Section 2 – About the Contracting Authority

South Tees Site Company

On 2 October 2015 the SSI steel works in Redcar was placed into compulsory liquidation and an official receiver (OR) was appointed as liquidator. On 12 October, following no buyer for the steel works being found, the decision was taken by the official receiver to set about the hard closure of the site. Since that time the official receiver undertook a protracted liquidation of SSI and, in the absence of a new owner, he has been overseeing the safe and secure closure of the former SSI site whilst maintaining the delivery of services to other site residents. Government, through the Department for Business, Energy and Industrial Strategy, provided an indemnity to the OR so that he could carry out his duties as liquidator of the company and ensure its ongoing safety and security.

On the 1st December 2016, the Department established a Government company, known as the South Tees Site Company Ltd, in order to take forward the safety and security of the site from the OR. STSC have a management team as well as a board of directors, accountable to the BEIS Secretary of State. In order to allow the board of directors and management team to carry out their duties, as well as funding the operation of the Company, BEIS has agreed to indemnify them against all claims, proceedings, costs - including the cost of defending proceedings - and expenses.

Section 4 – Specification and about this procurement

UK Shared Business Services Ltd (UK SBS), on behalf of South Tees Site Company Ltd, wishes to establish a Contract for Scaffold/Access Services.

UK SBS is managing this procurement process in accordance with the Public Contracts Regulations 2015 (as amended from time to time) (the “Regulations”).

This is a Services Contract being procured under the OJEU Open Procedure Regulations.

The length of the agreement will be for an initial 1 year period, with an option to extend for a further 1 year period.

Scope of Services

The Contracting Authority are looking to appoint a suitable contractor to provide scaffold and access services.

At present, large amount of scaffold materials are transported across site to structures/buildings etc. using a scaffold trailer towed by a Manitou M30 Forklift c/w hydraulic hitch in order to allow for essential maintenance and inspections. **As the scaffold/access team will be mobile, we expect any Contractor to provide a suitable van and trailer to transport materials to enable flexibility to cover the various areas of site.**

As part of this contract scaffold and other access equipment such as MEWPs may be required however each request should be assessed and the best option for access is to be agreed with the relevant manager/task owner.

The successful contractor will be required to erect, dismantle and modify scaffolds as per the agreed plan with the relevant manager/task owner, including tagging. **We expect to have at least 80 tonnes of scaffolding on site at any time.** Contractors are to note that in some cases where the scaffolds have been stood for a numbers of years they will be required to dismantle the scaffolds and be scrapped.

Demand may increase during the contract period however it is difficult to predict as this is dependent on other project timescales. It is expected that innovative methods of working or new technology will be considered to further reduce costs during the lifetime of the agreement.

It may be required in some instances for the on site team to be face fitted (RPE) as there may be a requirement to wear masks from time to time.

Key Customer Outcomes – work will be planned (except emergency work) with the STSC planner who will determine the work required for the following week where possible taking into account any safety priorities. The successful contractor will be required to attend this weekly meeting. Planned work will be completed as agreed to allow wider site plans to be completed within timescales, any changes to planned work will be via STSC planner.

Award Scoring criteria

Evaluation Justification Statement

In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this RFP. The Contracting Authority considers these weightings to be in line with existing best practice for a requirement of this type.

Questionnaire	Q No.	Question subject	Maximum Marks
Price	AW5.2	Price	20.00%
Quality	PROJ1.1	Health & Safety	20.00%
Quality	PROJ1.2	Staff training	15.00%
Quality	PROJ1.3	Staff cover	15.00%
Quality	PROJ1.4	Contract Management	10.00%
Quality	PROJ1.5	Mobilisation plan	10.00%
Quality	PROJ1.6	On site support	5.00%
Quality	PROJ1.7	Service reviews	5.00%

Award Evaluation of criteria

Non-Price elements

Each question will be evaluated on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered, or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the selection question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

Example

Evaluator 1 scored your bid as 60

Evaluator 2 scored your bid as 40

Evaluator 3 scored your bid as 80

Evaluator 4 scored your bid as 60

Your final score will $(60+40+80+60) \div 4 = 60$

Price elements will be evaluated on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100.

All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 (80/100 x 50 = 40)

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

5.5. Evaluation process

5.5.1. The evaluation process will feature some, if not all, the following phases

Stage	Summary of activity
Receipt and Opening	<ul style="list-style-type: none"> RFP logged upon opening in alignment with UK SBS's procurement procedures. Any RFP Bid received after the closing date will be rejected unless circumstances attributed to the Contracting Authority or the e-sourcing tool beyond the bidder control are responsible for late submission.
Compliance check	<ul style="list-style-type: none"> Check all Mandatory requirements are acceptable to the Contracting Authority. Unacceptable Bids maybe subject to clarification by the Contracting Authority or rejection of the Bid.
Scoring of the Bid	<ul style="list-style-type: none"> Evaluation team will independently score the Bid and provide a commentary of their scoring justification against the Selection criteria.
Clarifications	<ul style="list-style-type: none"> The Evaluation team may require written clarification to Bids
Re - scoring of the Bid and Clarifications	<ul style="list-style-type: none"> Following Clarification responses, the Evaluation team reserve the right to independently re-score the Bid and Clarifications and provide a commentary of their re-scoring justification against the Selection criteria.
Validation of unsuccessful Bidders	<ul style="list-style-type: none"> To confirm contents of the letters to provide details of scoring and relative feedback on the unsuccessful Bidders Bid in comparison with the successful Bidders Bid.
