

Questions received on 18th January 2024 with relevant answers:

1. What type of 5 bar Steel Gate are we to price, is it a standard farm/field gate? an image showing what is required would be much appreciated.

A: Gate should be of a similar style to this one shown below:

2. Can you confirm whether we need to allow for the surfacing within the whole area highlighted blue and labelled A & B below or is it just area A?

A: Tarmacking of the entire area shaded and edged in blue is required (A and B on your plan above) is required.

3. Are we expected to dispose all of the excavated material below topsoil or can we stockpile this somewhere locally?

A: The contractor will be required to dispose of any excavated and/or unused material.
