevant Authority receives a requested Rectification Plan it can either:
- (a) reject the Rectification Plan or revised Rectification Plan, giving reasons; or
  - (b) accept the Rectification Plan or revised Rectification Plan (without limiting its rights) and the Supplier must immediately start work on the actions in the Rectification Plan at its own cost, unless agreed otherwise by the Parties.
- 10.3.3 Where the Rectification Plan or revised Rectification Plan is rejected, the Relevant Authority:
- (a) must give reasonable grounds for its decision; and
  - (b) may request that the Supplier provides a revised Rectification Plan within 5 Working Days.

10.3.4 If the Relevant Authority rejects any Rectification Plan, including any revised Rectification Plan, the Relevant Authority does not have to request a revised Rectification Plan before exercising its right to terminate its Contract under Clause 10.4.3(a).

## **10.4 When CCS or the buyer can end a contract**

10.4.1 If any of the following events happen, the Relevant Authority has the right to immediately terminate its Contract by issuing a Termination Notice to the Supplier:

- (i) if the Relevant Authority discovers that the Supplier was in one of the situations in 57 (1) or 57(2) of the Regulations at the time the Contract was awarded; or
- (j) the Supplier or its Affiliates embarrass or bring CCS or the Buyer into disrepute or diminish the public trust in them.

10.4.2 CCS may terminate the DPS Contract if a Buyer terminates an Order Contract for any of the reasons listed in Clause 10.4.1.

10.4.3 If any of the following non-fault based events happen, the Relevant Authority has the right to immediately terminate its Contract by issuing a Termination Notice to the Supplier:

- (a) the Relevant Authority rejects a Rectification Plan;
- (b) there is a Variation which cannot be agreed using Clause 24 (Changing the contract) or resolved using Clause 34 (Resolving disputes);
- (c) if there is a declaration of ineffectiveness in respect of any Variation; or
- (d) any of the events in 73 (1) (a) or (c) of the Regulations happen.

## **10.5 When the supplier can end the contract**

The Supplier can issue a Reminder Notice if the Buyer does not pay an undisputed invoice on time. The Supplier can terminate an Order Contract if the Buyer fails to pay an undisputed invoiced sum due and worth over 10% of the annual Contract Value within 30 days of the date of the Reminder Notice.

## **10.6 What happens if the contract ends**

10.6.1 Where a Party terminates a Contract under any of Clauses 10.2.1, 10.2.2, 10.4.1, 10.4.2, 10.4.3, 10.5 or

20.2 or a Contract expires all of the following apply:

- (a) The Buyer's payment obligations under the terminated Contract stop immediately.
- (b) Accumulated rights of the Parties are not affected.
- (c) The Supplier must promptly repay to the Buyer any and all Charges the Buyer has paid in advance in respect of Deliverables not provided by the Supplier as at the End Date.
- (d) The Supplier must promptly delete or return the Government Data except where required to retain copies by Law.
- (e) The Supplier must promptly return any of CCS or the Buyer's property provided under the terminated Contract.
- (f) The Supplier must, at no cost to CCS or the Buyer, co-operate fully in the handover and re-procurement (including to a Replacement Supplier).

10.6.2 In addition to the consequences of termination listed in Clause 10.6.1, where the Relevant Authority terminates a Contract under Clause 10.4.1 the Supplier is also responsible for the Relevant Authority's reasonable costs of procuring Replacement Deliverables for the rest of the Contract Period.

10.6.3 In addition to the consequences of termination listed in Clause 10.6.1, if either the Relevant Authority terminates a Contract under Clause 10.2.1 or 10.2.2 or a Supplier terminates an Order Contract under Clause 10.5:

- (a) the Buyer must promptly pay all outstanding Charges incurred to the Supplier; and
- (b) the Buyer must pay the Supplier reasonable committed and unavoidable Losses as long as the Supplier provides a fully itemised and costed schedule with evidence - the maximum value of this payment is limited to the total sum payable to the Supplier if the Contract had not been terminated.

10.6.4 In addition to the consequences of termination listed in Clause 10.6.1, where a Party terminates under Clause 20.2 each Party must cover its own Losses.

10.6.5 The following Clauses survive the termination or expiry of each Contract: 3.2.10, 4.2, 6, 7.5, 9, 11, 12.2, 14, 15, 16, 17, 18, 31.3, 34, 35 and any Clauses and Schedules which are expressly or by implication intended to continue.

## **10.7 Partially ending and suspending the contract**

10.7.1 Where CCS has the right to terminate the DPS Contract it can suspend the Supplier's ability to accept Orders (for any period) and the Supplier cannot enter into any new Order Contracts during this period. If this happens, the Supplier must still meet its obligations under any existing Order Contracts that have already been signed.

10.7.2 Where CCS has the right to terminate a DPS Contract it is entitled to terminate all or part of it.

10.7.3 Where the Buyer has the right to terminate an Order Contract it can terminate or suspend (for any period), all or part of it. If the Buyer suspends a Contract it can provide the Deliverables itself or buy them from a third party.

10.7.4 The Relevant Authority can only partially terminate or suspend a Contract if the remaining parts of that Contract can still be used to effectively deliver the intended purpose.

10.7.5 The Parties must agree any necessary Variation required by Clause 10.7 using the Variation Procedure, but the Supplier may not either:

- (a) reject the Variation; or
- (b) increase the Charges, except where the right to partial termination is under Clause 10.2.

10.7.6 The Buyer can still use other rights available, or subsequently available to it if it acts on its rights under Clause 10.7.

## **10.8 When subcontracts can be ended**

At the Buyer's request, the Supplier must terminate any Subcontracts in any of the following events:

- (a) there is a Change of Control of a Subcontractor which is not pre-approved by the Relevant Authority in writing;
- (b) the acts or omissions of the Subcontractor have caused or materially contributed to a right of termination under Clause 10.4; or
- (c) a Subcontractor or its Affiliates embarrasses or brings into disrepute or diminishes the public trust in the Relevant Authority.

## **11. How much you can be held responsible for**

ask for an increase to the DPS Pricing or the Charges.

- 24.6 If there is a Specific Change in Law or one is likely to happen during the Contract Period the Supplier must give CCS and the Buyer notice of the likely effects of the changes as soon as reasonably practical. They must also say if they think any Variation is needed either to the Deliverables, DPS Pricing or a Contract and provide evidence:
- (a) that the Supplier has kept costs as low as possible, including in Subcontractor costs; and
  - (b) of how it has affected the Supplier's costs.
- 24.7 Any change in the DPS Pricing or relief from the Supplier's obligations because of a Specific Change in Law must be implemented using Clauses 24.1 to 24.4.
- 24.8 For 101(5) of the Regulations, if the Court declares any Variation ineffective, the Parties agree that their mutual rights and obligations will be regulated by the terms of the Contract as they existed immediately prior to that Variation and as if the Parties had never entered into that Variation.

### 2. How to manage the insurance

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
  - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;

The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

### **7. Insurance claims**

**Clarification Questions and Responses**

Project name or reference: HNTAS Interim Technical Support			
itt 85821 - RM6313 HNTAS Interim Technical Support			
Question number	Clarification Question	Response to Clarification Question	Date of response
1	We are unlikely to lead a bid but may well be a sub-contractor on a tender from a supplier who are already on the DPS. In that situation, would we also need to be on the DPS?	The named sub-contractor does not need to be registered on the DPS, however the Contract will need to be awarded to the Supplier that is registered on the DPS. The bid will also need to be submitted by the Supplier that is registered on the DPS.	10/09/2025
2	The folder ITT pack folder, which says in its description that it contains full ITT details, does not seem to contain information on the works to be completed. Please advise as to how we can access this information	Some of the documentation contains commercially sensitive information. This can be shared when a signed NDA is in place. If you would like to access the documentation please provide the below information and I will send an NDA via docuSign:  - Company name, registration number and address - Information relating to notices under the agreement – contact name, address and email address - Name and position of the person who will sign the NDA	15/09/2025
3	Will you be sharing timeline/budget for this ITT?	This should be available in the details sections on the ITT. The ITT pack which contains all the information relating to the tender can only be shared when a signed NDA is in place.	17/09/2025
4	Could you please advise on the procedure required to share tender documentation with sub-contractors who are not listed on the DPS, specifically for the purpose of supporting our bid and potential project delivery?	3.1 The Receiving Party may only disclose the Disclosing Party's Confidential Information to those of its Representatives who need to know the Confidential Information for the Permitted Purpose, provided that: 3.1.1 it informs these Representatives of the confidential nature of the Confidential Information before disclosure and obtains from its Representatives enforceable undertakings to keep the Confidential Information confidential in terms at least as extensive and binding upon the Representatives as the terms of this Agreement are upon the Parties; and 3.1.2 at all times, it is responsible for these Representatives' compliance with the obligations set out in this Agreement.	22/09/2025

5	Can you please confirm if the marked ITT documents are to be classified at Official-Sensitive. If so, can you please issue a Security Aspects Letter (SAL) in addition to the ITT as soon as possible. If not, can you please de-classify the documents so we can access and view the documents on our corporate email accounts.	Certain ITT documentation is OS. You should have internal processes in place on how to access the OS documents. Please following the NDA requirements when dealing with the ITT documentation.	22/09/2025
6	Due to the Specifications documents being received a week after the opportunity was released, we kindly request a one-week extension to allow sufficient time to prepare our submission. We propose a revised deadline of 17th October 2025.	Extending the submission deadline is not possible however to give more opportunity to engage with the ITT documentation the department is willing to extend the date for clarification questions. Please see revised dates below: <b>Deadline for questions relating to the tender - 2nd October 12:00 GMT</b> <b>Responses to questions published - 7th October 12:00 GMT</b>	23/09/2025
7	Is there any option to extend the tender submission deadline? The volume of documentation associated with the ITT is sizeable, and the response will be a significant piece of work; with several tender deadlines in this industry in the weeks leading up to the submission deadline, we would benefit from additional time if we are to ensure the availability of resource that this response requires.	Extending the submission deadline is not possible however to give more opportunity to engage with the ITT documentation the department is willing to extend the date for clarification questions. Please see revised dates below: <b>Deadline for questions relating to the tender - 2nd October 12:00 GMT</b> <b>Responses to questions published - 7th October 12:00 GMT</b>	23/09/2025
8	Could you let us know whether the incumbent provider is to be excluded from this process.	The below response assumes that 'the process' mentioned in the question means the current ITT: The incumbent provider will not be excluded from this process. As per PCR Regulation 18 (1) - Contracting authorities shall treat economic operators equally and without discrimination and shall act in a transparent and proportionate manner.	25/09/2025
9	For us to work out our arrangements and costing for the work packages/ additional costs identified could you let us know what further involvement of the incumbent will take place if we were to be awarded the interim technical support role.	The current Shadow Service Provider contract will have ended by the time the Interim Technical Support Contract so there will be no handover between the new Delivery Partner and the Shadow Service Provider. All handover and kick off meetings will take place with the Department as outlined in the ITT documentation.	25/09/2025

11	<p>Could you confirm the following on the pricing schedule:</p> <ol style="list-style-type: none"> <li>1. For section 2, can we insert additional rows as required to ensure enough rows for multiple resources across all work packages?</li> <li>2. The instructions say to fill out the yellow cells only. Should columns D and E in table 1 therefore remain blank as there is no formula to bring costs into these cells?</li> </ol>	<p>A new version of the pricing schedule has been attached to this message and saved in the ITT pack folder - 'prj_5709 - Pricing Schedule - version 2'</p> <ol style="list-style-type: none"> <li>1. - 8.1.1 terminate, enter into or vary any Sub-contract or licence for any software in connection with the Deliverables; or
- 8.1.2 (subject to normal maintenance requirements) make material modifications to, or dispose of, any existing Supplier Assets or acquire any new Supplier Assets.

8.2 Within twenty (20) Working Days of receipt of the up-to-date Registers provided by the Supplier, the Buyer shall notify the Supplier setting out:

- 8.2.1 which, if any, of the Transferable Assets the Buyer requires to be transferred to the Buyer and/or the Replacement Supplier ("**Transferring Assets**");
- 8.2.2 which, if any, of:
  - (a) the Exclusive Assets that are not Transferable Assets; and
  - (b) the Non-Exclusive Assets,

the Buyer and/or the Replacement Supplier requires the continued use of; and

- 8.2.3 which, if any, of Transferable Contracts the Buyer requires to be assigned or novated to the Buyer and/or the Replacement Supplier (the "**Transferring Contracts**"),

in order for the Buyer and/or its Replacement Supplier to provide the Deliverables from the expiry of the Termination Assistance Period. The

- 8.5 Where the Buyer and/or the Replacement Supplier requires continued use of any Exclusive Assets that are not Transferable Assets or any Non-Exclusive Assets, the Supplier shall as soon as reasonably practicable:
- 8.5.1 procure a non-exclusive, perpetual, royalty-free licence for the Buyer and/or the Replacement Supplier to use such assets (with a right of sub-licence or assignment on the same terms); or failing which
- 8.5.2 procure a suitable alternative to such assets, the Buyer or the Replacement Supplier to bear the reasonable proven costs of procuring the same.

The Supplier shall execute such documents and provide such other assistance as the Buyer reasonably requires to effect this novation or assignment.
- 8.7 The Buyer shall:
- 8.7.1 accept assignments from the Supplier or join with the Supplier in procuring a novation of each Transferring Contract; and
- 8.7.2 once a Transferring Contract is novated or assigned to the Buyer and/or the Replacement Supplier, discharge all the obligations and liabilities created by or arising under that Transferring Contract and exercise its rights arising under that Transferring Contract, or as applicable, procure that the Replacement Supplier does the same.
- 8.8 The Supplier shall hold any Transferring Contracts on trust for the Buyer until the transfer of the relevant Transferring Contract to the Buyer and/or the Replacement Supplier has taken place.
- 8.9 The Supplier shall indemnify the Buyer (and/or the Replacement Supplier, as applicable) against each loss, liability and cost arising out of any claims made by a counterparty to a Transferring Contract which is assigned or novated to the Buyer (and/or Replacement Supplier) pursuant to Paragraph 8.6 in relation to any matters arising prior to the date of assignment or novation of such Transferring Contract. Clause 19 (Other people's rights in this contract) shall not apply to this Paragraph 8.9 which is intended to be enforceable by Third Parties Beneficiaries by virtue of the CRTPA.

## Order Schedule 20 (Order Specification)

This Schedule sets out the characteristics of the Deliverables that the Supplier will be required to make to the Buyers under this Order Contract

### 1. Summary of Work

We require an organisation to support the continued development of the Heat Network Technical Assurance Scheme (HNTAS) in readiness for scheme introduction in 2026. This requirement is for 12 months.

### 2. Early Market Engagement

In 2020, BEIS consulted on developing a regulatory market framework for heat networks to protect consumers, support market growth and develop low carbon networks. Within this consultation views were sought on introducing mandatory minimum technical standards for heat networks. This proposal received strong support from respondents, as did the proposal that heat network suppliers should demonstrate compliance with technical standards through a certification scheme.

The full consultation and market response can be found here:

<https://www.gov.uk/government/consultations/heat-networks-building-a-market-framework>

HNTAS Phase 1 (complete):

Beginning in November 2022, Government began developing a suite of technical specifications for new build networks based on CP1(2020), and a corresponding assurance scheme of assessment and certification. These form the basis of HNTAS, “the scheme” for new build networks, and will be designated as mandated Code in upcoming legislation.

HNTAS Phase 2 (nearing completion):

From June 2025, Government began piloting the new build technical requirements and assurance procedures developed in Phase 1. Technical specifications and assurance procedures were also developed for existing networks, pre-operational networks and end of life networks. Performance Improvements Plan processes and templates were developed for existing networks and piloted on existing networks.

HNTAS Phase 3 (starting in Autumn 2025):

A further heat networks technical standards consultation is planned for later in 2025,

Order Schedule 20 (Order Specification)  
Order Ref:  
Crown Copyright 2019

responses to which will need to be taken into consideration, along with the results of piloting from Phase 2, in adjusting HNTAS content and scope. A new Heat Network Technical Standard (TS1) will also be published later in 2025 alongside a new Heat Network Metering & Monitoring Standard, both of which will underpin the scheme.

Heat Network Trade Associations have expressed strong support for the introduction of HNTAS and numerous heat network stakeholders have been engaged in HNTAS Technical Working Groups which have developed HNTAS' technical requirements. DESNZ plan to continue to expand the level of sector stakeholder engagement over the coming months prior to HNTAS' launch.

### 3. Devolved Administrations

Introducing heat networks regulation is reserved in Wales and devolved in Northern Ireland. Legislating for heat is devolved in Scotland, except for consumer protection regulation which is a reserved matter. Although technical standards in Scotland are a devolved matter, the Scottish and UK Governments are committed to working together to develop common standards that will apply across Great Britain.

Therefore, HNTAS technical requirements will apply across Great Britain.

### 4. Note on Terminology

When HNTAS launches, we anticipate that a **Code Manager** will be appointed to maintain the technical standards Code and run the HNTAS. The Code Manager may also be responsible for: setting requirements on second and third party assessors; identifying and consulting on proposed changes to the technical standards Code; administering different working groups and committees; handling complaints, disputes and appeals; and taking action in cases of non-compliance. It is expected that the Code Manager may wish to appoint subcontractors, in the role of a **Service Operator, Training Provider and Certification Body** to take forward much of this work to establish and operate the governance of HNTAS.

Whilst most of these full-scale activities will only be required once HNTAS is introduced, the supplier appointed to the Interim Technical Support role will be laying the groundwork for many of these enduring functions.

## **5. Background to the requirement**

### **5.1. Heat Network Technical Assurance Scheme (HNTAS)**

The Department for Energy Security and Net Zero (DESNZ) are introducing regulation to mandate heat network technical requirements and introduce a Heat Network Technical Assurance Scheme (HNTAS). This is to help heat network developers, contractors and operators demonstrate compliance with these requirements and ensure customers receive reliable and low-cost heat. HNTAS is due to launch once policy proposals are consulted on and finalised, and once the secondary legislation enacting the final policy has completed parliamentary passage. HNTAS aims to ensure that almost all heat networks meet a minimum level of performance and reliability.

The HNTAS programme continues to develop rapidly, with the current phase of work due to complete at the end of October 2025. The HNTAS Pilot Programme for new build and existing networks will complete in this time. Additionally, a range of outputs will be published over the coming months, including first drafts of HNTAS technical specifications, assessment procedures and the Heat Network Technical Standard (TS1). Once in the public domain, external stakeholders will be able to provide feedback on these draft documents. Further, a backlog of changes from the HNTAS pilot programme will also need to be fed into draft technical documentation.

However, as DESNZ' current HNTAS support contracts conclude at the end of October, DESNZ is therefore seeking an Interim Technical Support consultancy to enable the programme to continue at the same rapid pace beyond this point. The primary objective of the Interim Technical Support will be to continue work on HNTAS technical documentation until enduring support comes into place.

This Interim Technical Support role will build on the work completed so far, by developing additional materials and guidance required for scheme launch. The Interim Technical Support will also support in making changes to HNTAS technical documentation as instructed by DESNZ. Changes are expected to arise from two core input sources: the pre-existing change backlog compiled from lessons learned during the HNTAS Pilot Programme, and as a result of responses received to formal public consultation with the sector. The latter may include running further industry workshops to ensure scrutiny of technical change proposals by a representative cross section of industry technical experts.

The Interim Technical Support role will entail the development of further technical requirements for additional technologies, such as ambient loop and shared group loop networks; specifications for which have not yet been drafted. Work will also involve developing new guidance material to help the sector to implement HNTAS.

Finally, it is anticipated that the Interim Technical Support role will provide technical support to other HNTAS workstreams as needed, such as the HNTAS digital team which is developing an online digital service to help heat network developers, contractors and operators demonstrate compliance with HNTAS requirements.

This is almost entirely a technical role and will require a very strong understanding of heat networks and heat network Quality Assurance best practice. Ideally, the successful supplier will have a strong understanding of HNTAS. It is anticipated that a significant part of this role will require a strong understanding of ambient loop and shared ground loop heat networks.

## 6. Objectives

DESNZ is now issuing this invitation to tender to suppliers outlining proposed requirements, in order for suppliers to bid to undertake the work. The work is necessary to maintain continuity and pace of delivery on the HNTAS project.

## 7. Summary of Requirements

DESNZ is seeking an Interim Technical Support contractor to carry out work including the following:

- 7.1. Mobilisation** – the supplier team will need to get up to speed quickly on all HNTAS materials provided to them by DESNZ. Full mobilisation is expected to be complete within the first month of contract. Within 2 weeks of contract commencement, the supplier will be expected to complete a review and written summary of outputs from previous HNTAS contractors, such as the HNTAS Shadow Service Provider and the HNTAS CP1 Update Contractor; many of these materials may not yet be in the public domain at the point of contract commencement but will be provided to the successful supplier at the beginning of the contract. Materials will include draft Code documents for new build and existing networks, the draft Heat Network Technical Standard 1 (TS1), and the HNTAS pilot outcomes and change log. Further details on mobilisation are provided in Section 9 'Working Arrangements'.

**7.2. Consultation support** to DESNZ to address any consultation related feedback which has the potential to result in changes to the draft Code documents, and to feed these into the change management process as needed. The supplier will also be required to support DESNZ in analysing consultation responses and developing responses that concern technical matters.

**7.3. Change process** - manage a change log, including changes to draft Code documents as a result of stakeholder feedback received in response to the consultation and other stakeholder engagement. It is imperative that feedback and findings from the pilots, consultation and other workstreams such as the digital workstream are put to effective use, meaningfully influencing the evolution of HNTAS before implementation in 2026. The Interim Technical Support contractor to develop an agile/dynamic change management process, building on the existing change management process, to provide change proposals from these workstreams, and to ensure these are logged and enacted in a continual and ongoing manner. Change needs to be as immediate as possible, and ought to take place throughout the contract rather than waiting to be collated and effected at contract end. Key requirements include:

- Maintain all draft Code documents
- Completion of changes to draft Code documents, in line with the HNTAS Pilot Programme change log (output of Phase 2)
- Distil stakeholder feedback into change proposals
- Run a change management process, including keeping a change log informed by stakeholder feedback, taking change proposals through shadow governance structures for appraisal and, where appropriate, enacting approved changes to update the draft Code documents and other scheme artefacts.
- As appropriate, consult with sector experts to test viability of change proposals
- Make updates to HNTAS templates including, but not limited to, where changes to draft Code documents prompt template changes
- Ready the draft Code documents for publication, including proof reading to ensure accuracy of technical content across all HNTAS portfolio of publications.
- Maintain and publish precedent library to act as a collection of accepted 'case law' decisions.

**7.4. Secretariat and run HNTAS governance forums** - prepare materials, administer and attend Code Management Committee (CMC), Technical Steering Committee (TSC) and HNTAS Stakeholder Consultation Forum (SCF) meetings. These shadow governance structures were established under Phase 2 of HNTAS to test run the governance relationships and decision-making processes that will govern the scheme once HNTAS is introduced. Once launched, it is expected that the Code Manager will appoint members to a Code Management Committee, which will have overall responsibility for the scheme, and which in turn will have supporting advisory sub-committees. These will allow for input from the stakeholders most relevant to each area of the Code, regarding its evolution and implementation, whilst allowing overall control and responsibility for the scheme's success to reside with the Code Manager. At this stage we anticipate three sub-committees: Technical, Assessor and Sector Stakeholder.

The Interim Technical Support contractor will be required to:

- Prepare materials, secretariat and attend the CMC, the TSC and SCF throughout the duration of its contract until the Enduring Service Provider comes on board.
- Refresh existing Terms of Reference (ToR) for the CMC, TSC and SCF, which were established under Phase 2 and reference the role of these committees within the HNTAS Pilot Programme.
- Expectation of CMC and TSC to take place once a month, and SCF to take place every two months.

**7.5. Scheme technical support**

- Provide ongoing communications support to inform the sector about forthcoming HNTAS publications and requirements.
- Provide help desk function to answer queries from HNTAS prospective Assessor Organisations and Responsible Parties. However, we do not anticipate an open public helpdesk.

**7.6. Digital Service development support** – development support for the HNTAS digital service. A Digital Service is being developed to enable heat network developers, contractors and operators to evidence compliance with technical requirements. The service is being designed to accept and store the submission of performance data, documentary evidence, assessment outcomes and certificates. Critical to this workstream is the development of an interfacing function between heat network metering and monitoring systems and the digital service to enable automatic data transfer. Key requirements include:

- Test and provide feedback on the Digital Service to ensure it meets the technical needs of the scheme, working closely with DESNZ' digital contractor.
- Further develop the calculations developed in Phase 2, which set standardised imputation and interpolation methodologies for how KPIs can be calculated when there is missing data. Further developments are expected to arise from incorporating feedback received from the organisations involved in the data pilots (see bullet below).
- Supporting “data pilots”, which are due to involve the testing of the imputation and interpolation methodologies on three heat networks.
- Review data collected from the digital service and identify changes needed to the scheme or service.

**7.7. HNTAS training** – provide updates to training materials to reflect the public consultation and change management log.

- Review the existing training material for new build and existing heat networks, and update as necessary
- Develop the training regime and materials for certifiers
- Develop test/exam questions to underpin the certifier training

**7.8. Further development of assessor/certifier competency framework**

- Further development of the existing draft assessor and certifier competency approach
- Production of additional competency materials
- Development of assessor technical interview/exam materials and registration process
- Support with interviews & onboarding
- Develop ongoing requirements for assessors and certifiers

**7.9. Testing equipment requirements** - develop standards for the hand-held equipment used in acceptance testing

- Determine parameters and procedures for electronic testing equipment
- Including equipment accuracy, precision, calibration

**7.10. Further development of the HNTAS Metering & Monitoring approach**

- Update to the Metering & Monitoring Standard in accordance with HNTAS public consultation responses
- BS13757 review and feed into change log
- Develop a potential transition plan to encompass all aspects of metering into HNTAS
- Support establishment of replacement structures & processes necessary

## **8 Contract Length**

This contract will be for 12 months covering the period from November 2025 through to November 2026 (i.e. FY 25/26 and 26/27). We have 2 x optional 3-month extensions (until May 2027) if required, to ensure sufficient handover time to the enduring Service Provider.

## **9 Working Arrangements**

The contract will have an allocated Department for Energy Security and Net Zero Contract Manager, who will be responsible for the management of the contract. This will include the monitoring of the progress of the project through reporting on contract deliverables, as well as the reporting and escalation of issues.

The successful supplier will report into the DESNZ workstream lead and will be expected to collaborate with DESNZ and other key stakeholders including Ofgem and Scottish government colleagues, as well as other HNTAS suppliers such as those appointed to work on HNTAS Data Pilots, HNTAS Digital Service and HNTAS Training.

Ways of working will include:

The DESNZ HNTAS team and other key HNTAS stakeholders and suppliers are located across the UK. Therefore, regular meetings will be conducted over Microsoft Teams. There is an expectation to meet once every two months for an in-person team session, usually in London, at a venue supplied by DESNZ or the other suppliers working in HNTAS project. This only needs attendance from one member of this contract (preferably the named lead) unless the supplier determines there is added value in other attendees. Costs incurred by the supplier (e.g. travel and accommodation) are at the supplier's expense.

Contract mobilisation will take place through a kick-off meeting or meetings with the HNTAS team where each of the 22 work packages will be discussed, and the detailed Scope of Work and timing will be agreed with DESNZ prior to commencement. As an output of this meeting, the Department expects a Word or Excel document providing a detailed breakdown for each work package, including an elemental breakdown of activities against total work package cost, alongside a payment schedule. The Department reserves the right to request that the supplier documents project dependencies, risks and mitigations that will be put in place.

Communication is expected to be conducted with the client predominantly via email and MS Teams calls. The supplier will be responsible for setting up and managing a
