B8.4 The Contractor shall ensure the security of all the Property whilst in its possession, either on the Premises or elsewhere during the supply of the Services, in accordance with the Authority's reasonable security requirements as required from time to time.

B10.3 Each time the Contractor supplies TUPE Information to the Authority it shall warrant its completeness and accuracy and the Authority may assign the benefit of this warranty to any Replacement Contractor.

B10.4 The Authority may use TUPE Information it receives from the Contractor for the purposes of TUPE and/or any retendering process in order to ensure an effective handover of all work in progress at the end of the Contract Period. The Contractor shall provide the Replacement Contractor with such assistance as it shall reasonably request.

B10.5 If TUPE applies to the transfer of the Services on termination of the Contract, the Contractor shall indemnify and keep indemnified the Authority, the Crown and any Replacement Contractor against all actions, suits, claims, demands, losses, charges, damages, costs and expenses and other liabilities which the Authority or the Crown or any Replacement Contractor may suffer or incur as a result of or in connection with:

(a) amend or vary (or purport to amend or vary) the terms and conditions of employment or engagement (including, for the avoidance of doubt, pay) of any Staff (other than where such amendment or variation has previously been agreed between the Contractor and the Staff in the normal course of business and where any such amendment or variation is not in any way related to the transfer of the Services);

(b) terminate or give notice to terminate the employment or engagement of any Staff (other than in circumstances in which the termination is for reasons of misconduct or lack of capability);

(c) transfer away, remove, reduce or vary the involvement of any other Staff from or in the provision of the Services (other than where such transfer or removal: (i) was planned as part of the individual's career development; (ii) takes place in the normal course of business; and (iii) will not have any adverse impact upon the delivery of the Services by the Contractor, (provided that any such transfer, removal, reduction or variation is not in any way related to the transfer of the Services); or

(d) recruit or bring in any new or additional individuals to provide the Services who were not already involved in providing the Services prior to the relevant period.

C2.2 The Authority shall, in addition to the Price and following Receipt of a Valid Invoice, pay the Contractor a sum equal to the VAT chargeable on the value of the Services supplied in accordance with the Contract.

C2.3 The Contractor shall add VAT to the Price at the prevailing rate as applicable and shall show the amount of VAT payable separately on all invoices as an extra charge. If the Contractor fails to show VAT on an invoice, the Authority will not, at any later date, be liable to pay the Contractor any additional VAT.

C2.8 Meal and rest breaks will include breaks both in or outside an individual's workplace along with any time taken in travelling to or from the break location and/or any facilities for cleaning/changing/washing in preparation for or return from a meal or rest break.

C2.9 Timesheets must include a minimum of 30 minutes break for each shift of 8 hours, a minimum of 45 minutes break in a shift of between 8 and 12 hours and a minimum of one hour break will be taken within a shift in excess of 12 hours and the Contractor's rates and Contract Price must include such breaks.

C2.10 The Authority shall not pay the Contractor's overhead costs unless specifically agreed in writing by the Authority and overhead costs shall include, without limitation; facilities, utilities, insurance, tax, head office overheads, indirect staff costs and other costs not specifically and directly ascribable solely to the provision of the Services.

C2.11 If Schedule 2 expressly provides that the Authority may be charged for plant which is on standby then in circumstances where plant was waiting to be transferred between Premises or where the Authority has instructed that the plant is retained on the Premises then a standby charge of 60% of agreed rates may be made in respect of such relevant periods if supported by timesheets.

C2.12 The Authority shall pay only for the time spent by Staff working on the Premises.

C2.13 The Authority shall not pay a stand-by rate if plant is on standby because no work was being carried out on the Premises at that time or no operator or other relevant staff were available (unless the standby is because the Contractor is awaiting licensing of the Premises on the Authority's instructions).

C2.14 The Authority shall not pay for plant or equipment which is stood down during any notice period pursuant to clauses H1, H2 and/or H3 and the Contractor shall mitigate such costs as far as is reasonably possible, for example, by reutilising Staff, plant, materials and services on other contracts.

C2.16 If the Authority pays the Contractor prior to the submission of a Valid Invoice this payment shall be on account of and deductible from the next payment to be made.

C2.17 If any overpayment has been made or the payment or any part is not supported by a Valid Invoice the Authority may recover this payment against future invoices raised or directly from the Contractor. All payments made by the Authority to the Contractor shall be on an interim basis pending final resolution of an account with the Contractor in accordance with the terms of this clause C2.

C2.18 The Authority shall pay all sums due to the Contractor within 30 days of Receipt of a Valid Invoice. Valid Invoices should be submitted for payment to the following address: accounts-payable.ap@gov.sscl.com (the Authority's preferred option); or SSCL AP, Defra, PO Box 790, Newport Gwent, NP10 8FZ.

C2.19 If a payment of an undisputed amount is not made by the Authority by the due date, then the Authority shall pay the Contractor interest at the interest rate specified in the Late Payment of Commercial Debts (Interest) Act 1998.

C2.21 The Contractor shall indemnify the Authority on a continuing basis against any liability, including any interest, penalties or costs incurred, which is levied, demanded or assessed on the Authority at any time in respect of the Contractor's failure to account for or to pay any VAT relating to payments made to the Contractor under the Contract. Any amounts due under this clause C2.21 shall be paid by the Contractor to the Authority not less than 5 Working Days before the date upon which the tax or other liability is payable by the Authority.

C2.23 The Authority shall not pay an invoice which is not Valid Invoice.

C3 Recovery of Sums Due

C3.1 If under the Contract any sum of money is recoverable from or payable by the Contractor to the Authority (including any sum which the Contractor is liable to pay to the Authority in respect of any breach of the Contract), the Authority may unilaterally deduct that sum from any sum then due, or which at any later time may become due to the Contractor from the Authority under the Contract or under any other agreement with the Authority or the Crown.

C3.2 Any overpayment by either Party, whether of the Price or of VAT or otherwise, shall be a sum of money recoverable by the Party who made the overpayment from the Party in receipt of the overpayment.

C3.3 The Contractor shall make all payments due to the Authority without any deduction whether by way of set-off, counterclaim, discount, abatement or otherwise unless the Contractor has a valid court order requiring an amount equal to such deduction to be paid by the Authority to the Contractor.

- (a) been subject to an investigation or prosecution which relates to an alleged Prohibited Act;
- (b) been listed by any government department or agency as being debarred, suspended, proposed for suspension or debarment, or otherwise ineligible for participation in government procurement programmes or contracts on the grounds of a Prohibited Act; and/or
- (c) received a request or demand for any undue financial or other advantage of any kind in connection with the performance of the Contract or otherwise suspects that any person directly or indirectly connected with the Contract has committed or attempted to commit a Prohibited Act.

D1.5 If the Contractor notifies the Authority pursuant to clause D1.4, the Contractor shall respond promptly to the Authority's enquiries, co-operate with any investigation, and allow the Authority to audit any books, records and/or any other relevant documentation.

D3.2 Subject to clause D3.1, a person who is not a Party has no right under the CRTPA to enforce any provisions of the Contract but this does not affect any right or remedy of any person which exists or is available otherwise than pursuant to the CRTPA and does not apply to the Crown.

D3.3 No Third Party Beneficiary may enforce or take steps to enforce any Third Party Provision without Approval.

D3.4 Any amendments to the Contract may be made by the Parties without the consent of any Third Party Beneficiary.

D4 Health and Safety

D4.1 The Contractor shall perform its obligations under the Contract in accordance with:

- (a) all applicable Law regarding health and safety; and
- (b) the Authority's health and safety policy while at the Authority's Premises.

D4.2 Each Party shall notify the other as soon as practicable of any health and safety incidents or material health and safety hazards at the Authority's Premises of which it becomes aware and which relate to or arise in connection with the performance of the Contract. The Contractor shall instruct Staff to adopt any necessary associated safety measures in order to manage any such material health and safety hazards.

D5 Environmental Requirements

D5.1 The Contractor shall in the performance of the Contract have due regard to the Authority's environmental, sustainable and ethical procurement policies ("Environmental Policies") which require the Authority through its procurement and management of suppliers:

- (a) conserve energy, water, wood, paper and other resources and reduce waste;
- (b) phase out the use of ozone depleting substances;
- (c) minimise the release of greenhouse gases, volatile organic compounds and other substances damaging to health and the environment;
- (d) minimise the use of products harmful to health and the environment such as hazardous substances and solvents, replacing them with more benign substances where feasible and, where such substances are necessary, to ensure that they are stored in properly labelled containers, used and disposed of in compliance with legal and regulatory requirements and any instructions from the Authority;
- (e) reduce fuel emissions wherever possible;
- (f) maximise the use of recovered materials and, if recycled materials are not suitable or not readily available, to maximise the use of materials taken from renewable sources; and
- (g) promote the design of products that are capable of reuse or remanufacture or easily separable into recyclable parts consisting of one material (e.g. steel, plastic, textile).

D5.2 The Contractor shall ensure that any equipment and materials used in the provision of the Services do not contain:

(a) ozone depleting substances such as hydrochlorofluorocarbons (HCFCs), halons, carbon tetrachloride, 111 trichloroethane, bromochloromethane or any other damaging substances; and/or

(b) HFCs and other gaseous and non-gaseous substances with a high global warming potential;

unless given written permission by the Authority to do so.

D5.3 The Contractor shall conserve energy and water; reduce carbon emissions and other greenhouse gases; minimise the use of substances damaging or hazardous to health and the environment and reduce waste by, for example, using resources more efficiently and reusing, recycling and composting and respecting biodiversity.

D5.4 If required by the Authority the Contractor shall provide the Authority with information about its compliance with its obligations under clause D5.3.

D5.5 The Contractor shall ensure that its Staff are aware of the Authority's Environmental Policies.

D5.6 The Contractor shall:

(a) identify any risks arising from climate change and variable weather such as higher temperatures, droughts, flooding, sea and river level rises, coastal and riparian erosion, water scarcity, and loss of water quality which may disrupt and/or affect the supply of the Services; and

(b) if such risks have been identified, enhance the resilience of its organisation to enable it to adapt and deal with the effects of such extreme events, including by having the necessary awareness-raising, evaluation, preventive, preparatory, recovery measures and support systems in place in order to minimise any disruption to the supply of the Services.

D6 Timber and Wood Derived Products

D6.1 For the purposes of clauses D6.1 to D6.8 the following terms shall have the following meanings:

(a) "Timber" means any product that contains wood or wood fibre, with the exception of "recycled" materials (see below). Such products range from solid wood to those where the manufacturing processes obscure the wood element, for example, paper. Timber and wood-derived products supplied or used in performance of the Services that have been recycled or reclaimed are referred to as "recycled" timber, which is defined below. Timber and wood-derived products supplied or used in performance of the Services that are not recycled are referred to as "virgin" timber when the distinction needs to be made for clarity. Short-rotation coppice is exempt from the requirements for timber and wood-derived products and falls under agricultural regulation and supervision rather than forestry;

(b) "Legal and Sustainable" means production and process methods, also referred to as timber production standards, and in the context of social criteria, contract performance conditions (only), as defined by the document titled "UK Government timber procurement

policy: Definition of Legal and Sustainable for timber procurement" (available at www.gov.uk/government/publications/timber-definition-of-legal-and-sustainable or CPET). The edition current on the day the Contract is awarded shall apply;

(c) "FLEGT" means Forest Law Enforcement, Governance and Trade, and is a reference to the EU scheme to address the problem of illegally logged timber;

(d) "FLEGT-licensed" means production and process methods, also referred to as timber production standards, and in the context of social criteria, contract performance conditions only, as defined by a bilateral Voluntary Partnership Agreement ("VPA") between the European Union and a timber-producing country under the FLEGT scheme, where both Parties have agreed to establish a system under which timber that has been produced in accordance with the relevant laws of the producing country, and other criteria stipulated by the VPA, are licensed for export by the producing country government;

(e) "Recycled" means recovered wood that prior to being supplied to the Authority had an end use as a standalone object or as part of a structure. The term "recycled" is used to cover the following categories: pre-consumer recycled wood and wood fibre or industrial by products but excluding sawmill co-products (sawmill co-products are deemed to fall within the category of virgin timber), post-consumer recycled wood and wood fibre, and drift wood. It also covers reclaimed timber which was abandoned or confiscated at least ten years previously. Documentary evidence and independent verification also apply to recycled materials, but will focus on the use to which the timber was previously put rather than the forest source;

(f) "Short-rotation coppice" means a specific management regime whereby the poles of trees are cut every one to two years and which is aimed at producing biomass for energy. It is exempt from the UK government timber procurement policy requirements and falls under agricultural regulation and supervision rather than forestry. The exemption only refers to short-rotation coppice, and not 'conventional' coppice which is forest management and therefore subject to the timber policy; and

(g) "CPET" means the UK Government's Central Point of Expertise on Timber.

D6.2 All Timber supplied or used by the Contractor in providing the Services (including all Timber supplied or used by Sub-Contractors) shall comply with Schedule 1 and shall originate from a forest source where management of the forest has full regard for:

(a) identification, documentation and respect of legal, customary and traditional tenure and use rights related to the forest;

(b) mechanisms for resolving grievances and disputes including those relating to tenure and use rights, to forest management practices and to work conditions; and

(c) safeguarding the basic labour rights and health and safety of forest workers

(the "Social Criteria").

D6.3 If requested by the Authority and not already provided in its Tender, the Contractor shall give the Authority evidence that the Timber supplied or used in providing the Services complies with the requirements of Schedule 1 and with the requirements of the Social Criteria.

D6.4 The Authority may at any time during the Contract Period and for 6 years after final delivery under the Contract require the Contractor to produce the evidence required for the Authority's inspection within 14 days of the Authority's written request.

D6.5 The Contractor shall maintain records of all Timber delivered to and accepted by the Authority for 6 years from final delivery under the Contract.

D6.6 The Authority shall decide whether the evidence submitted to it demonstrates legality and sustainability, or FLEGT-licence or equivalent, and is adequate to satisfy the Authority that the Timber complies with Schedule 1 and complies with the requirements of the Social Criteria. If the Authority is not satisfied, the Contractor shall commission and meet the costs of an "independent verification" and resulting report that will: (a) verify the forest source of the timber or wood; and (b) assess whether the source meets the relevant criteria.

D6.7 In the Contract "Independent Verification" means that an evaluation is undertaken and reported by an individual or body whose organisation, systems and procedures conform to ISO Guide 65:1996 (EN 45011:1998) General requirements for bodies operating product certification systems (as amended from time to time) or equivalent, and who is accredited to audit against forest management standards by a body whose organisation, systems and procedures conform to ISO 17011: 2004 General Requirements for Providing Assessment and Accreditation of Conformity Assessment Bodies (as amended from time to time) or equivalent.

D6.8 The Authority may reject Timber that does not comply with Schedule 1 or with the Social Criteria. If the Authority rejects any Timber the Contractor shall supply alternative Timber which does comply at no additional cost to the Authority and without causing delay to delivery of the Services.

 - (ii) harm that might result from a Data Loss Event;
 - (iii) state of technological development; and

F. CONTROL OF THE CONTRACT

F1 Failure to meet Requirements

F1.1 If the Authority informs the Contractor in writing that the Authority reasonably believes that any part of the Services do not meet the requirements of the Contract or differs in any way from those requirements, and this is not as a result of a default by the Authority, the Contractor shall at its own expense re-schedule and carry out the Services in accordance with

the requirements of the Contract within such reasonable time as may be specified by the Authority.

F2 Monitoring of Contract Performance

F2.1 The Contractor shall immediately inform the Authority if any of the Services are not being or are unable to be performed, the reasons for non-performance, any corrective action and the date by which that action will be completed.

F2.2 At or around 6 Months from the Commencement Date and each anniversary of the Commencement Date thereafter (each being a "Review Date"), the Authority shall carry out a review of the performance of the Contractor ("Checkpoint Review"). Without prejudice to the generality of the foregoing, the Authority may in respect of the period under review consider such items as (but not limited to): the Contractor's delivery of the Services; the Contractor's contribution to innovation in the Authority; whether the Services provide the Authority with best value for money; consideration of any changes which may need to be made to the Services; a review of future requirements in relation to the Services and progress against key milestones.

F2.3 The Contractor shall provide at its own cost any assistance reasonably required by the Authority to perform such Checkpoint Review including the provision of data and information.

F2.4 The Authority may produce a report (a "Checkpoint Review Report") of the results of each Checkpoint Review stating any areas of exceptional performance and areas for improvement in the provision of the Services and where there is any shortfall in any aspect of performance reviewed as against the Authority's expectations and the Contractor's obligations under this Contract.

F2.5 The Authority shall give the Contractor a copy of the Checkpoint Review Report (if applicable). The Authority shall consider any Contractor comments and may produce a revised Checkpoint Review Report.

F2.6 The Contractor shall, within 10 Working Days of receipt of the Checkpoint Review Report (revised as appropriate) provide the Authority with a plan to address resolution of any shortcomings and implementation of improvements identified by the Checkpoint Review Report.

F2.7 Actions required to resolve shortcomings and implement improvements (either as a consequence of the Contractor's failure to meet its obligations under this Contract identified by the Checkpoint Review Report, or those which result from the Contractor's failure to meet the Authority's expectations notified to the Contractor or of which the Contractor ought reasonably to have been aware) shall be implemented at no extra charge to the Authority.

F3 Remedies for inadequate performance

F3.1 If the Authority reasonably believes the Contractor has committed a Material Breach it may, without prejudice to its rights under clause H2 (Termination on Default), do any of the following:

- (a) without terminating the Contract, itself supply or procure the supply of all or part of the Services until such time as the Contractor has demonstrated to the Authority's reasonable satisfaction that the Contractor will be able to supply the Services in accordance with the Specification;
- (b) without terminating the whole of the Contract, terminate the Contract in respect of part of the Services only (whereupon a corresponding reduction in the Price shall be made) and thereafter itself supply or procure a third party to supply such part of the Services;
- (c) withhold or reduce payments to the Contractor in such amount as the Authority reasonably deems appropriate in each particular case; and/or
- (d) terminate the Contract in accordance with clause H2.

F3.2 Without prejudice to its right under clause C3 (Recovery of Sums Due), the Authority may charge the Contractor for any costs reasonably incurred and any reasonable administration costs in respect of the supply of any part of the Services by the Authority or a third party to the extent that such costs exceed the payment which would otherwise have been payable to the Contractor for such part of the Services.

F3.3 If the Authority reasonably believes the Contractor has failed to supply all or any part of the Services in accordance with the Contract, professional or industry practice which could reasonably be expected of a competent and suitably qualified person, or any legislative or regulatory requirement, the Authority may give the Contractor notice specifying the way in which its performance falls short of the requirements of the Contract or is otherwise unsatisfactory.

F3.4 If the Contractor has been notified of a failure in accordance with clause F3.3 the Authority may:

- (a) direct the Contractor to identify and remedy the failure within such time as may be specified by the Authority and to apply all such additional resources as are necessary to remedy that failure at no additional charge to the Authority within the specified timescale; and/or
- (b) withhold or reduce payments to the Contractor in such amount as the Authority deems appropriate in each particular case until such failure has been remedied to the satisfaction of the Authority.

F3.5 If the Contractor has been notified of a failure in accordance with clause F3.3, it shall:

- (a) use all reasonable endeavours to immediately minimise the impact of such failure to the Authority and to prevent such failure from recurring; and
- (b) immediately give the Authority such information as the Authority may request regarding what measures are being taken to comply with the obligations in this clause F3.5 and the progress of those measures until resolved to the satisfaction of the Authority.

F3.6 If, having been notified of any failure, the Contractor fails to remedy it in accordance with clause F3.5 within the time specified by the Authority, the Authority may treat the

continuing failure as a Material Breach and may terminate the Contract immediately on notice to the Contractor.

F4 Transfer and Sub-Contracting

F4.1 Except where clauses F4.6 and F4.7 both apply, the Contractor shall not transfer, charge, assign, sub-contract or in any other way dispose of the Contract or any part of it without Approval. All such documents shall be evidenced in writing and shown to the Authority on request. Sub-contracting any part of the Contract shall not relieve the Contractor of any of its obligations or duties under the Contract.

F4.2 The Contractor shall be responsible for the acts and/or omissions of its Sub-Contractors as though they are its own. If it is appropriate, the Contractor shall provide each Sub-Contractor with a copy of the Contract and obtain written confirmation from them that they will provide the Services fully in accordance with the Contract.

F4.3 The Contractor shall ensure that its Sub-Contractors and suppliers retain all records relating to the Services for at least 6 years from the date of their creation and make them available to the Authority on request in accordance with the provisions of clause E9 (Audit). If any Sub-Contractor or supplier does not allow the Authority access to the records then the Authority shall have no obligation to pay any claim or invoice made by the Contractor on the basis of such documents or work carried out by the Sub-Contractor or supplier.

F4.4 If the Authority has consented to the award of a Sub-Contract, the Contractor shall ensure that:

- (a) the Sub-Contract contains a right for the Contractor to terminate the Sub-Contract if the relevant Sub-Contractor does not comply in the performance of its contract with legal obligations in environmental, social or labour law;
- (b) the Sub-Contract includes a provision having the same effect as set out in clause F4.4 (a) in any Sub-Contract which it awards; and
- (c) copies of each Sub-Contract shall, at the request of the Authority, be sent by the Contractor to the Authority immediately.

F4.5 If the Authority believes there are:

- (a) compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Contractor shall replace or not appoint the Sub-Contractor; or
- (b) non-compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Authority may require the Contractor to replace or not appoint the Sub-Contractor and the Contractor shall comply with such requirement.

F4.6 Notwithstanding clause F4.1, the Contractor may assign to a third party (the "Assignee") the right to receive payment of the Price or any part thereof due to the Contractor (including any interest which the Authority incurs under clause C2 (Payment and VAT)). Any assignment under this clause F4.6 shall be subject to:

- (a) reduction of any sums in respect of which the Authority exercises its right of recovery under clause C3 (Recovery of Sums Due);
- (b) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and
- (c) the Authority receiving notification under both clauses F4.7 and F4.8.

F4.7 If the Contractor assigns the right to receive the Price under clause F4.6, the Contractor or the Assignee shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.

F4.8 The Contractor shall ensure that the Assignee notifies the Authority of the Assignee's contact information and bank account details to which the Authority shall make payment.

F4.9 The provisions of clause C2 shall continue to apply in all other respects after the assignment and shall not be amended without Approval.

F4.10 Subject to clause F4.11, the Authority may assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof to:

- (a) any Contracting Authority;
- (b) any other body established or authorised by the Crown or under statute in order substantially to perform any of the functions that had previously been performed by the Authority; or
- (c) any private sector body which substantially performs the functions of the Authority

provided that any such assignment, novation or other disposal shall not increase the burden of the Contractor's obligations under the Contract.

F4.11 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not, subject to clause F4.12, affect the validity of the Contract and the Contract shall bind and inure to the benefit of any successor body to the Authority.

F4.12 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F4.10 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting Authority (in the remainder of this clause both such bodies being referred to as the "Transferee"):

- (a) the rights of termination of the Authority in clauses H1 and H2 shall be available to the Contractor in respect of the Transferee; and
- (b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Contractor.

F4.13 The Authority may disclose to any Transferee any Confidential Information of the Contractor which relates to the performance of the Contractor's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Contractor's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.

F4.14 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the provisions of the Contract.

F5 Waiver

F5.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.

F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause A4 (Notices and Communications).

F5.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

F6 Variation

F6.1 If, after the Commencement Date, the Authority's requirements change, the Authority may request a Variation subject to the terms of this clause 6.

F6.2 The Authority may request a Variation by notifying the Contractor in writing of the Variation and giving the Contractor sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement the Variation within a reasonable time limit specified by the Authority. If the Contractor accepts the Variation it shall confirm it in writing.

F6.3 If the Contractor is unable to accept the Variation or where the Parties are unable to agree a change to the Price, the Authority may:

- (a) allow the Contractor to fulfil its obligations under the Contract without the Variation to the Specification; or
- (b) terminate the Contract immediately except where the Contractor has already delivered all or part of the Services or where the Contractor can show evidence of substantial work being carried out to fulfil the requirements of the Specification; and in such case the Parties shall attempt to agree upon a resolution to the matter. If a resolution cannot be reached, the

matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).

F6.4 No Variation will take effect unless and until it is recorded in a validly executed CCN. Execution of a CCN is made via electronic signature as described in clause 1.2 of Section 1 of the Contract.

F6.5 A CCN takes effect on the date on which both Parties communicate acceptance of the CCN via Bravo. On the date it communicates acceptance of the CCN in this way the Contractor is deemed to warrant and represent that the CCN has been executed by a duly authorised representative of the Contractor in addition to the warranties and representations set out in clause G2.

F6.6 The provisions of clauses F6.4 and F6.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Variation in order to address the emergency. In an emergency, Variations may be approved by a different representative of the Authority. I2.3 If the dispute cannot be resolved by the Parties pursuant to clause I2.1 either Party may refer it to mediation pursuant to the procedure set out in clause I2.5.

(c) unless otherwise agreed, all negotiations connected with the dispute and any settlement agreement relating to it shall be conducted in confidence and without prejudice to the rights of the Parties in any future proceedings;

(d) if the Parties reach agreement on the resolution of the dispute, the agreement shall be recorded in writing and shall be binding on the Parties once it is signed by their duly authorised representatives;

(e) failing agreement, either of the Parties may invite the Mediator to provide a non-binding but informative written opinion. Such an opinion shall be provided on a without prejudice basis and shall not be used in evidence in any proceedings relating to the Contract without the prior written consent of both Parties; and

(f) if the Parties fail to reach agreement within 60 Working Days of the Mediator being appointed, or such longer period as may be agreed by the Parties, then any dispute or

difference between them may be referred to the Courts unless the dispute is referred to arbitration pursuant to the procedures set out in clause I2.6.

The Authority's priorities are to secure a healthy natural environment; a sustainable, low-carbon economy; a thriving farming sector and a sustainable, healthy and secure food supply. Further information on the Authority can be found at:

[Department for Environment, Food & Rural Affairs - GOV.UK \(www.gov.uk\)](http://www.gov.uk)

- 1.2. The Animal and Plant Health Agency (APHA) is responsible for safe-guarding animal and plant health for the benefit of people, the environment and the economy. As part of its regulatory and other official duties, APHA engages with farmers, industry groups and the public, often acting as an interface between industry and government. APHA has responsibility for applying and providing expert advice to decision makers and rapidly responding to emergencies in case of outbreak of diseases.

Further information on APHA can be found at:

- 12.2. The Contractor must provide a Priority Response following initial contact from APHA.
- 12.3. If further Corrective Maintenance is required the Contractor must advise APHA, in writing, of the expected cost of repair beyond the contracted cost:
 - 12.3.1. For APHA Weybridge, this must include the number of hours a repair would expect to take beyond the initial two hour charge and the cost of Repair Parts and an estimated lead time if not Standard Repair Parts.

Repair work may be curtailed temporarily whilst additional Repair Parts or information is obtained. Under these circumstances, Corrective Maintenance must recommence on the next practicable Working Day.
- 12.9. The Contractor must use reasonable but commercially prudent endeavours to provide a resolution to the satisfaction of APHA within three (3) Working Days, or failing that with a

deadline for a resolution to the satisfaction of APHA. The Contractor must provide users with a weekly communication update on resolution timescales until the repair is completed.

13. Access to APHA Locations for Preventative and Corrective Maintenance

- 13.1. The FM Provider controls access to APHA locations and they will retain a copy of the Contractor's most recent RAMS. An updated version will be required on an annual basis.
- 13.2. The FM Provider will administer the 'Permit to Work' process in the Permit Office / FM Provider office on site. They will provide the Contractor's engineer with copies of Building Entry permits that must be signed on arrival and departure of the required building by APHA.
- 13.3. The Contractor's engineers will be escorted to and from the Permit Office by APHA at the start and end of each day or between different locations on site.
- 13.4. When arriving on site for the first time, the Contractor's engineers will be required to attend a site safety induction (before commencing their work) and they must allow time within their schedule for this to take place. Inductions usually take no more than forty-five (45) minutes and are valid for a minimum of twelve (12) months.
- 13.5. The Contractor, whilst on site, must adhere to APHA's health and safety policy and procedures.
- 13.6. Some APHA facilities are licensed under the Specified Animal Pathogens Order and engineers may be required to sign a declaration stating they will not have contact with susceptible species for a defined period.
- 13.7. Some Equipment is located within high containment facilities. Due to the nature of their design (barrier change and/or showers) they are not suitable for disabled access. Also, some facilities require specific entry and exit procedures which include a complete change of clothing which will be provided for the containment facility. Showering on exit may also be a requirement. Training and supervision will be provided by APHA. Also, the external surfaces of the Contractor's equipment and trollies will be disinfected (usually with 70% ethanol), by APHA staff, prior to removal from the high containment facility.
- 13.8. All Contractor's employees attending the Weybridge site at least once a fortnight, will need to have Counter Terrorist Check (CTC) National Security Vetting clearance as a minimum. Clearance requirements will be arranged on contract award.

13.9. Personnel Security

- 13.10. It is the policy of Defra Group to ensure that:
 - 13.10.1. Personnel controls are applied to all Defra Group employees, Contractors and visitors;
 - 13.10.2. The identities of all employees, Contractors and temporary staff working for the Department are assured, in terms of their trustworthiness, integrity and reliability;
 - 13.10.3. The level of clearance required for each employee and/or Contractor with access to Defra Group business assets is determined on a case by case basis according to the role being fulfilled. As a minimum, all Contractor personnel must be subject to the Baseline Personnel Security Standard (BPSS) before the commencement of employment. Full implementation of BPSS, including a 100% application of 'unspent' criminal record check, is explicitly mandated as part of the security policy framework;
 - 13.10.4. The Contractor must be responsible for complying with Defra Group's Security Policy, and all associated security policies and procedures.

- 13.10.5. No access will be granted to any of Defra Group networks without formal authority.

14. Health and Safety

- 14.1. The Contractor must comply with all current legislation relating to health and safety of its employees, customers and members of the public, including but not limited to The Health and Safety at Work Act 1974 and the Management of Health and Safety at Work Regulations 1999 and subsequent amendments.
- 14.2. It is the Contractor's own responsibility to assess and control hazards related to their contracted Services. The Contractor must comply with generic safety standards of any APHA site, in addition to their own, and the Contractor must ensure that their engineers and other staff are fully aware of these prior to visits taking place. In the event of any accidents or incident occurring in the course of contracted services, the Contractor must inform APHA immediately and comply with APHA reporting and investigation standards.
- 14.3. It is the Contractor's responsibility to ensure that engineers are enrolled onto any health surveillance protocols that may be required. This may include, courses of vaccinations and blood tests or confirmation of their health status including any medications, to enter the laboratories or facilities. Details on specific health surveillance requirements for each area will be provided by APHA. NB: health surveillance procedures must be undertaken prior to the commencement of work and may take up to 8-10 weeks to obtain such as Tuberculosis health surveillance.
- 14.4. APHA will arrange, on request, any required health surveillance for those attending APHA Weybridge site, however those Contractors attending other APHA sites may be requested to visit local GPs or clinics. APHA will provide reimbursement for any relevant charges incurred.
- 14.5. It is the Contractor's responsibility to ensure that they have been provided with a certificate of decontamination from APHA prior to starting the Services on any Equipment.

15. Administration of the Service

- 15.1. The Contractor must monitor the Preventative Maintenance visits. The Contractor must liaise directly with APHA scientists to organise mutually convenient times to visit and keep APHA SHaW informed at all times. It is the responsibility of the Contractor to schedule the visits in the most cost effective manner.
- 15.2. The Contractor must only initiate individual Preventative Maintenance or Corrective Maintenance requirements on written receipt of an official Purchase Order (PO) from APHA.
- 15.3. APHA contacts, at Regional Laboratories, will be reminded by the Contractor, in writing, to raise a PO for their requirements one month in advance of the due date for their Preventative Maintenance visit.
- 15.4. At APHA Weybridge, one APHA scientist may be responsible for one or multiple items of Equipment within each laboratory. Therefore, the Contractor may require multiple POs to cover the cost of Corrective Maintenance visits for multiple items of Equipment. However payment for Preventative Maintenance, across the Weybridge site, will be processed centrally via a single PO on a monthly basis. The Contractor must be required to provide a copy of the invoice and a

full breakdown of all Preventative Maintenance carried out during the previous month to the central contact to enable charges to be verified and a line to be added to the PO.

- 15.5. The Contractor must ensure that stickers are completed and placed on all Equipment. Service labels, in line with BS EN12469:2000, must include:
 - 15.5.1 The name of the Contractor's engineer;
 - 15.5.2 Serial number;
 - 15.5.3 Certificate number;
 - 15.5.4 Date of service in DD/MM/YYYY format;
 - 15.5.5 Date when next service is due.
- 15.6. The Contractor must keep APHA's FM Provider informed of Preventative Maintenance and Corrective Maintenance visits to APHA locations.
- 15.7. The Authority may implement the use of an e-Marketplace system to host and manage catalogue content during the Contract term and as such the Contractor is required to register and maintain a catalogue on this portal (see details below).
- 15.8. The e-Marketplace system will enable the creation and transmission of purchase orders and invoices electronically. The Contractor must register on the Authority's e-Marketplace system, when invited, to transact with the Authority. The Contractor registration and catalogue management will be delivered and maintained without any additional charges to the Authority.
- 15.9. The Contractor may integrate their own finance systems with the Authority's e-Marketplace system for the purposes of receiving purchase orders and submitting invoices. Where the Contractor integrates with the Authority's e-Marketplace system, all costs relating to this integration and the maintenance of this integration during the term of the Contract will not be chargeable to the Authority.
- 15.10. The Contractor will receive all purchase orders from the Authority via e-Marketplace system unless alternative ordering mechanisms are specifically agreed.
- 15.11. The Contractor must submit all invoices relating to purchase orders via the e-Marketplace system. Where no back-office integration is present, the Contractor must use the e-Marketplace Supplier Portal to submit invoices. All invoices submitted via the e-Marketplace system will be considered valid, except where:
 - 15.11.1 additional lines have been added to the invoice which are not on the purchase order;
 - 15.11.2 invoice line descriptions have been significantly altered so as that they do not reflect the original purchase order line;
 - 15.11.3 prices and/or quantities have been increased without prior agreement from the Authority.

16. Social Value – Wellbeing

- 16.1. In June 2018, the UK Government announced it would explicitly evaluate Social Value when awarding most major contracts. Following a public consultation, the Government has defined Social Value through a series of priority themes and policy outcomes which are

important to deliver through Government's commercial activities. Please visit <https://www.gov.uk/government/publications/social-value-act-information-and-resources/social-value-act-information-and-resources> for further information.

16.2. The Contractor shall seek to implement the Social Value commitments made in their Tender and report on their progress against these commitments to the Authority on an annual basis as part of the Annual Review Meetings.

16.3. The priority themes and policy outcomes assessed as part of the Tender for this Contract are as follows:

Improve Health and Wellbeing

16.4. The Contractor must demonstrate an understanding of the issues related to health and wellbeing in relation to delivery of the Services.

16.5. The Contractor must be expected to take actions and implement measures through the contract that will improve the health and wellbeing of employees, including both physical and mental health.

16.6. This may include implementing the 6 standards in the Mental Health at Work commitment and, where appropriate, the mental health enhanced standards for companies with more than 500 employees in Thriving at Work with respect to the contract workforce, not just 'following the recommendations'.

16.7. This may include plans to engage the contract workforce in deciding the most important issues to address.

16.8. This may include measures to raise awareness or increase the influence of staff, suppliers, customers, communities and/or any other appropriate stakeholders to promote health and wellbeing, including physical and mental health, for example through engagement, co-design/creation, training and education, partnering/collaborating and volunteering.

17. Performance Management Framework (including Key Performance Indicators (KPIs) and Service Credits)

17.1. As part of the Authority's continuous drive to improve the performance of all Contracts, this Performance Management Framework (PMF) will be used to monitor, measure and control all aspects of the Contractor's performance of contract responsibilities.

17.2. The purpose of the PMF is to set out the obligations on the Contractor, to outline how the Contractor's performance will be evaluated and to detail the sanctions for performance failure. The Contractor is responsible for the performance of any sub-Contractors.

17.3. Key Performance Indicators (KPIs) are essential in order to align Contractor performance with the requirements of the Authority and to do so in a fair and practical way. KPIs have to be realistic, measurable and achievable; they also have to be met otherwise indicating that the service is failing to deliver. Without the use of service credits in such a situation, this service failure places strain on the relationship as delivery falls short of agreed levels.

- 17.4. The proactive approach to correcting failures and addressing their cause improves the relationship and enables a partnership rather than a confrontational style of working. Its focus is on managing and improving service.
- 17.5. The Authority must review performance against KPI's and, if appropriate, instigate meetings and work closely with the Contractor to agree action plans. The Authority expects the Contractor to agree and implement these plans. If this does not happen, only then shall service credit principles be applied.
- 17.6. The KPIs for this Contract are set out at Annex B

Service Credit Principles

- 17.7. The use of service credits is governed by the following principles:
- 17.8. Service credits sit within the wide service management approach being pursued by the Contractor and the Authority. Use of service credits does not preclude any other remedy for failure of performance available to the Authority under the terms and conditions of the contract.
- 17.9. The service credit regime shall be instigated on each occasion where there is a service failure. Failure to meet a KPI may also give rise to a remediation plan.
- 17.9.1 KPIs with a service credit rating of 1 will have a service credit of 3% of the invoice amount for the monitoring period, applied for each KPI failure
- 17.9.2 KPIs with a service credit rating of 2 will have a service credit of 5% of the invoice amount for the monitoring period, applied for each KPI failure
- 17.9.3 The maximum annual service credit to be applied will be no more than 10% of the total annual contract value per Contractor.
- 17.10. The Authority has full and complete discretion on whether to claim all, part or none of a service credit to which it is due.
- 17.11. Service credits claimed shall be paid to APHA as a credit note within one (1) month following the date at which the service credits were applied.
- 17.12. The full, agreed service credit regime will operate from the Contract start date until the end of the contract period. The KPIs may be adjusted to ensure that they are appropriate and achievable.

18. Contract Management and Information

- 18.1. This Contract will be managed at a local level by the APHA Contract Management team and a technical contract lead within the APHA Safety, Health and Welfare team.
- 18.2. An initial meeting will be held before commencement of the Contract and then Contract review meetings will be held every six (6) months and at the request of either party.
- 18.3. At these meetings the Authority, APHA and the Contractor will review contractual delivery including KPIs, service provision, continual improvement and risk management.
- 18.4. The Contractor must collate and maintain a database of Equipment throughout the life of the Contract. This will contain all relevant information including, but not limited to, Equipment type / make / model / size, APHA Reference number, service / maintenance and parts replaced / KI

testing history, Equipment location, previous commissioning data and so on. This will be available to APHA, free of charge, as an Excel spreadsheet on request.

18.5. The Contractor must provide management information a minimum of five (5) Working days before each Contract review meeting (except the meeting held before commencement of the Contract). This information will include but not be limited to:
