GMTS Professional Education Provision - Cohorts Starting September 2024

Health Policy and Strategy Specialism

Background

The NHS Graduate Management Training Scheme (GMTS) is the flagship leadership development programme delivered by the NHS. The aim of the GMTS is to identify and recruit top graduate talent and develop them into the next generation of healthcare leaders. It is an award-winning scheme which has been running for over 65 years, the scheme has moved up the prestigious Times Top 100 Graduate Employers ranking, from 3rd place in 2021 to 2nd in 2022. The Scheme was awarded the 'Graduate Employer of Choice' award in the 'General Management' and 'Human Resources' categories at The Times Graduate Recruitment Awards 2022 and retained the General Management award at the 2023 ceremony.

The Scheme is consistently oversubscribed, where in 2023, it received over 18,000 applications for approximately 250 places. In 2022, it received 16,500 applications for approximately 250 places; to start in September 2022.

The prestigiousness of the Scheme cannot be understated with over 5,000 participants embarking on the programme across its history including Sir Simon Stevens and Amanda Pritchard, the former and current Chief Executive Officers of the NHS respectively.

The purpose of the NHS Graduate Management Training Scheme is to identify, grow and support the future leaders of the NHS. Great leadership development improves leadership behaviours and skills which in turn leads to better patient care, experience, and outcomes.

For trainees to leave the Scheme as well-rounded leaders, they undertake different strands of education to ensure that they acquire both the theoretical underpinnings needed to succeed in their future roles, but also the practical fundamentals of leadership. To do this, the scheme is made up of three main component parts:

- **Leadership Education:** A blend of experiential activities, workshops and conference style learning that 'puts leadership into practice'. The trainees often work together with their peers exploring some of the challenges faced within leadership generally and some of the current challenges facing the NHS. This component also includes Action Learning where trainees work together with a facilitator to challenge and develop each other's thinking by working through ongoing and live areas that they personally want to develop in a small group

environment.

- Academic Education (the requirement of this specification): A postgraduate level qualification in their specialism that provides the theoretical and practical skills for the roles they do whilst on placement and in their future jobs.
- Practice Education: Most of the trainee's time is spent at a placement within the NHS, working alongside leaders and mentors in their chosen specialism, learning their trade. This is where they can take the learning from their other education strands and put it into practice. The trainees also undertake a 2-month flexi-placement which is sourced and organised by them individually, the idea being that they take learning from this placement back to their main hosting organisation to help shape improvement.

These component education strands are considered building blocks of the GMTS, alongside the guiding principles of 'Our Leadership Way'.

Complementing the NHS People Promise, Our Leadership Way formalises the approach our NHS leaders should take. Our Leadership Way sets out the compassionate and inclusive behaviours we want leaders at all levels to show towards us as individuals and our colleagues. It introduces how leaders at every level across the NHS can help raise the standards of leadership by committing to compassionate and inclusive leadership, supported by a culture of lifelong learning and development. It describes how we can operate at our best and is a tool for leaders to use to consider how their behaviour impacts on the cultures they create.

The heart (compassion)

- *We are inclusive, promote equality and diversity and challenge discrimination.*
- *We are kind and treat people with compassion, courtesy and respect.*

The head (curiosity)

- *We aim for the highest standards and seek to continually improve harnessing our ingenuity.*
- *We can be trusted to do what we promise.*

The hands (collaboration)

- *We collaborate, forming effective partnerships to achieve our common goals.*
- *We celebrate success and support our people to be the best they can be.*

1.4 Scheme Structure

The NHS Graduate Management Training Scheme currently has five specialisms:

- Financial Management
- General Management*
- Human Resources
- Data Analytics (combining previous specialisms Health Data Analysis and Health Informatics)
- Policy and Strategy

*Out of scope for this procurement

Requirements

The required education provision is at Postgraduate Diploma level and in the following specialist area:

For the **2024** intake (starting September 2024)

- A Health Policy and Strategy Qualification for the Health Policy and Strategy stream of GMTS.

The education input will need to be delivered over a 2-year period that trainees are on the scheme. The contract for all elements will commence in line with the new intake starting in September 2024. However, suppliers need to be aware that some actual input may commence both earlier and later than September 2024 as per the timetable that will be provided by the Scheme. Also, to note, the intention is for the Scheme to increase in size in future years with the possibility of an increase in numbers across all specialisms including this one. We cannot give any guarantees about future numbers on the Scheme, and it is possible the numbers will fluctuate across intakes depending upon demand from NHS organisations.

Provider Specific Requirements:

- Provide yearly academic timetables no later than April 5th, this is to ensure there are no clashes between the component parts of the GMTS which must be planned well in advance of the programme start date.
- Attend the GMTS welcome event and present an introductory session to the trainees undertaking this specialism. This date typically falls on the first Monday

[NHS Terms and Conditions for the Provision of Services \(Contract Version\) \(August 2022\)](#)

of September and further details will be provided regarding this event nearer the time. This event is held in person so travel to the venue will be required.

- Attend the twice-yearly GMTS Programme and Practice Board. This is hosted by the GMTS, and further details will be provided regarding this event nearer the time. This event is held in person so travel to the venue will be required.
- Attend the monthly GMTS operational provider meetings held by the GMTS Education Team. These are virtual meetings unless there is a requirement to be held face to face, though this is a rarity.
- Agreement to share education results with the GMTS Education Team via agreed upon channels within 5 working days of posting these to the trainees.
- Options to the potential delivery mode(s) of your offer in response to this tender.
- To make available to the NHS GMTS the use of your estate for specialism and non-specialism related delivery.
- That you engage in wider GMTS training/engagement events and activities, both specialism and non-specialism related for participants and stakeholders.
- Any other reasonable request from the NHS GMTS of the provider in respect of the delivery of the contract.

1.5 Graduate Scheme Challenges

The NHS GMTS is a leadership scheme first and foremost and whilst the Scheme retains specific specialisms the Scheme positions itself as a 'leadership scheme' with the ultimate objective of providing high-calibre graduates with the authentic leadership skills to drive change and lead with care and compassion. It is therefore imperative that the Scheme's educational inputs reflect this primary requirement whilst also providing trainees with the core specialism-related education which provides early technical credibility in their chosen area.

In a recent review into education provision, it was suggested by trainees that there is a disconnect between the academic learning and theory and how trainees translate and apply their learning in practice and in the workplace with opportunities to apply the learning and then reflect on this application to truly embed learning.

We are an equal opportunities employer, and we work tirelessly to ensure that our scheme offers equity of opportunity to all those who embark upon it. We seek to attract applicants from diverse backgrounds, and we give them the assurance that our scheme can and will support them throughout. We are open and transparent when it comes to what our scheme entails, and how work experiences can differ placement to placement, due of the nature of the complexities of the work our organisation engages in. We do this to enable our applicants to bring their whole selves to work, and to be open when it comes to the help and support that we can offer them. We actively encourage our trainees to take up these support offers, and in this procurement, we are looking to collaborate with education providers who can support our efforts in this ever-evolving area. We are looking for someone to work with us to continually improve our collective offer, ensuring best practice between our parties, this includes our other specialisms, thus ensuring a consistent and current offer for all

those embarking upon our scheme. This is expected to be delivered via responsive and continual shared learning model, working with our team, and all other education providers engaged in the scheme.

The NHS is a fast changing, complex and uncertain environment. To develop NHS leaders of the future it is important that the education providers:

- Ensure that their education input is relevant and relates to the current NHS and Healthcare landscape.
- Ensure that the ethos of their educational input echoes the fundamental message that the graduate management training scheme is a leadership scheme primarily and enables trainees to embed their learning by providing a mix of theory, practical application, and reflection,
- Equip graduate trainees with the relevant skills and knowledge for their chosen specialty (and will map against the specialism competencies as given in Appendix 1 which are subject to continual change and review) Focus on current NHS events, values, news, themes, and challenges as well as the relevant theoretical and practical course requirements.
- Connect with the considerable number of stakeholders involved in the Scheme, all of whom touch the trainee experience. The education provider will be required to provide an integrated education experience for trainees by working together with co-providers, Scheme staff and the service.
- Support the trainee to balance the conflicting demands and pressures of the Scheme.
- Identify and support trainees who require additional support in their academic learning notwithstanding those with neurodiverse learning needs.
- Reflect and reinforce the 'leadership' behaviours outlined in the NHS 'Our Leadership Way':

<https://www.leadershipacademy.nhs.uk/organisational-resources/our-leadership-way/>

2. Ethos of the Education Inputs

There is a requirement for these development principles to be evident in the educational inputs to the scheme. Including:

- A cutting-edge approach to innovate design and delivery of learning to attract and engage fast track learners.

- Delivery of a programme of learning which includes theory, opportunities for practical application and opportunities for reflection to really embed the learning for trainees.
- A need to provide trainees with the best quality learning in that field.
- A need to reflect inclusion in terms of content, teaching staff and be mindful of trainees' personal circumstances.
- A need to focus on employability outcomes in the new NHS considering the current jobs market.
- A need to reflect the changing NHS landscape, including the New NHS England, Integrated Care Boards and Integrated Care Systems and new models of care.
- A need to represent exceptional value for money for the health service.
- All suppliers must be willing to work with the NHS England and other suppliers to ensure coordination, communication, documentation, issuing of dates and all other administrative issues are provided in a manner of co-production and partnership to provide an integrated and overall blended learning experience for trainees.
- Excellent relationship management with NHS England, the GMTS Education and Experience Teams and trainees.
- A high-quality experience for trainees
- An understanding of the requirements of the Scheme and the requirements of trainees to progress through the Scheme.
- An understanding of the diverse mix of trainees on the scheme - trainees are from different ages, backgrounds, and ethnicities, with a variety of mixed lived experiences and different family commitments. The GMTS is a national scheme so trainees may not be close to their support networks and may need to travel for some or all their education. This requirement is shared with the trainees prior to them starting the Scheme but should be noted by education providers. All trainees completing the scheme will have the following provided by their educational aspects of the scheme:
- A range of tools and techniques for learning at work.
- The management and leadership skills and competencies required to be an effective leader.
- Opportunity to apply their learning and skills in safe and challenging environments and then in the workplace.
- Opportunity to reflect on their application of learning and to discuss.
- Opportunity to bring real work scenarios into their learning.
- Opportunity to work effectively with other trainees and build strong networks for the future.

Introduction:

We propose a **Postgraduate Diploma** (PGDip) for the Policy and Strategy specialism of the NHS Graduate Management Training Scheme (GMTS). The Diploma will be delivered and awarded by **Imperial College London**. The proposed qualification is designed to be flexible and to be delivered alongside the other GMTS scheme commitments.

Current scheme:

Imperial is the **incumbent provider for GMTS Policy and Strategy specialism**. The established part-time PGDip has been delivered over two years through blended learning, with optional progression to an MSc. Since 2017, **117 Policy and Strategy GMTS trainees** have commenced the educational offering with a 98% completion rate, demonstrating our commitment to the delivery of the Scheme requirements as well our flexible approach to supporting trainees balancing conflicting demands and pressures while on the Scheme. We have continually evolved the programme based on the learning and workplace needs of the programme participants. We are committed to engaging and listening with all our stakeholders, within the Scheme and more broadly across our networks.

Related Imperial Education schemes

Imperial College London is **ranked 6th in the QS World University Rankings**. As a leader in research and education, trainees have access to some of the best academic minds, inspirational leaders, and real-world practitioners.

The collaboration between the Centre for Health Policy, Institute of Global Health Innovation (IGHI), and the Department of Surgery & Cancer is **committed to developing the next generation of leaders within the NHS**.

The IGHI education team currently deliver a range of accredited educational programmes to support NHS workforce development. Notably, the **Health Policy MSc** (enrolling 639 students in 13 cohorts), **NHS Digital Academy's flagship Postgraduate Diploma/MSc in Digital Health Leadership** (with 500 senior digital leaders joining since 2018) and the **Foundation Programme and Postgraduate Certificate in Digital Maternity Leadership** (with over 150 learners over the last two years).

Academic education component of the scheme:

The postgraduate qualification will fulfil the 'Academic Education' component of the scheme, ensuring trainees are provided with the **theoretical knowledge, practical skills and behaviours** needed as change leaders across the NHS.

The proposed **blended education provision is delivered face-to-face and virtually** and is specifically designed to link to the practical experience trainees will gain on their placements within NHS organisations.

We can commence delivery of the PGDip for the 2024 intake **from September 2024**. We can commence the contract in the first week of June to allow for all **onboarding and enrolment activities to happen prior to delivery of the education course prior to the September 2024 intake**.

The proposed offering (both educational and commercial) is **designed to cater for the possible fluctuation in year-on-year numbers** as demand changes from the GMTS and across NHS organisations.

Programme design:

The programme is designed to blend theoretical concepts of Policy and Strategy with real-world practical application from healthcare leaders. All our modules have a strong grounding in service delivery and links to the NHS. The **programme content complies with the GMTS requirements** in addressing both the practical and theoretical elements of health policy and draws on the latest innovations globally.

Many of our module leads are practicing clinicians and healthcare policymakers from the UK and other health systems. They have a solid and thorough knowledge of health policy and current operational practices. We draw on practical, real-world examples from within the NHS when examining health policy challenges that we face and compare them to global health systems providing opportunities for reflection and well-rounded policy education.

Embedded in the programme are learning objectives, teaching students the skills necessary to make informed evidence-based policy decisions, **equipping them for future roles as leading social care and health policymakers**.

One of the key concerns for any programme that aims to teach skills that can be directly utilised in the workplace is the disconnect between the academic learning and theory and how trainees translate/apply their learning in practice. We ensure that using the above approach, trainees will understand how these theories are applied in the real-world.

The NHS GMTS is a 'leadership scheme' providing high-calibre graduates with the authentic leadership skills to drive change and lead with care and compassion. Our proposed educational input offering includes a dedicated mandatory module on Leadership to deliver on the GMTS imperative need to reflect Leadership as a primary requirement.

Delivering the desired outcomes for the GMTS:

We will discuss each of these proposals with the GMTS education team well in advance of the 2024 start date, to ensure there are no clashes between the component parts of the GMTS, and to ensure correct understanding of the requirements.

In line with the 'Provider Specific Requirements' as outlined in the Statement of Requirements we will:

- Provide yearly academic timetables no later than 5th April: For the 2024 intake, the proposed academic timetable is provided below (Figure 1).

Figure 1 – Proposed Academic Timetable 2024/2025

- Attend the GMTS welcome event and present an introductory session: The Programme Director, Head of Programmes and Programme Administrator will continue to attend the in-person GMTS welcome in the first week of September each year and the virtual on-boarding FAQ events organised by the GMTS team. This usually includes (but is not limited to) participation in path-motion events, or those on a similar platform, as well as provision of online materials.

- Attend the twice-yearly GMTS Programme and Practice Board: We are committed to attending this new set of meetings with the opportunity to share best practice with other education providers as part of our continuous learning model of improvement.
- Attend the monthly virtual GMTS operational provider meetings: The Departmental Education Manager and Programme Administrator will continue to attend these monthly meetings. Additionally, we propose providing quarterly reports on trainee progress and feedback from the Staff and Student Liaison Committee.
- Agree to share education results with the GMTS education team via agreed upon channels within 5 working days of posting these to the trainees: We will commit to sharing educational results within 5 days of releasing results to trainees. We will remain in close contact throughout the two-years regarding student support.
- Options to the potential delivery mode(s) of your offer in response to this tender: We propose a blended delivery mode for a PGDip, over a 2-year period that trainees are on the scheme.
- To make available to the NHS GMTS the use of your estate:

Imperial College London has access to excellent facilities to cater for GMTS scheme events and can provide bespoke estate for face-to-face educational delivery (ranging from lecture theatres to large group working spaces and smaller seminar rooms). We can make these facilities available, including accommodation for trainees that need to travel (subject to booking caveats).

- Engage in wider GMTS training/engagement events and activities, both specialism and non-specialism related for participants and stakeholders:
 - We can actively engage in this by leveraging Imperial's extensive network of academics, researchers, and clinicians, in addition to our broader network of stakeholders internationally.
 -
 - As Leadership is at the core of the GMTS, we would welcome this as an opportunity to better integrate our Leadership module (delivered in collaboration with Imperial Business School) with the broader Leadership Education component.
- Any other reasonable request from the NHS GMTS of the provider in respect of the delivery of the contract.
 - We are always open to feedback from the GMTS delivery team, as well as from the GMTS trainees, to ensure we continue to excel in our educational delivery.

We have a **track record of successfully delivering the programme since 2017**, alongside a continuing ambition and commitment to **evolve and innovate** the programme in alignment with the GTMS requirements.

Programme delivery will be blended, combining online delivery and immersive in-person days, delivered in the style of tutorial groups. Our model of delivery has **actively**

integrated student feedback over many years. We strongly feel the programme **meets the needs of the GMTS in terms of competencies and learning outcomes, knowledge and skills development**, as well as the needs of trainees through the **provision of a flexible programme with pastoral support**.

Proposed content:

Modules are structured to **teach relevant knowledge, skills and behaviours** which students can apply to their professional roles by including:

- **Theories and research underpinning health policy**, taught by academic leaders.
- **Keynote examples of policy applied in the real-world**, shared by healthcare leaders with unrivalled experience, and exemplifying how the pure theoretical models do not always work.
- **Practical, authentic teaching exercises** showcasing examples of challenges faced by the NHS, compared and contrasted with other global health systems responses to provide a balanced policy education.
- **Leadership development**, which underpins all aspects of the programme and is central to the immersive in-person tutorials.

Assessments are tailored to **optimise workplace-based needs**.

They have been designed as varied and authentic, aligned to skills

required by policy and strategy professionals, with an emphasis on advancing students' credibility as leaders within the NHS. Examples include simulated scenarios of region-wide health policy challenges, development of communication strategies for policy change and construction and development of a video analysing a health campaign. **Participant satisfaction** with assessment methods is a **highly evaluated aspect of the programme**. We continually evolve assessments, reflecting on contemporary educational practice and engaging participants in developing the skills and attributes needed to **deliver transformation** in demanding health and social care environments.

Syllabus and module learning outcomes:

The PGDip programme is comprised of eight modules that accrue the necessary **Quality Assurance Agency for Higher Education framework credits** (60 ECTS), with each module awarding 7.5 ECTS. Our programme also complies with **ICL's Quality Assurance requirements** and is evaluated on a three-yearly basis.

The course **learning outcomes** detailed below will be **delivered through blended learning:**

Following successful completion of the Postgraduate Diploma, trainees are offered the opportunity to continue studying on the programme and undertake a **research dissertation** (Module 9) to attain a **Masters in Health Policy**. To date, around 20% of the GMTS Policy and Strategy trainees have opted to continue their studies with us. We recognise the impact a full MSc can have on trainees' skill development and career opportunities, and therefore would like to offer GMTS trainees a **20% discount on the MSc conversion fee** if progressing to the MSc within a year of completing the PGDip.

Students are encouraged to relate their research project to their role, identifying a work-based co-supervisor, ensuring their dissertation is **aligned with priorities and practices of their organisation and the NHS**.

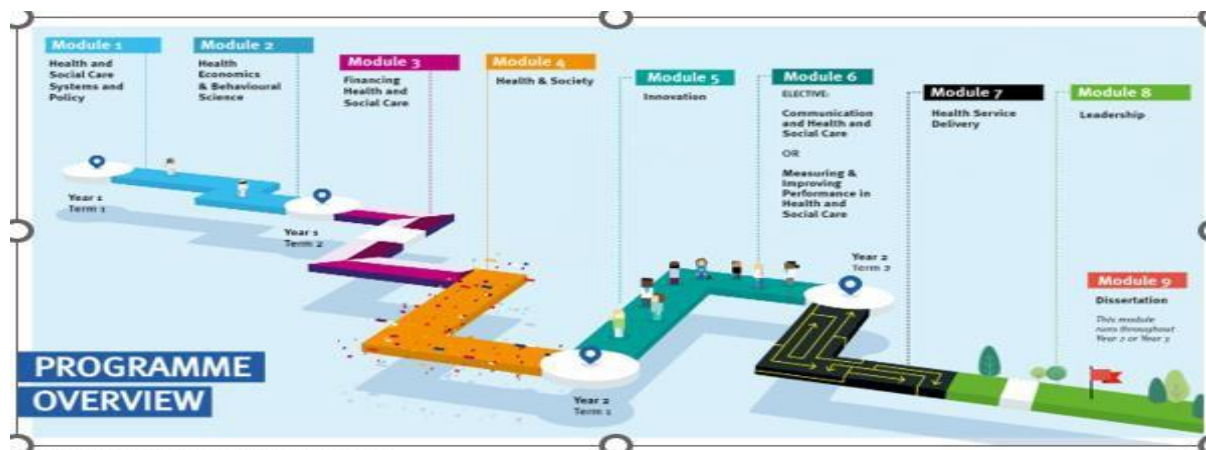

Figure 2 – programme roadmap

Delivery methods:

Our model of delivery is **blended, employing a combination of synchronous and asynchronous teaching, online and in-person**. **Digital learning assets** include pre-recorded videos, readings and case studies, as well as peer-learning exercises and discussions which are accessed through our virtual learning environment. This is coupled with **regular live webinars**, delivered and facilitated by Faculty with guest speakers invited where relevant. These are also recorded and accessible to students unable to attend synchronously.

Our **experience with online delivery** ensures participants have the **flexibility to engage with learning whilst continuing to balance work pressures and personal responsibilities**.

All core learning outcomes will be met through online teaching, and assessed through Level 7 **formative and summative assessments**, approved by ICL's Quality Assurance committees. We will supplement this by delivering **bespoke immersive in-person days** spread throughout the programme.

The **in-person days will be immersive and delivered in the style of tutorial groups**, allowing students to explore key topics that have been subject to debate during the preceding modules in more depth. Module leads will **explore case examples of application of theory into practice**, inviting key leaders from the NHS to work through **specifically designed problem-based learning activities** to ensure direct translation of knowledge, skills and behaviours to the NHS day job of the trainee. During these **interactive sessions**, we will also incorporate panel discussions and presentations by external speakers from across the wider health and social care system, peer-support group breakout sessions and leadership development activities.

We are cognisant of the strong **need to ensure a strong connection between the learning of theory and principles, and their application in the real world** and have experience of taking a **problem-based learning approach to effectively address this disconnect** and consolidate learning.

Additionally, all in-person tutorials will be designed to be **bespoke to GMTS trainees and tailored to meet the competencies outlined within the GMTS Policy and Strategy Competency Framework**. They will add significant value to trainees as a learning experience, in addition to the networking benefits that come with bringing trainees together. In

terms of format, we will deliver **four blocks of immersive in-person teaching (a maximum of 12 days in total), each of which will be mapped to two of the eight core modules.**

Our experience tells us that scheduling these in-person tutorials in blocks **enables trainees to more easily schedule the required study leave for attendance.** The teaching blocks will take place on Imperial College London's campus, unless the GMTS team would like them to be delivered in an alternative location to fit in with wider scheme commitments, in which case we are very open to discussing and arranging this accordingly.

Below are a few soundbites from our most recent cohorts feedback on the workshops we've delivered. These **highlight the value of the tutorials and the positive impact they have on students when designed and tailored to meet their specific needs.**

Figure 3 – feedback from in-person teaching

Integration into the current structure of the GMTS

We recognise the need to **ensure that the Academic Education aligns and complements the Leadership Education and Practice Education**, both in terms of what is being taught and when the teaching is scheduled. We're committed to providing the academic timetable by April 5th each year, which will encompass all dates for the core modules, live sessions and assessments. In addition, we would welcome the opportunity to discuss how best to **integrate the in-person tutorials into the broader scheme structure to ensure they complement other leadership and practical activities** undertaken by trainees. We are happy to be flexible in our approach to maximise the impact of these tutorials and ensure the scheduling of these in-person elements aligns with other scheme requirements.

In addition to delivering the Postgraduate Diploma, we are also eager to actively engage in the wider engagement events and activities held by the GMTS programme and think this would be beneficial to both trainees and our programme team.

As the GMTS scheme is a leadership scheme at its core, it would be useful for us to gain a greater understanding of the Leadership Education strand so we can ensure the PGDip taught module on **Leadership in Healthcare is framed in line with the guiding principles set out in 'Our Leadership Way'**, complementary to other GMTS leadership activities and we are providing an integrated educational experience.

On a more strategic level, as a world leading academic institution, we have access to a **vast network of active researchers and educators.** We would be **happy to leverage this network** of contacts for the benefit of trainees, not just within the Policy and Strategy specialism but **across all specialisms, at GMTS wide events.** One example would be to further engage the Imperial Business School, who we already have strong links with and

collaborate with across a range of our educational programmes, to contribute to the broader Leadership Education strand.

Programme level governance: management structure

A robust governance framework is in place within Imperial College London to ensure effective management and delivery of the programme.

The **Programme Board**, attended by Programme Directors, Operational and EdTech leads **meets fortnightly and provides strategic oversight and direction for the delivery of the programme**. The below figure outlines the workstreams associated with the programme, for which Programme Board has oversight.

Figure 4 – programme governance overview for the MSc in Health Policy

The **weekly Programme Operational Team** meeting has operational responsibility for programme delivery, active risk management, optimising student experience, personal tutoring and effective student communications.

In addition, we hold **quarterly Away Days** with the full programme team, including all module leads. These have a strong focus on teaching and learning and are spent reviewing the curriculum to ensure it remains relevant and meets the learning needs of our cohort and sharing best practice on effective and innovative pedagogic approaches to blended delivery.

If any issues arise which cannot be resolved by the Programme Board, we have a process for escalation and resolution via our Director of Postgraduate Studies (Taught) programmes, Director of Education and Education Manager.

At the end of each academic year, we hold an **Exam Board with our External Examiner**. The board considers and ratifies all results, progression and award decisions, which includes the review of borderline cases and mitigating circumstances. It also ensures all academic regulations have been adhered to and reviews any cases of academic misconduct.

Risk management

We follow **established project management protocols** and **active risk management** by maintaining an **overall risk register** for programme delivery, which is reviewed by both the

fortnightly Programme Board and weekly Programme Operational Team meetings. Mitigations and action plans are developed and implemented as needed. We are committed to **open and transparent reporting** of risks, so encourage open communication of risks between the GMTS and the Imperial team, to ensure any potential risks or concerns are addressed appropriately.

Imperial College governance and quality assurance

At a College level, the Quality Assurance and Enhancement Team has a responsibility for internal quality assurance, standards and enhancement procedures and exercises its responsibilities through an established and robust academic governance structure and policy. These procedures are designed to meet the expectations of the Quality Assurance Agency (QAA) as well as other national frameworks, benchmarks and statutory obligations.

All proposed academic changes to the programme (for example, changes that impact programme structure, ECTS credit weighting, mode of delivery, learning outcomes, assessments) are reviewed by the Department's Strategic Education Committee, and subject to their approval, the Faculty of Medicine's Postgraduate Education Committee. Both these boards are accountable for ensuring the academic rigour of the programme and providing recommendations to enhance the programme. Final approval of any changes are subject to College level review at Programmes Committee. Once approved, the revised curricula is published on our prospectus pages, ensuring we meet CMA requirements.

Every five to six years, Departments are subject to a review of their portfolio of postgraduate courses. A panel of reviewers, including two external assessors, visit the department for a day and review all the Postgraduate courses that are administered by the Department. The visits are an opportunity to validate our courses against national best practice and give us an opportunity to periodically update and review content and administration of our programmes.

Imperial's innovative approach to education:

Every year, Imperial teaches around 11,000 postgraduate students. Our commitment to students is embodied in our College-wide [Strategy](#) which focuses on:

- delivering programmes which prepare students for the rapidly changing nature of careers.
- using technology to offer flexible education with a global reach.
- expanding continuing education opportunities for professionals and enable life-long learning.
- fostering greater collaboration across our academic disciplines; further embedding our research into education.
- designing a diverse range of teaching, learning, experiential, and assessment approaches that recognise, support and attract students from all backgrounds.
- employing creative thinking in the use of physical and virtual space to maximise the student experience.

Innovative design of the programme

In 2021, the MSc in Health Policy was **re-designed and digitally transformed as a blended programme in partnership with the Interdisciplinary EdTech Lab (IETL)**. This central College EdTech team specialises in digital education and learning experience co-

creation. As such, the digitisation approach involved intentional learning design, alongside subject matter expertise, to ensure the best online learning practice was followed from the outset.

The mode of learning has been designed to allow for full online participation, including asynchronous learning, synchronous live sessions, assessment, and personal tutoring. Each module underwent constructive alignment during the design process and all module teams adhered to a set of agreed 'core standards', which encompass pedagogic best practice and specific digital learning requirements. These core standards incorporate factors ranging from expected learner engagement and participation, pedagogic approaches, multimedia strategies, assessment and feedback, accessibility and inclusion. The design sessions were co-creative and iterative and considered macro- to micro- elements, such as:

- Module aims, intended learning outcomes (ILOs), and learner needs analysis,
- Formative and summative assessments,
- Unit/weekly level ILOs and learning objectives,
- Activities and interactions (asynchronous and synchronous)

The programme has been iterated year-on-year, cohort-by-cohort and the **evaluation processes undertaken further evidence innovative design approaches and careful consideration of student feedback, teacher experience and learner analytics.**
Innovative delivery of the programme:

The programme is purposefully **designed to meet the needs of busy professionals** with multiple competing demands on their time. It is a part-time course delivering 8 modules over a 2-year period using a blended approach, with online content delivery augmented with in-person policy and strategy tutorials. Four modules are delivered in each academic year and each module is taught over 8 consecutive weeks, with the final 2 weeks focused on producing the authentic end of module summative assessment. This mode of delivery facilitates distance learning for students enrolled on the course and **maximises flexibility for those juggling multiple priorities.**

In addition to GMTS trainees, the cohort is made up of students working across the health and social care sector such as Government officials, clinicians and allied healthcare professionals, and employees of health insurance companies and consulting companies, both in the UK and internationally.

One of the highest-rated and most valued elements within the programme is the **establishment of peer networks and the development of communities of practice**, which evolve throughout, and endure beyond, the programme. Interactions across a diverse cohort allows students to **leverage different backgrounds and experiences to enrich their learning, challenge their thinking and discover areas where theoretical principles and practice intersect.** The live webinars are critical to achieving this, as students develop strong relationships through small group discussions and teamworking.

Our approach to continuous improvement, evaluation and innovation:

While the programme has delivered successful student and partner outcomes for over 10 years, we maintain an **adaptive and innovative approach that enables us to continuously improve and futureproof the programme.** This is evidenced by the full digitisation of the programme and move to hybrid learning, with the goal to support busy

working students and enhance their learning experience. We regularly **review and update our modules, horizon scanning for the latest priorities, policies, approaches, and innovations**. Imperial's **Interdisciplinary EdTech Lab** works closely with academics to introduce new and innovative digital learning approaches to the programme. **Imperial's scale, resource and infrastructure** enables us to be agile in response to changing needs while maintaining the student experience and course integrity.

Our approach to evaluation throughout the programme follows established good practice within ICL. We have collected hundreds of **quantitative feedback** data points for each module and from each cohort, along with **qualitative comments**, with a **robust approach used for analysis and reporting to the Health Policy Programme Board**. Feedback is routinely shared with module leads and programme support staff. The **Evaluation Workstream** was set up to continuously evaluate and improve the programme through participant feedback. It considers feedback, conducts peer review of modules, and establishes actions to further evolve the programme with regards to contemporary policy and practice.

We can cite recent **examples of improvements** made to the programme based on evaluation and feedback. This year, the programme was amended to include a **buffer week between modules**, allowing for a soft launch of module content to assist students in advanced preparation for each module, as well as providing students with a clear pause and reset between each programme module.

In line with ICL's Quality Assurance approval process, we are working to **reduce assessment burden** on students by removing the short, mid-module summative assessments which are currently set. This will **increase the time for students to reflect, learn and absorb key principles**, and embed taught content ahead of end-of-module final assessments.

We hope to build on the strengths of this work by developing metrics for success beyond student satisfaction, with a stronger focus on **system transformation**, to determine how the Health Policy programme can best **support career progression and impact within the NHS**. We would be delighted to work with the GMTS education team to identify impact case studies and further demonstrate the value of the programme.

Customer service

KPI 1 & 2 Feedback survey (yearly); Check-in survey (quarter)

Trainees evaluate the quality of the teaching they receive at the end of each module (termly), and this feedback contributes to the programme annual review. The feedback is collated anonymously to ensure that Trainees feel that they can be open and honest in their evaluations. In addition, we seek feedback at Staff-Student Liaison Committees (SSLC's) via student (trainee)-elected representatives who meet twice a year. Topics covered include: Reporting good practice; Identifying areas for improvement and suggesting solutions; Reporting issues with assessment; Content of Virtual learning Environment; Overall pace and balance of programme; Additional support needs.

The Contract Team use this continuous improvement process to identify areas for programme improvement, innovation and delivery; Trainee feedback is a vital and valuable component.

Alongside this process, personalised feedback on Trainee academic performance is regularly signposted both during teaching, and as part of the summative assessments that Trainees undertake. In this way, Trainees understand the areas where they have performed well, as well as those areas where there is still room for improvement.

Service delivery:

KPI 3 Submission of yearly academic timetables

The programme team will ensure that yearly academic timetables are available by 5 April deadline, prior to the start of the academic year. These may then be shared with the GMTS team to assist in their planning, identify any potential clashes and support a timely resolution.

KPI 4 Results submission

The Contract team will provide the GMTS team with the outcome of each assessment within 5 working days that these are published to Trainees. An opportunity to discuss the results in more detail is provided at the monthly GMTS monitoring meetings. In order, to satisfactorily evaluate Trainees who undertake the Diploma, the Contract Administrator and Programme Academic Leads (Contract Team) hold regular interim Progression Boards. These Boards ensure that Trainee academic progress is monitored and ensures that Trainees achieve satisfactory levels of attainment. As a minimum, the contract team will continue to provide the GMTS team with a termly academic progress report, which will include indicative grades for assessment completed, trainee feedback on teaching and benchmark data for previous cohorts. In addition the Contract Team meets on a weekly basis to review, monitor and mitigate against risks and resolve any Trainee issues as they arise (working in collaboration with the formal processes of the postgraduate mitigating circumstances advisory panel when required). A risk and issue log is maintained by the Project Administrator and trainee issues are identified in a timely manner and personalised support plans created and implemented. Escalation of issues will be raised, where appropriate, to the GMTS Team to ensure coordinated trainee support across the remit of the graduate scheme. In addition, over the course of the Diploma, Trainees are assigned to a Personal Tutor who supports the Trainee with any pastoral care issues that they might experience, utilising the additional resources of the College Student Support system where appropriate. This supports the Trainee's general wellbeing and their ability to thrive on the programme. The Contract team are on hand by email, telephone and at all face-to-face teaching sessions to ensure that the Trainees have every opportunity to raise any issues, concerns or reflections directly with the contract team.

Quality:

KPI 5 Exam Fails

Timeframe noted in KPI4 which includes any "failed" assessment. All summative assessments are double-marked (pass mark 50%). The College recognises that Trainees may experience unforeseen or unavoidable issues which could impact their academic performance and therefore encourages all Trainees to apply for Mitigating Circumstances in such situations. The [Mitigating Circumstances policy](#) ensures that College can take specific factors into consideration in relation to a Trainees academic study to deter a detrimental outcome. Should the Trainee fail an assessment they also retain a right to undertake one resit attempt. In addition, any Trainee who feels that the assessment outcome is inconsistent with expectation may apply for either an arithmetic mark check, or submit an Appeal. The Contract and GMTS teams discuss any Trainee with a "fail" mark at the monthly monitoring meeting to ensure that the team is aware of the options available for the Trainee, the support

being offered and any change in academic progression journey. This includes the option to pause their studies should their individual circumstances warrant this.

KPI 6 Papers for operational monthly meeting

The monthly meeting will set the standing items on the agenda, however should additional issues require discussion, the contract team will supply supporting documentation in advance of the meeting date.

KPI 7 Survey reports

Imperial is committed to providing a high quality educational and student experience. Quarterly and end of year reports will be supplied as noted in above.

Social Value: KPI 8 Progress on mission statement for social value – climate change

The College is working to deliver a resilient and sustainable educational offering to its students; this includes not only the structure of our programmes but the impact on climate change via our buildings, energy use, and travel options. In addition, with the climate emergency straining the mental health of communities around the world there is an urgent needs for a deep understanding of the challenges and opportunities for mental health in the context of climate change. [Climate Cares](#) at IGHI and the Grantham Institute for Climate Change and the Environment are working with International partners to facilitate a series of regional and global dialogues on climate change and mental health.

KPI 7 Progress on mission statement for social value – equal opportunity

The College remains committed to supporting [equality](#) of opportunity, championing inclusion and celebrating diversity. In addition, it supports the [Athena Swan Charter](#), a framework which is used across the globe to support and transform gender equality within higher education and research. We are pleased to announce that this week, our Dept has attained the Gold Award for their endeavours. Our dept (Surgery & Cancer) is one of only 7 medical groups in the country to receive this Award.

We are able to mobilise immediately as we are **already delivering the programme** and can **confidently commit to delivering the PGDip to GMTS trainees in Autumn 2024**. With the core programme team, delivery structures and learning materials firmly in place, the next phase presents an opportunity to update the curriculum with evolving policy and strategy priorities.

Team readiness:

An **exceptional team is already in place** successfully delivering the Postgraduate Diploma to the GMTS cohort and we are **committed to continuing to deliver a high-quality programme**. The experience we've gained since 2017 puts us in a **unique position to take the programme to the next level**.

A core management team, led by [REDACTED] provides oversight of the MSc in Health Policy. The same core management team leads the Postgraduate Diploma Qualification in Health Policy. Our **Co-Directors**, [REDACTED], both clinical academics in the Centre for Health Policy, Department of Surgery and Cancer and well respected in the field, provide academic leadership for the course. They bring with

them a strong team of academics and teaching fellows to optimise the learning experience of participants.

The team teaching the theoretical basis of the programme are **academics from ICL and several other institutions**, many of whom are practicing clinicians, with a solid and thorough grounding in policy, but also current operational practices and service delivery. The programme also benefits from **significant contributions from experts from a range of health and social care policy and delivery backgrounds, based in the UK and internationally**. All those involved have significant experience in delivering modules fulfilling all of the course requirements for the NHS Graduate Management Training Scheme.

Additionally, the programme has **established operational leadership and administrative support in place** to handle programme delivery, contract management, reporting requirements and risk management. The education team comprises Director of Development and Delivery for Education (an ex-GMTS trainee), Head of Programme, Departmental Education Manager and full-time Senior Postgraduate Administrator who have a strong track record in higher education. Additionally, there is a team of teaching fellows who support **module delivery and student experience as well as providing personal tutoring and pastoral support**.

External **programme governance is provided by an external examiner**, Joanne Gray (Professor of Health Economics, Department of Nursing, Midwifery & Health, Northumbria University).

As we have delivered the programme for over a decade, we have built up a **unique and wide-ranging network of thought leaders** who contribute to the programme in numerous impactful ways, such as delivering keynote speakers, sharing real life case studies and facilitating discussions in live sessions and running simulated experiences during in-person teaching. This established network enables us to **expose our students to a global community of experts who are willing to share their insights and expertise**, as well as ensure the programme remains current and relevant. Here is a selection of stakeholders we are currently working with on the programme:

Figure 6– programme stakeholders and contributors

Course **content readiness:**

As detailed in previous sections, we have been providing the PGDip as a blended programme since 2021 and as such, **the course content has already been designed and developed, and is therefore ready to be delivered** to our next intake of students in September 2024. As outlined in section 4, whilst the core teaching content are established, we have a robust system in place for evaluating and updating all our learning materials to ensure teaching remains relevant to trainees.

Admissions readiness: onboarding and enrolment to commence from 3rd June 2024

Imperial's admissions portal is open and accepting applications for study from September 2024 onwards. As the incumbent provider, we **will continue to have a named Admissions contact in the dept who will specifically support the GMTS cohort**. Our staff member actively liaises with the GMTS team annually from May to September, providing a **bespoke admissions experience to efficiently and effectively manage the transition of GMTS trainees from scheme participant to University-enrolled student**. Alongside these activities, the Programme Director supported by the Head of Programmes and Programme Administrator will continue to actively participate in the virtual on-boarding FAQ events organised by the GMTS education team, as well as provision of online materials to contribute to the virtual onboarding module for the trainees. The coordinated support by the various teams will ensure a seamless transition for trainees into their student journey.

In addition, we can confirm that we have **capacity to scale up the cohort size in line with the GMTS programmes ambition** to increase the number of trainees on the Policy and Strategy specialism in future years. The blended delivery model we employ is well designed for cohorts of fluctuating sizes so we can adapt to meet the needs of the GMTS.

Imperial is **committed to offering equity of opportunity** and as such **employs a rigorous and responsive admissions, academic and student support system** to ensure that students are not disadvantaged. Our admissions process provides a system to recognise candidate's experience, not solely based on previous academic attainment, ensuring that students from diverse backgrounds have the opportunity for continued study. By providing online or part-time study options, Imperial fosters continuing professional development

opportunities so that our students are not prevented from study based on geographical location, disability, learning differences, working professional or caring commitments. Therefore, the GMTS Trainees will benefit from our 2-year blended offering of the PGDip.

Support for students from non-academic backgrounds: Imperial has a well-established process to ensure that students who do not possess a previous formal academic qualification but **meet the admission requirements based on professional experience** can be assessed and enrolled onto the programme. We have an excellent track record of successfully admitting these students and ensuring they are provided with additional support and mentorship (for example, in academic writing and critical thinking skills); and who thrive on the programme.

Each year, we **plan and optimise a full onboarding experience** for each new cohort to set expectations for successfully navigating the programme, provide essential information and resources, and to facilitate student needs. As part of the onboarding process, we capture any early identifications of additional individual support requirements and signpost resources or determine next actions where applicable.

We strive to provide a **supportive teaching and learning environment** that optimises student experience and progression through the programme. We do this through the following multi-pronged approach:

The Student Hub: This brings together many of ICL's key support services in one easily accessible place. It is a hub for advice and information on a wide range of aspects of College life and support services available. This includes the **Student Support Zone** (for student health and wellbeing advice, handling common student concerns and personal development support); **Student Counselling and Mental Health services** (strategies for reducing stress, LGBTQIAP support and resources and access to Online Connect - an online support group, information on counselling). Additionally, the **ICL Graduate School** and Centre for Academic English offers training courses in various aspects of postgraduate study including research skills courses, academic writing support and presentation skills. All students have full access to ICL's online library resources.

Pastoral support: We have a well-established pastoral support infrastructure which contributes to sustaining academic quality while accommodating and supporting personal extenuating circumstances. Firstly, each trainee will be allocated a **Personal Tutor**, to support and provide them with pastoral care throughout the programme. The tutors take a **proactive approach** to make frequent contact with tutees at set points during the programme, and maintain an open-door policy for all to check academic progression or support individual needs as required. In addition, IGHI has set up a unique support service within Imperial: **The Champion system**. Three of our personal tutors are designated Champions in **Disability, Mental Health and Diversity**. The Champion system was developed when we established that most specialist student 'issues' broadly fall into these three main categories. Whilst the Champions are personal tutors themselves, this extended role offers extra tailored support and advice to students facing issues relating specifically to these areas. They respond to individual student needs and provide them with solutions which might including signposting the different services Imperial has to offer, confidence building, advocating for students, and where needed escalating issues on their behalf.

Disability support: In addition to Imperial's central Disability Advisory service, the programme is supported by both the Dept Surgery & Cancer Disability Officer, and a dedicated programme-specific disability specialist personal tutor who supports all students with a declared disability from the start of their academic study. A second personal tutor

specialises in EDI matters, working specifically with neurodiverse students on confidence building. The teaching and learning team constantly review our learning platforms and teaching methods to ensure we are **fully EA (2010) compliant and promote inclusive learning**. Changes made in response to student needs include introducing alternative assessment briefs, ensuring presentation slides are fully inclusive, and supporting students in obtaining Reasonable Adjustments that are tailored to individual circumstances.

Mentoring: This academic year, we have **introduced mentoring opportunities and reverse mentoring to complement students' individual leadership journey**. This allows for cross-programme networking and peer support between year groups. We plan to engage our growing alumni network and see this as an opportunity to not only **support the leadership development of current students but also foster, re-engage, and highlight achievements of our alumni network**.

Supporting students through unexpected events: Whilst many students progress well over their 2-year study period, sometimes unexpected work or life events can impact the student journey. We endeavour to support our students through these issues whether via our [mitigating circumstances policy](#) for example a simple extension request to a submission deadline or a more extended support plan which involves mitigation for assessment resits. In some cases, students may benefit from an interruption of studies; this involves temporarily pausing their studies to allow the student the time and space they need to address workload, health or caring responsibilities. We encourage students to discuss this option with their personal tutor, as well as the GMTS education team, before making a decision on their studies. A supported "return to study plan" can then be agreed with their personal tutor to ensure they have the tools to succeed on returning to the programme.

Imperial College London is committed to sustainability and it is embedded in the [University Strategy](#). Sustainable Imperial will be a place that "leads the sector in becoming one of the lowest carbon, zero polluting, low consumption and biodiverse ecosystems within the constraints of our urban environments, by applying our academic strength and commitment to safeguard the future."

An NHS Compliant Carbon Reduction Plan is available [here](#). Imperial College London is committed to achieving Net Zero emissions (scopes 1 and 2, our direct emissions) by 2040, and minimising scope 3 emissions where possible. Example of ongoing work include replacing gas boilers with a connection to the district heating network and progress on a Sustainable Food Strategy, which will mean no beef is served on campus by 2025-2026. The slide below shows progress in the last 9 months and what is forthcoming:

Procurement (with IT services the biggest contributor) is a major driver of Imperial's overall carbon footprint. To tackle this, training for procurement team & major purchasers has been introduced in March 2024. Imperial are proposing the introduction of a 20% sustainability weighting in major procurements and doing supplier assurance. The Top 100 Tier 1 suppliers will be assessed by the end of 2025. A dedicated Sustainable Procurement resource will be recruited for the first 12 months to work alongside Category Managers. The expected outcome is a reduction in our scope 3 (indirect) carbon emissions and a supply chain transformation.

In terms of delivery of this specific course, the provision of the course as a mostly online offering significantly helps by reducing the carbon footprint from travelling and carbon emissions in heating and powering a building. For in-person elements, we will ensure that the chosen venue has good public transport links and will benefit from Imperial's work to improve the sustainability of our campuses.

Sustainability already features within the Health Policy course, but there is the potential to enhance the offer for NHS Graduate Trainees as part of their in-person sessions. Imperial College London has huge expertise here with the Grantham Institute for Climate Change and the Environment whilst [REDACTED], Professor in Sustainable Energy at Imperial, is the current chair of the UN's Intergovernmental Panel on Climate Change. We also work closely with [REDACTED], who heads up the sustainability work at Imperial College Healthcare Trust. So, there would be potential to draw on these experts for an in-person session on sustainable health policy for the GMTS participants.

Imperial College London is **very committed to tackling inequalities in access to education, skills and prospects in the student population**. Imperial's [Access and Participation Plan](#) proactively identifies areas where Imperial could close gaps statistically from particular groups (in access, success and progression), and action plans, metrics etc to achieve this. A new plan will be submitted in May.

Actions taken by Imperial to widen participation include:

- [targeted outreach programmes](#) and [Summer schools | Be inspired | Imperial College London](#)
- [contextual offers](#) – eligible students can receive the 'minimum offer' from a department rather than 'typical' offer
- A range of Financial support such as:
 - [Imperial Bursary | Study | Imperial College London](#) – Undergraduate
 - [Student Support Fund | Imperial students | Imperial College London](#) – all
 - [Search our scholarships | Study | Imperial College London](#) – all

Once students are accepted there is an overarching [Success Guide | Imperial students | Imperial College London](#) for all students which delivers effective signposts to support. As part of our commitment to equity of opportunity, Imperial **employs a rigorous and responsive admissions, academic and student support system** to ensure that postgraduate students are not disadvantaged. Our admissions process provides a system to recognise candidate's experience, not solely based on previous academic attainment, ensuring that students from diverse backgrounds have the opportunity for continued study. By providing online or part-time study options, Imperial fosters continuing professional development opportunities so that our students are not prevented from study based on geographical location, disability, learning differences, working professional or caring commitments. Therefore, the GMTS Trainees will benefit from our 2-year blended offering of the PGDip.

In addition, it supports the [Athena Swan Charter](#), a framework which is used across the globe to support and transform gender equality within higher education and research. We are pleased to announce that this week, **our Department (Surgery and Cancer) has attained the Gold Award** for their endeavours. Our Department is one of only 7 medical groups in the country to receive this Award.

All the policies above demonstrate the wider University's commitment on this important issue. That said, we have found this question quite difficult to answer directly relating to the GMTS Policy and Strategy trainee cohort, because trainees are not chosen by us, but centrally by the GMTS education team. We aim to support all students and look to accommodate their diverse needs, as set out in the Equity section of this contract response (section 7).

- 1.6.2 any act or omission of the Supplier or a Sub-contractor in relation to its obligations under regulation 13 of TUPE, or in respect of an award of compensation under regulation 15 of TUPE except to the extent that the liability arises from the Third Party's failure to comply with regulation 13 of TUPE;

Broadly comparable pension benefits ☐ (Clause 1.4 of this Part D of this Schedule 7 only applies to the Contract if this box is checked or 1.2.4 of Part A of this Schedule 7 applies. For the avoidance of doubt, where this box is not checked, but the Part D box above is checked all of the provisions of this Part D of this Schedule 7 shall apply to this Contract except Clause 1.4 of this Part D of this Schedule 7)

1 Pension protection for Eligible Employees

1.1 General

- 1.1.1 The Supplier shall procure that, if relevant, each of its Sub-contractors shall comply with the provisions in this Schedule 7 as if references to the Supplier were to the Sub-contractor.

1.2 Membership of the NHS Pension Scheme

- 1.2.1 In accordance with Fair Deal for Staff Pensions, the Supplier to which the employment of any Eligible Employee compulsorily transfers as a result of the award of this Contract, if not an NHS Body or other employer which participates automatically in the NHS Pension Scheme, shall on or before the Employee Transfer Date, each secure a Direction Letter to enable the Eligible Employees to retain either continuous active membership of or eligibility for, the NHS Pension Scheme, or as appropriate rejoin or secure eligibility for the NHS Pension Scheme for so long as they remain employed in connection with the delivery of the Services under this Contract.
- 1.2.2 The Supplier must supply to the Authority a complete copy of the Direction Letter as soon as reasonably practicable after the Employee Transfer Date.
- 1.2.3 The Supplier shall comply with the terms of the Direction Letter (including any terms which change as a result of changes in Law) for so long as it remains bound by the terms of the Direction Letter.
- 1.2.4 Where any Staff (including any Transferred Staff) omitted from the Direction Letter supplied in accordance with Part D of this Schedule 7 is subsequently found to be an Eligible Employee, the Supplier (or its Sub-contractor if relevant) will ensure that that person is treated as an Eligible Employee from the Employee Transfer Date so that their Pension Benefits and Premature Retirement Rights are not adversely affected.
- 1.2.5 The Supplier shall ensure that all data relating to the Eligible Employees and the NHS Pension Scheme is up to date and is provided to the Authority as requested from time to time.

1.3 Contributions payable

- 1.3.1 The Supplier shall pay to the NHS Pension Scheme all such amounts as are due under the Direction Letter and shall deduct and pay to the NHS Pension Scheme such employee contributions as are required by the NHS Pension Scheme.
- 1.3.2 Where during the Term the standard employer contribution rate which the Supplier is required to pay into the NHS Pension Scheme pursuant to the terms of its Direction Letter is increased to a rate which is over and above the rate which was applicable to the Supplier as at the date of this Contract

and such rate increase results in an increased cost to the Supplier overall in relation to the provision of the Services (“Cost Increase”), the Supplier shall (subject to Clause 1.3.3 of Part D of this Schedule 7 and the provision of supporting information) be entitled to recharge a sum equal to the Cost Increase to the Authority. The Supplier shall only be entitled to recharge any Cost Increase to the Authority pursuant to this Clause 1.3.2 of Part D of this Schedule 7 in circumstances where the Cost Increase arises solely as a direct result of a general increase in the employer contribution rate applicable to all employers participating in the NHS Pension Scheme and not in circumstances where the employer contribution rate applicable to the Supplier is increased for any other reason, including as a result of any acts or omissions of the Supplier which give rise to any costs or additional charges (including interest) being charged to the Supplier which are over and above the minimum employer contributions payable by an employer in the NHS Pension Scheme (including as a result of a failure by the Supplier to comply with the terms of its Direction Letter or to meet its obligations to the NHS Pension Scheme).

1.3.3 The Supplier must supply all such information as the Authority may reasonably request from time to time in order to support any claim made by the Supplier pursuant to Clause 1.3.2 of Part D of this Schedule 7 in relation to a Cost Increase.

1.3.4 Where during the Term the standard employer contribution rate which the Supplier is required to pay in relation to the NHS Pension Scheme pursuant to the terms of its Direction Letter is decreased as part of a general reduction in the standard employer contribution rate applicable to all employers participating in the NHS Pension Scheme to a rate which is lower than that which was applicable as at the date of this Contract and such decrease results in a cost saving for the Supplier (a “Cost Saving”), the Authority shall be entitled to reduce the amounts payable to the Supplier under this Contract by an amount equal to the Cost Saving. The Authority shall be entitled to deduct any Cost Saving from sums otherwise payable by the Authority to the Supplier under this Contract.

1.4 Broadly Comparable Pension Benefits

1.4.1 If the Authority in its sole discretion agrees that the Supplier or Sub-contractor need not provide the Eligible Employees with access to the NHS Pension Scheme, the Supplier must ensure that, with effect from the Employee Transfer Date until the day before the Subsequent Transfer Date, the Eligible Employees are offered access to a scheme under which the Pension Benefits are Broadly Comparable to those provided under the NHS Pension Scheme.

1.4.2 The Supplier must supply to the Authority details of its Broadly Comparable scheme and provide a full copy of the valid certificate of Broad Comparability covering all Eligible Employees, as soon as it is able to do so and in any event no later than twenty eight (28) days before the Employee Transfer Date.

1.5 Transfer Option where Broadly Comparable Pension Benefits are provided

1.5.1 As soon as reasonably practicable and in any event no later than twenty (20) Business Days after the Employee Transfer Date, the Supplier must provide the Eligible Employees with the Transfer Option, where a Third Party offered, or the Supplier offers, a Broadly Comparable scheme.

1.6 Calculation of Transfer Amount

- 1.6.1 The Authority shall use reasonable endeavours to procure that twenty (20) Business Days after the Transfer Option Deadline, the Transfer Amount is calculated by the Third Party's Actuary or the Authority's Actuary (as appropriate) on the following basis and notified to the Supplier along with any appropriate underlying methodology.
- 1.6.2 If the Third Party offers a Broadly Comparable scheme to Eligible Employees:
- (i) the part of the Transfer Amount which relates to benefits accrued in that Broadly Comparable scheme other than those in Clause (ii) of Part D of this Schedule 7 below must be aligned to the funding requirements of that scheme; and
 - (ii) the part of the Transfer Amount which relates to benefits accrued in the NHS Pension Scheme (having been previously bulk transferred into the Third Party's Broadly Comparable scheme), must be aligned to whichever of:
 - (A) the funding requirements of the Third Party's Broadly Comparable scheme; or
 - (B) the principles under which the Third Party's Broadly Comparable scheme received a bulk transfer payment from the NHS Pension Scheme (together with any shortfall payment), gives the higher figure, provided that where the principles require the assumptions to be determined as at a particular date, that date shall be the Employee Transfer Date.
- 1.6.3 In the case of Transferring Employees or any Third Party Employees who have access to the NHS Pension Scheme (and who are classed as Eligible Employees), the Transfer Amount shall be calculated by the NHS Pension Scheme's Actuary on the basis applicable for bulk transfer terms from the NHS Pension Scheme set by the Department of Health from time to time.
- 1.6.4 Each Party shall promptly provide to the Actuary calculating or verifying the Transfer Amount any documentation and information which that Actuary may reasonably require.

1.7 Payment of Transfer Amount

Subject to:

- 1.7.1 the period for acceptance of the Transfer Option having expired; and
- 1.7.2 the Supplier having provided the trustees or managers of the Third Party's pension scheme (or NHS Pensions, as appropriate) with completed and signed forms of consent in a form acceptable to the Third Party's pension scheme (or NHS Pensions) from each Eligible Employee in respect of the Transfer Option; and
- 1.7.3 the calculation of the Transfer Amount in accordance with Clause 1.6 of Part D of this Schedule 7; and

- 1.7.4 the trustees or managers of the Supplier's (or any Sub-contractor's) Broadly Comparable scheme (or NHS Pensions, as appropriate) having confirmed in writing to the trustees or managers of the Third Party's pension scheme (or NHS Pensions, as appropriate) that they are ready, willing and able to receive the Transfer Amount and the bank details of where the Transfer Amount should be sent, and not having revoked that confirmation,

the Authority will use reasonable endeavours to procure that the Third Party's pension scheme (or the NHS Pension Scheme, as appropriate) shall, on or before the Payment Date, transfer to the Supplier's Broadly Comparable scheme (or NHS Pension Scheme) the Transfer Amount in cash, together with any cash or other assets which are referable to additional voluntary contributions (if any) paid by the Eligible Employees which do not give rise to salary-related benefits.

1.8 Credit for Transfer Amount

- 1.8.1 Subject to prior receipt of the Transfer Amount, by the trustees or managers of the Supplier's Broadly Comparable scheme (or NHS Pensions, as appropriate), the Supplier must procure that year-for-year day-for-day service credits are granted in the Supplier's (Broadly Comparable scheme (or NHS Pension Scheme), or an actuarial equivalent agreed by the Authority's Actuary (and NHS Pension Scheme Actuary) in accordance with Fair Deal for Staff Pensions as a suitable reflection of the differences in benefit structure between the NHS Pension Scheme and the Supplier's pension scheme.

- 1.8.2 To the extent that the Transfer Amount is or shall be insufficient to provide benefits in the receiving scheme on the basis set out in Clause 1.8.1 above, the Supplier shall be liable to make a top-up payment into the receiving scheme such that benefits shall be provided by the receiving scheme on the basis set out in Clause 1.8.1 above.

1.9 Premature Retirement Rights

- 1.9.1 From the Employee Transfer Date until the day before the Subsequent Transfer Date, the Supplier must provide Premature Retirement Rights in respect of the Eligible Employees that are identical to the benefits they would have received had they remained employees of an NHS Body or other employer which participates automatically in the NHS Pension Scheme.

1.10 Breach and Cancellation of any Direction Letter(s) and Right of Set-Off

- 1.10.1 The Supplier agrees that it shall notify the Authority if it breaches the terms of the Direction Letter. The Supplier also agrees that the Authority is entitled to make arrangements with NHS Pensions for the Authority to be notified if the Supplier breaches the terms of this Direction Letter.
- 1.10.2 If the Authority is entitled to terminate this Contract pursuant to Clause 15.5.5 of Schedule 2, the Authority may in its sole discretion instead of exercising its right under Clause 15.5.5 of Schedule 2 permit the Supplier to offer Broadly Comparable Pension Benefits, on such terms as decided by the Authority.
- 1.10.3 If the Authority is notified by NHS Pensions of any NHS Pension Scheme Arrears, the Authority shall be entitled to deduct all or part of those arrears from any amount due to be paid by the Authority to the Supplier having given

the Supplier five (5) Business Days' notice of its intention to do so, and to pay any sum deducted to NHS Pensions in full or partial settlement of the NHS Pension Scheme Arrears. This set-off right is in addition to and not instead of the Authority's right to terminate the Contract under Clause 15.5.5 of Schedule 2.

1.11 Compensation

- 1.11.1 If the Supplier is unable to provide the Eligible Employees with either:
- (i) membership of the NHS Pension Scheme (having used its best endeavours to secure a Direction Letter); or
 - (ii) a Broadly Comparable scheme,
- the Authority may in its sole discretion permit the Supplier to compensate the Eligible Employees in a manner that is Broadly Comparable or equivalent in cash terms, the Supplier having consulted with a view to reaching agreement any recognised trade union or, in the absence of such body, the Eligible Employees. The Supplier must meet the costs of the Authority in determining whether the level of compensation offered is reasonable in the circumstances.
- 1.11.2 This flexibility for the Authority to allow compensation in place of Pension Benefits is in addition to and not instead of the Authority's right to terminate the Contract under Clause 15.5.5 of Schedule 2.

1.12 Supplier Indemnities Regarding Pension Benefits and Premature Retirement Rights

- 1.12.1 The Supplier must indemnify and keep indemnified the Authority and any Successor against all Losses arising out of any claim by any Eligible Employee that the provision of (or failure to provide) Pension Benefits and Premature Retirement Rights from the Employee Transfer Date, or the level of such benefit provided, constitutes a breach of his or her employment rights.
- 1.12.2 The Supplier must indemnify and keep indemnified the Authority, NHS Pensions and any Successor against all Losses arising out of the Supplier (or its Sub-contractor) allowing anyone who is not an Eligible Employee to join or claim membership of the NHS Pension Scheme at any time during the Term.
- 1.12.3 The Supplier must indemnify the Authority, NHS Pensions and any Successor against all Losses arising out of its breach of this Part D of this Schedule 7 or the terms of the Direction Letter.

1.13 Sub-contractors

- 1.13.1 If the Supplier enters or has at the Commencement Date entered into a Sub-contract for delivery of all or part of the Services it shall impose obligations on its Sub-contractor in the same terms as those imposed on the Supplier in relation to Pension Benefits and Premature Retirement Benefits by this Part D of this Schedule 7, including requiring that:
- (i) if the Supplier has secured a Direction Letter, the Sub-contractor also secures a Direction Letter in respect of the Eligible Employees for their future service with the Sub-contractor as a condition of being awarded the Sub-contract; or

- (ii) if the Supplier has offered the Eligible Employees access to a pension scheme under which the benefits are Broadly Comparable to those provided under the NHS Pension Scheme, the Sub-contractor either secures a Direction Letter in respect of the Eligible Employees or provides Eligible Employees with access to a scheme with Pension Benefits which are Broadly Comparable to those provided under the NHS Pension Scheme and in either case the option for Eligible Employees to transfer their accrued rights in the Supplier's pension scheme into the Sub-contractor's Broadly Comparable scheme (or where a Direction Letter is secured by the Sub-contractor, the NHS Pension Scheme) on the basis set out in Clause 1.8 of Part D of this Schedule 7, except that the Supplier or the Sub-contractor as agreed between them, must make up any shortfall in the transfer amount received from the Supplier's pension scheme.

1.14 Direct Enforceability by the Eligible Employees

- 1.14.1 Notwithstanding Clause 30.8 of Schedule 2, the provisions of this Part D of this Schedule 7 may be directly enforced by an Eligible Employee against the Supplier and the Parties agree that the Contracts (Rights of Third Parties) Act 1999 shall apply to the extent necessary to ensure that any Eligible Employee shall have the right to enforce any obligation owed to him or her by the Supplier under this Part D of this Schedule 7 in his or her own right under section 1(1) of the Contracts (Rights of Third Parties) Act 1999.
- 1.14.2 Further, the Supplier must ensure that the Contracts (Rights of Third Parties) Act 1999 shall apply to any Sub-contract to the extent necessary to ensure that any Eligible Employee shall have the right to enforce any obligation owed to them by the Sub-contractor in his or her own right under section 1(1) of the Contracts (Rights of Third Parties) Act 1999.

1.15 Pensions on Transfer of Employment on Exit

- 1.15.1 In the event of any termination or expiry or partial termination or expiry of this Contract which results in a transfer of the Eligible Employees, the Supplier must (and if offering a Broadly Comparable scheme, must use all reasonable efforts to procure that the trustees or managers of that pension scheme must):
 - (i) not adversely affect pension rights accrued by the Eligible Employees in the period ending on the Subsequent Transfer Date;
 - (ii) within thirty (30) Business Days of being requested to do so by the Authority or Successor, (or if the Successor is offering Eligible Employees access to the NHS Pension Scheme, by NHS Pensions), provide a transfer amount calculated in accordance with Clause 1.6 of this Part D of this Schedule 7; and
 - (iii) do all acts and things, and provide all information and access to the Eligible Employees, as may in the reasonable opinion of the Authority be necessary or desirable and to enable the Authority and/or the Successor to achieve the objectives of Fair Deal for Staff Pensions.

Schedule 8

Expert Determination

1 Dispute Process

- 1.1 During any Dispute, including a Dispute as to the validity of the Contract, it is agreed that the Supplier shall continue its performance of the provisions of the Contract (unless the Authority requests in writing that the Supplier does not do so).
- 1.2 In the case of a Dispute the Supplier and the Authority shall make every reasonable effort to communicate and cooperate with each other with a view to resolving the Dispute and shall follow the procedure set out in this Schedule 8.
- 1.3 In the event of a Dispute either Party may serve a Dispute Notice on the other Party to commence formal resolution of the Dispute. The Dispute Notice shall set out:
 - 1.3.1 the material particulars of the Dispute; and
 - 1.3.2 the reasons why the Party serving the Dispute Notice believes the Dispute has arisen.
- 1.4 Following the service of a Dispute Notice the Parties shall first seek to resolve the Dispute by convening a meeting between the Authority's Contract Manager and the Supplier's Contract Manager (together the "**Contract Managers**").
 - 1.4.1 The meeting of the Contract Managers must take place within five (5) Business Days of the date of the Dispute Notice (the "**Dispute Meeting**").
 - 1.4.2 The Contract Managers shall be given ten (10) Business Days following the date of the Dispute Meeting to resolve the Dispute.
 - 1.4.3 The Contract Managers can agree to further meetings at levels 2 and/or 3, as referred to at Clause 5.1 of the Key Provisions in Schedule 1, in addition to the Dispute Meeting, but such meetings must be held within the ten (10) Business Day timetable set out in Clause 1.4.2 of this Schedule 8.
 - 1.4.4 If at any point it becomes clear that the timetable set out cannot be met or has passed, the Parties may (but shall be under no obligation to) agree in writing to extend the timetable. Any agreed extension to the timetable shall have the effect of delaying the start of the subsequent stages by the period agreed in the extension.
- 1.5 If the procedure set out in Clause 1.4 of this Schedule 8 has been exhausted and fails to resolve the Dispute either Party may request the Dispute be resolved by way of a binding expert determination (pursuant to Clause 1.6 of this Schedule 8). For the avoidance of doubt, the Expert shall determine all matters (including, without limitation, matters of contractual construction and interpretation) in connection with any Dispute referred to binding expert determination pursuant to Clause 1.6 of this Schedule 8.
- 1.6 Where the Dispute is referred to binding expert determination the following process will apply:
 - 1.6.1 The Party wishing to refer the Dispute to expert determination shall give notice in writing to the other Party informing it of its wish to refer the Dispute to expert determination and giving brief details of its position in the Dispute.
 - 1.6.2 The Parties shall attempt to agree upon a single expert (who must have no connection with the Dispute unless both Parties have consented in writing) (an "**Expert**"). For the avoidance of doubt, where the Dispute relates to contractual interpretation and construction, the Expert may be King's Counsel. In the event that the Parties fail to agree upon an Expert within five

- (5) Business Days following the date of the notice referred to in Clause 1.6.1 of this Schedule 8 (or if the person agreed upon is unable or unwilling to act), the Parties agree that the Expert will be nominated and confirmed to be appointed by the Centre for Effective Dispute Resolution.
- 1.6.3 The Expert must be willing and able to complete the expert determination process within thirty (30) Business Days of the Date of Final Representations (as defined in Clause 1.6.5 of this Schedule 8).
- 1.6.4 The Expert shall act as an expert not as an arbitrator or legal advisor. There will be no formal hearing and the Expert shall regulate the procedure as he sees fit.
- 1.6.5 The Parties shall each have the right to make written representations to the Expert and will, with reasonable promptness, provide the Expert with such assistance and documents as the Expert reasonably requires for the purpose of reaching a decision. Such representations must be made within twenty eight (28) Business Days of the Expert being appointed, or fourteen (14) Business Days after the last documents requested by the Expert have been provided to the Expert, whichever is the later ("**Date of Final Representations**"). Any documents provided to the Expert and any correspondence to or from the Expert, including email exchanges, shall be copied to the other Party simultaneously.
- 1.6.6 The Expert shall have the power to open up, review and revise any certificate, opinion, requisition or notice and to determine all matters in Dispute (including his jurisdiction to determine matters that have been referred to him).
- 1.6.7 The Expert may take such advice and assistance from professional advisers or other third parties as he reasonably considers appropriate to enable him to reach a determination of the Dispute and may issue orders that one or both of the Parties are to pay such third party costs, stating the proportion. For the avoidance of doubt, where the Expert is not King's Counsel, and the Expert requires advice or assistance on matters of contractual interpretation and construction, the expert may take such advice and assistance from a third party King's Counsel of their choosing under this Clause 1.6.7 of this Schedule 8. The Parties will pay any such third party costs incurred pursuant to this Clause 1.6.7 of this Schedule 8 in such proportions as the Expert shall order. In the absence of such order such third party costs will be paid equally.
- 1.6.8 The Expert shall provide the Parties with a written determination of the Dispute (the "**Expert's Decision**") within thirty (30) Business Days of the Date of Final Representations, which shall, in the absence of fraud or manifest error, be final and binding on the Parties.
- 1.6.9 The Expert's Decision shall include reasons.
- 1.6.10 The Parties agree to implement the Expert's Decision within five (5) Business Days of the Expert's Decision being provided to them or as otherwise specified as part of the Expert's Decision.
- 1.6.11 The Parties agree that the Expert shall be entitled to proceed to give his binding determination should one or both Parties fail to act in accordance with the procedural timetable set out above.
- 1.6.12 The Parties will pay the Expert's costs in such proportions as the Expert shall determine. In the absence of such determination such costs will be shared equally.

- 1.6.13 The Parties agree to keep confidential all information arising out of or in connection with the expert determination, including details of the underlying Dispute, except where disclosure is required by Law.
- 1.7 Nothing in this Contract shall prevent:
 - 1.7.1 the Authority taking action in any court in relation to any death or personal injury arising or allegedly arising in connection with the provision of the Services; or
 - 1.7.2 either Party seeking from any court any interim or provisional relief that may be necessary to protect the rights or property of that Party (including Intellectual Property Rights) or which relates to the safety of patients and other service users or the security of Confidential Information, pending the resolution of the relevant Dispute in accordance with the Dispute Resolution Procedure.
- 1.8 Subject to Clause 1.7 of this Schedule 8 neither Party may commence legal proceedings in relation to a Dispute until the dispute resolution procedures set out in this Schedule 8 have been exhausted. For the avoidance of doubt, either Party may commence legal proceedings to enforce the Expert's Decision.
- 1.9 This Schedule 8 shall survive the expiry of or earlier termination of this Contract for any reason.

Schedule 9
