c. Social Value

Pega Social Value Statement – September 2023

Social Impact

Within Pega’s UK Government team we have a particular focus on supporting military veterans, including:

- The Pega UK Government team has officially adopted REORG as its nominated charity partner. REORG is a charity for British military veterans that “creates safe environments through functional fitness and jiu-jitsu for veterans, military and emergency services personnel to support their physical and mental wellbeing.” REORG works with people who have a whole range of serious, life-altering physical injuries, as well as those suffering debilitating post-traumatic stress disorder (PTSD) and depression.

The Pega team recently held a REORG Public Sector Challenge which involved a team of 19 Pega colleagues undertaking challenges to raise funds and awareness for REORG. Three teams competed to clock up the most miles (and raise funds) by cycling, running, walking and swimming.

The Challenge began with a visit to REORG HQ and a presentation from REORG founder and exRoyal Marine Sam Sheriff and trustee Mark Ormrod OBE also a former Royal Marine and triple amputee. They shared wonderful, hope-filled stories of some of the people they have helped. So far, they have supported more than 200 veterans and blue light workers to get back on their feet.

- TechVets UK is a non-profit member of the Forces Employment Charity that empowers UK veterans to access job opportunities in the tech sector and enables businesses to capitalize on veterans' skills. We provide free training courses from the Pega Academy online learning platform. Members who have successfully completed the required courses earn free Pega certifications in their desired fields. We work with TechVets UK's partners and clients to promote and create pathways to employment opportunities.
- We're a signatory to the United Kingdom Armed Forces Covenant, a pledge to treat those who serve or have served in the UK Armed Forces, as well as their families, with fairness and respect. We honor the pledge by supporting the employability of military personnel, service leavers, veterans, and their family members through our partnership with TechVets, a member of the Forces Employment Charity.

We also continue to invest in educational and youth development initiatives around the globe, including:

- A new partnership with Chapter One (formerly known as Innovations for Learning/TutorMate) to support its online reading programme in the UK. A team of Pega volunteers from our Reading, UK office virtually meet weekly with students aged five to seven from a local school to provide vital reading support.
- Pega is a strategic partner and supporter of Girls in Tech, a global non-profit focused on eliminating the gender gap in technology. In 2022, we sponsored the annual Girls in Tech Conference and Pega's Chief People Officer, Kate Parente, participated in a panel discussion on Thriving in the New Hybrid Workplace.
- The Pega Scholars Programme provides scholarships to underserved students around the globe who are pursuing a degree in technology or computer science. Recipients receive funding for undergraduate studies, as well as connections to industry mentors and Pega leaders. Administered in partnership with Scholarship America, ten recipients are selected for each annual cycle. Students who received awards in 2022 hail from all undergraduate levels and are studying physics and computer engineering, information technology, and computer science. The program's 2022 cycle saw a 312% growth in the number of applicants compared to the prior year.

Economic Impact

Pega strives to be a responsible corporate citizen and active contributor in the global communities where our employees, clients, and partners live and work. Pega's deep commitment to our communities is brought to life through our global social impact programme, PegaCares. We support local and global non-profit organisations that align with our focus areas: women and girls in technology, youth education and development, and

environmental sustainability. To help meet some of the most urgent needs of our communities resulting from the Covid pandemic, we also focus on global relief and recovery efforts.

We are proud to partner with non-profit organisations and programmes around the world that promote opportunity, equitable participation, and better outcomes for all. Pega empowers employees to participate in social impact efforts – and the causes they’re passionate about – via giving and volunteering programmes. We provide and encourage all employees to take two days of paid volunteer time to work for their chosen causes, either individually or through Pega-sponsored events.

We launched a global giving and volunteering platform in 2022. The platform, Deed, powers our new global donation match programme in addition to our other employee giving and volunteering initiatives. Pega matches up to US\$500 (or its equivalent outside the US) per employee annually for contributions to more than 1.8 million eligible charities. Employees can use Deed to explore and sign up for volunteer events and request Pega donate to a charity they support through a team activity for which they’re raising funds. In 2022, nearly 2,500 employees visited the Deed platform, 839 participated in the donation match programme, and nearly 400 logged volunteer hours.

Environmental Impact

We’re committed to environmental sustainability and our global teams focus on making our operations more efficient and sustainable. Collecting and measuring data on our energy use is a priority, and we track our consumption and emissions at key sites. We’ve seen how transparency around our carbon footprint and goals can rally people who work at and with Pega.

Pega’s pathway to carbon neutrality is multifaceted. While we are at the beginning of this journey, we are focused on measuring, managing, and reporting our footprint, specifically focusing on:

- Expanding our tracking and management of energy consumption and emissions at all global offices and managed spaces.
- Lowering energy consumption and associated carbon emissions throughout our operations.
- Working with third parties to offset remaining carbon emissions, resulting in carbon neutrality in our eight largest Pega offices.
- Reporting environmental data to third parties, such as CDP and Ecovadis, a business sustainability rating company frequently consulted as a procurement tool by client organisations considering products and services.

Additionally, we support our clients through product innovation to help them better track and meet their emissions reduction goals, notably with our Pega Cloud® auto-hibernation capability.

In 2022, Pega joined the Science-Based Targets initiative (SBTi), a collaboration among CDP, the United Nations Global Compact, the World Resources Institute and the Worldwide Fund for Nature. SBTi asks organizations to set targets for reducing greenhouse gas emissions in accordance with decarbonisation goals of the Paris Agreement. Pega signed SBTi’s commitment letter in 2023. We have committed to set a science-based emissions reduction target aligned with SBTi’s target-setting criteria. Per SBTi’s requirements, we have two years after the signature date to set the target, submit it to SBTi for validation, and publish our approved target on the SBTi website.

Finally, Pega supports One Tree Planted, an environmental non-profit, in global reforestation initiatives. We continued our pledge to plant a tree for each employee and new hire in 2022, in addition to supporting planting projects throughout the year. We helped One Tree Planted plant 12,360 trees in the UK, Mexico, India, and Africa.

Note: Pega Social Values / Statement may change from time to time.
