If, following the contract award decision, the Winning Tenderer does not agree to the Contract terms (when the Contract has been drafted in accordance with the terms and information provided in this tender), the Authority reserves the right to terminate that contract award decision and award the Contract to the next best placed Tenderer or to cancel or re-run the procurement.

IR35

IR35 off payroll working rules are not expected to apply to this requirement as this is for procurements of goods.

Modern Slavery

A Modern Slavery Assessment has been raised and the risk is considered to be Very Low

Cyber Risk

A Cyber Risk Assessment has been raised and the profile is Very Low. The reference is RAR- 470015911

A Supplier Assurance Questionnaire does need to be completed.

Where a Supplier Assurance Questionnaire needs to be completed, Tenderers must complete and email this to UKStratComDD-CyDR-DCPP@mod.gov.uk who will confirm cyber risk compliance. A copy of the completed questionnaire and the compliance email should then be included as part of the tender submission.

If a Tenderers Supplier Assurance Questionnaire score does not meet the level set in the Cyber Risk Assessment, this does not prevent submission of a Tender. In those circumstances, a Cyber Implementation Plan should be completed as part of the tender submission, to demonstrate what actions will be taken to meet the required Cyber Risk level. Provided the actions and timescales were considered acceptable to The Authority, the Cyber Implementation Plan would then be included as a requirement in any resulting Contract.

Guidance of Cyber Implementations Plans can be found online at

Section D – Tender Evaluation Criteria

D1. This section details how your Tender will be evaluated.

D2. The Tender evaluation will calculate the Most Economically Advantageous Tender (MEAT) to The Authority based on the following calculation:

$$\text{Evaluation Score} = \frac{\text{Total Price}}{\text{Total Technical Score}}$$

D3. Any Tender which is considered non-compliant for any Commercial, Financial or Technical element or criteria will be excluded from the competition and not receive an Evaluation Score. That tender may also be excluded from full Technical evaluations and not receive any Technical scores or feedback.

D4. The Tenderer with the lowest Evaluation Score will be considered to be the Winning Tenderer and awarded any resulting contract.

D5. In the event that multiple Tenderers achieve the exact same lowest Evaluation Score, then the Tenderer with the lowest Total Price will be considered to be the Winning Tenderer. In the event that multiple Tenderers achieve the exact same lowest Evaluation Score and have the exact same lowest Total Price, then The Authority reserves the right to request those, and only those, Tenderers to submit final and best Total Prices, with the lowest final and best Total Price considered to be the Winning Tenderer.

D6. Tenderers must provide relevant answers and all requested documentation in response to all commercial qualification, financial and technical criteria/questions. Responses should remain as concise as possible and any supporting information should be relevant to the response. The answer to each criteria should be no more than 750 words.

D7. Tenders will be evaluated based on the contents of their Tender response only.

D8. Tenderers must submit only one priced proposal. Where more than one price or set of prices is submitted, only the first submitted priced proposal will be accepted.

D9. Technical Evaluation will be undertaken independently from Commercial and Financial Evaluations. Technical evaluators will have no knowledge of associated prices. Tenderers must ensure that there are no prices shown within any technical criteria responses or supporting documents.

D10. Should any exclusions, assumptions, dependencies or caveats apply to your Tender or any of the goods and/or services that you would provide when delivering the requirements, these should be clearly indicated in the relevant areas of the Tender.

Commercial Qualification Evaluation

D11. The Commercial Qualification Evaluation will assess if all tendering and contractual requirements have been provided.

D12. A Tender will be considered non-compliant if:

- the Tender was not received by the due date and time.
- the full set of requirements cannot be delivered.
- any required delivery dates cannot be met.
- all MOD Terms & Conditions have not been accepted.
- any other required documentation was not submitted.
- any prices have been included in the technical responses and the Authority considers that this has affected the evaluation process.
- more than one priced proposal has been submitted and the Authority considers that this has affected the evaluation process.

- the Social Value Commitments form does not include at least one commitment for each of the three Social Value criteria/themes.

D13. The Authority reserves the right to undertake due diligence checks and/or financial health checks of Tenderers as part of the Commercial Evaluation. If any of these checks raises concerns around the Tenderer or If a Parent Company or Bank guarantee is requested and is not provided, The Authority will consider the Tenderer non-compliant. If these checks are undertaken on the Winning Supplier during the standstill period prior to formal contract award, the Authority reserves the right to award the Contract to the next best placed Supplier or to cancel or re-run the procurement.

Financial Evaluation

D14. The Financial Evaluation will assess the Total Price the Tenderer has offered to deliver all the requirements set out in the Statement of Requirements.

D15. Prices should be provided for each item listed in the Schedule of Requirements The Total Price should be confirmed on Tender Annex A. This shall be the total maximum cost for the provision of all goods and/or services listed, as detailed in the Statement of Requirement, for the quantities quoted and for the full maximum duration of the requirement, including any optional goods/services and/or periods All prices submitted must be excluding VAT.

D16. The Total Price figure that will be used in the evaluation of Tenders shall be the total figure that is calculated from the prices Tenderers have provided for each item listed in the Schedule of Requirements, for the full maximum duration of the requirement, including any optional goods/services and periods.

D17. Tenderers are notified that when the contract is in place, payments for goods and/or services will be made after the goods and/or services have been fully delivered. For example, payment for purchase of an item will be made after it has been delivered and installed or payment for annual services will be made at the end of the contract period during which the services were undertaken.

D18. Where estimated Authority usage figures are shown on the Schedule of Requirements, the Total Price figure shall not be a guarantee of quantities required or payments to be made under any resulting Contract.

D19. A Tender will be considered non-compliant if:

- the Total Price is greater than the total available funding of £160,000.
- Annex A shows an incorrect Total Price as the Total Price calculation is above the available funding.
- the Tender does not indicate a Total Price.
- the Tender has not provided prices for all items in the Schedule of Requirements.
- the Tender requires the Authority to provide additional resource (other than any identified in the Statement of Requirements), therefore the pricing does not cover all requirements.

Technical Evaluation

D20. The Technical Evaluation will assess the Tender response to establish the level of confidence The Authority has that the Tenderer will be able meet and deliver all the requirements detailed in the Statement of Requirements.

D21. The Technical Evaluation will allocate points to a set of evaluation criteria. These criteria may also be weighted, with the points allocated to each individual criteria being multiplied by the associated weight to give a score for that individual criteria. The points, weightings and scores available for each criteria are indicated in the Technical Criteria Table. Guidance on how Tenders will be scored is in the Scoring Criteria Table.

D22. The Technical Evaluation may also assess some criteria on a pass/fail basis. These criteria will not be included in the Total Technical Score calculation. Guidance on how Tenders will be scored is in the Scoring Criteria Table.

D23. The scores awarded for each individual criteria, excluding any pass/fail criteria, will be added together to give the Total Technical Score.

D24. Technical evaluators are considered to be Subject Matter Experts in the areas they are evaluating. If an individual criteria is evaluated by more than the one evaluator, then each evaluator will undertake their own assessment before attending a moderation meeting where those evaluators will agree an overall consensus points figure for that criteria. This moderated consensus points figure will be used for the purposes of the evaluation.

D25. Evaluators will assess each question individually and will not be expected to search for answers. Where a Tenderers answer to any technical criteria question is covered within a separately attached document, the text answer to that criteria question must clearly indicate the relevant part of the supporting document in which the answer can be found. Any documents that have not been referenced will be discounted during evaluation.

D26. A Tender will be considered non-compliant if:

- the Tender receives a fail on any pass/fail criteria.
- the Tenderer has self-certified that that they cannot meet any of individual pass/fail criteria.
- the Tender receives points which are below the threshold set for any individual criteria.
- the Tender receives a Total Technical Score below 60.

D29. Social Value Overview (for criteria 5-7)

Social value has a lasting impact on individuals, communities, and the environment. Government has a huge opportunity and responsibility to maximise benefits effectively and comprehensively through its commercial activity. It cannot afford not to. A missed opportunity to deliver social value may lead to costs that the taxpayer has to absorb elsewhere through public procurement.

A competitive and diverse supply landscape can help to deliver innovation in public services, manage risk and provide greater value for taxpayers' money.

As a result, the Social Value Model (SVM) has been created which details 5 Themes, 8 Policy Outcomes and 24 Model Award Criteria (MACs). The SVM MACs are questions which relate to Social Value. The use of the SVM is mandatory in all central government procurements using Public Contracts Regulations (PCR) 2015 and Defence and Security Public Contracts Regulations (DSPCR) 2011 above financial threshold and exempt procurements.

Defence is focusing on three, out of the five, priority Social Value themes that are most relevant for Defence:

- Tackling economic inequality.
- Fighting climate change; and
- Equal opportunity.

The Social Value Scoring Criteria is listed below. Please use this and the information provided within the SVM to compile your responses to the SVM MAC and Model Evaluation Question (MEQ) asked. In compiling your answer, please refer to the SVM Quick Reference Table. Under Model Response Guidance for tenderers and evaluators examples of types of evidence the tender evaluators are looking for can be found.

Alongside the Example Reporting Metrics, Social Value Key Performance Indicators (KPIs) may be used within this contract. KPIs will be generated from the Tenderer's social value response it is therefore important that measurable commits are included in the response (both commitments against the reporting metrics and other metrics as may be appropriate. KPIs may be agreed between the parties and included in the contract at Contract Award.

The aim of the following SVM MACs is to understand the Tenderers Social Value Commitment that this procurement programme will provide within the geographical location(s) that is will be delivered from.

In your written response you should provide convincing arguments, including suitable evidence, of What your understanding of Social Value is, in relation to this procurement, and How you will instil confidence in the Authority in your ability to deliver against the Social Value requirements for this procurement.

A list of some of the key response documents that the Authority would expect you to provide are provided below. However, within the overall limit of pages you should supplement your written submission with other documents you consider will build confidence in your ability to maximise Social Value Commitments.

From the information that you provide, the evaluators will assess, qualitatively, your response, based on the information that you provide within your tender response.

Alongside their Commitments against the reporting metrics, the successful Tenderer's method statement will form the basis of Key Performance Indicators and jointly managed throughout the life of the contract.

The Tenderers must ensure that they answer the SVM MACs asked. Any additional information which is not specific to the contract being procured will not be considered.

The Tenderers responses are to set out the additional Social Value benefits that they will deliver against the Policy Outcomes for this procurement. It is not sufficient to only reference/use to their Corporate Social Responsibility (CSR) and or Environmental, Social and Governance (ESG) documents.

Using a maximum of 750 words describe the commitment your organisation will make to ensure that opportunities under the contract deliver the Policy Outcome and Award Criteria. Please include:

- your 'Method Statement,' stating how you will achieve this and how your commitment meets the SVM Model Award Criteria (MAC), and
- a timed project plan and process, including how you will implement your commitment and by when
- how you will monitor, measure and report on your commitments/the impact of your proposals. You should include but not be limited to:
 - timed action plan
 - use of metrics
 - tools/processes used to gather data
 - reporting
 - feedback and improvement
 - transparency
- how you will influence your: staff, supply chains, 3rd party suppliers, customers, and communities through the delivery of the contract to support the Policy Outcome, e.g., engagement, co-design/creation, training, and education, partnering/collaborating, volunteering.

In complying your answer, please refer to the Social Value Model Quick Reference Table, under Model Response Guidance for tenderers and evaluators for examples of types of evidence the tender evaluators are looking for: The written submission should be in 11pt Arial to meet the response requirement.

For this procurement, the following SVM MAC have been selected as being appropriate.

D30. Evaluation Example Table

The following table provides an example of how Tenders may be evaluated/scored and is for illustrative purposes only. The number of questions and potential points/scores do not necessarily reflect the exact Technical Scores and Scoring Criteria for this particular requirement or how Tenders for this requirement will be evaluated. This example is based on a procurement with 2 pass/fail criteria and 5 scored criteria, each with a minimum threshold of 30, and funding of £250,000.

Figure	Weight	Tender 1 Points	Tender 1 Score	Tender 2 Points	Tender 2 Score	Tender 3 Points	Tender 3 Score	Tender 4 Points	Tender 4 Score
A	N/A	Pass	Pass	Pass	Pass	Pass	Pass	Pass	Pass
B	N/A	Pass	Pass	Fail	Fail	Pass	Pass	Pass	Pass
1	30.00%	100	30.00	100	30.00	100	30.00	70	21.00
2	25.00%	70	17.50	100	25.00	30	7.50	100	25.00
3	18.00%	100	18.00	30	5.40	100	18.00	70	12.60
4	15.00%	100	15.00	0	0.00	100	15.00	100	15.00
5	12.00%	100	12.00	100	12.00	100	12.00	100	12.00
Technical Score			92.50		72.40		82.50		81.10
Technical Compliance			Compliant		Non-Compliant		Compliant		Compliant

Total Price		240,000	215,000	275,000	210,000
Financial Compliance		Compliant	Compliant	Non-Compliant	Compliant

Commercial Compliance		Compliant	Compliant	Compliant	Compliant
-----------------------	--	-----------	-----------	-----------	-----------

Evaluation Score		2594.59	0.00	0.00	2589.40
------------------	--	---------	------	------	---------

In this example, Tender 2 was non-compliant as it did not meet the minimum threshold for Technical Criteria B and 4. Tender 3 was as non-compliant as the Total Price exceeded the funding available. Tender 4 is the Winning Tenderer, as it had the lowest Evaluation Score (combining price and technical score) and was compliant for all Commercial, Financial and Technical criteria.

Neither does the issue of this ITT or subsequent Tender submission create any implied Contract between the Authority and any Tenderer and any such implied Contract is expressly excluded.

F2. The Authority reserves the right, but is not obliged to:

- a. vary the terms of this ITT in accordance with applicable law;
- b. seek clarification or additional documents in respect of a Tenderer's submission during the Tender evaluation where necessary for the purpose of carrying out a fair evaluation. Tenderers are asked to respond to such requests promptly;

- d. disqualify any Tenderer that submits a non-compliant Tender in accordance with the instructions or conditions of this ITT;
- e. disqualify any Tenderer that is guilty of misrepresentation in relation to its Tender, expression of interest, the dynamic PQQ or the tender process;
- f. re-assess your suitability to remain in the competition, for example where there is a material change in the information submitted in and relating to the PQQ response, see paragraphs A31 to A34;
- g. withdraw this ITT at any time, or choose not to award any Contract as a result of this tender process, or re-invite Tenders on the same or any alternative basis;
- h. re-issue this ITT on a single source basis, in the event that this procurement does not result in a 'competitive process' as defined in the Single Source Contract Regulations 2014, making such adjustments as would be required by the application of the Defence Reform Act 2014 and/or the Single Source Contract Regulations 2014;
- i. choose not to award any Contract as a result of the current tender process;
- j. where it is considered appropriate, ask for an explanation of the costs or price proposed in the Tender where the Tender appears to be abnormally low;

F8. Where you have provided advice to the Authority in relation to this procurement procedure or otherwise have been or are involved in any way in the preparation or conduct of this procurement procedure or where any other actual or potential Conflict of Interest (COI) exists, arises or may arise or any situation arises that might give the perception of a COI at any point before the Contract award decision, you must notify the Authority immediately.

F9. Where an actual or potential COI exists or arises or any situation arises that might give the perception of a COI at any point before the Contract award decision, you must provide a proposed Compliance Regime within seven (7) calendar days of notifying the Authority of the actual, potential or perceived COI. The proposal must be of a standard which, in the Authority's sole opinion, appropriately manages the conflict, provides sufficient separation to prevent distortion of competition and provides full details listed at F9 a to g below. Where the Contract is awarded and the COI is still relevant post-Contract award decision, your proposed Compliance Regime will become part of the Contract Terms and Conditions. As a minimum, the Compliance Regime must include:

- a. the manner of operation and management;
- b. roles and responsibilities;
- c. standards for integrity and fair dealing;
- d. levels of access to and protection of competitors' sensitive information and Government Furnished Information;

Any Tenderer who fails to comply with the requirements described at paragraphs F7 to F10 (including where the Authority does not deem the proposed Compliance Regime to be of a standard which appropriately manages the conflict) may be disqualified from the procurement at the discretion of the Authority.

Requests must be made in writing to the named Commercial Officer and a copy of the draft announcement provided. This shall then be forwarded to the Press Office and their contact details will be provided for further follow up.

F14. Under no circumstances should you confirm to any Third Party the Authority's Contract award decision before the Authority's announcement of the award of Contract.

Sensitive Information

F15. All Central Government Departments and their Executive Agencies and Non-Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-governmental role delivering overall Government policy on public procurement, including ensuring value for money, related aspects of good procurement practice and answering Freedom of Information requests.

Information on Mandatory Declarations

IPR Restrictions

1. You must complete and attach DEFFORM 711 (Notification of Intellectual Property Rights (IPR) Restrictions) as part of your Tender. You must provide details of any information / technical data that is deliverable or delivered under the Contract where it is, or may be, subject to any IPR restrictions (or any other type of restriction which may include export restrictions) affecting the Authority's ability to use or disclose the Information / technical data in accordance with the conditions of any resulting Contract. You must also identify any Contractor Deliverables subject to IPR which have been funded exclusively or in part by private venture, foreign investment or otherwise than by the Authority.
2. In particular, you must identify:
 - a. any restriction on the provision of information to the Authority; any restriction on disclosure or the use of information by, or on behalf of, the Authority; any obligations to make payments in respect of IPR, and any Patent or Registered Design (or application for either) or other IPR (including unregistered Design Right) owned or controlled by you or a Third Party;
any allegation made against you, whether by claim or otherwise, of an infringement of Intellectual Property Rights (whether a Patent, Registered Design, unregistered Design Right, Copyright or otherwise) or of a breach of confidence, which relates to the performance of any resultant Contract or subsequent use by or for the Authority of any Contractor Deliverables;
 - c. the nature of any allegation referred to under sub-paragraph 2.b., including any obligation to make payments in respect of the Intellectual Property Right of any confidential information; and / or
 - d. any action you need to take, or the Authority is required to take to deal with the consequences of any allegation referred to under sub-paragraph 2.b.
3. You must provide the Authority with details of every restriction and obligation referred to in paragraphs 1 and 2. The Authority will not acknowledge any such restriction unless so notified using DEFFORM 711 or as otherwise agreed under any resultant Contract. You must also provide, on request, any information required for authorisation to be given under Section 2 of the Defence Contracts Act 1958.
4. You should refer to the DEFFORM 711 Explanatory Notes for further information on how to complete the form.

Notification of Foreign Export Control Restrictions

5. If, in the performance of the Contract, you need to import into the UK or export out of the UK anything not supplied by or on behalf of the Authority and for which a UK import or export licence is required, you will be responsible for applying for the licence. The Authority will provide you with all reasonable assistance in obtaining any necessary UK import or export licence.
6. In respect of any Contractor Deliverables, likely to be required for the performance of any resultant contract, you must provide the following information in your Tender:
Whether all or part of any Contractor Deliverables are or will be subject to:
 - a. a non-UK export licence, authorisation or exemption; or
 - b. any other related transfer control that restricts or will restrict end use, end user, re-transfer or disclosure.

You must complete DEFFORM 528 (or other mutually agreed alternative format) in respect of any Contractor Deliverables identified at paragraph 6 and return it as part of your Tender. If you have previously provided this information you can provide details of the previous notification and confirm the validity.

7. You must use reasonable endeavours to obtain sufficient information from your potential supply chain to enable a full response to paragraph 6. If you are unable to obtain adequate information, you must state this in your Tender. If you become aware at any time during the competition that all or part of any proposed Contractor Deliverable is likely to become subject to a non-UK Government Control through a Government-to-Government sale only, you must inform the Authority immediately by updating your previously submitted DEFFORM 528 or completing a new DEFFORM 528.
8. This does not include any Intellectual Property specific restrictions mentioned in paragraph 2.
9. You must notify the named Commercial Officer immediately if you are unable for whatever reason to abide by any restriction of the type referred to in paragraph 6.

10. Should you propose the supply of Contractor Deliverables of US origin the export of which from the USA is subject to control under the US International Traffic in Arms Regulations (ITAR), you must include details on the DEFFORM 528. This will allow the Authority to make a decision whether the export can or cannot be made under the US-UK Defense Trade Co-operation Treaty. The Authority shall then convey its decision to the Tenderer. If the Authority decides that use of the Treaty for the export is permissible, it is your responsibility to make a final decision whether you want to use that route for the export concerned if you are awarded the contract.

Import Duty

11. United Kingdom (UK) legislation permits the use of various procedures to suspend customs duties.

12. For the purpose of this competition, for any deliverables not yet imported into the UK, you are required to provide details of your plans to address customs compliance, including the Customs procedures to be applied (together with the procedure code) and the estimated Import Duty to be incurred and / or suspended [see explanatory note 41].

13. You should note that it is your responsibility to ensure compliance with all regulations relating to the operation of the accounting for import duties. This includes but is not limited to obtaining the appropriate His Majesty's Revenue & Customs (HMRC) authorisations.

Cyber Risk

14. Cyber risk has been considered and in accordance with the Cyber Security Model resulted in a Cyber Risk Profile of "Very Low". The Risk Assessment Reference is RAR- 470015911. Tenderers are required to complete the Suppliers Assurance Questionnaire and submit this as part of their Tender response, together with a Cyber Security Implementation Plan as appropriate.

Sub-contracts Form 1686

15. [Form 1686](#) (also known as Appendix 5) is to be used in all circumstances where contractors wish to place a Sub-Contract at OFFICIAL-SENSITIVE with a contractor outside of the UK, or where the release of SECRET or above information is involved within the UK or overseas. The process will require submission of the single page document either directly to the MOD Project Team or, where specified, to the DE&S Security Advice Centre. Form 1686 and further guidance can be found in the Cabinet Office's [Contractual Process](#).

Small and Medium Enterprises

16. The Authority is committed to supporting the Government's Small and Medium-sized Enterprise (SME) policy, and we want to encourage wider SME participation throughout our supply chain. Our goal is that 25% of the Authority's spending should be spent with SMEs by 2022; this applies to the money which the Authority spends directly with SMEs and through the supply chain. The Authority uses the European Commission definition of SME.

17. A key aspect of the Government's SME Policy is ensuring that its suppliers throughout the supply chain are paid promptly. All suppliers to the Authority and their sub-contractors are encouraged to make their own commitment and register with the [Prompt Payment Code](#).

18. Suppliers are also encouraged to work with the Authority to support the Authority's SME initiative, however this is not a condition of working with the Authority now or in the future, nor will this issue form any part of the Tender evaluation. Information on the Authority's purchasing arrangements, our commercial policies and our SME policy can be found at [Gov.UK](#) and the DSP.

19. The opportunity also exists for Tenderers to advertise any sub-contract valued at over £10,000 on the Defence Sourcing Portal and further details can be obtained directly from: <https://www.gov.uk/guidance/subcontract-advertising>. This process is managed by the Strategic Supplier Management team who can be contacted at: DefComrcISSM-Suppliers@mod.gov.uk.

Transparency, Freedom of Information and Environmental Information Regulations

20. The Authority shall publish notification of the Contract and publish Contract documents where required following a request under the FOI Act except where publishing such information would hinder law enforcement; would otherwise be contrary to the public interest; would prejudice the legitimate commercial interest of any person or might prejudice fair competition between suppliers.

21. The Authority may publish the contents of any resultant Contract in line with government policy set out in the Government's [Transparency Principles](#) and in accordance with the provisions of either DEFCON 539, SC1B Conditions of Contract Clause 5 or SC2 Conditions of Contract Clause 12.

22. Before publishing the Contract, the Authority will redact any information which is exempt from disclosure under the Freedom of Information Act 2000 ("the FOIA") or the Environmental Information Regulations 2004 ("the EIR").

23. You must complete the attached Tenderer's Sensitive Information Form (DEFFORM 539A, SC1B Schedule 4 or SC2 Schedule 5) explaining which parts of your Tender you consider to be Sensitive Information. This includes providing a named individual who can be contacted with regard to FOIA and EIR.

24. You should note that while your views will be taken into consideration, the ultimate decision whether to publish or disclose information lies with the Authority. You are advised to provide as much detail as possible on the form. It is highly unlikely that a Tender will be exempt from disclosure in its entirety. Should the Authority decide to publish or disclose information against your wishes, you will be given prior notification.

Electronic Purchasing

25. Tenderers must note that use of the [Contracting, Purchasing and Finance \(CP&F\)](#) electronic procurement tool is a mandatory requirement for any resultant contract awarded following this Tender. By submitting this Tender, you agree to electronic payment. You may consult the service provider on connectivity options. Failure to accept electronic payment will result in your Tender being non-compliant and excluded from the tender process.

Change of Circumstances

26. In accordance with paragraph A31, if your circumstances have changed, please select 'Yes' to the appropriate question on DEFFORM 47 Annex A and submit a Statement Relating to Good Standing with your Tender.

Asbestos, Hazardous Items and Depletion of the Ozone Layer

27. The Authority is required to report any items that use asbestos, that are hazardous or where there is an impact on the Ozone. Where any Contractor Deliverables fall into one of these categories select 'Yes' to the appropriate question on DEFFORM 47 Annex A and provide further details in your Tender.

Defence Safety Authority (DSA) Requirements[see explanatory note 42]

28. There are no DSA Requirements.

Bank or Parent Company Guarantee[see explanatory note 43]

29. You will be informed whether you are required to provide a Bank or Parent Company Guarantee. In the event that you are selected as the winning Tenderer, you must provide your Bank or Parent Company Guarantee (in the form of DEFFORM 24/24A as appropriate) during the standstill period. No Contract will be awarded until a suitable Bank or Parent Company Guarantee, as appropriate, is in place. Failure to provide a Bank or Parent Company Guarantee during the standstill period, will result in you being de-selected as the winning Tenderer. The Authority reserves the right to re-evaluate the Tenders, (if necessary) to take into account the absence of the de-selected Tenderer, enabling the Authority to establish the next winning Tenderer and award a Contract.

Part B – System / Product Breakdown Structure (PBS)

The Contractor should insert their PBS here. For Software, please provide a Modular Breakdown Structure.

Completion Notes

Part A

If any information / technical data that is deliverable or delivered under the relevant Contract conditions is, or may be, subject to any IPR restrictions (or any other type of restriction which may include export restrictions) affecting the Authority's ability to use or disclose the information / technical data in accordance with the conditions of any resulting Contract, then the Contractor must identify this restricted information / technical data in this Part A. Otherwise, the Authority shall treat such information in accordance with the same rights under the Contract it would enjoy should no restrictions exist.

For example, any of the following must be disclosed:

- a) any restriction on the provision of information / technical data to the Authority; any restriction on disclosure or the use of information by, or on behalf of, the Authority; any obligations to make payments in respect of IPR, and any patent or registered design (or application for either) or other IPR (including unregistered design right) owned or controlled by you or a third party;
- b) any allegation made against the Contractor, whether by claim or otherwise, of an infringement of IPR (whether a patent, registered design, unregistered design right, copyright or otherwise) or of a breach of confidence, which relates to the performance of the Contract or subsequent use by or for the Authority of any Contract deliverables;
- c) the nature of any allegation referred to under sub-paragraph (b) above, including any request or obligation to make payments in respect of the IPR of any confidential information and / or;
- d) any action the Contractor needs to take, or the Authority is requested to take, to deal with the consequences of any allegation referred to under sub-paragraph (b) above.

Block 1	Enter the associated Invitation to Tender (ITT) or Contract number as appropriate.
Block 2	No action – This sequential numbering is to assist isolation and discussion of any line item
Block 3	Identify a unique reference number for the information / technical data (i.e. a Contractor's document or file reference number) including any dates and version numbers. Documents may only be grouped and listed as a single entry where they relate to the same Article and where the restrictions and IPR owner are the same.
Block 4	Identify the Article(s) associated with the information / technical data by entering a unique identification number / label for the Article(s). This may range from platform level down to sub-system level. This is to enable the Authority to quickly identify the approximate technical boundary to any user rights limitation (e.g. The RADAR or Defensive Aid Sub-System etc). This identification shall be at the lowest level of replaceability of the Article(s) or part of it to which the restrictions apply (i.e. if the restrictions apply to a sub-system the parent system should not be used to identify the restriction boundary). Any entry without a unique identifier shall be treated as a nil entry. NOTE: The Authority does not accept any IPR restrictions in respect of the physical Articles themselves. Block 4 is solely to provide an applied picture to any technical data stated under Block 3 as having IPR restrictions.
Block 5	This is a freeform narrative field to allow a short explanation justifying why this information / technical data has limited rights applying to it.
Block 6	Identify who is the owner of the IPR in the information / technical data (i.e. copyright, design right etc). If it is a sub-contractor or supplier, please identify this also.

Part B

If neither hardware nor software is proposed to be designed, developed or delivered as part of the Contract, Part B should be marked "NIL RETURN".

Otherwise, the Contractor must include a System / Product Breakdown Structure (PBS) in a format which is consistent with ISO 21511 and / or the configuration requirements of DEFSTAN 05-057, unless an alternative format better represents your design configuration. For software, a modular breakdown structure must be provided. For reasons of clarity, it is acceptable to provide several levels of breakdown if this assists in organising the configuration of the Articles.

Details provided under Part B shall not imply any restriction of use over the Contract Articles, nor any restriction on associated technical data to be delivered under the Contract. Any restrictions of such technical data must be identified within Part A.

Against each unique item within the PBS / module breakdown, one of the following categories shall be recorded:

- a) (PVF) - Private Venture Funded - where the article existed prior to the proposed Contract and its design was created through funding otherwise than from His Majesty's Government (HMG).
- b) (PAF) - Previous Authority Funded (inc. HMG Funded) - where the article existed prior to the proposed Contract and its design was created through Previous Authority Funding.
- c) (CAF) - Contract Authority Funded (inc. HMG Funded) - where the article did not exist prior to the Contract and its design will be created through Contract Authority Funding under this Contract.
- d) (DNM) Design Not Mature - where the article / design configuration is not yet fixed.

In combination with one of categories (a) to (d) above, the Contractor shall further identify where an item has, or will have, foreign export control applying to it, through use of the further following category:

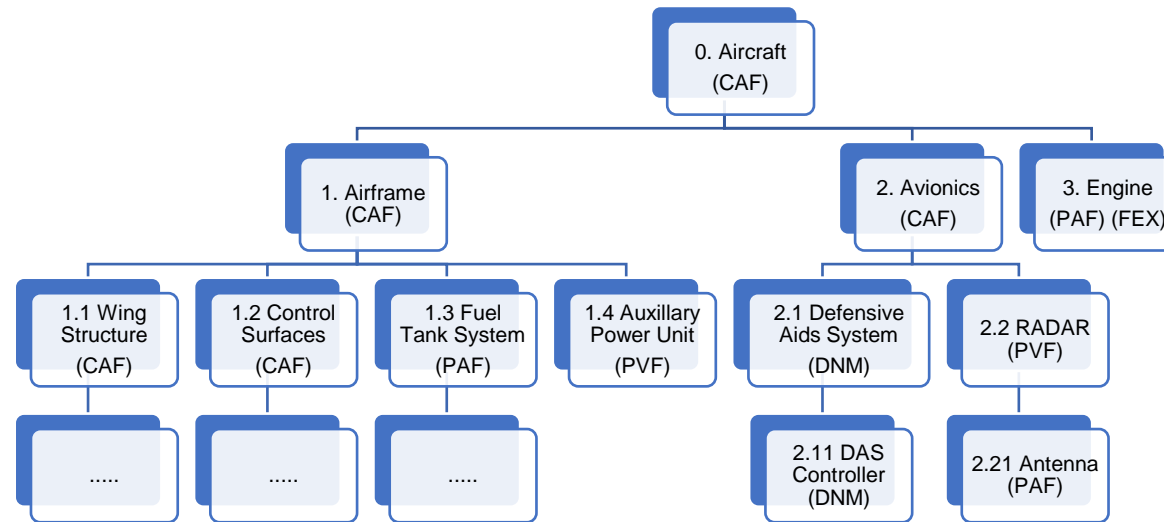

- e) (FEX) Foreign Export Controlled

Notes:

1. During the term of the Contract the Contractor may transition any items identified as category (d) above into category (b) or (c). Transitions from category (d) into category (a) may only be made with the express written agreement of the Authority's Senior Commercial Officer, and by following the amendment process set out in the Contract.
2. It is acceptable to specify the highest level of structure to which the category (a), (b) or (c) applies (i.e. there is no need to specify each sub-system / componentry if the entirety of the parent system was for example, Private Venture Funded). See guidance examples overleaf.
3. For the avoidance of doubt, where a parent system did not exist prior to the Contract yet makes use of Private Venture Funded Articles, it must be identified as (CAF). The Private Venture Funded sub-components / sub-systems can be identified as PVF.
4. Where items are identified as category (b), the Contractor should provide the number(s) of the previous Contract(s) under which the design was created and the Previous Authority Funding was applied.

Example PBS

A theoretical pictorial example is given below but it is to be noted that the configuration may equally be dealt with in a hierarchal tabularised format.

The diagram above indicates a highly simplified and hypothetical Contract scenario dealing with the procurement of a new air asset.

- i. The proposed new aircraft would be considered Contract Authority Funded (CAF) at its top level.
- ii. Items denoted as Private Venture Funded (PVF) would generally indicate that it and all of its sub-components have been funded by sources other than HMG. In this instance there is no need to proceed down the product breakdown structure any further (see 1.4), except unusually where a generally PVF regarded item has incorporated a Previous Authority Funded (PAF) item (see 2.21).
- iii. The proposed design is making use of a PAF engine.
- iv. This engine has Foreign Export Control (FEX) applying to items within it.
- v. The Defensive Aids System at 2.1 is covered as part of the Contract but the exact configuration and design has not yet been fixed "Design Not Mature" (DNM).
- vi. It is not feasible for a parent PVF system to make use of a CAF item; the parent system configuration would not have existed prior to the Contract.

Schedule 6 - Statement of Requirements

STATEMENT OF REQUIREMENT – HMS COLLINGWOOD

HMS COLLINGWOOD NAVAL STORES, DDS (Defence Diving School), SEA SURVIVAL, CBRNDC (Chemical, Biological Royal Naval Damage Control) Washer and Dryer Support Contract Requirement

Background

HMS COLLINGWOOD and its out stations conduct a broad range of washing machines to deliver clean survival clothing for training to Royal Navy personnel. An essential requirement to conduct this training is the provision of laundered protective and other specialist clothing (Personal Protective Equipment (PPE)), of which cannot be completed by the Laundry Contract. Domestic washing machines would not be able to cope with the large demand. These items are quickly turned around sometimes daily or on a Thursday and Friday to be re-issued on a Monday for the start of the new courses.

These new industrial machines will wash up to 500 pieces of clothing per week. This is a requirement to carry out training or deliver its core responsibility. Health and Safety (H&S) restrictions or significant cost increases for additional PPE. The removal of the laundry equipment represents a significant threat to output and the continued ability to provide the required manning resources.

Requirement

Provision, via purchase, of suitable laundry equipment (Dryers and Washers) with an accompanying 5-year warranty is considered to be the most cost-effective option to ensure that sufficient personal protective clothing is available for all training areas to conduct the wide range of training they are tasked to deliver.

Steel plinths for the washers must be replaced with the machines. (as old machines and may need new plinths) No spare parts are required to be held on site but the machines must have a 5-year warranty in case of defects and to cover the servicing required.

Quote must include delivery to site, include unpacking and positioning, connection to correct services, final commissioning and safety certificates, removal and disposal of all installation waste by suitably qualified personnel. Might require removing door frames to get equipment into the facilities by the DIO hard FM contractor. They should also include annual service as part of the warranty for each machine for a period of no less than 5 years. This cost should also cover callout, parts, and labour.

The supplier will be required to provide manuals on how to operate the washers and dryers and provide a call out service to provide maintenance if/when required within 48 hours of notice.
